Our company

We are a leading designer and manufacturer of a wide range of automatic, stationary standby and portable generators. As the only significant market participant focused exclusively on these products, we have a leading market share of the standby generator market in the United States and Canada, having grown our company organically by a 16% compound annual growth rate, or CAGR, since 2000. We design, engineer and manufacture generators with an output of between 800W and 9mW of power. We design, manufacture, source and modify engines, alternators, automatic transfer switches and other components necessary for our products. Our generators are fueled by natural gas, liquid propane, gasoline, diesel and Bi-Fuel™ (combined diesel and natural gas). Our products serve the power requirements of a wide variety of end markets, including the residential, commercial, industrial and telecommunications markets. For the twelve months ended June 30, 2009, we generated net sales of \$627.7 million, a net loss of \$517.1 million (includes a non-cash goodwill and trade name impairment charge of \$583.5 million) and Adjusted EBITDA (as defined on page 14) of \$144.3 million. For an explanation of Adjusted EBITDA and a reconciliation of Adjusted EBITDA to net income, see pages 15 and 16.

While standby power systems have long been present in hospitals, data centers and industrial facilities, the use of standby power for residential and small business applications is a relatively recent development. Our leadership position and first mover advantage has enabled us to successfully penetrate these new markets. We believe that our leading market position is largely attributable to our strategy of providing high-quality, innovative and affordable products through our extensive and multi-layered distribution network. We currently have over 100 engineers focused on product development and enhancements and own approximately 50 U.S. and international patents and patent applications, and various trademark registrations and applications in the United States and other jurisdictions. Our products are available in over 17,000 outlets across the United States and Canada, and are distributed through independent and industrial dealers, electrical wholesalers, national accounts, private label arrangements, retailers, catalogs and e-commerce merchants.

Because of our sourcing model and efficient manufacturing operations, we believe that we have among the lowest production costs in the industry, which allows us to price our products competitively while still generating attractive gross margins. Our business generates strong cash flow, enhanced by favorable tax attributes, and capital expenditures that have averaged less than \$9 million per year for the last three years.

Our market opportunity

For the reasons we describe below, we believe that our market will provide continued organic growth opportunities that we can exploit given our focus on product awareness, affordability and customer reach.

Aging U.S. power grid leading to recurring power outages

Disruptions to the aging U.S. power grid are increasing due to demand growth, equipment failures, prevalent under-investment and a variety of environmental causes. Given the large estimated cost to upgrade the U.S. power grid, we believe it is unlikely that the core causes of power disturbances will be addressed in the near future. Continued outages increase consumers' awareness of the advantages of generators as reliable sources of back-up electrical power. Although these disruptions do not always lead to immediate increases in short-term sales, we believe they support long-term demand by increasing customer interest in and awareness of our products.

Generators are an alternative reliable power solution

The emergency standby generator market provides back-up power to a utility power source to ensure an uninterrupted power supply. A stationary standby generator is permanently installed outside a home, business or manufacturing facility. When primary utility power fails, the generator automatically starts and provides electrical power until utility power returns. Portable generators are used in locations that have no utility power source, such as construction sites, or in locations and situations where a permanent back-up power source is impractical. We estimate that the generator market in the United States and Canada was \$3.6 billion in 2008, and the overall global generator market was estimated by Frost and Sullivan to be over \$11 billion in 2008.

The cost of outages and the relative affordability of generators have improved their potential return on investment

Compared to the potential cost of power outages, the purchase and installation of back-up power generators is relatively inexpensive, often yielding a short-term positive return on investment for commercial and industrial consumers. According to a 2006 report published by SENTECH for the U.S. Department of Energy's Energy Efficiency and Renewable Energy Department, or the SENTECH report, the average consumer on the U.S. power grid experiences 1.2 sustained power outages per year. Furthermore, out of an estimated annual \$79 billion cost to all U.S. electricity consumers in 2006, the estimated cost of power outages was \$57 billion for commercial U.S. electricity consumers and \$20 billion for industrial U.S. electricity consumers. The increased availability of natural gas generators that are a lower cost solution than traditional diesel generators has improved the return on investment in back-up power for industrial and commercial customers. Homeowners also suffer the impact of power outages, and with residential standby generator prices declining significantly over the last ten years, the cost to mitigate this risk has become more affordable.

Low penetration in residential and light commercial markets and opportunities for increased penetration in industrial market

There is a substantial opportunity for penetration in the residential standby market, since we estimate penetration to be approximately 2% of U.S. single-family, detached, owner-occupied

households with a home value of over \$100,000, as defined by the U.S. Census Bureau's 2007 American Housing Survey for the United States. This low penetration, when coupled with demographic and lifestyle changes and increasing reliance on home electronics for communication, recreation and work over the last decade, represents a significant opportunity for growth. We believe that each 1% of U.S. household penetration potentially represents an approximate \$2 billion market opportunity at current product pricing. While we estimate the market for portable generators has a higher penetration rate of approximately 10% to 15% for U.S. single-family, owner-occupied homes, we believe this market also offers opportunities for growth. In addition, according to a 2007 report by Frost and Sullivan, the light commercial market for standby generators (with end users including grocery and convenience stores, restaurants, gas stations, pharmacies, retail banks, small healthcare facilities, and police and fire stations) is projected to grow at a higher rate than the industrial market. This market represents an attractive opportunity in the United States, which has over two million commercial business locations. Even in the more mature industrial market, we believe there are additional opportunities for penetration, especially given the benefits provided by natural gas engines over more common diesel engine-based generators.

Demographic trends lead to an increased focus on the safety and security provided by standby generators

We believe favorable consumer demographic trends provide opportunities for growth for automatic home standby generators. Demographic changes have led to an increase in demand as the U.S. population becomes older, increasingly conscious of safety issues, focused on convenience and dependent on electronic devices. According to our warranty registration data, currently over 70% of home standby generators are purchased by consumers over 50 years of age. The population segment in the United States between 45 and 65 years of age is expected to grow 7.5% from 2008 to 2015, and the oldest segment of the population, the segment above 64 years of age, is projected to grow by 20.5% over the same time period, according to the U.S. Census Bureau. A continuous power solution will be a critical issue for these population segments, which may turn to standby power generators for safety, security, convenience and peace of mind.

Opportunities for international expansion

The international market represents a significant opportunity for growth in the sale of generators. Market growth rates in Latin America in 2010, as estimated by Frost and Sullivan, range from 8% to 9% in Argentina and Chile to 14% to 15% in Colombia and Mexico. According to Frost and Sullivan, while the European market is expected to grow 3% annually through 2013 to \$1.8 billion, other international markets are expected to grow faster, such as Russia (expected to grow by 10% annually through 2011) and China (expected to grow annually by approximately 18% to a market size of \$6.9 billion by 2015). With less than 1% of our 2008 net sales from markets outside the United States and Canada, international sales represent a significant growth opportunity for us.

Regulatory changes should lead to growth in the commercial and industrial standby markets

In some industries the use of a generator is regulated. Federal, state and local governmental authorities have proposed and passed legislation requiring the use of generators within some segments of the industrial and light-commercial markets. Building, health and safety codes often require back-up standby generators in municipal and government buildings, typically for

crucial applications such as life support systems, safe building egress or critical equipment functionality. Industry practice, as defined by the National Electrical Code, dictates that certain types of facilities, such as hospitals, are required to have emergency standby power systems. Additionally, increased federal regulation of diesel engine emissions and increased municipal regulation of diesel fuel storage should encourage market growth for natural gas-powered standby generators. Generac is a leader in natural gas generators, which are currently the generator of choice for the residential standby market, and are increasingly used in the commercial and industrial market.

Potential benefits from infrastructure spending programs and recovery in the non-residential construction market

The American Recovery and Reinvestment Act passed in February 2009 provides for \$130 billion of construction-related spending for a wide range of projects, including federal buildings and hospitals. We believe that the generator market should benefit from this infusion of funds into the construction market as the construction of large municipal infrastructure usually includes the installation of back-up standby generators larger than 150kW. In addition, after the current downturn in non-residential construction in the United States, the Rosen Consulting Group estimates that spending in this sector will recover after 2010 and increase by 12.5% to \$315 billion in 2011 and increase by another 20.6% to \$380 billion in 2012. Any such recovery should provide additional marketing opportunities for our standby and portable generator business.

Our competitive strengths

We believe that the following strengths contribute to our being a leading generator manufacturer and will allow us to further capitalize on growth opportunities in our industry:

Significant market share with opportunities for further penetration

We enjoy a leading industry market position with a significant market share and opportunities for future penetration. In the residential standby generator market in the United States and Canada, we believe we are the market leader with a market share that we estimate to be approximately 70%. We believe that we will have opportunities for growth in this market as spending on new homes and construction recovers and consumer awareness of the benefits of standby generators grows. We believe we also hold strong positions in the light-commercial and industrial markets with an 8% overall market share in the United States and Canada, with a higher share in certain end markets. We believe we will experience growth in these markets as potential end-users recognize that our modular power systems and our spark-ignited gas engine platforms provide increased efficiency, affordability and flexibility. In addition, we believe that our leading market position and brand recognition and our resulting sales volumes enable us to realize economies of scale in both sourcing and manufacturing, creating cost advantages and giving us a competitive edge when seeking to exploit new business opportunities.

Multi-layered distribution model

The majority of standby power systems are installed by an experienced contractor. As a result, having a network of experienced dealers who can sell, manage the installation of, and service the generator is important. We believe that our multi-layered distribution model gives us an

advantage over competitors who do not have as broad a distribution network and generally rely on a single channel to market and sell their products. We use direct dealers for residential, light-commercial and industrial end-users, as well as wholesale, private label, retail, e-commerce and catalog distribution channels, enabling us to reach a broad range of customers. We are constantly developing the scope and strength of our dealer networks, comprised of over 3,700 dealers. Our dealers serve as both a nationwide direct sales channel and an after-sale service and product support network and are therefore critical to our business, growth strategy and brand management. We have trained over 10,000 technicians on our products over the last three years alone. We also sell our products to electrical wholesale distributors, which allow us broader access and exposure to electrical contractors. In addition to distributing our products under our Generac® brand name, we have entered into several private label arrangements, which allow us to further distribute our products through HVAC equipment, electrical equipment and construction machinery companies. We also sell our products through top retailers and e-commerce companies, which provide broader exposure for our brand and our products. Finally, our direct-to-national accounts strategy provides a direct, coordinated sales approach for our large customers, backed by our network of dealers and trained technicians who can install and service the generator.

Broadest product line in the industry

Our product offerings include a comprehensive selection of standby and portable generators of various sizes and types with ranges of power output capable of catering to many end markets and users. Our product portfolio includes generators powered by gasoline, diesel, liquid propane and natural gas as well as a combination of diesel and natural gas, or Bi-Fuel™ systems. Because we manufacture units for all fuel types, we are able to take advantage of marketing opportunities created by changing emission regulations and customer preferences. We also manufacture a complete line of automatic transfer switches, which we pair with our generators to create a complete back-up power system. We believe that our broad product line provides us with a competitive advantage because dealers and distributors prefer dealing with a single source for a broad range of their standby and portable generator needs.

Engineering excellence

Our primary focus on generators drives technological innovation, specialized engineering and manufacturing competencies and distinguishes us from other engine and generator manufacturers for whom the sale and manufacture of power generation equipment is not their primary business. We currently operate three advanced facilities and employ over 100 engineers who focus on new product development, existing product improvement and cost reduction. Our integrated approach to engineering and manufacturing gives us the ability to quickly modify existing products or design new ones to better satisfy customer demands and evolving regulatory requirements. Our commitment to research and development has resulted in a portfolio of approximately 50 U.S. and international patents and patent applications, and various trademark registrations and applications in the United States and other jurisdictions. Examples of our technological advancements include our technology concerning Bi-Fuel™ and our Modular Power Systems, or MPS, technology. MPS technology gives our customers the flexibility to combine the power of several smaller generators to produce the output of a larger generator, providing them with redundancy and scalability in a cost-effective manner. Over the past 50 years, our business has earned a reputation for designing and manufacturing affordable, innovative and high-quality products.

Low-cost producer

We believe that our product engineering, manufacturing and sourcing capabilities, along with our production volume, have enabled us to be one of the lowest-cost producers in the industry. We have implemented lean manufacturing initiatives and designed our production facilities to quickly adapt to customer demand and to the development of new product offerings. As part of our sourcing strategy, we have developed a network of reliable, low-cost suppliers in the United States and abroad. Our volume requirements and leading market position generally enable us to obtain favorable terms from our suppliers. In 2009 to date, we sourced more than half of our product components from outside the United States through foreign suppliers with whom we have built strong, long-term relationships. We believe that this network of relationships cannot be easily replicated.

Financial flexibility and strong free cash flow generation

Our disciplined and flexible cost structure and low-cost global sourcing has contributed to our financial strength and strong cash flow generation. With a highly variable manufacturing and selling, general and administrative cost structure, we believe that we are well positioned for future growth and have the ability to respond quickly to varying market environments. Furthermore, our business model generally requires low capital expenditures with amounts that have averaged less than \$9 million per year for each of the last three years. In addition, due to a tax election we made at the time of the CCMP Transactions described below, we expect to have \$122 million in annual amortization deductions of intangibles for tax purposes through 2020, which can be used to reduce any cash tax obligations. Any additional cash tax obligations may be further reduced by our \$131 million balance of net operating losses as of December 31, 2008.

Experienced management team with substantial equity stake

Our senior management team has significant generator industry experience and a strong track record with a combined total of over 100 years of industry and related experience. This team has been highly successful at expanding our product line, distribution channels and technology leadership, positioning our business for growth through innovation. We expect that upon consummation of this offering, members of our senior management team will own approximately % of our outstanding common stock on a fully-diluted basis.

Our strategy

We believe we can capitalize on our competitive strengths to grow our business through the following strategies:

Further develop domestic distribution and sales channels

We intend to further expand our geographic and product markets in North America through new dealer acquisitions and the continued development of our dealer network. Our dealer acquisition efforts have yielded over 500 new dealers in 2009, and we have trained over 10,000 technicians on our products over the last three years. We believe that our dedicated training program helps us capture the best talent and retain the most profitable dealers and that our commitment to growing our dealer network positions us well to pursue opportunities for improved sales distribution to underserved markets. We also continue to explore additional strategic partnerships to expand our distribution reach. In addition, in the residential market, we target homebuilders, who represent an attractive sales opportunity given the current

under-penetration of generators in newly constructed homes. We also target commercial and industrial customers through national accounts programs that are serviced by our industrial dealers. These efforts generally are directed at companies that have the potential to generate large commitments, such as our existing non-exclusive supply contracts with several leading telecommunications operators. In the light commercial market, we are focusing on opportunities to grow our existing customer base while increasing penetration in smaller, non-traditional end markets, such as smaller healthcare facilities, nursing homes and medical clinics, grocery and convenience stores, pharmacies and other stores with needs for stationary standby generators. Through our industrial dealers, we are developing relationships with engineering firms who influence purchase decisions on many projects where an industrial generator is necessary.

Increase awareness of standby power solutions

We believe that through our extensive dealer network, our private label partnerships and our targeted marketing initiatives, residential and light-commercial potential customers are becoming increasingly aware of the benefits of standby power solutions. As recently as 10 years ago, stationary standby generators were available only at select dealers. Today, standby generators can be purchased at more than 9,000 retail locations, 1,700 electrical wholesale outlets and through several leading electrical supply catalogs and e-commerce sites, as well as through over 3,700 Generac dealers and our private label partners. We also believe that standby power solutions benefit from natural marketing awareness created by power outage events. When outage events occur, potential customers become increasingly aware of the advantages of generators as reliable sources of back-up electrical power, in the affected area and beyond. We believe these events support long-term demand, and we seek to extend the impact of the increase in customer awareness through targeted marketing initiatives. We are committed to marketing our superior quality and innovation to further develop Generac® as the leading brand in standby power generation.

Focus on innovation and product development

We intend to continue to provide innovative and affordable products to all of our customers. For instance, in the industrial market, we market our proprietary MPS technology, which provides increased affordability, redundancy and scalability within the 600kW to 9,000kW output ranges when compared to single-engine generators. We believe that our natural gas-powered generators represent a key opportunity within the light commercial market as well. These generators provide an affordable standby power solution that does not include the fuel storage, spillage, spoilage, environmental or odor concerns of traditional diesel units. We have had over 30 years of experience using natural gas engines and have developed proprietary fuel systems, emissions technology and control systems. Our XG line of portable generators was recently named as an Editor's Choice by Popular Mechanics magazine. We intend to use our engineering expertise and experience to build upon these and other technological advances and respond to shifting customer demands.

Further develop international distribution opportunities

With less than 1% of our 2008 net sales from markets outside of the United States and Canada, international sales represent a significant growth opportunity for us. We have focused our initial international sales efforts on our industrial and light-commercial generators and have successfully built a network of 34 distributors in 16 international markets, primarily in Mexico and Central and South America. To further penetrate these and other international

markets, we are actively pursuing partnerships with established international companies with complementary products and distribution capabilities.

Expand product offering in complementary markets

We believe that, in addition to the standby market, the portable generator market represents an attractive opportunity to sell products that are strategic to our customer base and complementary to our manufacturing capabilities. We made the decision to re-enter the portable generator market following the expiration of a non-competition agreement in 2007. We introduced an expanded line of portable generators in 2008 and subsequently have added significant distribution capacity in the portable generator market. We believe our dealers and distributors of portable generators make our products more visible in the market, which has enabled us to increase opportunities to sell standby generators. We also expect to continuously evaluate opportunities to expand organically or through opportunistic acquisitions into other complementary engine-driven adjacent products where we can leverage our manufacturing and sourcing capabilities, technological expertise and strength in distribution.

Risks associated with our business

Our business is subject to numerous risks, as discussed more fully in the section entitled "Risk factors" beginning on page 17 of this prospectus, which you should read in its entirety. In particular:

- Demand for our products is significantly affected by unpredictable major power-outage events that can lead to substantial variations in, and uncertainties regarding, our financial results from period to period;
- Demand for our standby generators is significantly affected by durable goods spending by consumers and businesses and other macroeconomic conditions;
- Decreases in the availability, or increases in the cost, of raw materials and key components we use could materially reduce our earnings;
- The industry in which we compete is highly competitive, and our failure to compete successfully could adversely affect our results of operations and financial condition;
- Our industry is subject to technological change, and our failure to continue developing new and improved products and to bring these products rapidly to market could have an adverse impact on our business;
- We rely on independent dealers and distribution partners, and the loss of these dealers and distribution partners, or of any of our sales arrangements with significant private label, telecommunications or retail customers, would adversely affect our business;
- Our business could be negatively impacted if we fail to adequately protect our intellectual property rights or if third parties claim that we are in violation of their intellectual property rights;
- Our operations are subject to various environmental, health and safety laws and regulations, and non-compliance with or liabilities under such laws and regulations could result in substantial costs, fines, sanctions and claims;
- Our products are subject to substantial government regulation;

- We have a substantial amount of indebtedness, which may adversely affect our cash flow and our ability to operate our business, remain in compliance with debt covenants and make payments on our indebtedness; and
- After this offering, our principal stockholder will continue to have substantial control over us.

See "Use of proceeds."

Dividend policy

We do not anticipate paying any dividends on our common stock; however, we may change this policy in the future. See "Dividend policy."

"GNRC".

Unless otherwise indicated, the number of shares of common stock to be outstanding after this offering:

Summary historical consolidated financial and other data

The table below provides our summary historical consolidated financial and other data for the periods and as of the dates indicated. The summary historical consolidated financial and other data for the period from January 1, 2006 through November 10, 2006 (Predecessor Period), the period from November 11, 2006 through December 31, 2006 (Successor Period) and the years ended December 31, 2007 and 2008 are derived from our audited consolidated financial statements for such periods included elsewhere in this prospectus. The summary historical consolidated financial and other data for the six months ended June 30, 2008 and 2009 are derived from our unaudited condensed consolidated financial statements included elsewhere in this prospectus. In the opinion of management, the unaudited condensed consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements and include all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of our operating results and financial position for those periods and as of such dates. The results for any interim period are not necessarily indicative of the results that may be expected for a full year.

The summary historical consolidated financial data for the twelve months ended June 30, 2009, which are unaudited, have been calculated by subtracting the data for the six months ended June 30, 2008 from the data for the year ended December 31, 2008, and adding the data for the six months ended June 30, 2009. This presentation is not in accordance with U.S. GAAP.

In November 2006, affiliates of CCMP, together with affiliates of Unitas and members of our management formed Generac and, through Generac, acquired all of the capital stock of Generac Power Systems. See "CCMP transactions." Generac in all periods prior to November 2006 is referred to as "Predecessor," and in all periods including and after such date is referred to as "Successor." As a result of purchase accounting adjustments associated with the CCMP Transactions, the consolidated financial statements for all Successor periods may not be comparable to those of the Predecessor Period.

The results indicated below and elsewhere in this prospectus are not necessarily indicative of our future performance. You should read this information together with "Selected historical consolidated financial data," "Capitalization," "Management's discussion and analysis of financial condition and results of operations" and our consolidated financial statements and related notes included elsewhere in this prospectus.

(1) The statement of operations and cash flow data for the twelve months ended June 30, 2009, which are unaudited, have been calculated by subtracting the data for the six months ended June 30, 2008 from the data for the year ended December 31, 2008, and adding the data for the six months ended June 30, 2009. This presentation is not in accordance with generally accepted accounting principles, or U.S. GAAP.

(2) Our amortization of intangibles expenses include the straight-line amortization of customer lists, patents and other intangibles assets.

(3) Transaction-related expenses incurred by the Predecessor, primarily related to the settlement of the employee share appreciation program in connection with the CCMP Transactions.

(4) As of October 31, 2008, as a result of our annual goodwill and trade names impairment test, we determined that an impairment of goodwill and trade names existed, and we recognized a non-cash charge of \$583.5 million in 2008.

(5) During 2007, affiliates of CCMP acquired \$80.3 million principal amount of second lien term loans for approximately \$60.0 million. CCMP's affiliates exchanged this debt for additional shares of our Class B Common Stock. We subsequently contributed this debt to Generac Power Systems. The fair value of the shares exchanged was \$60.0 million. We recorded this transaction as additional Class B Common Stock of \$60.0 million based on the fair value of the debt contributed by CCMP's affiliates, which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by Generac Power Systems. Consequently, we recorded a gain on extinguishment of debt of \$18.8 million, which includes a write-off of deferred financing fees and other closing costs in the consolidated statement of operations for the year ended December 31, 2007.

During 2008, affiliates of CCMP acquired \$148.9 million principal amount of second lien term loans for approximately \$81.1 million. CCMP's affiliates exchanged this debt for additional shares of our Class B Common Stock and Series A Preferred Stock. We subsequently contributed this debt to Generac Power Systems. The fair value of the shares exchanged was \$81.1 million. We recorded this transaction as Series A Preferred Stock of \$62.9 million and Class B Common Stock of \$18.2 million based on the fair value of the debt contributed by CCMP's affiliates, which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by Generac Power Systems. Consequently, we recorded a gain on extinguishment of debt of \$65.4 million, which includes a write-off of deferred financing fees and other closing costs in the consolidated statement of operations for the year ended December 31, 2008.

During the six months ended June 30, 2009, affiliates of CCMP acquired \$9.9 million principal amount of first lien term loans and \$18.0 million principal amount of second lien term loans for approximately \$14.0 million. CCMP's affiliates exchanged this debt for 1,398.9149 shares of Series A Preferred Stock. We subsequently contributed this debt to Generac Power Systems. The fair value of the shares exchanged was \$14.0 million. We recorded this transaction as additional Series A Preferred Stock of

\$14.0 million based on the fair value of the debt contributed by CCMP's affiliates, which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by Generac Power Systems. Consequently, we recorded a gain on extinguishment of debt of \$13.5 million, which includes a write-off of deferred financing fees and other closing costs, in the consolidated statement of operations for the six months ended June 30, 2009.

During the six months ended June 30, 2008, affiliates of CCMP acquired \$24.0 million principal amount of second lien term loans for approximately \$18.2 million. CCMP's affiliates exchanged this debt for 2,400 shares of Class B Common Stock. We subsequently contributed this debt to Generac Powers Systems. The fair value of the shares exchanged was \$18.2 million. We recorded this transaction as additional Class B Common Stock of \$18.2 million based on the fair value of the debt contributed by CCMP's affiliates, which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by Generac Power Systems. Consequently, we recorded a gain on extinguishment of debt of \$5.3 million, which includes a write-off of deferred financing fees and other closing costs, in the consolidated statement of operations for the six months ended June 30, 2008.

(6) Adjusted EBITDA represents net income (loss) before interest expense, taxes, depreciation and amortization, or EBITDA, as further adjusted for the other items reflected in the reconciliation table set forth below. This presentation is generally consistent with the definition of "EBITDA" in our senior secured credit facilities, except that we do not give effect to certain additional adjustments that are permitted under our senior secured credit facilities and which, if included, would increase the amount reflected in this table.

Our senior secured credit facilities require us to maintain a leverage ratio of consolidated total debt to EBITDA (as both are defined in our senior secured credit facilities) at a level that varies over time. Failure to comply with this covenant would result in an event of default under our senior secured credit facilities unless waived by our lenders. Our senior secured credit facilities contain other events of default that are customary for similar facilities and transactions, including a cross-default provision under the first lien credit facility with respect to any other indebtedness in an outstanding aggregate principal amount in excess of \$25.0 million and a cross-default provision under the second lien credit facility with respect to any other indebtedness in an outstanding aggregate principal amount in excess of \$28.75 million. An event of default under our senior secured credit facilities could result in the acceleration of our indebtedness under the facilities and we may be unable to repay or finance the amounts due. In addition, our senior secured credit facilities restrict our ability to take certain actions, such as incur additional debt or make certain acquisitions, if we are unable to meet our leverage ratio. Failure to comply with these covenants would result in limiting our long-term growth prospects by hindering our ability to incur future indebtedness or grow through acquisitions. As our failure to comply with the covenants described above can, at best, limit our ability to incur debt or grow our company and, at worst, cause us to default under the agreements governing our indebtedness, management believes that our senior secured credit facilities and these covenants are material to us. For more information about our senior secured credit facilities, see "Management's discussion and analysis of financial condition and results of operations—Liquidity and capital resources—Senior secured credit facilities."

We present Adjusted EBITDA not only due to its importance for purposes of our senior secured credit facilities but also because we consider it to be an important supplemental measure of our performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of our company. Adjusted EBITDA does not represent, and should not be a substitute for, net income or cash flows from operations as determined in accordance with U.S. GAAP. Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under U.S. GAAP. Some of the limitations are:

- Adjusted EBITDA does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Adjusted EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debt;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements; and
- other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our U.S. GAAP results and using Adjusted EBITDA only supplementally.

(7) Includes our Series A Preferred Stock and Class B Voting Common Stock. See Note 6 to our audited consolidated financial statements included elsewhere in this prospectus.

- for the year ended December 31, 2007, primarily a \$3.9 million charge related to the purchase accounting step-up of inventory value in connection with the CCMP Transactions. Also includes \$1.4 million of other charges, including a write-off of a pre-CCMP Transactions receivable, stock compensation expense, unrealized losses on copper forward contracts and losses on disposals of assets;

Separately, the amount also includes a write-off of certain inventory;
- for the six months ended June 30, 2008, losses on disposals of assets less unrealized gains on copper forward contracts;
- for the six months ended June 30, 2009, primarily unrealized gains on copper forward contracts; and

Risk factors

An investment in our common stock involves a high degree of risk. You should carefully consider the following risks, as well as the other information contained in this prospectus, before making an investment decision. If any of the following risks, as well as other risks and uncertainties that are not yet identified or that we currently think are immaterial, actually occur, our business, results of operations or financial condition could be materially and adversely affected. In such an event, the trading price of our common stock could decline and you could lose part or all of your investment.

Risks related to our business and industry

Demand for our products is significantly affected by unpredictable major power-outage events that can lead to substantial variations in, and uncertainties regarding, our financial results from period to period.

Sales of our products are subject to consumer buying patterns, and demand for our products is affected by weather-driven and other outage events, including thunderstorms, hurricanes, ice storms and blackouts caused by grid reliability issues. Sustained periods without major power disruptions can lead to reduced consumer awareness of the benefits of standby and portable generator products and can result in reduced sales and excess inventory. For example, in 2007, our net sales declined 18.3% from the prior year, and this decline was driven at least in part by the fact that the storm seasons in the two years leading up to and including 2007 resulted in fewer power outages than in the prior years. The lack of major power-outage events can affect our net sales in the quarters following a given storm season. Unpredictable fluctuations in demand are therefore part of managing our business, and these fluctuations could have an adverse effect on our net sales and profits.

Demand for our standby generators is significantly affected by durable goods spending by consumers and businesses and other macroeconomic conditions.

Our business is affected by general economic conditions, and uncertainty or adverse changes such as the recent downturn in worldwide economic conditions and the impact of the credit crisis could lead to a significant decline in demand for our products and pressure to reduce our prices. Our sales of light commercial and industrial generators are affected by conditions in the non-residential construction sector and by the capital investment trends for small and large businesses and municipalities. If these businesses and municipalities cannot access credit markets or do not utilize discretionary funds to purchase our products as a result of the economy or other factors, our business could suffer. In addition, consumer confidence and home remodeling expenditures have a significant impact on sales of our residential products, and prolonged periods of weakness in consumer durable goods spending could have a material impact on our business. Typically, we do not have contracts with our customers, and we cannot guarantee that our current customers will continue to purchase our products. If general economic conditions or consumer confidence were to worsen, or if the non-residential construction sector or rate of capital investments were to decline, our net sales and profits would likely be adversely affected.

Decreases in the availability, or increases in the cost, of raw materials and key components we use could materially reduce our earnings.

The principal raw materials that we use to produce our generators are steel, copper and aluminum. We also source a significant number of component parts that we utilize to manufacture our generators from third parties. The prices of those raw materials and components are susceptible to significant fluctuations due to trends in supply and demand, transportation costs, government regulations and tariffs, price controls, economic conditions and other unforeseen circumstances beyond our control. If we are unable to mitigate raw material or component price increases through product design improvements, price increases to our customers or hedging transactions, our profitability could be adversely affected. For example, in 2008, we experienced a 4.8% decrease in gross margin percentage, partially due to increases in commodity prices, including steel, copper and aluminum. Also, our ability to continue to obtain materials and components is subject to the continued reliability and viability of our suppliers, including in some cases, suppliers who are the sole source of important components. If we are unable to obtain adequate, cost efficient or timely deliveries of required raw materials and components, we may be unable to manufacture sufficient quantities of products on a timely basis. This could cause us to lose sales, incur additional costs, delay new product introductions or suffer harm to our reputation.

The industry in which we compete is highly competitive, and our failure to compete successfully could adversely affect our results of operations and financial condition.

We operate in markets that are highly competitive. Some of our competitors have established brands and are larger in size or are divisions of large diversified companies and have substantially greater financial resources. Some of our competitors may be willing to reduce prices and accept lower margins in order to compete with us. In addition, we could face new competition from large international or domestic companies with established industrial brands that enter the generator market. Demand for our products may also be affected by our ability to respond to changes in design and functionality, to respond to downward pricing pressure, and to provide shorter lead times for our products than our competitors. If we are unable to respond successfully to these competitive pressures, we could lose market share, which would have an adverse impact on our results. For more information, see "Business—Competition."

Our industry is subject to technological change, and our failure to continue developing new and improved products and to bring these products rapidly to market could have an adverse impact on our business.

New products, or refinements and improvements of existing products, may have technical failures, their introduction may be delayed, they may have higher production costs than originally expected or they may not be accepted by our customers. If we are not able to anticipate, identify, develop and market high quality products in line with technological advancements that respond to changes in customer preferences, demand for our products could decline and our operating results could be adversely affected.

We rely on independent dealers and distribution partners, and the loss of these dealers and distribution partners, or of any of our sales arrangements with significant private label, telecommunications or retail customers, would adversely affect our business.

In addition to our direct sales force and manufacturer sales representatives, we depend on the services of independent distributors and dealers to sell our products and provide service and

aftermarket support to our customers. We also rely upon our distribution channels to drive awareness for our product categories and our brands. In addition, we sell our products to our customers through private label arrangements with leading HVAC equipment, electrical equipment and construction machinery companies, arrangements with top retailers and our direct national accounts with telecommunications and industrial customers. Our distribution agreements and any contracts we have with large telecommunications, retail and other customers are typically not exclusive, and many of the distributors and customers with whom we do business offer products and services of our competitors. Impairment of our relationships with our distributors, dealers or large customers, loss of a substantial number of these distributors or dealers or of one or more large customers, or an increase in our distributors' or dealers' sales of our competitors' products to our customers or of our large customers' purchases of our competitors' products could materially reduce our sales and profits. Also, our ability to successfully realize our growth strategy is dependent in part on our ability to identify, attract and retain new distributors at all layers of our distribution platform, and we cannot be certain that we will be successful in these efforts.

Our business could be negatively impacted if we fail to adequately protect our intellectual property rights or if third parties claim that we are in violation of their intellectual property rights.

We view our intellectual property rights, including those relating to our Generac® brand name, fuel management systems and MPS technology, as important assets. We seek to protect our intellectual property rights through a combination of patent, trademark, copyright and trade secret laws, as well as licensing and confidentiality agreements. These protections may not be adequate to prevent third parties from using our intellectual property without our authorization, breaching any confidentiality agreements with us, copying or reverse engineering our products, or developing and marketing products that are substantially equivalent to or superior to our own. The unauthorized use of our intellectual property by others could reduce our competitive advantage and harm our business. If it became necessary for us to litigate to protect these rights, any proceedings could be burdensome and costly and we may not prevail. We cannot guarantee that any patents, issued or pending, will provide us with any competitive advantage or will not be challenged by third parties. Moreover, the expiration of our patents may lead to increased competition with respect to certain products.

In addition, we cannot be certain that we do not or will not infringe third parties' intellectual property rights. Any such claim, even if it is without merit, may be expensive and time-consuming to defend, subject us to damages, cause us to cease making, using or selling certain products that incorporate the disputed intellectual property, require us to redesign our products, divert management time and attention and/or require us to enter into costly royalty or licensing arrangements.

Our operations are subject to various environmental, health and safety laws and regulations, and non-compliance with or liabilities under such laws and regulations could result in substantial costs, fines, sanctions and claims.

Our operations are subject to a variety of foreign, federal, state and local environmental, health and safety laws and regulations including those governing, among other things, emissions to air, discharges to water, noise, the generation, handling, storage, transportation, treatment and disposal of waste and other materials. In addition, under federal and state

environmental laws, we could be required to investigate, remediate and/or monitor the effects of the release or disposal of materials both at sites associated with past and present operations and at third-party sites where wastes generated by our operations were disposed. This liability may be imposed retroactively and whether or not we caused, or had any knowledge of, the existence of these materials and may result in our paying more than our fair share of the related costs. Violations of or liabilities under such laws and regulations could result in substantial costs, fines and civil or criminal proceedings or personal injury and workers' compensation claims.

Our products are subject to substantial government regulation.

Our products are subject to extensive statutory and regulatory requirements governing, among other things, emissions and noise, including standards imposed by the federal Environmental Protection Agency, or EPA, state regulatory agencies, such as the California Air Resources Board, or CARB, and other regulatory agencies around the world. These laws are constantly evolving and many are becoming increasingly stringent. Changes in applicable laws or regulations, or in the enforcement thereof, could require us to redesign our products and could adversely affect our business or financial condition in the future. Developing and marketing products to meet such new requirements could result in substantial additional costs that may be difficult to recover in some markets. In some cases, we may be required to modify our projects or develop new products to comply with new regulations, particularly those relating to air emissions. For example, we were required to modify our natural gas and liquid propane-fueled engines and generators by January 1, 2009 to comply with emissions standards in the United States. While we have been able to meet previous deadlines, failure to comply with other existing and future regulatory standards could adversely affect our position in the markets we serve.

We may incur costs and liabilities as a result of product liability claims.

We face a risk of exposure to product liability claims in the event that the use of our products is alleged to have resulted in injury or other damage. Although we currently maintain product liability insurance coverage, we may not be able to obtain such insurance on acceptable terms in the future, if at all, or obtain insurance that will provide adequate coverage against potential claims. Product liability claims can be expensive to defend and can divert the attention of management and other personnel for long periods of time, regardless of the ultimate outcome. An unsuccessful product liability defense could have a material adverse effect on our financial condition, and results of operations. In addition, we believe our business depends on the strong brand reputation we have developed. If our reputation is damaged, we may face difficulty in maintaining our market share and pricing with respect to some of our products, which would reduce our sales and profitability.

The loss of any key members of our senior management team or key employees could disrupt our operations and harm our business.

Our success depends, in part, on the efforts of certain key individuals, including the members of our senior management team, who have significant experience in the generator industry. If, for any reason, our senior executives do not continue to be active in management, or if our key employees leave our company, our business, financial condition or results of operations could be adversely affected. Failure to continue to attract these individuals at reasonable compensation levels could have a material adverse effect on our business, liquidity and results

of operations. Although we do not anticipate that we will have to replace any of these individuals in the near future, the loss of the services of any of our key employees could disrupt our operations and have a material adverse effect on our business.

Disruptions caused by labor disputes or organized labor activities could harm our business.

Currently, less than 3% of our workforce is a member of a labor union. In addition, we may from time to time experience union organizing activities in our non-union facilities. Disputes with the current labor union or new union organizing activities could lead to work slowdowns or stoppages and make it difficult or impossible for us to meet scheduled delivery times for product shipments to our customers, which could result in loss of business. In addition, union activity could result in higher labor costs, which could harm our financial condition, results of operations and competitive position.

We may experience material disruptions to our manufacturing operations.

While we seek to operate our facilities in compliance with applicable rules and regulations and take measures to minimize the risks of disruption at our facilities, a material disruption at one of our manufacturing facilities could prevent us from meeting customer demand, reduce our sales and/or negatively impact our financial results. Any of our manufacturing facilities, or any of our machines within an otherwise operational facility, could cease operations unexpectedly due to a number of events, including:

- equipment or information technology infrastructure failure;
- disruptions in the transportation infrastructure including roads, bridges, railroad tracks;
- fires, floods, earthquakes, or other catastrophes; and
- other operational problems.

In addition, all of our manufacturing and production facilities are located in Wisconsin within a 30-mile radius. We could experience prolonged periods of reduced production due to unforeseen events occurring in or around our manufacturing facilities in Wisconsin. In the event of a business interruption at our Wisconsin facilities, we may be unable to shift manufacturing capabilities to alternate locations, accept materials from suppliers or meet customer shipment needs, among other severe consequences. Such an event could have a material and adverse impact on our financial condition and results of our operations.

A significant portion of our purchased components are sourced in foreign countries, exposing us to additional risks that may not exist in the United States.

We source a significant portion of our purchased components overseas, primarily in Asia. Our international sourcing subjects us to a number of potential risks in addition to the risks associated with third-party sourcing generally. Such risks include:

- inflation or changes in political and economic conditions;
- unstable regulatory environments;
- changes in import and export duties;
- domestic and foreign customs and tariffs;
- currency rate fluctuations;
- trade restrictions;
- labor unrest;
- logistical and communications challenges; and

- other restraints and burdensome taxes.

These factors may have an adverse effect on our ability to source our purchased components overseas. In particular, if the U.S. dollar were to depreciate significantly against the currencies in which we purchase raw materials from foreign suppliers, our cost of goods sold could increase materially, which would adversely affect our results of operations.

As a U.S. corporation that sources components in foreign countries, we are subject to the Foreign Corrupt Practices Act. A determination that we violated this act may affect our business and operations adversely.

As a U.S. corporation, we are subject to the regulations imposed by the U.S. Foreign Corrupt Practices Act, or the FCPA, which generally prohibits U.S. companies and their intermediaries from making improper payments to foreign officials for the purpose of obtaining or keeping business. Any determination that we have violated the FCPA could have a material adverse effect on our financial position, operating results and cash flows.

We have significant tax assets, usage of which may be subject to limitations in the future.

As of December 31, 2008, we had \$131 million of net operating losses for U.S. federal income tax purposes. While this offering of our common stock will not result in a change of control under Section 382 of the U.S. Internal Revenue Code of 1986, any subsequent accumulations of common stock ownership leading to a change of control under that section, including through sales of stock by large stockholders after this offering, all of which are out of our control, could limit our ability to utilize our net operating losses to offset future federal income tax liabilities.

Our total assets include goodwill and other indefinite-lived intangibles. If we determine these have become impaired in the future, net income could be materially adversely affected.

Goodwill represents the excess of cost over the fair market value of net assets acquired in business combinations. Indefinite-lived intangibles are comprised of certain trade names. At June 30, 2009, goodwill and other indefinite-lived intangibles totaled \$665.9 million, most of which arose from the CCMP Transactions. We review goodwill and other intangibles at least annually for impairment and any excess in carrying value over the estimated fair value is charged to the results of operations. A reduction in net income resulting from the write-down or impairment of goodwill or indefinite-lived intangibles could have a material adverse effect on our financial statements. For example, in October 2008, due to an increase in our weighted average cost of capital and lower comparable public company market values resulting from weakening economic conditions, we determined that an impairment of goodwill existed and recorded a non-cash charge of \$503.2 million in 2008.

Goodwill and identifiable intangible assets are recorded at fair value on the date of acquisition. Under Financial Accounting Standards Board Statement No. 142, goodwill is reviewed at least annually for impairment and definite-lived intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that their carrying value may not be recoverable. Future impairment may result from, among other things, deterioration in the performance of the acquired business or product line, adverse market conditions and changes in the competitive landscape, adverse changes in applicable laws or regulations, including changes that restrict the activities of the acquired business or product line, and a variety of other circumstances. The amount of any impairment is recorded as a charge to the

statement of operations. We may never realize the full value of our intangible assets. Any future determination requiring the write-off of a significant portion of intangible assets would have an adverse effect on our financial condition and results of operations. See "Management's discussion and analysis of financial condition and results of operations" for details.

We may need additional capital to finance our growth strategy or to refinance our existing credit facilities, and we may not be able to obtain it on acceptable terms, or at all, which may limit our ability to grow.

We may require additional financing to expand our business. Financing may not be available to us or may be available to us only on terms that are not favorable. The terms of our senior secured credit facilities limit our ability to incur additional debt. In addition, economic conditions, including any further downturn or crisis in the credit markets, could impact our ability to finance our growth on acceptable terms or at all. If we are unable to raise additional funds or obtain capital on acceptable terms, we may have to delay, modify or abandon some or all of our growth strategies. Our revolving credit facility matures in November 2012, our first lien term loan facility matures in November 2013 and our second lien term loan facility matures in May 2014. If we are unable to refinance these facilities on acceptable terms, our liquidity could be adversely affected.

We have a recent history of net losses.

We have incurred net losses during the periods following the CCMP Transactions. For the Successor Period of 2006 and the years ended December 31, 2007 and 2008, we incurred net losses of \$16.0 million, \$9.7 million and \$556.0 million (includes a non-cash goodwill and trade name impairment charge of \$583.5 million), respectively. Achieving profitability depends upon numerous factors, including our ability to generate increased net sales and our ability to control expenses. We can make no assurances that we will achieve profitability, or if we do, that we will be able to sustain or increase profitability in the future. Failure to achieve profitability could have an adverse impact on the trading prices of our common stock.

Risk relating to this offering

Management may invest or spend our net proceeds from this offering in ways that may not yield an acceptable return to you.

Although we plan to use a portion of our net proceeds from this offering to pay down a portion of our first and second lien term loans and to pay fees and expenses associated with the offering, we also may use a portion of the net proceeds for general corporate purposes. We will have broad discretion as to how we will spend such proceeds, and you will have no advance opportunity to evaluate our decisions and may not agree with the manner in which we spend such proceeds. We may not be successful investing the proceeds from this offering in either our operations or external investments.

We do not anticipate paying dividends on our common stock in the foreseeable future.

We do not anticipate paying any dividends in the foreseeable future on our common stock. We intend to retain all future earnings for the operation and expansion of our business and the repayment of outstanding debt. In addition, the terms of our senior secured credit facilities limit our ability to pay dividends on our common stock. As a result, capital appreciation, if any, of our common stock will be your sole source of gain for the foreseeable future. While we may change this policy at some point in the future, we cannot assure you that we will make such a change. See "Dividend policy."

There has been no prior market for our common stock. The market price for our common stock could be volatile, which could cause the value of your investment to decline.

Prior to this offering, there has been no public market for our common stock, and an active trading market may not develop or be sustained after this offering. The market price for our common stock will vary from the initial public offering price after trading commences, and you may not be able to resell your shares of our common stock at or above the initial offering price. The initial public offering price will be determined by negotiation between us and the underwriters based upon a number of factors and may not be indicative of future market prices for our common stock. This could result in substantial losses for investors. The market price of our common stock may fluctuate significantly in response to a number of factors, some of which are beyond our control. These factors include, but are not limited to:

- developments in the generator industry;
- power outages and storms;
- the availability and cost of raw materials and components;
- strategic actions by us or our competitors, including the entrance to the market of new competition;
- our ability to continue to develop our distribution channels;
- the performance of third-party component suppliers;
- developments with respect to our brand name, patents and other intellectual property rights;
- environmental and product safety regulations;
- new laws or regulations or changes in existing laws or regulations applicable to our business;
- our ability to manufacture our products to commercial standards;
- additions or departures of key personnel;
- labor stoppages or strikes;
- our operating and financial performance and prospects;
- our quarterly or annual earnings or those of other companies in our industry;
- changes in earnings estimates or recommendations by securities analysts;
- changes in accounting standards, policies, guidance, interpretations or principles;
- changes in general economic conditions in the United States and global economies or financial markets, including such changes resulting from war or incidents of terrorism; and
- sales of our common stock by us, our principal stockholders or members of our management team.

In addition, the stock market has recently experienced significant price and volume fluctuations. This volatility has had a significant impact on the trading price of securities issued by many companies, including companies in our industry. The changes frequently occur irrespective of the operating performance of the affected companies. Hence, the trading price

of our common stock could fluctuate based upon factors that have little or nothing to do with our business.

Future sales of our common stock may cause our stock price to decline.

If our stockholders sell substantial amounts of our common stock in the public market following this offering, the market price of our common stock could decline. These sales might also make it more difficult for us to sell additional equity securities at a time and price that we deem appropriate. Based on shares outstanding as of _____, 2009, upon completion of this offering, we will have _____ shares of our common stock outstanding. All of the shares of our common stock sold in this offering will be freely tradable in the public market. The remaining _____ shares of our common stock will be "restricted securities" as defined in Rule 144 under the Securities Act.

In connection with this offering, we, our executive officers and directors and our significant stockholders have agreed that, subject to limited exceptions, for a period of 180 days from the date of this prospectus, we and they will not, directly or indirectly, offer, sell, offer to sell, contract to sell or otherwise dispose of any shares of our common stock without the prior written consent of J.P. Morgan Securities Inc. and Goldman, Sachs & Co., on behalf of the underwriters, except in limited circumstances. However, J.P. Morgan Securities and Goldman, Sachs & Co., in their sole collective discretion, may release any of the securities subject to these lock-up agreements at any time without notice.

Subject to the lock-up agreements, these _____ restricted securities may be sold into the public market in the future without registration under the Securities Act to the extent permitted under Rule 144. _____ shares will be available for sale 180 days after the date of this prospectus pursuant to Rule 144; of these shares, approximately _____ % would be available for sale under Rule 144, which imposes no volume or other limits. In addition, commencing 180 days after the date of this prospectus, certain stockholders holding _____ outstanding shares of these restricted securities will have registration rights which could allow those holders to sell their shares freely through a future registration statement filed under the Securities Act.

If securities or industry analysts do not publish research or reports about our business, if they adversely change their recommendations regarding our common stock or if our results of operations do not meet their expectations, our common stock price and trading volume could decline.

The trading market for our common stock will be influenced by the research and reports that industry or securities analysts publish about us or our business. If one or more of these analysts cease coverage of our company or fail to publish reports on us regularly, we could lose visibility in the financial markets, which in turn could cause our stock price or trading volume to decline. Moreover, if one or more of the analysts who cover us downgrade recommendations regarding our stock, or if our results of operations do not meet their expectations, our stock price could decline and such decline could be material.

You will experience immediate and substantial dilution as a result of this offering and may experience additional dilution in the future.

The initial public offering price is substantially higher than the book value per share of our outstanding common stock. As a result, you will incur immediate and substantial dilution of

\$ _____ per share, based on an assumed public offering price of \$ _____ per share, the mid-point of the price range set forth on the cover of this prospectus. For additional information, see the section of this prospectus entitled "Dilution."

As a public company, we will be required to meet periodic reporting requirements under the Securities and Exchange Commission, or SEC, rules and regulations. Complying with federal securities laws as a public company is expensive and we will incur significant time and expense enhancing, documenting, testing and certifying our internal control over financial reporting. Any deficiencies in our financial reporting or internal controls could adversely affect our business and the trading price of our common stock.

SEC rules require that, as a publicly-traded company following completion of this offering, we file periodic reports containing our financial statements within a specified time following the completion of quarterly and annual periods. Prior to this offering, we have not been required to comply with SEC requirements to have our financial statements completed and reviewed or audited within a specified time and, as such, we may experience difficulty in meeting the SEC's reporting requirements. Any failure by us to file our periodic reports with the SEC in a timely manner could harm our reputation and reduce the trading price of our common stock.

As a public company, we will incur significant legal, accounting, insurance and other expenses. The Sarbanes-Oxley Act of 2002, as well as compliance with other rules of the SEC and the New York Stock Exchange, or NYSE, will increase our legal and financial compliance costs and make some activities more time-consuming and costly. Furthermore, once we become a public company, SEC rules require that our chief executive officer and chief financial officer periodically certify the existence and effectiveness of our internal control over financial reporting. Our independent registered public accounting firm will be required, beginning with our Annual Report on Form 10-K for our fiscal year ending on December 31, 2011, to attest to our assessment of our internal control over financial reporting. This process, which we have not undertaken in the past, will require significant documentation of policies, procedures and systems, review of that documentation by our internal accounting staff and our outside auditors and testing of our internal control over financial reporting by our internal accounting staff and our outside independent registered public accounting firm. This process will involve considerable time and expense, may strain our internal resources and have an adverse impact on our operating costs. We may experience higher than anticipated operating expenses and outside auditor fees during the implementation of these changes and thereafter.

During the course of our testing, we may identify deficiencies that would have to be remediated to satisfy the SEC rules for certification of our internal control over financial reporting. As a consequence, we may have to disclose in periodic reports we file with the SEC significant deficiencies or material weaknesses in our system of internal controls. The existence of a material weakness would preclude management from concluding that our internal control over financial reporting is effective and would preclude our independent auditors from issuing an unqualified opinion that our internal control over financial reporting is effective. In addition, disclosures of this type in our SEC reports could cause investors to lose confidence in our financial reporting and may negatively affect the trading price of our common stock. Moreover, effective internal controls are necessary to produce reliable financial reports and to prevent fraud. If we have deficiencies in our disclosure controls and procedures or internal control over financial reporting, it may negatively impact our business, results of operations and reputation.

Anti-takeover provisions in our amended and restated certificate of incorporation and by-laws could prohibit a change of control that our stockholders may favor and could negatively affect our stock price.

Upon the closing of this offering, provisions in our amended and restated certificate of incorporation and by-laws may make it more difficult and expensive for a third party to acquire control of us even if a change of control would be beneficial to the interests of our stockholders. These provisions could discourage potential takeover attempts and could adversely affect the market price of our common stock. These provisions may also prevent or frustrate attempts by our stockholders to replace or remove our management. For example, our amended and restated certificate of incorporation and by-laws:

- permit our board of directors to issue preferred stock with such terms as they determine, without stockholder approval;
- provide that only one-third of the members of the board are elected at each stockholders meeting and prohibit removal without cause;
- require advance notice for stockholder proposals and director nominations; and
- contain limitations on convening stockholder meetings.

These provisions make it more difficult for stockholders or potential acquirers to acquire us without negotiation and could discourage potential takeover attempts and could adversely affect the market price of our common stock.

Risks relating to our capital structure

We have a substantial amount of indebtedness, which may adversely affect our cash flow and our ability to operate our business, remain in compliance with debt covenants and make payments on our indebtedness.

We have a significant amount of indebtedness. As of June 30, 2009, we had total indebtedness of \$1,093.5 million.

Our substantial level of indebtedness increases the possibility that we may be unable to generate cash sufficient to pay, when due, the principal of, interest on or other amounts due in respect of our indebtedness. Our substantial indebtedness, combined with our lease and other financial obligations and contractual commitments could have other important consequences. For example, it could:

- make it more difficult for us to satisfy our obligations with respect to our indebtedness, including financial and other restrictive covenants, which could result in an event of default under the agreements governing our indebtedness;
- make us more vulnerable to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation;
- require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flows to fund working capital, capital expenditures, acquisitions and other general corporate purposes;
- limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

- place us at a competitive disadvantage compared to our competitors that have less debt; and
- limit our ability to borrow additional amounts for working capital, capital expenditures, acquisitions, debt service requirements, execution of our business strategy or other purposes.

Any of the above-listed factors could materially adversely affect our business, financial condition, results of operations and cash flows. Furthermore, our interest expense could increase if interest rates increase because debt under our senior secured credit facilities bears interest at a variable rate. If we do not have sufficient earnings to service our debt, we may be required to refinance all or part of our existing debt, sell assets, borrow more money or sell securities, none of which we can guarantee we will be able to do.

The terms of our senior secured credit facilities restrict our current and future operations, particularly our ability to respond to changes in our business or to take certain actions.

Our senior secured credit facilities contain, and any future indebtedness of ours or our subsidiaries would likely contain, a number of restrictive covenants that impose significant operating and financial restrictions on us and our subsidiaries, including restrictions on our ability to engage in acts that may be in our best long-term interests. Our senior secured credit facilities include a financial covenant that requires us not to exceed a maximum total leverage ratio.

Our senior secured credit facilities require us to use a portion of excess cash flow and proceeds of certain asset sales that are not reinvested in our business and other dispositions to repay indebtedness under our senior secured credit facilities.

Our senior secured credit facilities also include covenants restricting, among other things, our ability to:

- incur liens;
- incur or assume additional debt or guarantees or issue preferred stock;
- pay dividends, or make redemptions and repurchases, with respect to capital stock;
- prepay, or make redemptions and repurchases of, subordinated debt;
- make loans and investments;
- make capital expenditures;
- engage in mergers, acquisitions, asset sales, sale/leaseback transactions and transactions with affiliates;
- change the business conducted by us or our subsidiaries; and
- amend the terms of subordinated debt.

The operating and financial restrictions and covenants in our senior secured credit facilities and any future financing agreements may adversely affect our ability to finance future operations or capital needs or to engage in other business activities. A breach of any of the restrictive covenants in our senior secured credit facilities would result in a default under our senior secured credit facilities. If any such default occurs, the lenders under our senior secured credit facilities may elect to declare all outstanding borrowings, together with accrued interest and

other fees, to be immediately due and payable, or enforce their security interest, any of which would result in an event of default. The lenders will also have the right in these circumstances to terminate any commitments they have to provide further borrowings.

At September 30, 2008, we failed to satisfy the leverage ratio in our senior secured credit facilities. This default was cured by an equity contribution from affiliates of CCMP. However, CCMP and its affiliates are under no obligation to provide additional funds to us in the event of future covenant defaults.

After this offering, our principal stockholder will continue to have substantial control over us.

After the consummation of this offering, affiliates of CCMP will collectively beneficially own approximately % of our outstanding common stock and will collectively beneficially own approximately % of our outstanding common stock if the underwriters' option to purchase additional shares is exercised in full. As a consequence, CCMP or its affiliates will be able to exert a significant degree of influence or actual control over our management and affairs and will control matters requiring stockholder approval, including the election of directors, a merger, consolidation or sale of all or substantially all of our assets, and any other significant transaction. The interests of this stockholder may not always coincide with our interests or the interests of our other stockholders. For instance, this concentration of ownership may have the effect of delaying or preventing a change in control of us otherwise favored by our other stockholders and could depress our stock price.

Because affiliates of CCMP control more than 50% of the voting power of our common stock, we are a "controlled company" within the meaning of the NYSE's Listed Company Manual. Under the NYSE's Listed Company Manual, a controlled company may elect not to comply with certain NYSE corporate governance requirements, including requirements that: (1) a majority of the board of directors consist of independent directors; (2) compensation of officers be determined or recommended to the board of directors by a majority of its independent directors or by a compensation committee that is composed entirely of independent directors; and (3) director nominees be selected or recommended by a majority of the independent directors or by a nominating committee composed solely of independent directors. Because we have taken advantage of the controlled company exemption to certain NYSE corporate governance requirements, our stockholders do not have the same protections afforded to stockholders of companies that are subject to all of the NYSE corporate governance requirements.

Conflicts of interest may arise because some of our directors are principals of our principal stockholder.

Upon the completion of this offering, representatives of CCMP and its affiliates will occupy a majority of the seats on our board of directors. CCMP or its affiliates could invest in entities that directly or indirectly compete with us or companies in which CCMP or its affiliates are currently invested may already compete with us. As a result of these relationships, when conflicts arise between the interests of CCMP or its affiliates and the interests of our stockholders, these directors may not be disinterested. The representatives of CCMP and its affiliates on our board of directors, by the terms of our amended and restated certificate of incorporation, are not required to offer us any transaction opportunity of which they become aware and could take any such opportunity for themselves or offer it to other companies in which they have an investment, unless such opportunity is expressly offered to them solely in their capacity as our directors.

Forward-looking statements

This prospectus contains forward-looking statements that are subject to risks and uncertainties. All statements other than statements of historical fact included in this prospectus are forward-looking statements. Forward-looking statements give our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance and business. These statements may include words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "may," "should," "can have," "likely," "future" and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

The forward-looking statements contained in this prospectus are based on assumptions that we have made in light of our industry experience and on our perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances. As you read and consider this prospectus, you should understand that these statements are not guarantees of performance or results. They involve risks, uncertainties (some of which are beyond our control) and assumptions. Although we believe that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect our actual financial results and cause them to differ materially from those anticipated in the forward-looking statements. - management's goals, expectations and objectives and other similar expressions concerning matters that are not historical facts.

Factors that could affect our actual financial results and cause them to differ materially from those anticipated in the forward-looking statements include:

- demand for our products;
- power outages and storms;
- availability of raw materials and key components used producing our products;
- competitive factors in the industry in which we operate;
- our dependence on our distribution network;

- loss of our key management and employees;

- increase in product liability claims; and
- other factors that are described under "Risk factors."

Should one or more of these risks or uncertainties materialize, or should any of these assumptions prove incorrect, our actual results may vary in material respects from those projected in these forward-looking statements.

Any forward-looking statement made by us in this prospectus speaks only as of the date on which we make it. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

CCMP transactions

In November 2006, affiliates of CCMP, together with affiliates of Unitas and members of our management, purchased an aggregate of \$689 million of our equity capital. In addition, on November 10, 2006, Generac Power Systems borrowed an aggregate of \$1,380 million, consisting of an initial drawdown of \$950 million under a \$1.1 billion first lien secured credit facility and \$430 million under a \$430 million second lien secured credit facility. With the proceeds from these equity and debt financings, together with cash on hand at Generac Power Systems, we (1) acquired all of the capital stock of Generac Power Systems and repaid certain pre-transaction indebtedness of Generac Power Systems for \$2.0 billion, (2) paid \$66 million in transaction costs related to the transaction and (3) retained \$3.0 million for general corporate purposes.

We refer to the foregoing transactions collectively as the "CCMP Transactions."

Use of proceeds

We estimate that the net proceeds to us from our sale of _____ shares of our common stock in this offering will be \$ _____, after deducting underwriting discounts and commissions and estimated expenses payable by us in connection with this offering. This assumes a public offering price of \$ _____ per share, which is the midpoint of the price range set forth on the cover of this prospectus. We intend to use net proceeds from shares that we sell to pay down a portion of our first and second lien term loans, to pay fees and expenses associated with the offering and for general corporate purposes.

Our first and second lien term loans bear interest at rates based upon either a base rate or adjusted LIBOR rate plus an applicable margin. At June 30, 2009, the interest rates applicable to our first and second lien term loans were 5.7% and 9.2%, respectively. The maturity date for our first and second lien term loans are November 10, 2013 and May 10, 2014, respectively.

A \$1.00 increase (decrease) in the assumed initial public offering price of \$ _____ per share would increase (decrease) the net proceeds to us from this offering by \$ _____ million, assuming the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting underwriting discounts and commissions and estimated expenses payable by us.

Dividend policy

We have never paid dividends on our common stock. After this offering, we intend to retain all available funds and any future earnings to reduce debt and fund the development and growth of our business, and we do not anticipate paying any dividends on our common stock. However, in the future, subject to the factors described below and our future liquidity and capitalization, we may change this policy and choose to pay dividends. Our ability to pay dividends on our common stock is currently restricted by the terms of our senior secured credit facilities and may be further restricted by any future indebtedness we incur. Our business is conducted through our principal operating subsidiary, Generac Power Systems. Dividends from, and cash generated by Generac Power Systems will be our principal sources of cash to repay indebtedness, fund operations and pay dividends. Accordingly, our ability to pay dividends to our stockholders is dependent on the earnings and distributions of funds from Generac Power Systems.

Any future determination to pay dividends will be at the discretion of our board of directors and will take into account:

- restrictions in our senior secured credit facilities;
- general economic and business conditions;
- our financial condition and results of operations;
- our capital requirements;
- the ability of Generac Power Systems to pay dividends and make distributions to us; and
- such other factors as our board of directors may deem relevant.

See "Management's discussion and analysis of financial condition and results of operations."

Capitalization

The following table sets forth our cash and cash equivalents and our capitalization as of June 30, 2009:

- on an actual basis reflecting the capitalization of Generac; and
- on a pro forma as adjusted basis to give effect to (1) the Corporate Reorganization and (2) the sale of _____ shares of our common stock in this offering by us at an assumed initial public offering price of \$ _____ per share (the midpoint of the price range set forth on the cover of this prospectus) after deducting underwriting discounts and commissions and estimated offering expenses payable by us, and the application of the net proceeds from this offering as described in "Use of proceeds."

This table should be read in conjunction with "Use of proceeds," "Selected historical consolidated financial data," "Management's discussion and analysis of financial condition and results of operations" and the consolidated financial statements and the related notes thereto included elsewhere in this prospectus.

Dilution

If you invest in our common stock in this offering, your ownership interest will be diluted to the extent of the difference between the initial public offering price per share and the pro forma as adjusted net tangible book value per share of our common stock upon the completion of this offering.

As of June 30, 2009, our net tangible book value was approximately negative \$860.5 million, or \$ _____ per share. Our net tangible book value represents the amount of our total tangible assets less total liabilities, divided by the total number of shares of common stock outstanding as of June 30, 2009. Dilution in net tangible book value per share represents the difference between the amount per share paid by purchasers of common stock in this offering and the pro forma net tangible book value per share of common stock immediately after the completion of this offering.

After giving effect to (1) the conversion of the multiple outstanding series of capital stock to our common stock in the Corporate Reorganization and (2) the sale of our common stock at an assumed initial public offering price of \$ _____ per share (the midpoint of the price range set forth on the cover of this prospectus), and after deducting underwriting discounts and commissions and estimated offering expenses payable by us, our pro forma as adjusted net tangible book value as of June 30, 2009 would have been approximately \$ _____, or \$ _____ per share.

This represents an immediate increase in pro forma net tangible book value of \$ _____ per share to our existing stockholders and an immediate dilution in pro forma net tangible book value of \$ _____ per share to new investors purchasing shares of our common stock in this offering at the initial public offering price.

The following table illustrates the dilution to new investors on a per share basis:

Assumed initial public offering price per share
Pro forma net tangible book value per share as of June 30, 2009
Increase in pro forma net tangible book value per share attributable to the sale of shares in this offering
Decrease in pro forma net tangible book value per share attributable to the issuance of restricted stock
Pro forma as adjusted net tangible book value per share after this offering
Dilution per share to new investors

A \$1.00 increase (decrease) in the assumed initial public offering price of \$ _____ per share (the midpoint of the price range set forth on the cover of this prospectus) would increase (decrease) our pro forma net tangible book value after this offering by \$ _____ million and increase (decrease) the dilution to new investors by \$ _____ per share, assuming the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us.

The following table summarizes, as of June 30, 2009, the total number of shares of our common stock we issued and sold, the total consideration we received and the average price

per share paid to us by our existing stockholders and to be paid by new investors purchasing shares of our common stock in this offering. The table assumes an initial public offering price of \$ _____ per share (the midpoint of the price range set forth on the cover of this prospectus) and deducts underwriting discounts and commissions and estimated offering expenses payable by us:

	<u>Shares purchased</u>		<u>Total consideration</u>		<u>Average price per share</u>
	<u>Number</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>	
Existing stockholders		%	\$	%	\$
New investors					
Total		100%		100%	

A \$1.00 increase (decrease) in the assumed initial public offering price of \$ _____ per share (the midpoint of the price range set forth on the cover of this prospectus) would increase (decrease) the total consideration paid by new investors by \$ _____ and the total consideration paid by all stockholders by \$ _____.

In addition, we may choose to raise additional capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities, the issuance of such securities could result in further dilution to our stockholders.

Selected historical consolidated financial data

The following table sets forth our selected historical consolidated financial data for the periods and at the dates indicated. The selected historical consolidated financial data for the years ended December 31, 2006, 2007 and 2008 are derived from our audited consolidated financial statements included elsewhere in this prospectus. The selected historical consolidated financial data for the years ended December 31, 2004 and 2005 are derived from our historical financial statements not included in this prospectus.

The selected historical consolidated financial data for the six months ended June 30, 2008 and 2009 are derived from our unaudited condensed consolidated financial statements included elsewhere in this prospectus. In the opinion of management, the unaudited condensed consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements and include all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of our operating results and financial position for those periods and as of such dates. The results for any interim period are not necessarily indicative of the results that may be expected for a full year.

In November 2006, affiliates of CCMP, together with affiliates of Unitas and members of our management, formed Generac and, through Generac, acquired all of the capital stock of Generac Power Systems. See "CCMP transactions." Generac in all periods prior to November 2006 is referred to as "Predecessor," and in all periods including and after such date is referred to as "Successor." The consolidated financial statements for all Successor periods may not be comparable to those of the Predecessor Period.

The results indicated below and elsewhere in this prospectus are not necessarily indicative of our future performance. You should read this information together with "Capitalization," "Management's discussion and analysis of financial condition and results of operations" and our consolidated financial statements and related notes included elsewhere in this prospectus.

(1) Our financial data for the year ended December 31, 2005 were derived from consolidated financial statements of Generac Power Systems as of and for the year ended December 31, 2005 that were audited by another audit firm whose report dated March 31, 2006 expressed an unqualified opinion on those financial statements. These results agree to those audited financial statements, except for adjustment for an accounting change related to revenue recognition such that the 2005 period is in compliance with SAB No. 104 and consistent with all other periods presented.

(2) Our amortization of intangibles expenses include the straight-line amortization of customer lists, patents and other intangibles assets.

(3) Transaction-related expenses incurred by the Predecessor, which primarily related to the settlement of the employee share appreciation program in connection with the CCMP Transactions.

(4) As of October 31, 2008, as a result of our annual goodwill and trade names impairment test, we determined that an impairment of goodwill and trade names existed, and we recognized a non-cash charge of \$583.5 million in 2008.

(5) During 2007, affiliates of CCMP acquired \$80.3 million principal amount of second lien term loans for approximately \$60.0 million. CCMP's affiliates exchanged this debt for additional shares of our Class B Common Stock. We subsequently contributed this debt to Generac Power Systems. The fair value of the shares exchanged was \$60.0 million. We recorded this transaction as additional Class B Common Stock of \$60.0 million based on the fair value of the debt contributed by CCMP's affiliates, which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by Generac Power Systems. Consequently, we recorded a gain on extinguishment of debt of \$18.8 million, which includes a write-off of deferred financing fees and other closing costs in the consolidated statement of operations for the year ended December 31, 2007.

During 2008, affiliates of CCMP acquired \$148.9 million principal amount of second lien term loans for approximately \$81.1 million. CCMP's affiliates exchanged this debt for additional shares of our Class B Common Stock and Series A Preferred Stock. We subsequently contributed this debt to Generac Power Systems. The fair value of the shares exchanged was \$81.1 million. We recorded this transaction as Series A Preferred Stock of \$62.9 million and Class B Common Stock of \$18.2 million based on the fair value of the debt contributed by CCMP's affiliates, which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by Generac Power Systems. Consequently, we recorded a gain on extinguishment of debt of \$65.4 million, which includes a write-off of deferred financing fees and other closing costs in the consolidated statement of operations for the year ended December 31, 2008.

During the six months ended June 30, 2009, affiliates of CCMP acquired \$9.9 million principal amount of first lien term loans and \$18.0 million principal amount of second lien term loans for approximately \$14.0 million. CCMP's affiliates exchanged this debt for 1,398,9149 shares of Series A Preferred Stock. We subsequently contributed this debt to Generac Power Systems. The fair value of the shares exchanged was \$14.0 million. We recorded this transaction as additional Series A Preferred Stock of \$14.0 million based on the fair value of the debt contributed by CCMP's affiliates, which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by Generac Power Systems. Consequently, we recorded a gain on extinguishment of debt of \$13.5 million, which includes a write-off of deferred financing fees and other closing costs, in the consolidated statement of operations for the six months ended June 30, 2009.

During the six months ended June 30, 2008, affiliates of CCMP acquired \$24.0 million principal amount of second lien term loans for approximately \$18.2 million. CCMP's affiliates exchanged this debt for 2,400 shares of Class B Common Stock. We subsequently contributed this debt to Generac Powers Systems. The fair value of the shares exchanged was \$18.2 million. We recorded this transaction as additional Class B Common Stock of \$18.2 million based on the fair value of the debt contributed by CCMP's affiliates, which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by Generac Power Systems. Consequently, we recorded a gain on extinguishment of debt of \$5.3 million, which includes a write-off of deferred financing fees and other closing costs, in the consolidated statement of operations for the six months ended June 30, 2008.

(6) n/m—Earnings per share for the Predecessor has not been presented since it is not meaningful due to changes in our equity structure that resulted from the CCMP Transactions.

(7) Represents earnings per common share after giving effect to the Corporate Reorganization.

(8) Includes our Series A Preferred Stock and Class B Common Stock. See Note 6 to our audited consolidated financial statements included elsewhere in this prospectus.

Management's discussion and analysis of financial condition and results of operations

The following discussion and analysis of our financial condition and results of operations should be read together with "Selected historical consolidated financial data" and the consolidated financial statements and the related notes included elsewhere in this prospectus. This discussion contains forward-looking statements, based on current expectations and related to future events and our future financial performance, that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors, including those set forth under "Risk factors," "Forward-looking statements" and elsewhere in this prospectus.

Overview

We are a leading designer and manufacturer of a wide range of automatic, stationary standby and portable generators. As the only significant market participant focused exclusively on these products, we have a leading market share of the standby generator market in the United States and Canada, having grown our company organically by a 16% CAGR since 2000. We design, engineer and manufacture generators with an output of between 800W and 9mW of power. We design, manufacture, source and modify engines, alternators, automatic transfer switches and other components necessary for our products. Our generators are fueled by natural gas, liquid propane, gasoline, diesel and Bi-Fuel™. Our products serve the power requirements of a wide variety of end markets including the residential, commercial, industrial and telecommunications markets.

Business drivers and measures

In operating our business and monitoring its performance, we pay attention to a number of industry trends, performance measures and operational factors. The statements in this section are based on our current expectations.

Industry trends

Our performance is affected by the demand for reliable power solutions by our customer base. This demand is influenced by several important trends affecting our industry, including the following:

Increasing penetration opportunity. Given the significant reduction in product cost for installed standby generators in the residential and light commercial markets over the last decade, many potential customers are not aware of the costs and benefits of backup power solutions. We estimate that penetration rates for residential products are approximately 2% of U.S. single-family detached, owner-occupied households with a home value of over \$100,000, as defined by the U.S. Census Bureau's 2007 American Housing Survey for the United States, and penetration rates of many light commercial outlets such as restaurants, drug stores, and gas stations are significantly lower than penetration of hospitals and industrial locations. We believe that by expanding our distribution network, continuing to develop our product line, and targeting our marketing efforts, we can continue to build awareness for our standby generators.

Effect of large scale power disruptions. Power disruptions are an important driver of consumer awareness and have historically influenced demand for generators. Disruptions in the

aging U.S. power grid and tropical and winter storm activity increase product awareness and may drive consumers to accelerate their purchase of a standby or portable generator during the immediate and subsequent period, which may last for six to twelve months for standby generators. While there are power outages every year across all regions of the country, major storm activity is unpredictable by nature and, as a result, our sales levels and profitability may fluctuate from period to period.

Impact of business capital investment cycle. The market for commercial and industrial generators is affected by the capital investment cycle and overall durable goods spending, as businesses either add new locations or make investments to upgrade existing locations. These trends can have a material impact on demand for industrial and commercial generators. However the capital investment cycle may differ for the various industrial and commercial end markets (industrial, telecommunications, distribution, retail health care facilities and municipal infrastructure, among others). The market for generators is also affected by general economic conditions and trends in durable goods spending by consumers and businesses.

Operational factors

We are subject to various factors that can affect our results of operations, which we attempt to mitigate through factors we can control, including continued product development, pricing and cost control. The operational factors that affect our business include the following:

New product start-up costs. When we launch new products, we generally experience an increase in start-up costs, including engineering expenses, air freight expenses, testing expenses and marketing expenses, resulting in lower gross margins after the initial launch of a new product. Margins on new product introductions generally increase over the life of the product as these start-up costs decline and we focus our engineering efforts on product cost reduction.

Effect of commodity and component price fluctuations. Industry-wide price fluctuations of key commodities, such as steel, copper and aluminum and other components we use in our products, can have a material impact on our results of operations. We have historically attempted to mitigate the impact of commodity and component prices through improved product design, price increases and select hedging transactions. Our results are also influenced by changes in fuel prices in the form of freight rates, which in some cases are borne by our customers and in other cases are paid by us.

Other factors

Other factors that affect our results of operations include the following:

Factors influencing interest and amortization expense. As a result of the CCMP Transactions, our interest expense and amortization expense have increased. Accordingly, our consolidated financial statements prior to November 2006 are not comparable to subsequent periods, primarily as a result of significantly increased interest expense and amortization expense. We anticipate that interest expense will decrease after completion of this offering because we intend to use a portion of the net proceeds from the offering to repay outstanding indebtedness.

Seasonality. Although there is demand for our products throughout the year, in each of the past three years approximately 20% to 25% of our net sales occurred in the first quarter, 22% to 31% in the second quarter, 26% to 29% in the third quarter and 21% to 30% in the fourth quarter, with different seasonality depending on the timing of outage activity in each year. We

maintain a flexible production schedule in order to respond to weather-driven peak demand, but typically increase production levels in the second and third quarters of each year.

CCMP transactions

In November 2006, affiliates of CCMP, together with affiliates of Unitas and members of our management, purchased an aggregate of \$689 million of our equity capital. In addition, on November 10, 2006, Generac Power Systems borrowed an aggregate of \$1,380 million, consisting of an initial drawdown of \$950 million under a \$1.1 billion first lien secured credit facility and \$430 million under a \$430 million second lien secured credit facility. With the proceeds from these equity and debt financings, together with cash on hand at Generac Power Systems, we (1) acquired all of the capital stock of Generac Power Systems and repaid certain pre-transaction indebtedness of Generac Power Systems for \$2.0 billion, (2) paid \$66 million in transaction costs related to the transaction and (3) retained \$3 million for general corporate purposes. See "CCMP transactions."

In 2007 and 2008, we issued shares of our Class B Common Stock in exchange for term loans in the amount of \$104.3 million under our second lien credit facility that affiliates of CCMP had purchased in the secondary market, and, as a result of a preemptive rights offer, those shares are now held by certain affiliates of CCMP, certain affiliates of Unitas and members of our board of directors and management.

During 2007, affiliates of CCMP acquired \$80.3 million principal amount of second lien term loans for approximately \$60.0 million. CCMP's affiliates exchanged this debt for additional shares of Class B Common Stock. We subsequently contributed this debt to Generac Power Systems. The fair value of the shares exchanged was \$60.0 million. We recorded this transaction as additional Class B Common Stock of \$60.0 million based on the fair value of the debt contributed by CCMP's affiliates, which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by Generac Power Systems. Consequently, we recorded a gain on extinguishment of debt of \$18.8 million, which includes the write-off of deferred financing fees and other closing costs, in the consolidated statement of operations for the year ended December 31, 2007.

During 2008, affiliates of CCMP acquired \$148.9 million principal amount of second lien term loans for approximately \$81.1 million. CCMP's affiliates exchanged this debt for additional shares of Class B Common Stock and Series A Preferred Stock. We subsequently contributed this debt to Generac Power Systems. The fair value of the shares exchanged was \$81.1 million. We recorded this transaction as Series A Preferred Stock of \$62.9 million and Class B Common Stock of \$18.2 million based on the fair value of the debt contributed by CCMP's affiliates, which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by Generac Power Systems. Consequently, we recorded a gain on extinguishment of debt of \$65.4 million, which includes the write-off of deferred financing fees and other closing costs, in the consolidated statement of operations for the year ended December 31, 2008.

During the six months ended June 30, 2009, affiliates of CCMP acquired \$9.9 million principal amount of first lien term loans and \$18.0 million principal amount of second lien term loans for approximately \$14.0 million. CCMP's affiliates exchanged this debt for 1,398,9149 shares of Series A Preferred Stock. We subsequently contributed this debt to Generac Power Systems. The fair value of the shares exchanged was \$14.0 million. We recorded this transaction as additional Series A Preferred Stock of \$14.0 million based on the fair value of the debt contributed by CCMP's affiliates, which approximated the fair value of shares exchanged. The

debt is now held in treasury at face value by Generac Power Systems. Consequently, we recorded a gain on extinguishment of debt of \$13.5 million, which includes a write-off of deferred financing fees and other closing costs, in the consolidated statement of operations for the six months ended June 30, 2009.

Subsequent to June 30, 2009, affiliates of CCMP acquired \$2.0 million principal amount of second lien term loans for approximately \$765,000. CCMP's affiliates exchanged this debt for 76,544 additional shares of Series A Preferred Stock.

Subsequent to June 30, 2009, we issued 2,000 shares of Series A Preferred Stock for an aggregate purchase price of \$20.0 million in cash to affiliates of CCMP and certain members of management and the board of directors. Additionally, in accordance with the preemptive rights provisions of the shareholders' agreement described in "Certain relationships and related person transactions," affiliates of CCMP sold shares of Series A Preferred Stock they had purchased previously to certain investment funds affiliated with CCMP and a member of the board of directors at the same price.

Corporate reorganization

Prior to the consummation of this offering and after giving effect to a _____ for one reverse Class A Common Stock split:

- our Class B Common Stock will convert automatically into an aggregate of _____ shares of our Class A Common Stock;
- our Series A Preferred Stock will convert automatically into an aggregate of _____ shares of our Class A Common Stock; and
- our Class A Common Stock will be reclassified as common stock.

Components of net sales and expenses

Net sales

Substantially all of our net sales are generated through the sale of our automatic, stationary standby and portable generators to the residential, commercial, industrial and telecommunications markets. We also sell air-cooled engines to certain customers and sell service parts to our dealer network. Net sales are recognized upon shipment of products to our customers. Shipping net sales are recognized when customers reimburse us for finished product shipping costs and are realized at the time of shipment. Our generators are fueled by natural gas, liquid propane, gasoline, diesel or Bi-Fuel™ systems with power output from 800W to 9mW. Our products are primarily manufactured and assembled at our Wisconsin facilities and distributed through over 17,000 outlets across the United States and Canada. Our smaller kW generators for the residential, portable and commercial markets are typically built to stock, while our larger kW products for the industrial markets are generally customized and built to order.

Our net sales are affected primarily by the U.S. economy, with 96% of our net sales for the year ended December 31, 2008 generated in the United States, and the remainder generated primarily in Canada.

We are not dependent on any one industry or customer for our net sales, with no single customer representing more than 7% of our net sales for the year ended December 31, 2008 and our top ten customers representing less than 32% of our net sales for the same period.

Costs of goods sold

The principal elements of costs of goods sold in our manufacturing operations are component parts, raw materials, factory overhead and labor. Component parts and raw materials comprised over 80% of costs of goods sold for the year ended December 31, 2008. The principal component parts are engines and alternators. We design and manufacture air-cooled engines for certain of our products smaller than 20kW. We source engines for some of our smaller products and all of our products larger than 20kW. We design all the alternators for our units and manufacture alternators for certain of our units. We also manufacture other generator components where we believe we have a design and cost advantage. We source component parts from an extensive global network of reliable, low-cost suppliers.

The principal raw materials used in our manufacturing processes and in the manufacturing of the components we source are steel, copper and aluminum. We are susceptible to fluctuations in the cost of these commodities, impacting our costs of goods sold. We seek to mitigate the impact of commodity prices on our business through a continued focus on product design improvements and price increases in our products. However, there is typically a lag between raw material price fluctuations and their effect on our costs of goods sold.

Other sources of costs include our manufacturing facilities, which require significant factory overhead, labor and shipping costs, are also significant sources of costs. Factory overhead includes utilities, support personnel, depreciation, general supplies and support and maintenance. Although we maintain a low-cost, largely non-union workforce and flexible manufacturing processes, our margins can be impacted when we cannot promptly decrease labor and manufacturing costs to match declines in net sales.

Operating expenses

Our operating expenses consist of costs incurred to support our marketing, distribution, engineering, information systems, human resources, finance, purchasing, risk management, legal and tax functions. All of these categories include personnel costs such as salaries, bonuses, employee benefit costs and taxes. We classify our operating expenses into four categories: selling and service, research and development, general and administrative, and amortization of intangibles.

Selling and service. Our selling and service expenses consist primarily of personnel expense, marketing expense, warranty expense and other sales expenses. Our personnel expense recorded in selling and services expenses includes the expense of our sales force responsible for our national accounts and other personnel involved in the marketing and sales of our products. Warranty expense, which is recorded at the time of sale, is estimated based on historical trends. Our marketing expenses include direct mail costs, printed material costs, product display costs, market research expenses, trade show expenses and media advertising. Marketing expenses generally increase as our sales efforts increase and are related to the launch of new product offerings and opportunities within selected markets or associated with specific events such as awareness marketing in areas impacted by storms, participation in trade shows and other events.

Research and development. Our research and development expenses support our nearly 100 active research and development projects. We currently operate three advanced facilities and employ over 100 engineers who focus on new product development, existing product improvement and cost reduction. Our commitment to research and development has resulted

in a significant portfolio of approximately 50 U.S. and international patents and patent applications. Our research and development is expensed as incurred.

General and administrative. Our general and administrative expenses include personnel costs for general and administrative employees, accounting and legal professional services fees, information technology costs, insurance, travel and entertainment expense and other corporate expense. We expect our general and administrative expenses to increase in future periods as we expect to incur additional expenses associated with being a public company, including increased personnel costs, legal costs, accounting costs, board compensation expense, investor relations costs, higher insurance premiums and costs associated with our compliance with Section 404 of the Sarbanes-Oxley Act of 2002, other applicable SEC regulations and the requirements of the NYSE.

Amortization of intangibles. Our amortization of intangibles expenses include the straight-line amortization of customer lists, patents and other intangibles assets.

Goodwill and trade name impairment charges. Goodwill represents the excess of the amount paid to acquire us over the estimated fair value of the net tangible and intangible assets acquired as of the November 2006 date of the CCMP Transactions.

Other indefinite-lived intangible assets consist of trade names. The fair value of trade names is measured using a relief-from-royalty approach, which assumes the fair value of the trade name is the discounted cash flows of the amount that would be paid had we not owned the trade name and instead licensed the trade name from another company.

In some periods, we have recorded a charge for the writedown of goodwill and trade names that was recorded in operating expenses. Please see "Critical accounting policies—Goodwill and other intangible assets" for additional detail on this charge.

Transaction-related expenses. In the year ended December 31, 2006, our operating expenses include one-time transaction-related expenses incurred during the Predecessor Period related to the CCMP Transactions.

Other income (expense)

Our other income (expense) includes the interest expense on the outstanding balances of our \$950.0 million first lien term loan, \$430.0 million second lien term loan and \$150.0 million revolving credit facility entered into in November 2006 and the amortization of debt financing costs. No amounts were outstanding under the revolving credit facility at June 30, 2009 and December 31, 2008. The amounts borrowed under our term loans bear interest at rates based upon either a base rate or LIBOR, plus an applicable margin. We also earn interest income on our cash and cash equivalents, which is included in other income (expense). We also record expenses related to interest rate swap agreements, which had a notional amount of \$675.0 million outstanding at June 30, 2009 at an average rate of 5.04%. Other income (expense) may also include other financial items such as extinguishment of debt.

Taxes

Because we made a Section 338(h)(10) election in connection with the CCMP Transactions, we have \$1.5 billion of tax-deductible goodwill and intangible asset amortization remaining as of June 30, 2009 that we expect to generate cash federal tax savings of \$529 million through 2021, assuming continued profitability and a 35% federal tax rate. The amortization of these assets for tax purposes is expected to be \$122 million annually through 2020 and \$102 million

in 2021, which generates annual cash tax savings of \$43 million through 2020 and \$36 million in 2021, assuming profitability and a 35% federal tax rate. Additionally, we have net operating loss, or NOL, carry-forwards of \$131 million as of December 31, 2008, which we expect to generate an additional \$46 million of cash tax savings when and if utilized.

Based on current business plans, we believe that our cash tax obligations through 2021 will be significantly reduced by these tax attributes.

Critical accounting policies

Our critical accounting policies are more fully described in Note 2 to our audited consolidated financial statements included elsewhere in this prospectus. As discussed in Note 2, the preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results may differ from those estimates, and such differences may be material to the financial statements.

The most significant accounting estimates inherent in the preparation of our financial statements include a goodwill and other indefinite-lived intangible asset impairment assessment, estimates as to the recovery of accounts receivable and inventory reserves, and estimates used in the determination of liabilities related to customer rebates, pension obligations, product warranty, product liability, interest rate swap derivative contracts and taxation.

Goodwill and other intangible assets

We perform an annual impairment test for goodwill and trade names and more frequently if an event or circumstances indicate that an impairment loss has been incurred. Conditions that would trigger an impairment assessment include, but are not limited to, a significant adverse change in legal factors or business climate that could affect the value of an asset. The analysis of potential impairment of goodwill requires a two-step process. The first step is the estimation of fair value of the applicable reporting unit. We have determined we have one reporting unit, and all significant decisions are made on a companywide basis by our chief operating decision maker. Estimated fair value is based on a third-party valuation firm, and those fair values are compared with our aggregate carrying value. If our fair value is greater than the carrying amount, there is no impairment. If our carrying amount is greater than the fair value, then the second step must be completed to measure the amount of impairment, if any.

The second step calculates the implied fair value of the goodwill, which is compared to its carrying value. If the implied fair value is less than the carrying value, an impairment loss is recognized equal to the difference.

As of October 31, 2008, we performed our annual goodwill impairment test. Our fair value was estimated based on a weighted average of a discounted cash flow analysis and comparable public company analysis (i.e., market approach). The rate used in determining discounted cash flows is a rate corresponding to our weighted average cost of capital, adjusted for risk where appropriate. In determining the estimated future cash flows, current and future levels of income are considered as well as business trends and market conditions. Due to an increase in the our weighted average cost of capital and lower comparable public company market values

resulting from weakening economic conditions, the analysis indicated the potential for impairment.

With the assistance of a third-party valuation firm, we performed the second step and determined an impairment of goodwill existed. Accordingly, a non-cash charge of \$503.2 million was recognized in 2008 for goodwill impairment. Due to the current economic uncertainty and other factors, our remaining goodwill could be further impaired in future periods. There was no impairment recorded for the year ended December 31, 2007.

We performed our annual fair value-based impairment test on trade names as of October 31, 2008. As a result of the test, we recorded a non-cash charge of \$80.3 million for trade name impairment. The primary reason for this impairment charge related to a re-branding strategy, which was committed to in the fourth quarter of 2008 and resulted in our planned discontinued use of the Guardian® trade name. Accordingly, this trade name was written down to its estimated realizable value of \$8.7 million, which will be amortized over its remaining useful life of two years.

Defined benefit pension obligations

The funded status of our pension plans is more fully described in Note 9 to our audited consolidated financial statements included elsewhere in this prospectus. As discussed in Note 9, the pension benefit obligation and related pension expense or income are calculated in accordance with SFAS No.158, "Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of Financial Accounting Standards Board (FASB) Statements No. 87, 88, 106 and 132 (R)," and are impacted by certain actuarial assumptions, including the discount rate and the expected rate of return on plan assets.

Rates are evaluated on an annual basis considering such factors as market interest rates and historical asset performance. Actuarial valuations for fiscal year 2008 used a discount rate of 6.48% and an expected rate of return on plan assets of 9.0%. Our discount rate was selected using a methodology that matches plan cash flows with a selection of Moody's Aa or higher rated bonds, resulting in a discount rate that better matches a bond yield curve with comparable cash flows. In estimating the expected return on plan assets, we study historical markets and preserve the long-term historical relationships between equities and fixed-income securities. We evaluate current market factors such as inflation and interest rates before we determine long-term capital market assumptions and review peer data and historical returns to check for reasonableness and appropriateness. Changes in the discount rate and return on assets can have a significant effect on the funded status of our pension plans, stockholders' equity and related expense. We cannot predict these changes in discount rates or investment returns and, therefore, cannot reasonably estimate whether the impact in subsequent years will be significant.

The funded status of our pension plans is the difference between the projected benefit obligation and the fair value of its plan assets. The projected benefit obligation is the actuarial present value of all benefits expected to be earned by the employees' service adjusted for future potential wage increases. At December 31, 2008, the fair value of plan assets was less than the projected benefit obligation by approximately \$14.4 million.

Our funding policy for our pension plans is to contribute amounts at least equal to the minimum annual amount required by applicable regulations. We expect to contribute \$850,000 to our pension plans in 2009. See Note 9 to our audited consolidated financial statements included elsewhere in this prospectus for a description of our pension plans.

We elected to freeze our pension plans effective December 31, 2008. This resulted in a cessation of all future benefit accruals for both hourly and salary pension plans. A curtailment liability gain of \$5.8 million related to the salary plan was recognized as a reduction to the unrecognized net loss, as the curtailment liability gain was less than the unrecognized net loss prior to the plan amendment and therefore did not impact the statement of operations for the year ended December 31, 2008.

Allowance for doubtful accounts, excess and obsolete inventory reserves, product warranty reserves and other SFAS No. 5 accruals

The reserves, if any, for customer rebates, product warranty, product liability, litigation, excess and obsolete inventory and doubtful accounts are fact-specific and take into account such factors as specific customer situations, historical experience, and current and expected economic conditions. These reserves are reflected under Notes 2, 3, 4 and 13 to our audited consolidated financial statements included elsewhere in this prospectus.

Derivative accounting

We have interest rate swap contracts, or the Swaps, in place to fix a portion of our variable rate indebtedness. For 2006, 2007 and 2008, the Swaps were deemed highly effective per SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," or SFAS No. 133, and therefore, any changes in fair value of these Swaps is recorded in accumulated other comprehensive income (loss). As of January 3, 2009, in accordance with the terms of our senior secured credit facilities, we changed the interest rate election from three-month LIBOR to one-month LIBOR. As a result, we concluded that as of January 3, 2009, the Swaps no longer met hedge effectiveness criteria under SFAS No. 133. Future changes in the fair value of the Swaps will be immediately recognized in our statement of operations as interest expense, while the effective portion of the Swaps prior to the change will remain in accumulated other comprehensive income (loss) and will be amortized as interest expense over the period of the originally designated hedged transactions scheduled to end on January 4, 2010.

We estimated the fair value of the Swaps pursuant to SFAS No. 157, "Fair Value Measurements," or SFAS No. 157, which defines fair value, establishes a consistent framework for measuring fair value and expands disclosure for each major asset and liability category measured at fair value. When determining the fair value of the Swaps, we considered our credit risk in accordance with SFAS No. 157. The fair value of the Swaps, including the impact of credit risk, at December 31, 2007 and 2008 was a liability of \$18.5 million and \$24.2 million, respectively.

Income taxes

We account for income taxes in accordance with SFAS No. 109, "Accounting for Income Taxes." Our estimate of income taxes payable, deferred income taxes and the effective tax rate is based on an analysis of many factors including interpretations of federal and state income tax laws, the difference between tax and financial reporting bases of assets and liabilities, estimates of amounts currently due or owed in various jurisdictions, and current accounting standards. We review and update our estimates on a quarterly basis as facts and circumstances change and actual results are known.

We have generated significant deferred tax assets as a result of goodwill and intangible asset book versus tax differences as well as significant net operating loss carryforwards to date. In assessing the realizability of these deferred tax assets, we consider whether it is more likely

than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the years in which those temporary differences become deductible. We consider the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. As a result of this analysis, we have recorded a full valuation allowance against these net deferred tax assets.

On January 1, 2007, we adopted the provisions of ASC 740-10 (formerly known as FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109"). ASC 740-10 prescribes a comprehensive model for how a company should recognize, measure, present and disclose in its financial statements uncertain tax positions that a company has taken or expects to take on tax returns. As such, accruals for tax contingencies, if any, are provided for in accordance with the requirements of ASC 740-10.

Results of operations

Six months ended June 30, 2009 compared to six months ended June 30, 2008

The following table sets forth our consolidated statement of operations data for the periods indicated:

(Dollars in thousands)	Six months ended	
	2008	June 30, 2009
Net sales	\$ 236,550	\$ 290,023
Costs of goods sold	148,507	182,308
Gross profit	88,043	107,715
Operating expenses:		
Selling and service	25,788	30,243
Research and development	5,270	5,237
General and administrative	7,898	7,867
Amortization of intangibles	23,606	25,766
Total operating expenses	62,562	69,113
Income from operations	25,481	38,602
Total other expense, net	(48,382)	(26,567)
Income (loss) before provision (benefit) for income taxes	(22,901)	12,035
Provision (benefit) for income taxes	4,144	212
Net income (loss)	\$ (27,045)	\$ 11,823

Net sales. Net sales increased \$53.5 million, or 22.6%, to \$290.0 million for the six months ended June 30, 2009 from \$236.6 million for the six months ended June 30, 2008. This increase was driven by increased sales volumes of home standby generators following the introduction of our new air-cooled product line in June 2008 and increases in our points of distribution on a year-over-year basis. Sales volumes of portable generators also increased, driven by our re-entry into the small kilowatt portable generator market in May 2008 and a strong winter storm season in 2009. Net sales were also impacted by increased selling prices on certain residential, commercial and industrial units. Strength in home standby and portable generators was partially offset by weaker industrial and commercial sales volumes as customers lowered capital spending.

Costs of goods sold. Costs of goods sold increased \$33.8 million, or 22.8%, to \$182.3 million for the six months ended June 30, 2009 from \$148.5 million for the six months ended June 30, 2008. This increase was driven primarily by increased sales volumes of home standby and portable generators.

Gross profit. Gross profit increased \$19.7 million, or 22.3%, to \$107.7 million for the six months ended June 30, 2009 from \$88.0 million for the six months ended June 30, 2008, primarily due to the increase in net sales described above. As a percentage of net sales, gross profit remained relatively flat at 37.1% for the six months ended June 30, 2009 from 37.2% for the six months ended June 30, 2008. We realized margin improvement from price increases and improved sourcing of certain components and products, offset by higher sales of lower margin products.

Operating expenses. Operating expenses increased \$6.6 million, or 10.5%, to \$69.1 million for the six months ended June 30, 2009 from \$62.6 million for the six months ended June 30, 2008. This increase was attributable to higher variable selling and service expenses in connection with our increase in net sales, such as warranty, commission and credit card fees, as well as higher advertising costs. Amortization of intangibles also increased because of the recharacterization of certain trade names from indefinite lived to defined life as a result of our October 2008 impairment review of goodwill and other indefinite-lived assets. These increases were partially offset by cost reduction initiatives across the business.

Other expense. Other expense decreased \$21.8 million, or 45.1%, to \$26.6 million for the six months ended June 30, 2009 from \$48.4 million for the six months ended June 30, 2008. This decrease was driven by an increase in the gains on extinguishment of debt from \$5.3 million for the six months ended June 30, 2008 to \$13.5 million for the six months ended June 30, 2009, and the decrease in interest expense from \$54.4 million for the six months ended June 30, 2008 to \$41.4 million for the six months ended June 30, 2009 as a result of our reduction in indebtedness and lower LIBOR rates. The gains on extinguishment of debt and the related decrease in interest expense are due to debt repurchases by affiliates of CCMP of \$104.3 million of our second lien term loans from September 2007 to April 2008, which such CCMP affiliates contributed to our company in exchange for shares of our Class B Voting Common Stock, and debt repurchases of \$154.8 million of our first and second lien term loans from December 2008 to July 2009, which such CCMP affiliates contributed to our company in exchange for shares of our Series A Preferred Stock. We subsequently contributed this debt to Generac Power Systems. See "Certain relationships and related person transactions."

Income tax expense (benefit). Income tax expense was \$0.2 million for the six months ended June 30, 2009 and \$4.1 million for the six months ended June 30, 2008. During the six months ended June 30, 2008, our tax basis in goodwill was lower than our book basis. As such, deferred tax liability was recognized in the consolidated balance sheet. These deferred tax liabilities were considered to have an indefinite life and therefore were ineligible to be considered as a source of future taxable income in assessing the realization of deferred tax assets. This resulted in tax expense of \$4.1 million recorded in our consolidated statement of operations for the six months ended June 30, 2008.

Net income (loss). As a result of the factors identified above, we generated net income of \$11.8 million for the six months ended June 30, 2009 and a loss of \$27.0 million for the six months ended June 30, 2008.

Year ended December 31, 2008 compared to year ended December 31, 2007

The following table sets forth our consolidated statement of operations data for the periods indicated:

(Dollars in thousands)	Year ended December 31,	
	2007	2008
Net sales	\$ 555,705	\$ 574,229
Costs of goods sold	333,428	372,199

Research and development	9,606	9,925
General and administrative	17,581	15,869
Amortization of intangibles	47,602	47,602

Total operating expenses	127,441	714,331
Income (loss) from operations	94,836	(512,301)
Total other expense, net	(105,121)	(43,254)
Loss before provision (benefit) for income taxes	(10,285)	(555,555)
Provision (benefit) for income taxes	(571)	400
Net loss	\$ (9,714)	\$ (555,955)

Net sales. Net sales increased \$18.5 million, or 3.3%, to \$574.2 million for the year ended December 31, 2008 from \$555.7 million for the year ended December 31, 2007. This increase was driven by our re-entry into the small kilowatt portable generator market in the second quarter of 2008, increased sales volumes of standby generators following the redesign of our air-cooled home standby generators and growth in our dealer and electrical wholesale points of distribution. Demand for home standby and portable products was also aided by heightened awareness following a strong hurricane and winter ice storm season. These sales were somewhat offset by declines in sales of engines and generators for recreational vehicles, or RVs. In 2008 we also experienced a modest increase in sales to commercial and industrial markets.

Costs of goods sold. Costs of goods sold increased \$38.8 million, or 11.6%, to \$372.2 million for the year ended December 31, 2008 from \$333.4 million for the year ended December 31, 2007. This increase was driven primarily by increases in commodity prices, including steel, copper and aluminum affecting all of our product lines.

Gross profit. Gross profit decreased \$20.2 million, or 9.1%, to \$202.0 million for the year ended December 31, 2008 from \$222.3 million for the year ended December 31, 2007. As a percentage of net sales, gross profit declined to 35.2% for the year ended December 31, 2008 from 40.0% for the year ended December 31, 2007. This decline was primarily due to the above-mentioned increases in commodity prices, as well as an increase in sales of lower margin products.

Operating expenses. Operating expenses increased \$586.9 million to \$714.3 million for the year ended December 31, 2008 from \$127.4 million for the year ended December 31, 2007. This increase is primarily attributable to a \$583.5 million goodwill and trade name impairment

charge that was recorded in the fourth quarter of 2008. Excluding the goodwill and trade name impairment charge, operating expenses increased \$3.4 million, or 2.7%. This was driven primarily by a \$4.8 million increase in selling and service expenses due to increased sales volumes and associated increases in freight and warranty expenses. Research and development costs also increased by \$0.3 million from ongoing product development. As a percentage of net sales, operating expenses, excluding the goodwill and trade name impairment charge, declined to 22.8% for the year ended December 31, 2008 from 22.9% for the year ended December 31, 2007 due to cost management efforts, including a \$1.7 million decline in general and administrative expense and operating cost leverage over higher sales volumes.

Other expense. Other expense decreased \$61.9 million, or 58.9%, to \$43.3 million for the year ended December 31, 2008 from \$105.1 million for the year ended December 31, 2007. This decline was driven by a \$46.6 million increase in gains on the extinguishment of debt to \$65.4 million, as well as a \$17.3 million decrease in interest expense as a result of debt repurchases made during the year and the ongoing deleveraging of the business. The debt repurchases consisted of purchases by affiliates of CCMP of \$104.3 million of our second lien term loans from September 2007 to April 2008, which such CCMP affiliates contributed to our company in exchange for shares of our Class B Common Stock, and \$154.8 million of our first and second lien term loans from December 2008 to July 2009, which such CCMP affiliates contributed to our company in exchange for shares of our Series A Preferred Stock. We subsequently contributed this debt to Generac Power Systems. See "Certain relationships and related person transactions."

Income tax expense (benefit). We incurred an income tax expense of \$0.4 million for the year ended December 31, 2008 compared to an income tax benefit of \$0.6 million for the year ended December 31, 2007.

Net income (loss). As a result of the factors identified above, we generated a net loss of \$556.0 million, for the year ended December 31, 2008, compared to a net loss of \$9.7 million for the year ended December 31, 2007.

Year ended December 31, 2007 compared to the combined year ended December 31, 2006

We compare the year ended December 31, 2007 (post-merger) and the combined periods from January 1, 2006 to November 10, 2006 (Predecessor) and from November 11, 2006 to December 31, 2006 (Successor) for purposes of management's discussion and analysis of the results of operations. Any references below to the year ended December 31, 2006 refer to the combined periods. Material fluctuations in operations resulting from the effect of purchase accounting have been highlighted.

U.S. GAAP does not allow for such combination of Predecessor and Successor financial results. We believe the combined results provide the most meaningful way to comment on our results of operations for the year ended December 31, 2006 compared to the year ended December 31, 2007 because discussion of any partial period comparisons would not be meaningful. The combined information is the result of merely adding the Predecessor and Successor columns, is not consistent with U.S. GAAP and does not include any pro forma assumptions or adjustments.

The following table sets forth our consolidated statement of operations data for the periods indicated:

	Predecessor		Successor

Net sales. Net sales declined \$124.7 million, or 18.3%, to \$555.7 million for the year ended December 31, 2007 from \$680.4 million for the year ended December 31, 2006. This decline was driven by decreased sales of home standby and portable generators, particularly in the regions where consumer durable purchases weakened in tandem with lower awareness following less active 2006 and 2007 storm seasons compared to the significant hurricane activity in 2005, which led to increased 2006 net sales above the historical trend. This decrease followed two years of significant net sales increases, 31.2% in the year ended December 31, 2006 from \$518.8 million in the year ended December 31, 2005, and 46.4% in 2005 from \$354.2 million in the year ended December 31, 2004. The decline was partially offset by continued strength in shipments to new and existing telecommunications customers. Sales of our MPS products also increased year over year, offsetting lower sales in the engine and RV market.

Costs of goods sold. Costs of goods sold decreased \$93.1 million, or 21.8%, to \$333.4 million for the year ended December 31, 2007 from \$426.5 million for the year ended December 31, 2006. This decrease was primarily driven by lower sales volumes of home standby and portable generators, as well as certain manufacturing cost reductions, including labor and manufacturing overhead.

Gross profit. Gross profit decreased \$31.6 million, or 12.4%, to \$222.3 million for the year ended December 31, 2007 from \$253.8 million for the year ended December 31, 2006, driven primarily by the decline in net sales. As a percentage of net sales, gross profit increased to

40.0% for the year ended December 31, 2007 from 37.3% for the year ended December 31, 2006. This margin improvement was driven by a combination of new product introductions, price increases and ongoing manufacturing cost reductions.

Operating expenses. Operating expenses decreased \$106.6 million, or 45.6%, to \$127.4 million for the year ended December 31, 2007 from \$234.1 million for the year ended December 31, 2006. This was primarily attributable to \$149.8 million in one-time transaction expenses incurred in 2006 during the Predecessor Period. This was offset by a \$39.0 million increase in the amortization of intangibles as a result of the CCMP Transactions incurred for the year ended December 31, 2007 over the prior year.

As a percentage of net sales, operating expenses decreased to 22.9% for the year ended December 31, 2007 from 34.4% for the year ended December 31, 2006. Excluding the impact of the transaction and amortization expenses described above, operating expenses as a percentage of net sales increased to 14.4% in the year ended December 31, 2007 from 11.1% for the year ended December 31, 2006, driven by reduced operating cost leverage on lower sales volumes. Selling and service expenses increased by \$1.6 million due to an increase in strategic marketing expenses. General and administrative expenses increased by \$3.3 million due to higher severance expenses. These increases were partially offset by a \$0.7 million decrease in research and development expenses due to a reduced number of product introductions.

Other expense. Other expense increased \$87.7 million to \$105.1 million for the year ended December 31, 2007 from \$17.4 million for the year ended December 31, 2006. This was largely due to a \$106.3 million increase in interest expense due to the increase in our leverage in connection with the CCMP transactions. We also recorded a gain on the extinguishment of debt of \$18.8 million for the year ended December 31, 2007 as a result of debt purchases by affiliates of CCMP and contributed to us during the year.

Income tax expense (benefit). We recorded an income tax benefit of \$0.6 million for the year ended December 31, 2007 versus income tax expense of \$5.5 million for the year ended December 31, 2006.

Net income (loss). As a result of the factors identified above, net loss after taxes increased by \$6.5 million to a net loss of \$9.7 million for the year ended December 31, 2007, compared to a net loss of \$3.2 million for the year ended December 31, 2006.

Liquidity and capital resources

Our primary cash requirements include the payment of our raw material and components suppliers and operating expenses, interest and principal payments on our debt, and capital expenditures. We finance our operations primarily through cash flow from operations and borrowings under our revolving credit facility. In November 2006, Generac Power Systems entered into a seven-year \$950.0 million first lien term loan, a seven-and-a-half year \$430.0 million second lien term loan, and a six-year \$150.0 million revolving credit facility. To date, we have paid \$29.4 million in principal and our affiliates have repurchased and contributed \$9.9 million in face value of Generac Power System's first lien term loan. Our affiliates have also repurchased and contributed \$249.2 million in face value of Generac Power System's second lien term loan. See "Senior secured credit facilities" below.

At December 31, 2008, we had cash and cash equivalents of \$81.2 million and \$143.3 million of availability under our revolving credit facility, after giving effect to \$6.7 million of outstanding letters of credit. Our total indebtedness was \$1,130.9 million at December 31, 2008. At June 30, 2009, our principal sources of liquidity were cash and cash equivalents of \$90.8 million and \$145.2 million of availability under our revolving credit facility, after giving effect to \$4.8 million of outstanding letters of credit. Our total indebtedness was \$1,093.5 million at June 30, 2009.

Long-term liquidity

We believe that our cash flow from operations, our availability under our revolving credit facility, combined with our low capital expenditure and working capital costs, will provide us with sufficient capital to continue to grow our business in the next twelve months and beyond. However, we will use a significant portion of our cash flow to pay interest on our outstanding debt, limiting the amount available for working capital, capital expenditures and other general corporate purposes. As we continue to expand our business, we may in the future require additional capital to fund working capital, capital expenditures, or acquisitions.

Cash flow

Six months ended June 30, 2009 compared to six months ended June 30, 2008

The following table summarizes our cash flows by category for the periods presented:

(Dollars in thousands)	Six months ended June 30,		Change	% Change
	2008	2009		
Net cash provided by operating activities	\$ 14,787	\$ 20,821	\$ 6,034	40.8%
Net cash used in investing activities	\$ (2,974)	\$ (1,724)	\$ 1,250	42.0%
Net cash flows from financing activities	\$ (10,743)	\$ (9,500)	\$ 1,243	11.6%

Net cash provided by operating activities was \$20.8 million during the six months ended June 30, 2009 compared to \$14.8 million during the six months ended June 30, 2008. This \$6.0 million increase was primarily attributable to the amortization of the unrealized loss on certain derivatives of \$12.1 million and an increase in amortization expense of \$2.2 million, partially offset by a decrease in gains on extinguishment of debt of \$8.2 million. The \$38.9 million increase in net income was offset by a \$38.9 million decrease in cash flows from net changes in operating assets and liabilities.

Net cash used in investing activities for the six months ended June 30, 2009 was \$1.7 million, which was the result of \$1.9 million used for the purchase of property and equipment.

Net cash used for financing activities in the six months ended June 30, 2009 was \$9.5 million due to principal payments on our first lien term loan.

Year ended December 31, 2008 compared to year ended December 31, 2007

The following table summarizes our cash flows by category for the periods presented:

(Dollars in thousands)	Year ended December 31,		Change	% Change
	2007	2008		
Net cash provided by operating activities	\$ 38,513	\$ 10,225	\$ (28,288)	(73.5)%
Net cash used in investing activities	\$ (12,732)	\$ (5,038)	\$ 7,694	60.4%
Net cash flows from financing activities	\$ (8,937)	\$ 4,728	\$ 13,665	152.9%

Net cash provided by operating activities was \$10.2 million for 2008 compared to \$38.5 million in 2007. The \$28.3 million decrease was primarily due to a \$9.4 million increase in net loss, excluding the impact of significant noncash charges such as a \$583.5 million goodwill and trade name impairment charge in 2008 and non-cash gains on extinguishment of debt of \$65.4 million in 2008 and \$18.8 million in 2007. Increases in net operating assets and liabilities led to a further decrease of \$18.8 million of net cash provided by operating activities. The increase in net operating assets and liabilities was primarily the result of increased accounts receivable and inventories, partially offset by an increase in accounts payable.

Net cash used for investing activities for the year ended December 31, 2008 was \$5.0 million and included \$5.2 million used for the purchase of property and equipment. Net cash used for investing activities for the year ended December 31, 2007 was \$12.7 million and included \$13.2 million used for the purchase of property and equipment and the construction of our distribution center in Whitewater, Wisconsin, partially offset by a cash inflow of \$0.4 million from collections on receivable notes.

Net cash provided by financing activities was \$4.7 million for the year ended December 31, 2008, driven by \$15.5 million in stockholder contributions of capital, offset in part by \$10.4 million of payments on our term loans. Net cash used for financing activities was \$8.9 million for the year ended December 31, 2007, primarily due to \$9.5 million in principal payments on our first lien term loan.

Year ended December 31, 2007 compared to the combined year ended December 31, 2006

We compare the year ended December 31, 2007 (post-merger) and the combined periods from January 1, 2006 to November 10, 2006 (Predecessor) and from November 11, 2006 to December 31, 2006 (Successor) for purposes of management's discussion and analysis of our cash flows. Any references below to the year ended December 31, 2006 refer to the combined periods. Material fluctuations in cash flows resulting from the effect of purchase accounting have been highlighted.

U.S. GAAP does not allow for such combination of Predecessor and Successor financial results. We believe the combined information provides the most meaningful way to comment on our cash flows for the year ended December 31, 2006 compared to the year ended December 31, 2007 because discussion of any partial period comparisons would not be meaningful. The combined information is the result of merely adding the Predecessor and Successor columns, is not consistent with U.S. GAAP and does not include any pro forma assumptions or adjustments.

The following table summarizes our cash flows by category for the periods presented:

	Predecessor		Successor		Change	% Change
	Period from January 1, 2006 through November 10, 2006	Period from November 11, 2006 through December 31, 2006	Combined year ended December 31, 2006	Year ended December 31, 2007		
(Dollars in thousands)						
Net cash provided by operating activities	\$ 2,761	\$ 36,060	\$ 38,821	\$ 38,513	\$ (308)	(0.8)%
Net cash used in investing activities	\$ (5,707)	\$ (1,865,003)	\$ (1,870,710)	\$ (12,732)	\$ 1,857,978	99.3%
Net cash flows from financing activities	\$ (15,227)	\$ 1,883,414	\$ 1,868,187	\$ (8,937)	\$ (1,877,124)	(100.5)%

Net cash provided by operating activities was \$38.5 million in 2007 compared with \$38.8 million for the combined period in 2006. The \$0.3 million decrease was primarily attributable to an \$18.8 million decrease in cash flows from net changes in operating assets and liabilities and the \$18.8 million non-cash gain on extinguishment of debt incurred in 2007. The decrease in cash flows from changes in operating assets and liabilities was driven by a decrease in accrued liabilities, offset in part by an increase in accrued wages and employee benefits and a decrease in inventories. These decreases were offset by a \$39.0 million increase in amortization of intangibles as a result of the CCMP Transactions.

Net cash used for investing activities for the year ended December 31, 2007 was \$12.7 million and included \$13.2 million used for the purchase of property and equipment and the construction of our distribution center in Whitewater, Wisconsin. Net cash used for investing activities for the year ended December 31, 2006 was \$1,870.7 million and included \$1,864.3 million net cash used for the purchase of Generac Power Systems in connection with the CCMP Transactions and \$6.9 million used for the purchase of property and equipment.

Net cash used for financing activities was \$8.9 million for the year ended December 31, 2007, primarily due to \$9.5 million in principal payments on our first lien term loan. Net cash provided by financing activities was \$1,868.2 million for the year ended December 31, 2006. This was primarily due to \$1,380.0 million in proceeds from long-term debt and \$688.5 million in stockholder contributions of capital in connection with the CCMP Transactions.

Senior secured credit facilities

In November 2006, as part of the CCMP Transactions, Generac Power Systems entered into (i) a first lien credit facility with Goldman Sachs Credit Partners L.P., as administrative agent, composed of (x) a \$950.0 million term loan, which matures in November 2013 and (y) a \$150 million revolving credit facility, which matures in November 2012, and (ii) a second lien credit facility with JP Morgan Chase Bank, N.A., as administrative agent, composed of a \$430.0 million term loan, which matures in May 2014. A summary of these senior secured credit facilities are described below. This description is qualified in its entirety by reference to the complete text of the related credit agreements and security agreements, copies of which have been filed as exhibits to the registration statement of which this prospectus is a part.

The first lien credit facility bears interest at rates based upon either a base rate, plus an applicable margin (1.50% as of June 30, 2009, 1.50% as of December 31, 2008 and 1.50% as of December 31, 2007) or adjusted LIBOR rate plus an applicable margin (2.50% as of June 30, 2009, 2.50% as of December 31, 2008 and 2.50% as of December 31, 2007) determined based on a leverage ratio. The effective interest rate on the first lien credit facility term loan on June 30, 2009 was 5.7%. The second lien credit facility bears interest at rates based upon a base rate, plus an applicable margin of 5.00% or an adjusted LIBOR rate, plus an applicable margin of 6.00%. The effective interest rate on the second lien credit facility term loan on June 30, 2009 was 9.2%. Amounts under the revolving credit facility can be borrowed and repaid, from time to time, at our option, provided there is no default or event of default under either credit facility.

The obligations under the senior secured credit facilities are guaranteed by Generac Acquisition Corp. The first lien term loan facility and the revolving credit facility are secured by a first- priority perfected security interest (subject to permitted liens) in:

- substantially all tangible and intangible assets (subject to certain exceptions) owned by Generac Acquisition Corp. and Generac Power Systems;
- the capital stock of the existing and future domestic subsidiaries of Generac Acquisition Corp. and Generac Power Systems; provided that the pledge of the capital stock of non-U.S. subsidiaries is limited to 65% of the stock of the guarantors' non-U.S. subsidiaries; and
- all proceeds and products of the property and assets described above.

The second lien term loan facility is secured by a second-priority security interest in all the assets pledged to the first lien term loan facility and the revolving credit facility, as described above.

Covenant compliance

The senior secured credit facilities require Generac Power Systems to maintain a leverage ratio of consolidated total debt to EBITDA (as both terms are defined in the senior secured credit facilities). We refer to the calculation of EBITDA under and as defined in our senior secured credit facilities in this prospectus as "Covenant EBITDA." Based on the formulations set forth in the first lien credit facility, as of June 30, 2009, Generac Power Systems was required to maintain a maximum leverage ratio of 7.50 to 1.00, and the second lien credit facility required Generac Power Systems to maintain a maximum leverage ratio of 7.75 to 1.00. The maximum leverage ratio decreases over time under both facilities, and the more restrictive of the facilities requires Generac Power Systems to have a leverage ratio of no greater than 6.75 in the fourth quarter of 2009. Failure to comply with this covenant would result in an event of default under our senior secured credit facilities unless waived by our lenders. As of September 30, 2008, Generac Power Systems had violated its leverage ratio covenant. As permitted by the senior secured credit facilities, this violation was remedied by an equity contribution of \$15.3 million from affiliates of CCMP in the fourth quarter of 2008. Generac Power Systems was in compliance with all of its covenants as of December 31, 2007, December 31, 2008 and June 30, 2009.

The senior secured credit facilities contain other events of default that are customary for similar facilities and transactions, including a cross-default provision under the first lien credit facility with respect to any other indebtedness in an outstanding aggregate principal amount

in excess of \$25.0 million and a cross-default provision under the second lien credit facility with respect to any other indebtedness in an outstanding aggregate principal amount in excess of \$28.75 million. An event of default under the senior secured credit facilities could result in the acceleration of our indebtedness under the facilities and we may be unable to repay or finance the amounts due. In addition, the senior secured credit facilities restrict our ability to take certain actions, such as incur additional debt or make certain acquisitions, if we are unable to meet our leverage ratio.

Covenant EBITDA represents net income (loss) as adjusted for the items reflected in the reconciliation table set forth below.

Covenant EBITDA does not represent, and should not be a substitute for net income (loss) as determined in accordance with U.S. GAAP. Covenant EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under U.S. GAAP. Some of the limitations are:

- Covenant EBITDA does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;
- Covenant EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Covenant EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debt; and
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Covenant EBITDA does not reflect any cash requirements for such replacements.

Because of these limitations, Covenant EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business.

The following table presents a reconciliation of net income (loss) to Covenant EBITDA:

(1) Represents the following non-cash charges:

- for the Predecessor Period, a loss on disposal of assets;
- for the period from November 11 through December 31, 2006, a charge for the step-up in book value of inventory as a result of the application of purchase accounting in connection with the CCMP Transactions;
- for the year ended December 31, 2007, primarily a \$3.9 million charge related to the purchase accounting step-up of inventory value in connection with the CCMP Transactions. Also includes \$1.4 million of other charges, including a write-off of a pre-CCMP Transactions receivable, stock compensation expense, unrealized losses on copper forward contracts and losses on disposals of assets;
- for the year ended December 31, 2008, primarily \$503.2 million in goodwill impairment charges and \$80.3 million in trade name impairment charges described in "Management's discussion and analysis of financial condition and results of operations—Critical accounting policies—Goodwill and other intangible assets." Also includes \$1.6 million of unrealized losses on copper forward contracts, a write-off of pre-CCMP Transactions bad debts and losses on disposals of assets. Separately, the amount also includes a write-off of certain inventory;
- for the six months ended June 30, 2008, losses on disposals of assets less unrealized gains on copper forward contracts;

- for the six months ended June 30, 2009, primarily unrealized gains on copper forward contracts; and
- for the twelve months ended June 30, 2009, primarily \$503.2 million in goodwill impairment charges and \$80.3 million in trade name impairment charges described above. Also includes \$0.8 million of other charges, including a write-off of pre-CCMP Transactions inventory and bad debts, as described above, and losses on disposals of assets.

(2) Represents the following transaction costs and fees relating to our senior secured credit facilities:

- transaction costs relating to the CCMP Transactions recorded in the Predecessor Period from January 1, 2006 through November 10, 2006 and the Successor Period from November 11, 2006 through December 31, 2008;
- for all periods after 2006, administrative agent fees and revolving credit facility commitment fees under our senior secured credit facilities; and
- for all periods after 2006, transaction costs relating to repurchases of debt under our first and second lien credit facilities by affiliates of CCMP, which CCMP's affiliates contributed to our company in exchange for the issuances of securities described in "Certain relationships and related person transactions—Issuances of securities."

(3) Represents non-cash gains on the extinguishment of debt repurchased by affiliates of CCMP, as described in note (2) above.

(4) Primarily represents severance costs incurred from restructuring-related activities. For the year ended December 31, 2007, consists of \$1.4 million of severance costs and \$0.6 million of other restructuring-related costs.

(5) Represents management, consulting, monitoring, transaction and advisory fees and related expenses paid or accrued to affiliates of CCMP and affiliates of Unitas under the advisory services and monitoring agreement described in "Certain relationships and related person transactions—Advisory services and monitoring agreement." Upon consummation of this offering, this agreement will automatically terminate.

(6) Represents fees on letters of credit outstanding under our senior secured credit facilities.

(7) Represents franchise and business activity taxes paid at the state level.

(8) Represents interest earned on cash held at Generac Holdings Inc. We exclude these amounts because we do not include them in the calculation of covenant "EBITDA" under and as defined in our senior secured credit facilities.

(9) Includes prospective cost savings permitted to be added back under our senior secured credit facilities. Because a portion of the prospective cost savings of \$3.3 million for the year ended December 31, 2008 had been realized at June 30, 2009, the prospective cost savings at June 30, 2009 were \$1.1 million.

(10) Equity cure represents a contribution by affiliates of CCMP in 2008 in order to cure a default under our leverage ratio. This contribution is permitted to be added back under our senior secured credit facilities and is not expected to be a recurring item.

(11) Represents our total debt less the cash at Generac Power Systems (\$71.2 million for the year ended December 31, 2007, \$79.6 million for the year ended December 31, 2008 and \$88.7 million for the twelve months ended June 30, 2009).

The differences between the definition of Covenant EBITDA and the definition of Adjusted EBITDA presented under "Summary historical consolidated financial and other data" and used in this prospectus are that the calculation of Adjusted EBITDA excludes the adjustments included under the line items "Savings" and "Equity cure" above.

In addition to the financial covenant described above, the senior secured credit facilities contain certain other affirmative and negative covenants that, among other things, provide limitations on the incurrence of additional indebtedness, liens on property, sale and leaseback transactions, investments, loans and advances, merger or consolidation, asset sales, acquisitions, transactions with affiliates, prepayments of any other indebtedness, modifications of Generac Power Systems' organizational documents and restrictions on Generac Power Systems' subsidiaries. The ability to declare or pay dividends or make any other distributions with respect to any equity interests of Generac Power Systems, or to redeem, purchase, retire or otherwise acquire for value any equity interests of Generac Power Systems is also restricted under the first lien and second lien credit facility, subject to certain exceptions, including but not limited to dividends and distributions with the net proceeds of any issuance of qualified capital stock and a dollar basket which may be increased, subject to the restrictions set forth in the credit documents. Additionally, the senior secured credit facilities contain events of default that are customary for similar facilities and transactions, including, among others, non-payment, breach of covenants, other defaults, change of control, misrepresentations and a

cross-default provision with respect to any other indebtedness. As of June 30, 2009, Generac Power Systems was in compliance with all covenants.

Both the first lien and second lien credit facility grant Generac Power Systems the option to prepay its borrowings under the term loans or the revolving credit facility, subject to the procedures set forth in the credit documents. In certain circumstances, Generac Power Systems may be required to make prepayments on its borrowings if it receives proceeds as a result of certain asset sales, debt issuances, casualty or similar events of loss or if Generac Power Systems has excess cash flow (as defined in the senior secured credit facilities).

As of June 30, 2009, \$910.7 million of borrowings were outstanding under the first lien term loan, and \$182.8 million of borrowing were outstanding under the second lien term loan. As of December 31, 2008, \$930.1 million of borrowings were outstanding under the first lien term loan and \$200.8 million of borrowing were outstanding under the second lien term loan.

Contractual obligations

The following table summarizes our expected payments for significant contractual obligations as of June 30, 2009:

(2) Pension payments are benefit payments expected to be paid in accordance with the pension plans.

Excluded from the foregoing contractual obligations tables are open purchase orders at June 30, 2009 or raw materials and supplies used in the normal course of business, supply contracts with customers, distribution agreements and other contracts without express funding requirements.

Capital expenditures

Our operations continue to require significant capital expenditures for technology, capacity expansion and upgrades. Capital expenditures were \$5.2 million for the year ended December 31, 2008, and were funded through cash from operations. Capital expenditures were \$13.2 million for the year ended December 31, 2007, including expenditures relating to the construction of our distribution center in Whitewater, Wisconsin. We currently project our capital expenditures for 2009 to be approximately \$5 million.

Off-balance sheet arrangements

We have an arrangement with a finance company to provide floor plan financing for selected dealers. This arrangement provides liquidity for our dealers by financing dealer purchases of products with credit availability from the finance company. We receive payment from the finance company within a few days of shipment and our dealers are given a longer period of

time to pay the finance provider. If our dealers do not pay the finance company, we may be required to repurchase the applicable inventory held by the dealer. We also indemnify the financing company for credit losses up to 50% of the financed balance where inventory cannot be returned. Total inventory financed accounted for approximately 5% of net sales for the year ended December 31, 2008. The amount financed by dealers which remained outstanding as of December 31, 2008 was \$7.5 million. In 2009, we entered into a floor plan financing arrangement with another financing company under which we do not indemnify the financing company for credit losses associated with unreturnable inventory.

On October 5, 2009, we entered into a six-month commodity hedge transaction for copper with a total notional amount of \$1.4 million. The primary objective of the hedge is to mitigate the impact of potential price fluctuations of copper on our financial results. Total losses or gains are recognized in the consolidated statement of operations.

Inflation

We do not believe that inflation has had a material effect on our results of operations. However, our business could be affected by inflation in the future.

Quantitative and qualitative disclosures about market risk

We are exposed to market risk from changes in foreign currency exchange rates, commodity prices and interest rates. To reduce the risk from changes in certain foreign currency exchange rates and commodity prices, we use financial instruments from time to time. We do not hold or issue financial instruments for trading purposes.

Foreign currency

We are exposed to foreign currency exchange risk as a result of purchasing from suppliers in other countries. Periodically, we utilize foreign currency forward purchase and sales contracts to manage the volatility associated with foreign currency purchases in the normal course of business. Contracts typically have maturities of one year or less. Realized and unrealized gains and losses on transactions denominated in foreign currency are recorded in earnings as a component of cost of goods sold. At June 30, 2009 and December 31, 2008, we had no foreign exchange contracts outstanding.

Commodity prices

We are a purchaser of commodities and of components manufactured from commodities, including steel, aluminum, copper and others. As a result, we are exposed to fluctuating market prices for those commodities. While such materials are typically available from numerous suppliers, commodity raw materials are subject to price fluctuations. We generally buy these commodities and components based upon market prices that are established with the supplier as part of the purchase process. Depending on the supplier, these market prices may reset on a periodic basis based on negotiated lags. To the extent that commodity prices increase and we do not have firm pricing from our suppliers, or our suppliers are not able to honor such prices, we may experience a decline in our gross margins to the extent we are not able to increase selling prices of our products or obtain manufacturing efficiencies to offset increases in commodity costs.

Periodically, we engage in certain commodity risk management activities. The primary objectives of these activities are to understand and mitigate the impact of potential price fluctuations on our financial results. Generally, these risk management transactions will involve

the use of commodity derivatives to protect against exposure resulting from significant price fluctuations.

We primarily utilize commodity contracts with maturities of one year or less. These are intended to offset the effect of price fluctuations on actual inventory purchases. At December 31, 2008, there were two outstanding commodity contracts in place to hedge our projected commodity purchases. Total gains or losses recognized in the statements of operations on commodity contracts were a loss of \$1,814,000 for the year ended December 31, 2008. At June 30, 2009, there were no outstanding commodity contracts in place to hedge our projected commodity purchases. Total gains or losses recognized in the statements of operations on commodity contracts were a \$137,000 gain for the six-month period ended June 30, 2009.

On October 5, 2009, we entered into a six-month commodity hedge transaction for copper with a total notional amount of \$1.4 million. The primary objective of the hedge is to mitigate the impact of potential price fluctuations of copper on our financial results. Total losses or gains are recognized in the consolidated statement of operations.

Interest rates

As of June 30, 2009, a portion of the outstanding debt under our term loans was subject to floating interest rate risk. We previously entered into swaps with certain banks. The notional amount of these swaps was \$675.0 million as of June 30, 2009. At June 30, 2009, the fair value of the swaps reduced for our credit risk was a liability of \$19.0 million. For further information on these swaps, see Note 6 to our audited consolidated financial statements included elsewhere in this prospectus. Even after giving effect to these swaps, we are exposed to risks due to fluctuations in the market value of these swaps and changes in interest rates with respect to the portion of our term loans that are not covered by these swaps. A hypothetical change in the LIBOR interest rate of 100 basis points would have changed annual cash interest expense by approximately \$4.2 million (or, without the swaps in place, \$10.9 million).

Recent accounting pronouncements

In June 2009, the Financial Accounting Standards Board, or FASB, issued SFAS No. 168, "*The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles—a Replacement of FASB Statement No. 162,*" or SFAS No. 168. SFAS No. 168 establishes the Codification as the source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities. Following this Statement, the FASB will not issue new standards in the form of Statements, FASB Staff Positions, or Emerging Issues Task Force Abstracts. Instead, it will issue Accounting Standards Updates. All guidance contained in the Codification carries an equal level of authority. The GAAP hierarchy will be modified to include only two levels of GAAP: authoritative and nonauthoritative. All nongrandfathered non-SEC accounting literature not included in the Codification will become nonauthoritative. SFAS No. 168 is effective for interim or annual financial periods ending after September 15, 2009. We will adopt this statement in the third quarter of fiscal 2009 and do not anticipate adoption will have a material impact on our consolidated financial position, results of operations or liquidity.

In May 2009, the FASB issued SFAS No. 165, "*Subsequent Events,*" or SFAS No. 165. SFAS No. 165 establishes general standards of accounting for the disclosure of events that occur after the balance sheet date but before financial statements are issued or available to be

issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and whether that date represents the date the financial statements were issued or were available to be issued. SFAS No. 165 is effective for interim or annual financial periods ending after June 15, 2009 and is applied prospectively. We adopted this statement effective June 30, 2009. There was no material financial statement impact as a result of adoption.

In March 2008, the FASB issued Statement No. 161, "*Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133*," or SFAS No. 161. SFAS No. 161 is intended to help investors better understand how derivative instruments and hedging activities affect an entity's financial position, financial performance and cash flows through enhanced disclosure requirements. SFAS No. 161 is effective for fiscal years and interim periods beginning after November 15, 2008. We adopted this statement effective January 1, 2009, which impacted our disclosures related to our hedging activities.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), "*Business Combinations*," or SFAS No. 141R. SFAS No. 141R will significantly change the accounting for business combinations in a number of areas including the treatment of contingent consideration, contingencies, acquisition costs, in-process research and development, and restructuring costs. In addition, under SFAS No. 141R, changes in deferred tax asset valuation allowances and acquired income tax uncertainties in a business combination after the measurement period will impact income taxes. SFAS No. 141R is effective for fiscal years beginning after December 15, 2008 and will impact the accounting for any business combinations entered into after the effective date.

Industry

Aging U.S. power grid leading to recurring power outages

Disruptions to the aging U.S. power grid are increasing due to demand growth, equipment failures, prevalent under-investment and a variety of environmental causes. Over 20% of the power plants in the U.S. are more than 50 years old, with the average power plant having been constructed in 1964. According to the North American Electrical Reliability Council, or NERC, 30% to 50% of the transmission and distribution network in the United States is 40 to 50 years old. Under-investment in the transmission and distribution networks also compounds these challenges. The Edison Foundation estimates that approximately \$880 billion will need to be invested in the U.S. transmission and distribution networks through 2030 to maintain today's level of electric service reliability.

Due to constraints on investment in the generation and transmission networks, the U.S. power grid has historically been prone to both minor and significant outage events caused by shortages in peak system capacity or equipment failure, as well as periodic outages caused by weather events. While major tropical storms and ice storms cause critical outages and receive extensive news coverage, power consumers in many regions of the country experience more frequent power quality disruptions driven by a wide variety of causes. Based on NERC reports on the causes of major power outages from 2002 to 2008, we estimate that the most significant cause of major power disturbances from 2002 to 2008 was high winds and thunderstorms with 43% of disturbances over this period, while ice and winter storms accounted only for 9%. Other important factors included grid reliability issues with 14% and other causes with 19% of disturbances over this period related to equipment failure, short circuits, vandalism and fire. Extreme weather conditions, including hurricanes, accounted for only 15% of major power disturbances over the same period.

In an effort to address these challenges, many utilities have performed feasibility and cost-benefit studies on burying above-ground power distribution lines underground, sometimes referred to as undergrounding. Undergrounding is expensive, costing up to an average of \$1 million per mile. With an estimated 4.0 million miles of overhead distribution lines across the United States according to the Edison Electric Institute, the implied cost to underground the national grid is \$4.0 trillion. Given the large estimated cost to upgrade the U.S. power grid, we believe it is unlikely that the core causes of power disturbances will be addressed in the near future.

Generators are an alternative reliable power solution

The emergency standby generator market provides back-up power to a utility power source to ensure an uninterrupted power supply. Generators can be stationary or portable. A stationary standby generator is permanently installed outside a home, business or manufacturing facility. When primary utility power fails, the generator automatically starts and provides electrical power until utility power returns. Portable generators are used in locations that have no utility power source, such as construction sites, or in locations and situations where a permanent back-up power source is impractical.

Generator users can be broadly grouped into the residential, portable, commercial and industrial end markets. We estimate that the generator market in the United States and

Canada was \$3.6 billion in 2008, and the overall global generator market was estimated by Frost and Sullivan to be over \$11 billion in 2008. The residential standby and portable market in the United States and Canada, which we estimate to be \$1.1 billion in 2008, includes standby generators with a power range of 8kW to 60kW and portable generators with a power range of less than 1kW to 17.5kW. Residential standby generators are sold to homeowners and portable generators are sold to consumer and professional users.

We estimate that the light commercial and industrial market in the United States and Canada was \$2.3 billion in 2008. The light-commercial market in the United States and Canada primarily uses standby generators that range between 20kW and 150kW. Light-commercial end users include grocery and convenience stores, restaurants, gas stations, pharmacies, retail banks, small hospitals and healthcare facilities and police and fire stations. Small businesses, such as convenience stores and restaurants, rely on standby power generation to preserve sales potentially lost during a power outage and to protect against the high cost of inventory spoilage. The U.S. industrial market utilizes emergency standby, mobile and prime generators with output ranges from 20kW to several megawatts. Industrial end users include data centers, telecommunications operators, hospitals, manufacturing facilities, water and waste water treatment plants, large retailers, and government and other municipal facilities. Other generator markets, including RV generators, comprise an additional \$300 million market in the United States and Canada in 2008.

The cost of outages and the relative affordability of generators have improved their potential return on investment

According to a 2006 report by Lawrence Berkeley National Laboratory, or LBNL, quoted in the SENTECH report, the average consumer on the U.S. power grid experienced 4.3 momentary power outages (less than five minutes) and 1.2 sustained power outages (more than five minutes) per year with an average duration of 106 minutes. LBNL estimated in 2006 that out of an annual \$79 billion total cost to all U.S. electricity consumers, the estimated cost of power outages was \$57 billion for commercial U.S. electricity consumers (\$3,800 per commercial consumer annually) and \$20 billion for industrial U.S. electricity customers (\$12,750 per industrial consumer annually).

According to the SENTECH report, it is estimated that the average annual cost of sustained power outages is \$7.2 billion for the industrial sector and \$11.5 billion for the commercial sector. According to the same report, the cost of one hour of downtime in the industrial sector can be between \$20,000 and \$50,000, while four hours of downtime can cost up to seven times as much. In the commercial sector, one hour of downtime often costs the average commercial business less than \$1,500, but one hour of downtime in the food selling and services industry typically results in losses of between \$3,000 and \$5,000 and of up to \$23,000 for refrigerated warehouses.

Compared to the potential cost of power outages, the purchase and installation of back-up power generators is relatively inexpensive, often yielding a short-term positive return on investment for commercial and industrial consumers. In the light commercial sector in particular, natural gas and liquid propane-fueled generators have begun to replace traditional diesel generators due to their lower acquisition and operating costs. As an example, due to the increased regulation of diesel engines, the acquisition cost of a typical 150kW diesel generator is approximately 35% higher than the acquisition cost of a 150 kW natural gas generator. For

many light-commercial businesses, the cost of a generator can now be recouped through the savings realized during a single power outage. We believe that the lower cost of natural gas generators for small and medium commercial businesses has expanded the potential market for generators by making the purchase of a generator more economically compelling for those businesses.

Generator prices have also declined significantly for residential consumers over the last 10 years, resulting in increased affordability. Since 1999, the retail price for our entry level residential standby generator has decreased by more than 50% from over \$4,500 to approximately \$2,000 (before installation costs). We believe that this reduction in price has significantly narrowed the affordability gap between portable and automatic, stationary home standby generators, resulting in higher growth rates in the automatic home standby market.

Low penetration in residential and light commercial markets and opportunities for increased penetration in industrial market

We believe that the penetration in the residential and light commercial markets is significantly lower than the rate of penetration in established markets for industrial generators like hospitals, data centers and industrial facilities. We estimate that the residential standby generator market has grown at an approximate 16% CAGR since 2003. There is a substantial opportunity for further penetration in this market, since we estimate penetration to be approximately 2% of U.S. single-family, detached, owner-occupied households with a home value of over \$100,000, as defined by the U.S. Census Bureau's 2007 American Housing Survey for the United States. This low penetration, when coupled with demographic and lifestyle changes and increasing reliance on home electronics for communication, recreation and work over the last decade, represents a significant opportunity for growth. We believe that each 1% of U.S. household penetration potentially represents an approximate \$2 billion market opportunity at current product pricing. Based on warranty information consumers provide us when registering their products, most purchased generators are dedicated to existing homes, and a relatively small percentage of generators are purchased for newly constructed homes. We also believe there are potential parallels between today's residential standby generator market and the developing central air conditioning market in the 1960s, including low penetration, improving affordability and availability, and a growing demand for convenience and comfort. Central air conditioning penetration increased rapidly from under 25% of homes in 1978 to more than 60% of U.S. homes today. Although we cannot predict future generator penetration rates, we believe there is potential for significant increases in standby generator penetration over the next several years.

Opportunities for further penetration of the residential market are enhanced by the increasing visibility of residential generators through expanded distribution in the dealer and retail channels. In the past few years, automatic, standby home generators have become standard merchandise in most national retail chains, leading home improvement chains and independent community hardware stores, and we believe the resulting product awareness and availability will facilitate the expansion of our sales to this market.

According to a 2007 Frost and Sullivan report, the light commercial market is projected to grow at a higher rate than the industrial market, as businesses evaluate the increasing affordability of back-up power solutions. Most commercial structures, such as grocery and convenience stores, restaurants, pharmacies, gas stations and retail banks, show minimal penetration by

generators. This market represents an attractive opportunity in the United States, which has over two million commercial business locations.

We estimate that the market for portable generators currently has a higher penetration rate of approximately 10% to 15% of U.S. homes, however we believe there are further opportunities for growth. While portable generator purchases are driven by many factors, the first purchase is often driven by spontaneous purchases in the context of unanticipated power outages. Portable generators can also be useful for recreational purposes (such as camping and tailgating) or homeowner usage (cost-effective back-up planning). Portable generators also offer a solution for contractors or professional users who require mobile portable power on their jobsites. We believe portable generators serve as an entry point into the standby residential market, as those consumers who already own portable generators may choose to upgrade to automatic, standby generators. When comparing the ease of use of an automatic system to the more labor-intensive nature of a portable generator, these customers may view the permanently installed and automatic, standby generator as an attractive alternative. Overall, portable generators have similar consumer attributes and demographics as standby generators and share many of the same drivers of a purchase decision. In fact, according to a survey of our customers that we commissioned in 2006, over 45% of standby generator buyers own or have previously owned portable generators.

Even in the more mature industrial market, we believe there are additional opportunities for penetration, especially given the benefits provided by natural gas engines over more common diesel engine-based generators. Natural gas-fueled generators minimize spillage, spoilage, environmental or odor concerns, eliminate fuel-related storage and address the need to comply with emission regulation. According to Frost and Sullivan, in North America, smaller gas generators (less than 250kW) are expected to grow 6.1% annually by 2011, slightly faster than diesel generators, which are expected to grow 5.0% annually over the same period. However, larger gas generators (250kW to 1mW) are expected to grow 7.3% by 2011, significantly higher than diesel generators at 4.2% over the same period. In addition, continued regulation of diesel engine emissions as well as rising fuel costs and raw material prices could significantly increase the costs involved in manufacturing and operating diesel generators in the long-term. We expect industrial customers to increasingly transition to generators powered by liquid propane gas or natural gas instead of diesel fuel.

Demographic trends lead to an increased focus on the safety and security provided by standby generators

We believe favorable consumer demographic trends provide opportunities for growth for automatic home standby generators. Demographic changes have led to an increase in demand as the U.S. population becomes older, increasingly conscious of safety issues, focused on convenience and dependent on electronic devices. According to our warranty registration data, currently over 70% of home standby generators are purchased by consumers over 50 years of age. According to the U.S. Census Bureau, the population segment in the United States between 45 and 65 years of age is expected to grow 7.5% from 2008 to 2015. This generation is expected to be a key factor in the growth of the industry, since, as homeowners, they may consider standby generators a source of security. For example, many owners of second homes or people who travel away from home purchase generators for their residences because they enhance home safety and functionality in their absence by securing constant power for

furnaces and preventing freezing of pipes during winter outages. Generators provide protection from home flooding in the event of a sump pump malfunction due to a power loss and help inhibit home and basement mold growth that could occur due to central air or ventilation failures from an outage. In addition, a standby power source is important for people who depend on home electronics for communication, work and recreation. Homeowners also find comfort in knowing that their generators protect against possible vandalism or theft that could occur from a power loss to their home security system.

The oldest segment of the population, those above 64 years of age, is projected to grow by 20.5% from 2008 to 2015, according to the U.S. Census Bureau and may consider generators as investment protection against potentially expensive damage or life-threatening situations caused by power loss. As this age group grows older, its members may choose to remain in their homes instead of relocating to assisted living communities and may require medical devices in their homes that depend on continuous power to function properly. A continuous power solution will be a critical issue for this population segment, which may turn to standby power generation for safety, security, convenience and peace of mind.

Individuals who purchase standby generators typically focus on factors such as affordability, availability, reliability and ease of installation, which have been improving over the past decade. In addition, the shift in population habits has driven increased reliance on electronics, and a growing number of individuals working from home depend on a constant power source to operate their electronic devices and avoid personal business disruption.

Opportunities for international expansion

The international market represents a significant opportunity for growth in the sale of generators. Market growth rates in Latin America in 2010, as estimated by Frost and Sullivan, range from 8% to 9% in Argentina and Chile to 14% to 15% in Colombia and Mexico. According to Frost and Sullivan, while the European market is expected to grow 3% annually through 2013 to \$1.8 billion, other international markets are expected to grow faster, such as Russia (expected to grow by 10% annually through 2011) and China (expected to grow annually by approximately 18% to a market size of \$6.9 billion by 2015).

In emerging markets such as Brazil, Russian, India and China, the power infrastructure is generally not as developed as that of developed markets, and the majority of generators sold in these markets are designed for use in extended outages or in place of utility power. In developed markets such as the United States, generators are primarily sold for emergency standby purposes as electrical generation, transmission and distribution in these markets is generally more mature. In addition, diesel generators represent a more significant percentage of the market in many international markets than in the United States, providing an opportunity for increased sales of gaseous and Bi-Fuel™ generators for certain applications in areas with existing natural gas infrastructure.

Competitive dynamics outside North America differ by market but are generally characterized by competition between international generator manufacturers that have established distribution infrastructure and regional generator manufacturers in each market. Currently, Generac has limited sales infrastructure in markets outside of the United States, Canada and certain Latin American countries.

Regulatory changes should lead to growth in the commercial and industrial standby markets

In some industries the use of a generator is regulated. Federal, state and local governmental authorities have proposed and passed legislation requiring the use of generators within some segments of the industrial and light-commercial markets. Building, health and safety codes often require back-up standby generators in municipal and government buildings, typically for crucial applications such as life support systems, safe building egress or critical equipment functionality. Industry practice, as defined by the National Electrical Code, dictates that certain types of facilities, such as hospitals, are required to have emergency standby power systems.

Additionally, increased federal regulation of diesel engine emissions and increased municipal regulation of diesel fuel storage should encourage market growth for natural gas-powered standby generators. Generac is a leader in natural gas generators, which are currently the generator of choice for the residential standby market and are increasingly used in the commercial and industrial market.

In the event of new federal, state or municipal legislation and regulation, additional infrastructure and buildings may be required to be equipped with back-up power supplies, and these changes may have a significant impact on the generator market. For example, in 2007, the Federal Communications Commission, or FCC, proposed that all cell phone towers have eight hours of standby back-up power. Though this proposal has not been enacted, it illustrates the increased focus of regulators on ensuring adequate back-up power for crucial services. In addition, in 2006, Florida passed its Disaster Preparedness Response and Recovery bill, which required gas stations located on hurricane evacuation routes to have a back-up power generator.

Potential benefits from infrastructure spending programs and recovery in the non-residential construction market

The American Recovery and Reinvestment Act passed in February 2009 provides for \$130 billion of construction-related spending for a wide range of projects, including federal buildings and hospitals. We believe that the generator market should benefit from this infusion of funds into the construction market as the construction of large municipal infrastructure usually includes the installation of back-up standby generators larger than 150kW. In addition, after the current downturn in non-residential construction, the Rosen Consulting Group estimates that spending in this sector will recover after 2010 and increase by 12.5% to \$315 billion in 2011 and increase by another 20.6% to \$380 billion in 2012. Any such recovery in this market should provide additional marketing opportunities for our standby and portable generator business.

Business

Overview

We are a leading designer and manufacturer of a wide range of automatic, stationary standby and portable generators. As the only significant market participant focused exclusively on these products, we have a leading market share of the standby generator market in the United States and Canada, having grown our company organically by a 16% CAGR since 2000. We design, engineer and manufacture generators with an output of between 800W and 9mW of power. We design, manufacture, source and modify engines, alternators, automatic transfer switches and other components necessary for our products. Our generators are fueled by natural gas, liquid propane, gasoline, diesel and Bi-Fuel™. Our products serve the power requirements of a wide variety of end markets including the residential, commercial, industrial and telecommunications markets.

We have what we believe is an industry leading, multi-layered distribution network, and our products are available in over 17,000 outlets across the United States and Canada. We distribute our generators through independent and industrial dealers, electrical wholesalers, national accounts, private label arrangements, retailers, catalogs and e-commerce merchants. We currently sell our products primarily in North America, and for the year ended December 31, 2008, sales in the U.S. and Canadian markets represented over 99% of our net sales. We believe that our leading market position is largely attributable to our strategy of providing high-quality, innovative and affordable products through our extensive and multi-layered distribution network.

We own and operate three manufacturing plants and one distribution facility in Eagle, Wisconsin, Waukesha, Wisconsin and Whitewater, Wisconsin, totaling approximately 1,000,000 total square feet. We also maintain inventory warehouses in the United States that accommodate the rapid response requirements of our customers.

Our competitive strengths

We believe that the following strengths contribute to our being a leading generator manufacturer and will allow us to further capitalize on growth opportunities in our industry:

Significant market share with opportunities for further penetration

We enjoy a leading industry market position with a significant market share and opportunities for future penetration. In the residential standby generator market in the United States and Canada, we believe we are the market leader with a market share that we estimate to be approximately 70%. We believe that we will have opportunities for growth in this market as spending on new homes and construction recovers and consumer awareness of the benefits of standby generators grows. Our market share in the market for portable generators was less than 10% in 2008, as we re-entered the market in the second quarter of 2008 following the expiration of a non-competition agreement in 2007.

We believe we also hold strong positions in the \$2.3 billion light-commercial and industrial markets with an 8% overall market share in the United States and Canada, with a higher share in certain end markets. We believe we will experience growth in these markets as potential end-users recognize that our modular power systems and our spark-ignited gas engine platforms provide increased efficiency, affordability and flexibility, by allowing the addition of

generating capacity or the maintenance of existing generators without replacing other modules. Within this market, we believe we have a higher share in certain end markets, including light commercial applications.

We believe that our leading market position and brand recognition and our resulting sales volumes enable us to realize economies of scale in both sourcing and manufacturing, creating cost advantages and giving us a competitive edge when seeking to exploit new business opportunities.

Multi-layered distribution model

The majority of standby power systems are installed by an experienced contractor. As a result, having a network of experienced dealers who can sell, manage the installation of and service the generator is important. We believe that our multi-layered distribution model gives us an advantage over competitors who do not have as broad a distribution network and generally rely on a single channel to market and sell their products. Our distribution network includes independent and industrial dealers, electrical wholesalers, national accounts, private label arrangements, retailers, catalogs and e-commerce merchants.

Dealers. We are constantly developing the scope and strength of our dealer networks, comprised of over 3,700 dealers. Our dealers include electrical, plumbing, heating, ventilating and air conditioning, or HVAC, and home security contractors and outdoor power equipment dealers. Our dealers serve as both a nationwide direct sales channel and an after-sale service and product support network and are therefore critical to our business, growth strategy and brand management. We are committed to continually engaging new dealers and improving overall performance through training, incentive and certification programs. We have trained over 10,000 technicians on our products over the last three years alone. We believe that our dedicated training program helps us capture the best talent and retain the most profitable dealers and that our commitment to growing our dealer network positions us well to pursue opportunities for improved sales distribution in underserved markets.

Wholesale. We sell our products to electrical wholesale distributors who generally supply electrical contractors. The wholesale channel allows us broader access and exposure to electrical contractors, who represent an important source of business and referrals. We currently distribute our products through over 1,700 wholesale locations across the United States and Canada.

Private label. In addition to distributing our products under our Generac® brand name, we have entered into several private label arrangements, which allow us to further distribute our products through HVAC equipment, electrical equipment and construction machinery companies. Private label arrangements provide us with access to additional sales channels through other dealers and opportunities for deeper market penetration.

Retail and e-commerce. We have sales arrangements with top retailers and e-commerce companies, including regional and national home improvement chains, independent hardware stores, electrical supply companies and catalog businesses. We believe the visibility that our products receive through these outlets not only creates brand awareness but also sparks customer curiosity, prompting customers to research generators which they ultimately may purchase through these channels or directly through dealers.

Direct national accounts. Our direct-to-national accounts strategy provides a direct coordinated sales approach for our large customers, backed by our network of dealers and

trained technicians who can install and service the generator. We have achieved success with this strategy within the telecommunications and industrial market. Products sold through our national account sales are installed and serviced by our industrial dealers.

Our multi-layered distribution model enables us to capture new growth opportunities through evolving sales channels. Overall, our complementary network of sales channels positions us competitively for efficient customer outreach.

Broadest product line in the industry

Our product offerings include a comprehensive selection of standby and portable generators of various sizes and types with ranges of power output capable of catering to many end markets and users. Our product portfolio includes generators powered by gasoline, diesel, liquid propane and natural gas as well as Bi-Fuel™ systems. Because we manufacture units for all fuel types, we are able to take advantage of marketing opportunities created by changing emission regulations and customer preferences. For example, we believe that the lower cost of natural gas powered generators for commercial purchasers such as retail stores, nursing homes, bank branches and gas stations has expanded the market by making the return on investment more compelling for these businesses. We also manufacture a complete line of automatic transfer switches, which we pair with our generators to create a complete back-up power system.

We believe that our broad product line provides us with a competitive advantage because dealers and distributors prefer dealing with a single source for a broad range of their standby and portable generator needs.

Engineering excellence

Our primary focus on generators drives technological innovation, specialized engineering and manufacturing competencies and distinguishes us from other engine and generator manufacturers for whom the sale and manufacture of power generation equipment is not their primary business. We currently operate three advanced facilities and employ over 100 engineers who focus on new product development, existing product improvement and cost reduction. Our integrated approach to engineering and manufacturing gives us the ability to quickly modify existing products or design new ones to better satisfy customer demands and evolving regulatory requirements.

Our commitment to research and development has resulted in a portfolio of approximately 50 U.S. and international patents and patent applications. Examples of our technological advancements include our technology concerning Bi-Fuel™ and our MPS technology. Bi-Fuel™ generators run on both diesel and natural gas to allow our customers the advantage of multiple fuel sources and extended run times. Our MPS technology gives our customers the flexibility to combine the power of several smaller generators to produce the output of a larger generator, providing them with redundancy and scalability in a cost-effective manner.

Over the past 50 years, our business has earned a reputation for designing and manufacturing affordable, innovative and high-quality products.

Low-cost producer

We believe that our product engineering, manufacturing and sourcing capabilities, along with our production volume, have enabled us to be one of the lowest-cost producers in the industry. These capabilities are based on processes that we have developed and refined over our history and that provide us with significant operating flexibility and capital efficiency.

We have implemented lean manufacturing initiatives and designed our production facilities to quickly adapt to customer demand and to the development of new product offerings. Our vertical integration gives us the ability to produce both standard and customizable products efficiently.

As part of our sourcing strategy, we have developed a network of reliable, low-cost suppliers in the United States and abroad. Our volume requirements and leading market position generally enable us to obtain favorable terms from our suppliers. In 2009 to date, we sourced more than half of our product components from outside the United States through foreign suppliers with whom we have built strong, long-term relationships. We believe that this network of relationships cannot be easily replicated.

Our volume-driven purchasing advantages, manufacturing excellence and sourcing relationships enable us to reduce the cost and manufacturing time of our generators and allow us to respond favorably to changes in the market.

Financial flexibility and strong free cash flow generation

Our disciplined and flexible cost structure and low-cost global sourcing has contributed to our financial strength and strong cash flow generation. With a highly variable manufacturing and selling, general and administrative cost structure, we believe that we are well positioned for future, growth, and have the ability to respond quickly to varying market environments. Furthermore, our business model generally requires low capital expenditures with amounts that have averaged less than \$9 million per year for each of the last three years. In addition, due to a tax election that was made at the time of the CCMP Transactions, we expect to have \$122 million in annual amortization deductions of intangibles for tax purposes through 2020, which can be used to reduce any cash tax obligations. Any additional cash tax obligations may be further reduced by our \$131 million balance of net operating losses as of December 31, 2008.

Experienced management team with substantial equity stake

Our senior management team has significant generator industry experience and a strong track record with a combined total of over 100 years of industry and related experience. This team has been highly successful at expanding our product line, distribution channels, and technology leadership, positioning our business for growth through innovation. We expect that upon consummation of this offering, members of our senior management team will own approximately % of our outstanding common stock on a fully-diluted basis.

Our strategy

We believe we can capitalize on our competitive strengths to grow our business through the following strategies:

Further develop domestic distribution and sales channels

New dealers. We intend to further expand our geographic and product markets in North America through new dealer acquisitions and the continued development of our dealer network. Our dealer acquisition efforts have yielded over 500 new dealers in 2009, and we have trained over 10,000 technicians on our products over the last three years. We believe that we can create an enhanced dealer network with qualified dealers capable of improving sales

distribution in underserved and under-penetrated markets and providing critical after-sale support of our products to new end users.

Private labels. We continue to explore additional strategic partnerships to expand our distribution reach. We have entered into several successful private label arrangements, and we expect to expand these and other programs. Our management identifies and endeavors to establish mutually beneficial relationships with companies that manufacture complementary products and provide additional distribution opportunities. We employ similar efforts with companies that could act as referrals for Generac® products in their respective markets.

Direct national accounts. We target commercial and industrial customers through national accounts programs that are serviced by our industrial dealers. These efforts generally are directed at companies that have the potential to generate large commitments, such as our existing non-exclusive supply contracts with several leading telecommunications operators. In the light commercial market, we are focusing on opportunities to grow our existing customer base while increasing penetration in smaller, non-traditional end markets. This approach targets potential customers such as smaller healthcare facilities, nursing homes and medical clinics, grocery and convenience stores, pharmacies and other stores with needs for stationary standby generators, and we seek to develop sales programs with higher volume customers through our national accounts program.

Homebuilders. We believe homebuilders represent an attractive sales channel opportunity given the size of the industry and its potential for recovery from the current economic climate. The installation of a stationary standby generator is less expensive during the initial construction of a house and can be financed by the homeowner as a part of the mortgage for the property. Alternatively, new homes can be wired as "generator ready," making the subsequent installation of a generator relatively easy and inexpensive. In the year ended December 31, 2008, we believe that less than 10% of our net sales were generated in the new home construction market. Moreover, of the approximately 550,000 new homes constructed this year in the United States, we estimate that fewer than 5% had a stationary standby generator installed at construction.

Increase awareness of standby power solutions

We believe that through our extensive dealer network, our private label partnerships and our targeted marketing initiatives, residential and light-commercial potential customers are becoming increasingly aware of the benefits of standby power solutions, and we intend to continue our efforts to further increase that awareness. As recently as 10 years ago, stationary standby generators were available only at select dealers. Today, in large part due to our sales, marketing and distribution efforts, standby generators can be purchased at more than 9,000 retail locations, 1,700 electrical wholesale outlets and through several leading electrical supply catalogs and e-commerce sites, as well as through over 3,700 Generac dealers and our private label partners.

We also believe that standby power solutions benefit from natural marketing awareness created by power outage events. When outage events occur (whether related to typical seasonal winds and storms, power grid failures or severe weather incidents), potential customers become increasingly aware of the advantages of generators as reliable sources of back-up electrical power in the affected area and beyond. Although these events do not always lead to immediate increases in short-term sales, we believe they support long-term

demand by increasing interest in our products. We seek to extend the impact of the increase in awareness created by outage events by targeted marketing initiatives. We believe that as the frequency of outages and the duration of the outage period increases, more customers will seek backup protection from a standby generator.

We believe we are well positioned to benefit from any increased awareness of generator solutions because we believe our products are more accessible than those of our competitors. We also continue to identify initiatives to take advantage of increased product awareness to further improve penetration rates and gain market share. We believe firmly in increasing product visibility through national retail chains and through our marketing campaigns. Product visibility not only increases awareness of the standby power market, but more importantly markets our name as a reputable and prominent brand. We are committed to marketing our superior quality and innovation to further develop Generac® as the leading brand in standby power generation.

Focus on innovation and product development

We intend to continue to provide innovative and affordable products to all of our customers. For instance, in the industrial market, we market our proprietary MPS technology, which provides increased affordability, redundancy and scalability within the 600kW to 9,000kW output ranges when compared to single engine generators. We believe that our natural gas powered generators represent a key opportunity within the light commercial market as well. These generators provide an affordable standby power solution that does not include the fuel storage, spillage, spoilage, environmental or odor concerns of traditional diesel units. We have had over 30 years of experience using natural gas engines, and have developed proprietary fuel systems, emissions technology and control systems. Our XG line of portable generators was recently named as an Editor's Choice by Popular Mechanics magazine. We intend to use our engineering expertise and experience to build upon these and other technological advances and respond to shifting customer demands.

Further develop international distribution opportunities

With less than 1% of our 2008 net sales from markets outside of the United States and Canada, international sales represent a significant growth opportunity for us. We have focused our initial international sales efforts on our industrial and light-commercial generators and have successfully built a network of 34 distributors in 16 international markets, primarily in Mexico and Central and South America. International sales of residential generators represent a longer term growth opportunity, with Frost and Sullivan predicting Argentina and Chile to grow by 8% to 9% in 2010, and Colombia and Mexico expected to show growth rates in the 14% to 15% range. To further penetrate these and other international markets, we are actively pursuing partnerships with established international companies with complementary products and distribution capabilities. Over the next few years, we expect to initially leverage our proprietary technology and innovation to increase our presence in the international industrial and light-commercial generator markets.

Expand product offering in complementary markets

We believe that, in addition to the standby market, the portable generator market represents an attractive opportunity to sell products that are strategic to our customer base and complementary to our manufacturing capabilities. We made the decision to re-enter the portable generator market following the expiration of a non-competition agreement in 2007. We introduced an expanded line of portable generators in 2008 and subsequently have added significant distribution capacity in the portable generator market. We believe our dealers and distributors of portable generators make our products more visible in the market, which has enabled us to increase opportunities to sell standby generators.

We also expect to continuously evaluate opportunities to expand organically or through opportunistic acquisitions into other complementary engine-driven adjacent products where we can leverage our manufacturing and sourcing capabilities, technological expertise and strength in distribution.

History

Generac is a Delaware corporation that was founded in 2006. Generac Power Systems, our principal operating subsidiary, is a Wisconsin corporation, which was founded in 1959 to market a line of affordable portable generators that offered superior performance and features. We expanded beyond portable generators in 1980 into the industrial market with the introduction of our first stationary generators that provided up to 200 kW. We entered the residential market in 1989 with a residential standby generator, and expanded our product development and global distribution system in the 1990s, forming a series of alliances that tripled our higher output generator net sales. Our growth accelerated in 2000 when our products entered retail distribution, and our offering of quiet-running QT Series generators in 2005 accelerated our penetration in the commercial market. In 2008 we successfully expanded our position in the portable generator market after the expiration of a non-compete agreement. Today, we manufacture a full line of standby and portable generators for a wide variety of applications and markets. Our success is built on engineering expertise, manufacturing excellence and our innovative approaches to the market.

Our products

We design, engineer and manufacture generators with an output of between 800W and 9mW. In the manufacturing process for our generators, we design, manufacture, source and modify engines, alternators, transfer switches and other components necessary to production.

Our automatic residential standby generators range in output from 8kW to 60kW, with manufacturer's suggested retail prices, or MSRPs, from approximately \$2,000 to \$15,000. They operate on either natural gas or liquid propane and are permanently installed with an automatic transfer switch. Our air-cooled residential standby generators range in outputs from 8kW to 20kW and are available in steel and aluminum enclosures. Our liquid-cooled generators range in outputs from 22kW to 60kW, including the Guardian® Series and the premium QuietSource® Series, with a quiet, low-speed engine and a standard aluminum enclosure. We believe that we have the broadest residential standby product line in the generator industry.

We provide portable generators fueled by gasoline that range in size from 800W to 17,500W. Following the expiration of a non-compete agreement in 2007, we expanded our portable

product line to introduce portable generators below 12,500W. We have currently have four portable product lines: the GP series, targeted at homeowners, ranging from 1,850W to 17,500W; the XG series, targeted at the premium homeowner markets, ranging from 4,000 to 8,000W; the XP series, targeted at the professional contractor market, ranging from 4,000 to 8,000W; and the iX series, targeted at the recreational market, ranging from 800W to 2,000W.

Our light commercial product line includes a full range of affordable generators from 22kW to 150kW, providing three-phase power that is sufficient for most small and mid-sized businesses including grocery stores, convenience stores, restaurants, gas stations, pharmacies, retail banks, small healthcare facilities. Our light commercial generators run on natural gas or liquid propane, which avoids the fuel spillages, spoilage, environmental or odor concerns that are common with traditional diesel units.

We manufacture a broad line of standard and configured industrial standby generators through our industrial dealers. Our single-engine industrial generators range in output from 10kW to 600kW with our MPS extending our product range up to 9mW. We offer four fuel options including gasoline, diesel, natural gas, liquid propane or Bi-Fuel™. Bi-Fuel™ generators run on both diesel and natural gas to allow our customers the advantage of multiple fuel sources and extended run times.

Our MPS combines the power of several smaller generators to produce the output of a larger generator, providing our customers with redundancy and scalability in a cost-effective manner. For larger industrial applications, our MPS product line offers customers an efficient, affordable way to scale their standby power needs. By offering a series of smaller Generac generators integrated with Generac's proprietary PowerManager control system, we provide a lower cost alternative to traditional large, single-engine generators. The MPS product line also offers superior functionality due to the redundancy and scalability of the generator systems.

We provide the telecommunications market our full range of generator systems, ranging from 20kW air-cooled generators to 3mW MPS.

We also manufacture automatic transfer switches that are either packaged with our residential standby generators or sold separately. Automatic transfer switches are devices that transfer power from the electrical grid to a generator without interruption.

Our RV generators are well known for their value and innovation. Our models range in size from 3.4kW to 8.5kW and are available in gasoline, liquid propane or diesel fuel models. These generators are sold directly to original equipment manufacturers, or OEMs, as well as aftermarket dealers.

Distribution channels and customers

We distribute our product through several channels to increase awareness of our product categories and the Generac® brand, and to ensure our products reach a broad customer base. This distribution network includes independent and industrial dealers, electrical wholesalers, national accounts, private label arrangements, retailers, catalogs and e-commerce merchants. We believe our distribution network is a competitive advantage that we have strengthened over the last decade by expanding our network from our base of industrial dealers to include other channels of distribution as we have increased our product offerings. Our network is well

balanced with no one sales channel providing more than 24% of our sales and no customer providing more than 7% of our sales in 2008.

Our dealer network of over 3,700 dealers, which are mainly located in the United States and Canada, is the industry's largest network of independent generator contractors.

Our residential dealer network sells, installs and services our residential and commercial products to end users. We have developed a number of proprietary dealer management systems to evaluate, manage and incentivize our dealers, which we believe has improved the level of customer service provided to end customers. These systems include both technical and sales training programs, under which we train new and existing dealers about our products, service and installation. We regularly perform market analyses to determine if a given market is either under-served or has poor independent distributor representation. Within these locations, we selectively add distribution or invest resources in existing dealer support and training to improve dealer performance.

Our industrial dealer network provides industrial and commercial end-users with on-going, local and nationwide product support. Our sales group works in conjunction with our industrial dealers to ensure that national accounts receive engineering support, competitive pricing and nationwide service. We promote our industrial generators through the use of traveling demonstrations, specifying engineer education events, dealer forums and training events. In recent years, we have been particularly focused on expanding our industrial dealer network in Canada and Latin America in order to expand our international sales opportunities.

Our direct to national accounts strategy provides national coverage for large customers in a coordinated sales approach. We have achieved success with this strategy within the telecommunications and industrial market as we have won business from major wireless telecommunications providers. We seek to duplicate this success within the healthcare and retail sectors. Products sold through our national account sales are installed and serviced by our industrial dealers.

Our electrical wholesaler network consists of over 1,700 selling branches of both national and local distribution houses. Our electrical wholesalers distribute our residential, light-commercial, industrial and portable generators and are a key introduction to the category for electrical contractors.

On a selective basis, we have established arrangements with private label partners to provide residential and light-commercial generators. The partners include leading HVAC equipment, electrical equipment and construction machinery companies, each of which provides access to incremental channels of distribution for our products. We have multi-year contracts with certain of these partners with terms of between three and four years establishing the terms of these arrangements.

Our retail distribution network includes over 9,000 locations, which includes regional and national home improvement chains, retailers, clubs, buying groups and farm supply stores. This is supplemented with a number of catalogue and e-commerce retailers. This network sells our residential standby, portable and light commercial generators. In some cases, we have worked with our retail partners to create installation networks using our dealers to support the sale and installation of standby generator products sold at retail. We also use a combination of

advertising through our partners and other national retail accounts to promote our products within the network.

We also sell our generators for RVs directly to OEM manufacturers and after-market dealers.

Manufacturing

Our excellence in manufacturing reflects our philosophy of high standards, continuous measurement and commitment to quality. Our facilities showcase our advanced manufacturing techniques and demonstrate the effectiveness of lean manufacturing.

We are focused on low-cost production techniques and technology and continually seek to reduce manufacturing costs while improving product quality. We deliver an affordable product to our customers through our low-cost design philosophy, foreign sourcing strategy and adherence to lean manufacturing principles. We believe we have sufficient capacity to achieve our business goals for the foreseeable future without the need for further expansion.

Our product quality is essential to maintaining a leading market position. Incoming shipments from our suppliers are tested to ensure engineering specifications are met. Purchased components are tested for quality before entering production lines and are continuously tested throughout the manufacturing process. Internal product and production audits are performed to ensure a quality product and process. We test finished products under a variety of simulated conditions at each of our manufacturing facilities.

Research and development and intellectual property

Research and development is a core competency and includes a staff of over 100 engineers working on nearly 100 active projects. Our sponsored research and development expense was \$9.9 million, \$9.6 million, \$9.1 million and \$1.2 million for the years ended December 2008 and 2007, for the period from January 1, 2006 through November 10, 2006 and for the period from November 11, 2006 through December 31, 2006, respectively. Research and development is conducted at each of our manufacturing facilities with dedicated teams for each product line. Research and development is focused on developing new technologies and product enhancements as well as maintaining product competitiveness by improving manufacturing costs, safety characteristics, reliability and performance while ensuring compliance with governmental standards. We have had over 30 years of experience using natural gas engines, including our proprietary fuel systems and emissions technology. In the residential market we have developed proprietary engines, cooling packages, controls and fuel and emissions systems.

We own approximately 50 U.S. and international patents and patent applications, and various trademark registrations and applications in the U.S. and other jurisdictions. We use proprietary manufacturing processes that require customized equipment.

Suppliers of raw materials

Our primary raw materials are steel, copper and aluminum, all of which are purchased from third parties and, in many cases, as part of machined components. We have developed an extensive network of reliable, low-cost suppliers in the United States and abroad. In 2009 to date, we sourced more than half of our components from outside the United States. We source liquid-cooled natural gas/liquid propane engines and diesel engines from multiple suppliers, in many cases customizing these engines to our own proprietary specifications. We source from

over 2,000 suppliers with our largest supplier accounting for 8% and our top ten suppliers accounting for 36% of our purchases in the year ended December 31, 2008.

Quality control

We maintain rigorous standards of performance using manufacturing methods that measure individuals, departments and plant metrics. Our manufacturing group measures itself daily, weekly and monthly in five key areas: quality, productivity, delivery, materials management and safety. Monthly conferences with upper management maintain focus on meeting operational challenges and working in a productive and cost effective manner.

We were an early adopter of the UL 2200 Listings for standby generator products, and all of our products meet UL 2200 specifications. We conduct our own self-certification for sound and exhaust emissions to help ensure compliance with the regulatory standards of the EPA, CARB and the South Coast Air Quality Management District.

Warranties

Our warranty policies differ by product line. The majority of our sales are of products carrying a standard two- or three-year warranty, with certain variations in the second or third year that cover reimbursement of the parts cost only. Our provision for warranty expense averaged less than 3.0% of net sales for the last three years.

Properties

We own and operate three manufacturing facilities located in Eagle, Wisconsin, Waukesha, Wisconsin and Whitewater, Wisconsin, which total approximately 800,000 square feet. We also operate a dealer training center at our Eagle, Wisconsin facility, which allows us to train new industrial and residential dealers on the service and installation of our products and provide existing dealers with training on product innovations.

We own a distribution center totaling 200,000 square feet and an undeveloped lot of approximately 18.7 acres in Whitewater, Wisconsin. We also have leased inventory warehouses in the United States that accommodate the rapid response requirements of our customers.

The following table shows the location and activities of our operations.

Location	Owned/ Leased	Square footage	Activities

All of our properties are subject to mortgages under our senior secured credit facilities.

Information systems

Our current Enterprise Resource Planning, or ERP, is AS/400 based and has been in place for over eight years. This system provides an integrated link between our manufacturing, inventory, purchasing, engineering, order entry, sales, planning, customer relationship management, accounting and human resources functions. In addition, we have made significant investments in customizing our ERP software for our business needs.

Competition

The market for onsite generators is competitive and continually evolving. We face competition from a variety of large diversified industrial technology companies as well as smaller generator manufacturers abroad. However, most of the traditional participants in the standby generator market compete on a more specialized basis, focused on specific applications within their larger diversified product mix. We are the only significant market participant focused exclusively on standby and portable generators with broad capabilities across the residential, industrial and light-commercial generator markets. We believe that our engineering capabilities and core focus on generators provide us with manufacturing flexibility and enable us to maintain a first-mover advantage over our competition for product innovation.

Our competitors include Briggs & Stratton, Caterpillar, Cummins, Honda, Kohler, MTU (Katolight division), and Techtronics International (TTI). In the market for standby industrial and commercial generators, our primary competitors are Caterpillar, Cummins, Kohler and MTU, most of which also focus on the market for diesel generators as they are also diesel engine manufacturers. In the market for residential standby generators, our primary competitors include Briggs & Stratton, Cummins (Onan division) and Kohler, which also have broad operations in other manufacturing businesses. In the portable generator market, our primary competitors include Briggs & Stratton, Honda and Techtronics International (TTI), along with a number of smaller domestic and foreign competitors.

There are a number of other standby generator manufacturers located outside North America, but most supply their products mainly to their respective regional markets. In a continuously evolving sector, we think our size and broad capabilities make us well positioned to remain competitive. Furthermore, we view several of these international manufacturers as potential candidates for future strategic partnerships.

We compete primarily on the basis of brand reputation, quality, reliability, pricing, innovative features, breadth of product and product availability.

Employees

As of June 30, 2009, we had 1,504 employees (1,359 full time and 145 part-time and temporary employees). Of those, 903 employees were directly involved in manufacturing at our manufacturing facilities, 88 employees were involved in research and development, 294 employees were part of our sales, distribution and service groups, and 219 employees were involved in corporate or other functions.

We have had an "open shop" bargaining agreement for the past 45 years. Our current agreement is with the Communication Workers of America, Local 5503. The current agreement,

which expires October 20, 2011, covers our Waukesha and Eagle facilities, but because membership is voluntary, only 34 of the 418 eligible employees at those locations are members of the union. Our facility in Whitewater, Wisconsin is not unionized.

Regulation, including environmental matters

As a manufacturing company, our operations are subject to a variety of foreign, federal, state and local environmental, health and safety laws and regulations including those governing, among other things, emissions to air, discharges to water, noise and the generation, handling, storage, transportation, treatment and disposal of waste and other materials. In addition, our products are subject to various laws and regulations relating to, among other things, emissions and fuel requirements, as well as labeling and marketing.

Our products are regulated by the EPA and CARB. These governing bodies continuously pass regulations that require us to meet more stringent emission standards. With the adoption of a recent regulation covering stationary propane and natural gas-fueled generators, the EPA now regulates all products we produce for sale in the United States. These regulations could require us to redesign our products and could affect market growth for certain of our products.

For example, the EPA has developed multiple phases of national emission standards for small air-cooled engines. In 2008, the EPA adopted a proposed Phase III regulation that further reduces permitted exhaust emissions from small engines and also requires the engines and equipment in which engines are used to meet new evaporative emission standards. The EPA's Phase III program requires the use of evaporative controls that must be phased in starting in 2009 and take full effect in 2011 for Class II engines (225 cubic centimeter displacement and larger) and 2012 for Class I engines (less than 225 cubic centimeter displacement). The Phase III program's more stringent exhaust emission requirements also apply starting in 2011 for Class II engines and 2012 for Class I engines. The Phase III standards are similar to the CARB's Tier 3 emission standards which were fully phased in during fiscal year 2008. CARB's Tier 3 regulation required additional reductions to engine exhaust emissions as well as new controls on evaporative emissions from small engines.

We believe that our operations and our products are in material compliance with applicable laws and regulations, including environmental and workplace safety regulations. We are not subject to any pending investigations, claims, or proceedings by any foreign, federal, state, or local governmental agency or administration that would materially impact our financial condition or our results.

Litigation

From time to time, we are involved in legal proceedings primarily involving product liability and employment matters and general commercial disputes arising in the ordinary course of our business. We believe that there is no litigation pending that would have a material effect on our results of operations or financial condition.

Code of ethics

Upon completion of this offering, we intend to adopt a code of ethical conduct for directors and all employees of Generac. We intend to post our code of ethical conduct on our website at www.generac.com. To the extent permitted, we intend to post on our website any amendments to, or waivers from, our code of ethical conduct.

Director independence and controlled company exception

Our board of directors has affirmatively determined that Barry J. Goldstein will be an independent director under the applicable rules of the NYSE and as such term is defined in Rule 10A-3(b)(1) under the Exchange Act.

After completion of this offering, affiliates of CCMP will continue to control a majority of our outstanding common stock. As a result, we are a "controlled company" within the meaning of the NYSE corporate governance standards. Under these rules, a "controlled company" may elect not to comply with certain NYSE corporate governance standards, including:

- the requirement that a majority of the board of directors consist of independent directors;
- the requirement that we have a nominating and corporate governance committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities;
- the requirement that we have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities; and

- the requirement for an annual performance evaluation of the nominating and corporate governance committee and compensation committee.

Following this offering, we intend to utilize these exemptions. As a result, we will not have a majority of independent directors, our nominating and corporate governance committee and compensation committee will not consist entirely of independent directors and such committees will not be subject to annual performance evaluations. Accordingly, our stockholders will not have the same protections afforded to shareholders of companies that are subject to all of the NYSE corporate governance requirements.

Board committees

Audit committee

The purpose of the audit committee is set forth in the audit committee charter. The committee's primary duties and responsibilities are to:

- appoint, compensate, retain and oversee the work of any registered public accounting firm engaged for the purpose of preparing or issuing an audit report or performing other audit, review or attest services and review and appraise the audit efforts of our independent accountants;
- establish procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting controls or auditing matters;
- engage independent counsel and other advisers, as necessary;
- determine funding of various services provided by accountants or advisers retained by the committee;
- serve as an independent and objective party to oversee our internal controls and procedures system; and
- provide an open avenue of communication among the independent accountants, financial and senior management and the board.

Upon the completion of this offering, the members of the audit committee will be Messrs. Barry J. Goldstein, Stephen McKenna and Timothy Walsh. Mr. Goldstein will serve as the chairman of the audit committee and the board of directors has determined that he is an "audit committee financial expert" as defined in Item 407(d)(5) of Regulation S-K. The board is satisfied that all members of our audit committee have sufficient expertise and business and financial experience necessary to effectively perform their duties as members of the audit committee.

Compensation committee

The purpose of the compensation committee is to review and approve the compensation of our executives. The compensation committee approves compensation objectives and policies as well as compensation plans and specific compensation levels for all executive officers.

With respect to compensation matters for each named executive officer other than Mr. Jagdfeld, Mr. Jagdfeld solicits information and recommendations on each executive's duties, responsibilities, business goals, objectives and upcoming challenges from York A. Ragen, the

Chief Financial Officer, or CFO, and Dawn Tabat, the Chief Operating Officer, or COO. Mr. Jagdfeld provides the compensation committee his recommendation of compensation for each named executive officer. Mr. Jagdfeld also provides publicly available compensation data for senior executives, including chief executive officers, of various companies. After reviewing and discussing Mr. Jagdfeld's recommendations for each named executive officer, the compensation committee and Mr. Jagdfeld establish the compensation of the management team generally and the compensation committee establishes Mr. Jagdfeld's compensation independently.

Upon the completion of this offering, Messrs. _____ and _____ will serve on the compensation committee, and Mr. _____ will serve as the chairman. Our board of directors will affirmatively determine that each of _____ and _____ meets the definition of "outside director" for the purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended.

Nominating and corporate governance committee

The primary purpose of the nominating and corporate governance committee is to:

- identify and recommend to the board individuals qualified to serve as directors of our company and on committees of the board;
- advise the board with respect to the board composition, procedures and committees;
- develop and recommend to the board a set of corporate governance guidelines and principles applicable to us; and
- review the overall corporate governance of our company and recommend improvements when necessary.

Upon the completion of this offering, Messrs. _____ and _____ will serve on the nominating and corporate governance committee, and Mr. _____ will serve as the chairman.

Compensation committee interlocks and insider participation

Upon the completion of this offering, none of our executive officers will serve on the compensation committee or board of directors of any other company of which any of the members of our compensation committee or any of our directors is an executive officer.

Compensation discussion and analysis

Compensation philosophy and objectives

Generac's executive compensation policy, as established by our compensation committee, is designed to provide a base salary that is competitive in the marketplace with other privately and publicly owned manufacturing companies with comparable net sales.

The compensation committee looks to the aggregate compensation package for each named executive officer to determine the individual elements of each such named executive officer's pay. The compensation committee and board of directors of Generac approve an annual variable compensation plan targeted to pay at competitive levels, provided that pre-established individual and Generac performance goals are achieved. We anticipate that in future periods, the compensation committee may engage an independent outside compensation consultant to construct a peer group of companies, provide market information, provide advice on market practices and support specific decisions regarding compensation for named executive officers. In addition, we expect that Messrs. Jagdfeld and Ragen, in consultation with the board of directors, will establish an annual budget that will include sales targets and other performance-related goals, which the compensation committee may consult in making decisions with respect to bonuses and other payments. The compensation committee may also approve the grant of shares of restricted stock, options or other equity or equity-based awards from time to time, the value of which is intended to retain and motivate our chief executive officer, chief financial officer and each of our three other most highly compensated executive officers (referred to as our "named executive officers"), as well as align a portion of their compensation with our performance.

We expect that, upon completion of our initial public offering, each of the named executive officers will receive one or more of the types of awards described below. These awards are intended to align the long-term interests of the named executive officers with those of Generac and its stockholders, while also promoting retention by utilizing multi-year vesting periods. Generally, we will grant equity awards to executives in connection with their commencement of employment with us. The compensation committee will determine the value of such grants by reviewing compensation practices of peer companies, our past practice, and individual negotiations with the executive. In addition, the compensation committee has the discretion to grant additional equity awards to executives, including the named executive officers, based on the individual's contributions to Generac.

Role of the Compensation Committee

Our compensation committee discharges the responsibility of the board of directors relating to the compensation of the named executive officers. The compensation committee's charter contains detailed information on its duties and function and is available on our website at www.generac.com.

The compensation committee annually reviews our goals and objectives related to the compensation of the named executive officers. During that review, the compensation committee considers the balance between short-term compensation and long-term incentives, evaluates the performance of the named executive officers in light of established goals and objectives and sets the compensation levels of the named executive officers based on that

evaluation. In determining appropriate compensation levels, the compensation committee considers our performance and relative shareholder return, the compensation levels of persons holding comparable positions at our peer companies and the compensation given to the named executive officers in previous years. The compensation committee has the ultimate authority and responsibility to engage and terminate any outside consultant to assist in determining appropriate compensation levels for the named executive officers. The compensation committee has not hired outside compensation consultants to conduct a direct analysis of our compensation levels; however, we subscribe to databases maintained by two independent consultant companies, which include manufacturing industries of comparable net sales. The Chief Executive Officer and the Vice President of Human Resources analyze the data to develop recommendations as to the compensation of the named executive officers. The compensation committee then reviews and recommends any changes for subsequent board approval. Neither the Chief Executive Officer nor the Vice President of Human Resources makes recommendations about his/her own compensation to the compensation committee.

Components of compensation

Base salary

Employment agreements for certain of the named executive officers were established as a result of negotiations between the individual and Generac at the time of hire and contain a reasonable range of compensation determined by competitive data and experience. The employment agreements currently in effect for our named executive officers are described below under "Executive compensation—Employment agreements and severance benefits." The compensation committee reviews the base salaries of the named executive officers on an annual basis and determines whether an increase is warranted based on its review of individual performance, compensation comparisons and recommendations of the Chief Executive Officer.

As of January 1, 2008, Mr. Jagdfeld served as President and Chief Financial Officer with a base salary of \$400,000. Mr. Ragen served as Vice President of Finance with a base salary of \$150,000. Ms. Tabat served as Chief Operating Officer, Executive Vice President and Secretary with a base salary of \$450,000. Mr. Feng served as Chief Marketing Officer and Executive Vice President with a base salary of \$262,000. Mr. Schaus served as Vice President of Operations-Whitewater with a base salary of \$176,805. On January 21, 2008, the compensation committee approved an increase to Mr. Schaus' compensation to \$200,000 upon his appointment to Senior Vice President of Service Operations. On October 1, 2008, the compensation committee approved an increase to Mr. Ragen's base salary to \$165,000 upon his appointment as Chief Financial Officer and also approved general increases for Mr. Feng to \$270,000 and Mr. Schaus to \$206,611. On October 12, 2009, the compensation committee approved an increase to Mr. Ragen's base salary to \$246,500 as a result of a compensation comparison using third party salary surveys.

Annual bonus: incentive compensation plan

The named executive officers are eligible to receive annual bonuses based upon target bonus award levels, or Target Bonus Levels, equal to 35% of base salary for Messrs. Jagdfeld, Tabat, and Ragen, 30% of base salary for Mr. Feng and 25% of base salary for Mr. Schaus, with maximum bonuses of 105% of base salary for Messrs. Jagdfeld, Tabat, and Ragen, 90% of base salary for Mr. Feng and 75% of base salary for Mr. Schaus. All annual bonuses are paid

pursuant to the Incentive Compensation Plan, subject to the discretion of the compensation committee to make such adjustments as it deems appropriate.

The compensation committee determines Generac's target earnings before interest, taxes, depreciation and amortization factor, or Target EBITDA Factor, through the use of a sliding scale. The Target EBITDA Factor is a number on a sliding scale ranging from zero (0) to three (3) with the target factor of 0 set at 90%, the target factor of 1 set at 95%, the target factor of 2 set at 100% and the target factor of 3 set at 110% of Generac's Business Plan EBITDA. A participant's annual bonus is the product of his or her Target Bonus Level, multiplied by Generac's Target EBITDA Factor achieved, multiplied by his or her base salary.

For the bonus year ended December 31, 2008, Generac's actual EBITDA was 72.7% of the Business Plan EBITDA resulting in a Target EBITDA Factor of zero (0). As a result, the compensation committee did not grant any performance bonuses under the Incentive Compensation Plan for the year ended December 31, 2008.

In addition, Mr. Feng's employment agreement allows for his participation in Generac's corporate quarterly bonus program. This program provides Mr. Feng with the opportunity to receive a bonus payment of up to \$6,000 per quarter in the event we achieve a single, double or triple level performance target for that quarter. Mr. Feng must be employed for the entire quarter to be eligible to receive any bonus payments made for that quarter's performance.

Equity-based compensation

In November 2006, we adopted a 2006 Management Equity Incentive Plan, or the 2006 Equity Incentive Plan, providing for the purchase by certain members of our management and employees, including our named executive officers, of up to a maximum of 9,350.0098 shares of Class A Common Stock and 5,000 shares of Class B Common Stock, subject to certain adjustments. In connection with this offering, we intend to terminate the 2006 Equity Incentive Plan and adopt a new equity incentive plan, or the Omnibus Plan. The Omnibus Plan will provide for grants of nonqualified stock options, incentive stock options, stock appreciation rights, restricted stock, other stock-based awards and performance-based compensation. Directors, officers and other employees of us and our subsidiaries and affiliates, as well as other individuals performing services for us, will be eligible for grants under the Omnibus Plan. The purpose of the Omnibus Plan will be to provide incentives that will attract, retain and motivate highly competent officers, directors, employees and other service providers by providing them with appropriate incentives and rewards either through a proprietary interest in our long-term success or compensation based on their performance in fulfilling their personal responsibilities.

Pension plans

We provide retirement benefits to the named executive officers under the terms of qualified defined benefit plans. The Generac Power Systems Inc. Salaried, Technical & Clerical Employees Pension Plan, or the Plan, is a tax qualified retirement plan in which the named executive officers participate on the same terms as our other participating employees.

The Plan is a non-contributory defined benefit pension plan subject to the provisions of the Employee Retirement Income Security Act. The Plan was frozen effective December 31, 2008. This resulted in a cessation of all future benefit accruals under the Plan.

401(k) plan

Beginning on January 1, 2009, we elected to sponsor a voluntary 401(k) tax-qualified savings plan covering employees, including our named executive officers. We match 50% of the first 6% of each eligible employee's compensation that he or she contributes to the plan each year up to 20%.

Section 162(m) deductibility

After the consummation of this offering, Section 162(m) of the Internal Revenue Code would limit the deductibility of the compensation of our named executive officers to \$1,000,000 per individual to the extent that such compensation is not "performance-based" as defined in Section 162(m). We intend to rely on an exemption from Internal Revenue Code Section 162(m) for compensation plans adopted prior to a company's initial public offering. This transition exemption for our compensation plans will no longer be available to us after the date of our annual meeting that occurs after the third calendar year following the year of our initial public offering or if we materially modify the plan earlier. We will continue to consider the implications of Internal Revenue Code Section 162(m) and the limits of deductibility of compensation in excess of \$1,000,000 as we design our compensation programs going forward.

Equity incentive plan

We intend to adopt an equity incentive plan, or the Omnibus Plan, in connection with this offering. The Omnibus Plan will become effective prior to the consummation of this offering and a total of _____ shares of our common stock will be reserved for sale.

Administration

The Omnibus Plan will provide for its administration by the Compensation Committee of our board of directors or any committee designated by our board of directors to administer the Omnibus Plan.

Members of our board of directors, as well as employees of, and service providers to, us or any of our subsidiaries and affiliates will be eligible to participate in the Omnibus Plan.

Types of awards

The Omnibus Plan will provide for the grant of nonqualified stock options, incentive stock options, stock appreciation rights, shares of restricted stock, other stock-based awards and performance-based compensation, collectively, the awards. The committee will, with regard to each award, determine the terms and conditions of the award, including the number of shares subject to the award, the vesting terms of the award, and the purchase price for the award. Awards may be made in assumption of or in substitution for outstanding awards previously granted by us or our affiliates, or a company acquired by us or with which we combine.

Pension benefits for 2008

The following table presents information regarding the present value of accumulated benefits that may become payable to the named executive officers under the Plan:

Name	Plan Name	Number of years credited service	Present value of accumulated benefit(1)	Payments during last fiscal year
Aaron Jagdfeld	Generac Power Systems Inc. Salaried, Technical & Clerical Employees Pension Plan	14.0	86,200	—
York Ragen	Generac Power Systems Inc. Salaried, Technical & Clerical Employees Pension Plan	3.0	9,397	—
Dawn Tabat	Generac Power Systems Inc. Salaried, Technical & Clerical Employees Pension Plan	36.0	747,079	—
Clement Feng	Generac Power Systems Inc. Salaried, Technical & Clerical Employees Pension Plan	1.0	10,620	—
Roger Schaus, Jr	Generac Power Systems Inc. Salaried, Technical & Clerical Employees Pension Plan	20.0	317,653	—

(1) The accumulated benefit is based on service and earnings considered by the Plan for the period through December 31, 2008, at which time the Plan was frozen. Present value has been calculated assuming the named executive officers will remain in service until age 65, the age at which may occur without any reduction in benefits, and that the benefit is payable under the available forms of annuity consistent with the Plan. The interest assumption is 6.48%. The post retirement mortality assumption is based on the RP 2000 Combined Healthy Mortality for males or females, as appropriate, projected to 2007 with Projection Scale AA. See Note 9—Benefit Plans to our consolidated financial statements included elsewhere in this prospectus for more information.

The benefits under the Plan are based upon years of service and each participant's defined final average monthly compensation. For purposes of calculating benefits, average annual compensation is limited by Section 401(a)(17) of the Internal Revenue Code and is based upon wages, salaries and other amounts paid to the employee. Under the Plan, a participant earns a vested right to an accrued benefit upon completion of five years of vesting service.

Employment agreements and severance benefits

We have entered into employment agreements with Mr. Jagdfeld and Ms. Tabat under which, in the event the agreement is terminated, the relevant executive is entitled to severance payments determined by whether or not the agreement was terminated without Cause or Good Reason. The term of each employment agreement commenced on November 10, 2006 and continues unless terminated until November 10, 2011.

Cause is defined as the executive's: (a) willful and continued failure to substantially perform his/her duties; (b) gross negligence or willful misconduct in the performance of his or her duties; (c) commission of fraud, embezzlement, misappropriation of funds, breach of fiduciary duty or a material act of dishonesty against us; (d) indictment for a felony; or (e) drug addiction or habitual intoxication that adversely affects his or her performance or the reputation or best interest of the company.

Good Reason is defined as: (a) a reduction in the executive's base salary; (b) a material reduction of the executive's duties or responsibilities that has not been cured within 20 days after written notice has been given; and (c) a requirement by us that the executive be based in an office that is 50 miles more than his or her principal place of employment as of November 10, 2006.

All severance payments are subject to the executive's execution and effectiveness of a release of claims in the form attached to each employment agreement, and the executive's continued compliance with the Non-Competition Agreement (as defined herein).

If we terminate an employment agreement for Cause, or if the executive terminates his or her employment agreement without Good Reason, the executive is entitled only to the obligations already accrued under his or her employment agreement. If we terminate an employment agreement without Cause or if an executive terminates his or her employment agreement for Good Reason, the executive is entitled to receive from us (1) any accrued but unpaid base salary and vacation pay through the Termination Date (as defined in each employment agreement), payable as soon as practicable following such Termination Date, (2) any earned annual bonus for the fiscal year during which the Termination Date occurred (and the annual bonus for the prior fiscal year, if earned but not yet paid), payable in accordance with our usual bonus payment schedule, and (3) for a period of 18 months commencing on the Termination Date, 150% of the executive's then current base salary, payable in accordance with our standard payroll practices. In addition, we shall maintain the medical, hospitalization, dental and life insurance programs that the executive participated in prior to the Termination Date, in full force and effect, for the continued benefit of the executive, his or her spouse and dependents for a period of 18 months commencing on the Termination Date, and the executive would be entitled to full COBRA rights following the termination of such benefits. If we terminated Mr. Jagdfeld's or Ms. Tabat's employment agreement without Cause on December 31, 2008 or if either of them terminated his or her employment agreement for Good

Reason, Mr. Jagdfeld would have been entitled to receive an aggregate of \$919,442 (\$900,000 for salary and \$19,442 for benefits) and Ms. Tabat would have been entitled to receive an aggregate of \$1,018,538 (\$1,012,500 for salary and \$6,038 for benefits), payable as described above, plus any accrued and unpaid base salary and bonus.

Simultaneously with the execution of each employment agreement, we entered into a confidentiality, non-competition and intellectual property agreement or Non-Competition Agreement. Pursuant to each of the Non-Competition Agreements, Mr. Jagdfeld and Ms. Tabat have agreed to maintain Confidential Information (as defined in each Non-Competition Agreement) in confidence and secrecy and have agreed not to compete with us or solicit any of our employees during his or her employment and for a period following eighteen months of his or her termination.

In addition to the previously discussed employment agreements, Mr. Feng has an employment letter dated August 7, 2007 that provides salary and benefit continuation for a 12 month period commencing on his termination date, in the event he is terminated without Cause. If Mr. Feng had been terminated on December 31, 2008 without Cause, he would have been entitled to receive an aggregate of \$282,961 (\$270,000 for salary and \$12,961 for benefits), payable as described above, plus any accrued and unpaid base salary and bonus.

Equity vesting upon a change of control

On November 10, 2006, and from time to time thereafter, certain named executive officers purchased restricted shares of Class A Common Stock under the 2006 Equity Incentive Plan and pursuant to restricted stock agreements. One half of the restricted shares vest over time (Time Vesting Shares) with 25% vesting on November 10, 2007 and on the next three anniversaries thereof, so long as the participant is still employed by us or one of our subsidiaries on the applicable vesting date. Upon the occurrence of a change of control of Generac, any unvested Time Vesting Shares immediately vest in full, so long as the participant is still employed by us or one of our subsidiaries. The other half of the restricted shares immediately vests in full upon the occurrence, provided the participant is still then employed by us or one of our subsidiaries, of either: (1) a change of control of Generac that provides the Sponsors (as defined under "Certain relationships and related person transactions—Advisory services and monitoring agreement") with a certain rate of return with respect to net proceeds received by the Sponsors from their investment in Generac; or (2) from and after the date of an initial public offering, the achievement with respect to shares of the Class A Common Stock of an average closing trading price exceeding, in any 60 consecutive trading day period starting prior to the later of (a) the fifth year anniversary of the date of grant of the restricted shares, and (b) one year after an initial public offering, a certain threshold with respect to net proceeds received by the Sponsors from their investment in Generac.

Certain relationships and related person transactions

Shareholders agreement

On November 10, 2006, Generac entered into a shareholders agreement, or Shareholders Agreement, with certain of its shareholders, or Shareholders, including CCMP Capital Investors II, L.P., various of its affiliated funds, various funds affiliated with Unitas and the Management Shareholders (as defined in the Shareholders Agreement).

The Shareholders Agreement includes customary provisions regarding the election of members of our boards of directors, share transfer restrictions, tag-along rights, drag-along rights and certain preemptive rights, all of which provisions terminate upon the occurrence of an initial public offering, or IPO.

The Shareholders Agreement also provides for: (1) customary demand registration rights, which require Generac to effect registration of the Registrable Securities (as defined in the Shareholders Agreement) upon a written request from CCMP, subject to certain limitations; (2) customary piggy-back registration rights, after the occurrence of an IPO of Generac; and (3) shelf demand registration rights at any time after the one-year anniversary of an IPO of Generac when Generac becomes eligible to use a registration statement on Form S-3. In addition, under the Shareholders Agreement, Generac agrees to indemnify any selling stockholders with respect to registrations made pursuant to the above-mentioned registration rights.

The Shareholders Agreement also includes provisions regarding the repurchase of shares held by Management Shareholders who cease to be employed by Generac or any of its subsidiaries. After the occurrence of an IPO, Generac will continue to have a right to repurchase shares of common stock held by our employees if any such employee is terminated for cause prior to the first anniversary of the IPO or in the event a Management Shareholder violates the terms of any non-competition or non-solicitation covenant applicable to such employee.

Advisory services and monitoring agreement

On November 10, 2006, Generac, Generac Acquisition Corp., and Generac Power Systems entered into a five-year advisory services and monitoring agreement with CCMP, Unitas Capital Pte. Ltd. and Unitas Capital Consulting Company Ltd., together, the "Sponsors", pursuant to which the Sponsors (or their affiliates) provide us with business monitoring and transaction advisory services. We pay the Sponsors (or their designees), collectively, a quarterly advisory fee in an amount equal to \$125,000 and are obligated to reimburse for (1) reasonable out-of-pocket expenses incurred in connection with the provision of such management services, in connection with any enforcement of remedies under the agreement, and (2) reasonable out-of-pocket expenses incurred by each director appointed to the board of directors of any of Generac, Generac Acquisition Corp., and Generac Power Systems in connection with attending regular and special meetings of such board of directors and any committee thereof.

In connection with and upon the consummation of the CCMP Transactions, the Sponsors received an aggregate fee of \$15 million for, among other things, advisory services provided by them related to, and payable upon the completion of, the CCMP Transactions. In addition, pursuant to the advisory services and monitoring agreement, in January 2007 the Sponsors

received a fee of \$15 million in the aggregate as a result of our having a specified level of borrowing capacity under our revolving credit facility for a specified period of time.

Upon the consummation of an IPO (including this offering), the advisory services and monitoring agreement will automatically terminate, and we are required to promptly pay to the Sponsors the final installment of the quarterly advisory fee referred to above, pro rated if the final period is less than 90 days, and any unreimbursed expenses.

The advisory services and monitoring agreement also includes customary indemnification provisions in favor of the Sponsors and their affiliates.

2006 management equity incentive plan

On November 10, 2006, we adopted the 2006 Equity Incentive Plan, which provided for investment by certain members of our management and employees up to a maximum of 9,350.0098 shares of our Class A Common Stock and 5,000 shares of our Class B Common Stock, subject to certain adjustments.

On November 10, 2006, and from time to time thereafter, certain members of management purchased restricted shares of Class A Common Stock under the 2006 Equity Incentive Plan and pursuant to restricted stock agreements. One half of the restricted shares vest over time, or Time Vesting Shares, with 25% vesting on November 10, 2007 and on the next three anniversaries thereof, so long as the participant is still employed by us or one of our subsidiaries on the applicable vesting date. Upon the occurrence of a change of control of Generac, any unvested Time Vesting Shares immediately vest in full, so long as the participant is still employed by us or one of our subsidiaries. The other half of the restricted shares immediately vest in full upon the occurrence, provided the participant is still then employed by us or one of our subsidiaries, of either: (1) a change of control of Generac that provides the Sponsors with a certain rate of return with respect to net proceeds received by the Sponsors from their investment in Generac; or (2) from and after the date of the IPO, the achievement with respect to shares of the Class A Common Stock of an average closing trading price exceeding, in any 60 consecutive trading day period starting prior to the later of (a) the fifth year anniversary of the date of grant of the restricted shares, and (b) one year after the IPO, a certain threshold with respect to net proceeds received by the Sponsors from their investment in Generac.

As a condition to the purchase of restricted shares, members of management executed confidentiality, non-competition and intellectual property agreements, requiring them, for the period of their employment with Generac and for 18 months thereafter, to (1) keep certain information relating to Generac confidential, (2) not participate in a business competing with Generac, and (3) not solicit certain employees of Generac to leave their employment.

At present, we are not aware of any pending or threatened litigation or proceeding involving any of our directors, executive officers, employees, or agents in which indemnification would be required or permitted. We believe these indemnification agreements are necessary to attract and retain qualified persons as directors and executive officers.

Policies for approval of related person transactions

In connection with this offering, we will adopt a written policy relating to the approval of related person transactions. Our audit committee will review and approve or ratify all relationships and related person transactions between us and (1) our directors, director nominees, executive officers or their immediate family members, (2) any 5% record or beneficial owner of our common stock or (3) any immediate family member of any person specified in (1) and (2) above. Our controller will be primarily responsible for the development and implementation of processes and controls to obtain information from our directors and executive officers with respect to related party transactions and for determining, based on the facts and circumstances, whether we or a related person have a direct or indirect material interest in the transaction.

As set forth in the related person transaction policy, in the course of its review and approval or ratification of a related party transaction, the committee will consider:

- the nature of the related person's interest in the transaction;
- the availability of other sources of comparable products or services;
- the material terms of the transaction, including, without limitation, the amount and type of transaction; and
- the importance of the transaction to us.

Any member of the audit committee who is a related person with respect to a transaction under review will not be permitted to participate in the discussions or approval or ratification of the transaction. Description of capital stock

The following is a description of the material terms of our amended and restated certificate of incorporation and bylaws as they will be in effect following the Corporate Reorganization and immediately prior to the consummation of this offering. This summary does not purport to be complete and is qualified in its entirety by reference to the actual terms and provisions of our amended and restated certificate of incorporation and bylaws, copies of which will be filed as exhibits to the registration statement of which this prospectus is a part.

Authorized capitalization

Upon the completion of the Corporate Reorganization immediately prior to the consummation of this offering, our authorized capital stock will consist of _____ shares of common stock, par value \$0.01 per share, and _____ shares of preferred stock, par value \$ _____ per share. Immediately following the completion of this offering, _____ shares of common stock, or _____ shares if the underwriters exercise their option to purchase additional shares in full, will be outstanding, and there will be no outstanding shares of preferred stock.

Common stock

The holders of our common stock are entitled to the following rights.

Voting rights

Each share of common stock entitles the holder to one vote with respect to each matter presented to our stockholders on which the holders of common stock are entitled to vote. Our common stock votes as a single class on all matters relating to the election and removal of directors on our board of directors and as provided by law, with each share of common stock entitling its holder to one vote. Holders of our common stock will not have cumulative voting rights. Except as otherwise provided in our amended and restated certificate of incorporation or required by law, all matters to be voted on by our stockholders must be approved by a majority of the shares present in person or by proxy at the meeting and entitled to vote on the subject matter.

Dividend rights

Holders of common stock will share equally in any dividend declared by our board of directors, subject to any preferential rights of the holders of any outstanding preferred stock.

Liquidation rights

In the event of any voluntary or involuntary liquidation, dissolution or winding up of our affairs, holders of our common stock would be entitled to share ratably in our assets that are legally available for distribution to stockholders after payment of liabilities. If we have any preferred stock outstanding at such time, holders of the preferred stock may be entitled to distribution and/or liquidation preferences. In either such case, we must pay the applicable distribution to the holders of our preferred stock before we may pay distributions to the holders of our common stock.

Other rights

Our stockholders have no subscription, redemption or conversion privileges. Our common stock does not entitle its holders to preemptive rights for additional shares and does not have any sinking fund provisions. All of the outstanding shares of our common stock are fully paid and nonassessable. The rights, preferences and privileges of the holders of our common stock are subject to the rights of the holders of shares of any series of preferred stock which we may issue.

Registration rights

Our existing stockholders have certain registration rights with respect to our common stock pursuant to a registration rights agreement. For further information regarding this agreement, see "Certain relationships and related person transactions" and "Shares eligible for future sale."

Preferred stock

Our board of directors is authorized to provide for the issuance of preferred stock in one or more series and to fix the preferences, powers and relative, participating, optional or other special rights, and qualifications, limitations or restrictions thereof, including the dividend rate, conversion rights, voting rights, redemption rights and liquidation preference and to fix the number of shares to be included in any such series without any further vote or action by our stockholders. Any preferred stock so issued may rank senior to our common stock with respect to the payment of dividends or amounts upon liquidation, dissolution or winding up, or both. In addition, any such shares of preferred stock may have class or series voting rights. The issuance of preferred stock may have the effect of delaying, deferring or preventing a change in control of our company without further action by the stockholders and may adversely affect the voting and other rights of the holders of our common stock.

Anti-takeover effects of our amended and restated certificate of incorporation and bylaws

Upon the closing of this offering, our amended and restated certificate of incorporation and bylaws will contain provisions that may delay, defer or discourage another party from acquiring control of us. We expect that these provisions, which are summarized below, will discourage coercive takeover practices or inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our board of directors, which we believe may result in an improvement of the terms of any such acquisition in favor of our stockholders. However, they also give our board the power to discourage acquisitions that some stockholders may favor.

Delaware Anti-Takeover Statute

Upon the closing of this offering, our amended and restated certificate of incorporation will provide that the provisions of Section 203 of the Delaware General Corporation Law, which relate to business combinations with interested stockholders, do not apply to us.

Amended and restated certificate of incorporation and bylaw provisions

Board composition and filling vacancies. We will have a classified board of directors upon the closing of this offering. See "Management—Board of directors." It will take at least three

annual meetings of stockholders to elect a majority of the board of directors given our classified board. As a result, it may discourage third-party proxy contests, tender offers or attempts to obtain control of us even if such changes would be beneficial to us and our stockholders.

Our bylaws will provide that directors may be removed only for cause by the affirmative vote of the holders of a majority of the voting power of the outstanding shares of common stock entitled to vote. Furthermore, any vacancy on our board of directors, however occurring, including a vacancy resulting from an increase in the size of our board, may only be filled by the affirmative vote of a majority of our directors then in office even if less than a quorum.

No stockholder action by written consent. Our amended and restated certificate of incorporation will provide that, subject to the rights of any holders of preferred stock to act by written consent instead of a meeting, stockholder action may be taken only at an annual meeting or special meeting of stockholders and may not be taken by written consent instead of a meeting, unless the action to be taken by written consent of stockholders and the taking of this action by written consent has been expressly approved in advance by the board of directors. Failure to satisfy any of the requirements for a stockholder meeting could delay, prevent or invalidate stockholder action.

Meetings of stockholders. Our bylaws will provide that only a majority of the members of our board of directors then in office or the Chief Executive Officer may call special meetings of the stockholders and only those matters set forth in the notice of the special meeting may be considered or acted upon at a special meeting of stockholders. Our bylaws will limit the business that may be conducted at an annual meeting of stockholders to those matters properly brought before the meeting.

Advance notice requirements. Our bylaws will establish an advance notice procedure for stockholders to make nominations of candidates for election as directors or to bring other business before an annual meeting of our stockholders. The bylaws will provide that any stockholder wishing to nominate persons for election as directors at, or bring other business before, an annual meeting must deliver to our secretary a written notice of the stockholder's intention to do so. To be timely, the stockholder's notice must be delivered to or mailed and received by us not later than the 60th day nor earlier than the 90th day prior to the anniversary date of the preceding annual meeting, except that if the annual meeting is changed by more than 30 days from the date contemplated at the time of the previous year's proxy statement, we must receive the notice not earlier than the 90th day prior to such annual meeting and not later than the 60th day prior to such annual meeting. If a public announcement of the date of such annual meeting is made fewer than 70 days prior to the date of such annual meeting, then notice must be received by us no later than the tenth day following the public announcement of the date of the meeting. The notice must include the information specified in the bylaws.

Amendment to bylaws and certificate of incorporation. As required by Delaware law, any amendment to our amended and restated certificate of incorporation must first be approved by a majority of our board of directors and, if required by law or our amended and restated certificate of incorporation, thereafter be approved by a majority of the outstanding shares entitled to vote on the amendment. Our bylaws may be amended by the affirmative vote of a

majority of the directors then in office, subject to any limitations set forth in the bylaws, without further stockholder action.

Blank check preferred stock. The board of directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of the common stock. Issuing preferred stock provides flexibility in connection with possible acquisitions and other corporate purposes, but could also, among other things, have the effect of delaying, deferring or preventing a change in control of our company and may adversely affect the market price of our common stock and the voting and other rights of the holders of common stock.

Listing

We intend to apply to have our common stock listed on the NYSE under the symbol "GNRC."

Shares eligible for future sale

Prior to this offering, there was no public market for our common stock.

Sale of restricted securities

After this offering, there will be outstanding _____ shares (assuming no exercise of the underwriters' option to purchase additional shares), or _____ shares (assuming full exercise of the underwriters' option to purchase additional shares), of our common stock. Of these shares, all of the shares sold in this offering will be freely tradable without restriction under the Securities Act, unless purchased by our "affiliates" as that term is defined in Rule 144 under the Securities Act. The remaining shares of common stock that will be outstanding after this offering are "restricted securities" within the meaning of Rule 144 under the Securities Act. Restricted securities may be sold in the public market only if they are registered under the Securities Act or are sold pursuant to an exemption from registration under Rule 144 under the Securities Act, which is summarized below. Subject to the lock-up agreements described below, shares held by our affiliates that are not restricted securities may be sold subject to compliance with Rule 144 of the Securities Act without regard to the prescribed one-year holding period under Rule 144.

Lock-up arrangements

In connection with this offering, we, each of our directors, executive officers and certain of our significant stockholders will enter into lock-up agreements as described under "Underwriting" that restrict the sale of shares of our common stock for up to 180 days after the date of this prospectus, subject to an extension in certain circumstances.

In addition, following the expiration of the lock-up period, certain stockholders will have the right, subject to certain conditions, to require us to register the sale of their shares of our common stock under federal securities laws. If these stockholders exercise this right, our other existing stockholders may require us to register their registrable securities. By exercising their registration rights, and selling a large number of shares, these selling stockholders could cause the prevailing market price of our common stock to decline.

Following the lock-up periods described above, all of the shares of our common stock that are restricted securities or are held by our affiliates as of the date of this prospectus will be eligible for sale in the public market in compliance with Rule 144 under the Securities Act.

Rule 144

The shares of our common stock sold in this offering will generally be freely transferable without restriction or further registration under the Securities Act, except that any shares of our common stock held by an "affiliate" of ours may not be resold publicly except in compliance with the registration requirements of the Securities Act or under an exemption under Rule 144 or otherwise. Rule 144 permits our common stock that has been acquired by a person who is an affiliate of ours, or has been an affiliate of ours within the past three

months, to be sold into the market in an amount that does not exceed, during any three-month period, the greater of:

- one percent of the total number of shares of our common stock outstanding; or
- the average weekly reported trading volume of our common stock for the four calendar weeks prior to the sale.

Such sales are also subject to specific manner of sale provisions, a six-month holding period requirement, notice requirements and the availability of current public information about us.

Rule 144 also provides that a person who is not deemed to have been an affiliate of ours at any time during the three months preceding a sale, and who has for at least six months beneficially owned shares of our common stock that are restricted securities, will be entitled to freely sell such shares of our common stock subject only to the availability of current public information regarding us. A person who is not deemed to have been an affiliate of ours at any time during the three months preceding a sale, and who has beneficially owned for at least one year shares of our common stock that are restricted securities, will be entitled to freely sell such shares of our common stock under Rule 144 without regard to the current public information requirements of Rule 144.

Equity incentive plan

We intend to file one or more registration statements on Form S-8 under the Securities Act to register shares of our common stock issued or reserved for issuance under the Omnibus Plan, referred to under "Executive compensation—Equity incentive plan." The first such registration statement is expected to be filed soon after the date of this prospectus and will automatically become effective upon filing with the SEC. Accordingly, shares registered under such registration statement will be available for sale in the open market, unless such shares are subject to vesting restrictions with us or the lock-up restrictions described above.

Certain material U.S. federal income and estate tax considerations

The following is a general discussion of the material U.S. federal income and estate tax consequences of the purchase, ownership and disposition of common stock that may be relevant to you if you are a non-U.S. Holder (as defined below). This discussion is based on current law, which is subject to change, possibly with retroactive effect. This discussion is limited to non-U.S. Holders who hold shares of common stock as capital assets within the meaning of the U.S. Internal Revenue Code. Moreover, this discussion is for general information only and does not address all the tax consequences that may be relevant to you in light of your particular circumstances, nor does it discuss special tax provisions, which may apply to you if you relinquished U.S. citizenship or residence, are a "controlled foreign corporation," "passive foreign investment company" or a partnership or other pass-through entity for U.S. federal income tax purposes.

As used in this discussion, the term "non-U.S. Holder" means a beneficial owner of our common stock that is not, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity classified as a corporation for these purposes) created or organized in or under the laws of the United States or of any political subdivision of the United States;
- an estate whose income is includible in gross income for U.S. federal income tax purposes regardless of its source; or
- a trust, if (1) a U.S. court is able to exercise primary supervision over the trust's administration and one or more "United States persons" (within the meaning of the U.S. Internal Revenue Code) has the authority to control all of the trust's substantial decisions, or (2) the trust has a valid election in effect under applicable U.S. Treasury regulations to be treated as a "United States person."

If you are an individual, you may, in many cases, be deemed to be a resident alien, as opposed to a nonresident alien, by virtue of being present in the United States (1) for at least 183 days during the calendar year, or (2) for at least 31 days in the calendar year and for an aggregate of at least 183 days during a three-year period ending in the current calendar year. For purposes of (2), all the days present in the current year, one-third of the days present in the immediately preceding year, and one-sixth of the days present in the second preceding year are counted. Resident aliens are subject to U.S. federal income tax as if they were U.S. citizens.

If a partnership, including any entity or arrangement treated as a partnership for U.S. federal income tax purposes, is a holder of our common stock, the tax treatment of a partner in the partnership will generally depend upon the status of the partner, the activities of the partnership and certain determinations made at the partner level. A holder that is a partnership, and the partners in such partnership, should consult their own tax advisors regarding the tax consequences of the purchase, ownership and disposition of our common stock.

EACH PROSPECTIVE PURCHASER OF COMMON STOCK IS ADVISED TO CONSULT A TAX ADVISOR WITH RESPECT TO CURRENT AND POSSIBLE FUTURE TAX CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF OUR COMMON STOCK, AS WELL AS ANY TAX CONSEQUENCES THAT MAY ARISE UNDER THE LAWS OF ANY U.S. STATE, MUNICIPALITY OR OTHER TAXING JURISDICTION, IN LIGHT OF THE PROSPECTIVE PURCHASER'S PARTICULAR CIRCUMSTANCES.

Dividends

We do not anticipate making any distributions on our common stock. See "Dividend policy." If distributions are paid on shares of our common stock, such distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. If a distribution exceeds our current and accumulated earnings and profits, such excess will constitute a return of capital that reduces, but not below zero, a non-U.S. Holder's tax basis in our common stock. Any remainder will constitute gain from the sale or exchange of our common stock. If dividends are paid, as a non-U.S. Holder, you will be subject to withholding of U.S. federal income tax at a 30% rate, or a lower rate as may be specified by an applicable income tax treaty, on the gross amount of the dividends paid to you. To claim the benefit of a lower rate under an income tax treaty, you must properly file with the payor an Internal Revenue Service Form W-8BEN, or other applicable form, claiming an exemption from or reduction in withholding under the applicable tax treaty. In addition, where dividends are paid to a non-U.S. Holder that is a partnership or other pass-through entity, persons holding an interest in the entity may need to provide certification claiming an exemption or reduction in withholding under the applicable treaty.

If dividends are considered effectively connected with the conduct of a trade or business by you within the United States and, if required by an applicable income tax treaty, are attributable to a U.S. permanent establishment of yours, those dividends will be subject to U.S. federal income tax on a net basis at applicable graduated individual or corporate rates but will not be subject to withholding tax, provided an Internal Revenue Service Form W-8ECI, or other applicable form, is filed with the payor. If you are a foreign corporation, any effectively connected dividends may, under certain circumstances, be subject to an additional "branch profits tax" at a rate of 30% or a lower rate as may be specified by an applicable income tax treaty.

You must comply with the certification procedures described above, or, in the case of payments made outside the United States with respect to an offshore account, certain documentary evidence procedures, directly or, under certain circumstances, through an intermediary, to obtain the benefits of a reduced rate under an income tax treaty with respect to dividends paid with respect to your common stock. In addition, if you are required to provide an Internal Revenue Service Form W-8ECI or other applicable form, as discussed above, you must also provide your tax identification number.

If you are eligible for a reduced rate of U.S. withholding tax pursuant to an income tax treaty, you may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the Internal Revenue Service.

Gain on disposition of common stock

As a non-U.S. Holder, you generally will not be subject to U.S. federal income or withholding tax on any gain recognized on a sale or other disposition of common stock unless:

- the gain is considered effectively connected with the conduct of a trade or business by you within the United States and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment of yours (in which case the gain will be subject to U.S. federal income tax on a net basis at applicable individual or corporate rates and, if you are a foreign corporation, the gain may, under certain circumstances, be subject to an additional branch profits tax equal to 30% or a lower rate as may be specified by an applicable income tax treaty);
- you are an individual who is present in the United States for 183 or more days in the taxable year of the sale or other disposition and certain other conditions are met (in which case, except as otherwise provided by an applicable income tax treaty, the gain, which may be offset by U.S. source capital losses, generally will be subject to a flat 30% U.S. federal income tax, even though you are not considered a resident alien under the U.S. Internal Revenue Code); or
- we are or become a U.S. real property holding corporation ("USRPHC"). We believe that we are not currently, and are not likely not to become, a USRPHC. Even if we were to become a USRPHC, gain on the sale or other disposition of common stock by you generally would not be subject to U.S. federal income tax provided:
 - the common stock was "regularly traded on an established securities market"; and
 - you do not actually or constructively own more than 5% of the common stock during the shorter of (i) the five-year period ending on the date of such disposition or (ii) the period of time during which you held such shares.

Federal estate tax

Individuals, or an entity the property of which is includable in an individual's gross estate for U.S. federal estate tax purposes, should note that common stock held at the time of such individual's death will be included in such individual's gross estate for U.S. federal estate tax purposes and may be subject to U.S. federal estate tax, unless an applicable estate tax treaty provides otherwise.

Information reporting and backup withholding tax

We must report annually to the Internal Revenue Service and to each of you the amount of dividends paid to you and the tax withheld with respect to those dividends, regardless of whether withholding was required. Copies of the information returns reporting those dividends and withholding may also be made available to the tax authorities in the country in which you reside under the provisions of an applicable income tax treaty or other applicable agreements.

Backup withholding is generally imposed (currently at a 28% rate, which rate currently is scheduled to increase to 31% for taxable years beginning on or after January 1, 2011) on certain payments to persons that fail to furnish the necessary identifying information to the

payor. You generally will be subject to backup withholding tax with respect to dividends paid on your common stock unless you certify your non-U.S. status. Dividends subject to withholding of U.S. federal income tax as described above in "Dividends" would not be subject to backup withholding.

The payment of proceeds of a sale of common stock effected by or through a U.S. office of a broker is subject to both backup withholding and information reporting unless you provide the payor with your name and address and you certify your non-U.S. status or you otherwise establish an exemption. In general, backup withholding and information reporting will not apply to the payment of the proceeds of a sale of common stock by or through a foreign office of a broker. If, however, such broker is, for U.S. federal income tax purposes, a U.S. person, a controlled foreign corporation, a foreign person that derives 50% or more of its gross income for certain periods from the conduct of a trade or business in the United States or a foreign partnership that at any time during its tax year either is engaged in the conduct of a trade or business in the United States or has as partners one or more U.S. persons that, in the aggregate, hold more than 50% of the income or capital interest in the partnership, backup withholding will not apply but such payments will be subject to information reporting, unless such broker has documentary evidence in its records that you are a non-U.S. Holder and certain other conditions are met or you otherwise establish an exemption.

Any amounts withheld under the backup withholding rules generally will be allowed as a refund or a credit against your U.S. federal income tax liability provided the required information is furnished in a timely manner to the Internal Revenue Service.

Underwriting

We are offering the shares of common stock described in this prospectus through a number of underwriters. J.P. Morgan Securities Inc. and Goldman, Sachs & Co. are acting as joint book running managers of the offering and as representatives of the underwriters. We have entered into an underwriting agreement with the underwriters. Subject to the terms and conditions of the underwriting agreement, we have agreed to sell to the underwriters, and each underwriter has severally agreed to purchase, at the public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus, the number of shares of common stock listed next to its name in the following table:

Name	Number of Shares
J.P. Morgan Securities Inc.	
Goldman, Sachs & Co.	
Total	

The underwriters are committed to purchase all the shares of our common stock offered by us if they purchase any shares. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may also be increased or the offering may be terminated.

The underwriters propose to offer the shares of our common stock directly to the public at the initial public offering price set forth on the cover page of this prospectus and to certain dealers at that price less a concession not in excess of \$ _____ per share. Any such dealers may resell shares to certain other brokers or dealers at a discount of up to \$ _____ per share from the initial public offering price. After the initial public offering of the shares of our common stock, the offering price and other selling terms may be changed by the underwriters. The representatives have advised us that the underwriters do not intend to confirm discretionary sales in excess of 5% of the common shares offered in this offering.

The underwriters have an option to buy up to _____ additional shares of common stock from us to cover sales of shares by the underwriters which exceed the number of shares specified in the table above. The underwriters have 30 days from the date of this prospectus to exercise this option. If any shares of common stock are purchased with such option, the underwriters will purchase shares of common stock in approximately the same proportion as shown in the table above. If any additional shares of common stock are purchased, the underwriters will offer the additional shares of common stock on the same terms as those on which the shares are being offered.

The underwriting fee is equal to the public offering price per share of common stock less the amount paid by the underwriters to us per share of common stock. The underwriting fee is \$ _____ per share. The following table shows the per share and total underwriting discounts

and commissions to be paid to the underwriters assuming both no exercise and full exercise of the underwriters' option to purchase additional shares.

	Without exercise of option	With full exercise of option
Per share	\$	\$
Total	\$	\$

We estimate that the total expenses of this offering, including registration, filing and listing fees, printing fees and legal and accounting expenses, but excluding the underwriting discounts and commissions, will be approximately \$

A prospectus in electronic format may be made available on the websites maintained by one or more underwriters, or selling group members, if any, participating in the offering. The underwriters may agree to allocate a number of shares to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters and selling group members that may make Internet distributions on the same basis as other allocations.

We have agreed that we will not (i) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, or (ii) enter into any swap or other arrangement that transfers all or a portion of the economic consequences associated with the ownership of any shares of common stock or any such other securities (regardless of whether any of these transactions are to be settled by the delivery of shares of common stock or such other securities, in cash or otherwise), in each case without the prior written consent of J.P. Morgan Securities Inc. and Goldman, Sachs & Co. for a period of 180 days after the date of this prospectus, other than the shares of our common stock to be sold hereunder and any shares of our common stock issued upon the exercise of options granted under our existing management incentive plans. Notwithstanding the foregoing, if (1) during the last 17 days of the 180-day restricted period, we issue an earnings release or material news or a material event relating to our company occurs; or (2) prior to the expiration of the 180-day restricted period, we announce that we will release earnings results during the 16-day period beginning on the last day of the 180-day period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event.

Our directors and executive officers, and our significant stockholders will enter into lock-up agreements with the underwriters prior to the commencement of this offering pursuant to which each of these persons or entities, with limited exceptions, for a period of 180 days after the date of this prospectus, may not, without the prior written consent of J.P. Morgan Securities Inc. and Goldman, Sachs & Co., (1) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or

indirectly, any shares of our common stock or any securities convertible into or exercisable or exchangeable for our common stock (including, without limitation, common stock or such other securities which may be deemed to be beneficially owned by such directors, executive officers, managers and members in accordance with the rules and regulations of the SEC and securities which may be issued upon exercise of a stock option or warrant) or (2) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the common stock or such other securities, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of common stock or such other securities, in cash or otherwise, or (3) make any demand for or exercise any right with respect to the registration of any shares of our common stock or any security convertible into or exercisable or exchangeable for our common stock. Notwithstanding the foregoing, if (1) during the last 17 days of the 180-day restricted period, we issue an earnings release or material news or a material event relating to our company occurs; or (2) prior to the expiration of the 180-day restricted period, we announce that we will release earnings results during the 16-day period beginning on the last day of the 180-day period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act.

We will apply to have our common stock approved for listing/quotation on the NYSE under the symbol "GNRC."

In connection with this offering, the underwriters may engage in stabilizing transactions, which involves making bids for, purchasing and selling shares of common stock in the open market for the purpose of preventing or retarding a decline in the market price of the common stock while this offering is in progress. These stabilizing transactions may include making short sales of the common stock, which involves the sale by the underwriters of a greater number of shares of common stock than they are required to purchase in this offering, and purchasing shares of common stock on the open market to cover positions created by short sales. Short sales may be "covered" shorts, which are short positions in an amount not greater than the underwriters' option to purchase additional shares of our common stock referred to above, or may be "naked" shorts, which are short positions in excess of that amount. The underwriters may close out any covered short position either by exercising their option to purchase additional shares of our common stock, in whole or in part, or by purchasing shares in the open market. In making this determination, the underwriters will consider, among other things, the price of shares available for purchase in the open market compared to the price at which the underwriters may purchase shares through this option. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market that could adversely affect investors who purchase in this offering. To the extent that the underwriters create a naked short position, they will purchase shares in the open market to cover the position.

The underwriters have advised us that, pursuant to Regulation M of the Securities Act, they may also engage in other activities that stabilize, maintain or otherwise affect the price of the common stock, including the imposition of penalty bids. This means that if the representatives of the underwriters purchase common stock in the open market in stabilizing transactions or to

cover short sales, the representatives can require the underwriters that sold those shares as part of this offering to repay the underwriting discount received by them.

These activities may have the effect of raising or maintaining the market price of the common stock or preventing or retarding a decline in the market price of the common stock, and, as a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If the underwriters commence these activities, they may discontinue them at any time. The underwriters may carry out these transactions on the NYSE, in the over the counter market or otherwise.

Prior to this offering, there has been no public market for our common stock. The initial public offering price will be determined by negotiations between us and the representatives of the underwriters. In determining the initial public offering price, we and the representatives of the underwriters expect to consider a number of factors including:

- the information set forth in this prospectus and otherwise available to the representatives;
- our prospects and the history and prospects for the industry in which we compete;
- an assessment of our management;
- our prospects for future earnings;
- the general condition of the securities markets at the time of this offering;
- the recent market prices of, and demand for, publicly traded common stock of generally comparable companies; and
- other factors deemed relevant by the underwriters and us.

Neither we nor the underwriters can assure investors that an active trading market will develop for our common shares, or that the shares will trade in the public market at or above the initial public offering price.

Other than in the United States, no action has been taken by us or the underwriters that would permit a public offering of the securities offered by this prospectus in any jurisdiction where action for that purpose is required. The securities offered by this prospectus may not be offered or sold, directly or indirectly, nor may this prospectus or any other offering material or advertisements in connection with the offer and sale of any such securities be distributed or published in any jurisdiction, except under circumstances that will result in compliance with the applicable rules and regulations of that jurisdiction. Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
of Generac Holdings Inc.

We have audited the accompanying consolidated balance sheets of Generac Holdings Inc. and subsidiaries (the Company) as of December 31, 2008 and 2007, and the related consolidated statements of operations, redeemable stock and stockholders' equity (deficit), and cash flows for the years ended December 31, 2008 and 2007, and the period from November 11, 2006 to December 31, 2006 (Successor). We have also audited the statements of operations, redeemable stock and stockholders' equity (deficit), and cash flows of Generac Power Systems, Inc. (Predecessor) for the period from January 1, 2006 through November 10, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Generac Holdings Inc. and subsidiaries at December 31, 2008 and 2007, and the consolidated results of their operations and their cash flows for the years ended December 31, 2008 and 2007, and the period from November 11, 2006 to December 31, 2006, and the results of operations and cash flows of Generac Power Systems, Inc. (Predecessor) for the period from January 1, 2006 through November 10, 2006, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 2 and 9 to the consolidated financial statements, the accompanying financial statements have been retrospectively adjusted for the adoption of Statement of Financial Accounting Standards No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R)*, effective December 31, 2006, and Financial Accounting Standards Board Interpretation No. 48, *Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109*, effective January 1, 2007.

Generac Holdings Inc.
Notes to consolidated financial statements
Years ended December 31, 2008 and 2007 and the
period from November 11, 2006 to
December 31, 2006 and its predecessor for the
period from January 1, 2006 to November 10, 2006

1. Description of business

Generac Holdings Inc. (the Company) owns all of the common stock of Generac Acquisition Corp., which in turn, owns all of the common stock of Generac Power Systems, Inc. (the Subsidiary). The Company designs, manufactures, and markets a complete line of automatic standby generators for residential, light-commercial, and industrial usage, as well as portable generators and air-cooled engines, for domestic and international markets.

Financial statement periods

The Subsidiary was owned by a principal executive and certain members of management through November 10, 2006. Financial statements of this company for the period from January 1, 2006 through November 10, 2006, are referred to as Predecessor financial statements and such period is hereafter referred to as Predecessor Period.

As described below, on September 13, 2006, GPS CCMP Merger Corp. (Merger Corp.) was formed and on November 10, 2006, was merged into the Subsidiary with the Subsidiary being the surviving entity. Merger Corp. had no operations between September 13, 2006 through November 10, 2006, the date it merged into the Subsidiary, other than entering into agreements to facilitate the merger transaction. The consolidated financial statements for the period from Merger Corp's incorporation, September 13, 2006 to December 31, 2006, are referred to as Successor financial statements and reflect the results of operations of the merged entity effective November 11, 2006 and such period is hereafter referred to as Successor Period.

Merger transaction

On September 13, 2006, the Subsidiary, Merger Corp., and its then parent company, GPS CCMP Acquisition Corp., and a shareholder representative, entered into an Agreement and Plan of Merger, pursuant to which Merger Corp. merged with and into the Subsidiary, on November 10, 2006, with the Subsidiary continuing as the surviving entity and a wholly owned subsidiary of Generac Acquisition Corp. (which was formed on October 26, 2006), which in turn is a wholly owned subsidiary of Generac Holdings Inc. Generac Holdings Inc. is a Delaware corporation, the outstanding common stock of which is owned by affiliates of CCMP Capital, LLC (collectively, CCMP) and related entities, affiliates of Unitas Capital Ltd., certain members of management of the Subsidiary and board of directors of the Company.

At the time of the merger transaction, previous owners of the Predecessor became the holders of 3,896 shares of the Company's Class A common stock and 7,790 shares of the Company's Class B common stock. As a result of this residual ownership interest in the Subsidiary and the

form of the leveraged transaction, the transaction was accounted for under the provisions of Emerging Issues Task Force (EITF) Issue No. 88-16, *Basis in Leveraged Buy-Out Transactions*. The application of EITF 88-16 to the merger transaction resulted in a new reporting entity as of the leveraged transaction closing date, but only a partial (89.19%) adjustment was made to the carrying values of the assets and liabilities acquired based on the purchase price. Approximately 10.81% of the carrying values of the acquired assets and liabilities were carried over at the predecessor company's basis.

The purchase price, net of cash acquired, of \$1,864.3 million (including direct costs associated with the acquisition such as the CCMP transaction fee, legal costs, and other professional costs) was financed through the issuance of \$1,380 million of term loans and common stock with a value of \$688.5 million. The Predecessor incurred transaction-related expenses of approximately \$149.8 million, which primarily related to the settlement of the employee share appreciation program (See Note 9). The transaction was accounted for as a purchase, whereby the purchase price was allocated to the underlying assets and liabilities based on the estimated fair values of those assets and liabilities, as adjusted for the Predecessor basis adjustment accounting described above.

The following represents the estimated fair values of the assets acquired and the liabilities assumed, net of the Predecessor basis adjustment, at the date of acquisition as finalized in 2007 (dollars in thousands):

Current assets	\$ 212,731
Property and equipment	72,304
Customer list, patents, trade names, and other intangibles	615,658
Goodwill	1,029,068
Excess purchase price over predecessor basis (contra equity)	202,116
Short-term liabilities assumed	(97,380)
Long-term debt assumed and subsequently settled	(155,000)
Net assets acquired	1,879,497
Less cash acquired	(15,178)
Net cash payment for acquisition	\$ 1,864,319

The tax basis for goodwill at the acquisition date was approximately \$1.14 billion.

2. Significant accounting policies

Principles of consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany amounts and transactions have been eliminated in consolidation.

Cash equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Concentration of credit risk

The Company maintains the majority of its cash in one commercial bank. Balances on deposit are insured by the Federal Deposit Insurance Corporation (FDIC) up to specified limits. Balances in excess of FDIC limits are uninsured.

Two customers accounted for approximately 13% and 11% of accounts receivable at December 31, 2008. No one customer accounted for greater than 10% of accounts receivable at December 31, 2007. No one customer accounted for greater than 10% of net sales during the years ended December 31, 2008 or 2007. One customer accounted for approximately 8% of net sales for the period from November 11, 2006 through December 31, 2006 (the Successor Period). One customer accounted for approximately 13% of net sales for the period from January 1, 2006 through November 10, 2006 (the Predecessor Period).

Accounts receivable

Receivables are recorded at their face value amount less an allowance for doubtful accounts. The Company estimates and records an allowance for doubtful accounts based on specific identification and historical experience. The Company writes off uncollectible accounts against the allowance for doubtful accounts after all collection efforts have been exhausted. Sales are generally made on an unsecured basis.

Inventories

Inventories are stated at the lower of cost or market, with cost determined using the first-in, first-out method.

Property and equipment

Property and equipment are recorded at cost and are being depreciated using the straight-line method over the estimated useful lives of the assets, which are summarized below (in years). Costs of leasehold improvements are amortized over the lesser of the term of the lease (including renewal option periods) or the estimated useful lives of the improvements.

Buildings and improvements	40
Leasehold improvements	10 - 20
Machinery and equipment	5 - 10

Amortization of intangible assets was \$47,602,000 in 2008 and 2007, and \$8,576,000 in the Successor Period. During the fourth quarter of 2008, the Company recorded an impairment related to its indefinite lived intangible assets. See the Goodwill and Other Indefinite-Lived Intangible Assets section for further discussion. Estimated amortization expense each year for the five years subsequent to December 31, 2008 is as follows: 2009 and 2010, \$51,829,000; 2011, \$47,471,000, 2012, \$43,220,000; 2013, \$21,347,000.

Deferred financing costs

Costs incurred in connection with the issuance of long-term debt have been capitalized and are being amortized using the effective interest rate method over the life of the related debt agreements. Deferred financing costs incurred in connection with the financing on November 10, 2006, totaled \$29,571,000, and amortization expense for 2008 and accumulated amortization at December 31, 2008, were \$3,905,000 and \$8,720,000, respectively. Amortization expense for 2007 and accumulated amortization at December 31, 2007, were \$4,225,000 and \$4,815,000, respectively. In connection with the merger transaction and repayment of the Predecessor term debt, the Successor paid \$515,000 of debt financing costs during the Successor Period. Amortization expense for the Successor Period was \$590,000. As a result of the debt extinguishments in 2008 and 2007 (see Note 6), \$2,427,000 and \$1,539,000 of the deferred financing costs were written off, respectively, and recorded as a reduction to the gain on the extinguishment of debt. Amortization expense is included in interest expense in the consolidated statements of operations. Amortization expense for each of the next four years is expected to be approximately \$3,474,000 and \$2,989,000 in year five.

Long-lived assets

The Company periodically evaluates the carrying value of long-lived assets (excluding goodwill and trade names). Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the sum of the expected future undiscounted cash flows is less than the carrying amount of an asset, a loss is

recognized for the difference between the fair value and carrying value of the asset. Such analyses necessarily involve significant judgements.

The Company reviewed its long-lived assets and concluded there was no impairment as future undiscounted cash flows exceeded the carrying values as of December 31, 2008.

Goodwill and other indefinite-lived intangible assets

Goodwill represents the excess of the amount paid to acquire the Company over the estimated fair value of the net tangible and intangible assets acquired as of the acquisition date.

Other indefinite-lived intangible assets consist of trade names. The fair value of trade names was measured using a relief-from-royalty approach, which assumes the fair value of the trade name is the discounted cash flows of the amount that would be paid had the Company not owned the trade name and instead licensed the trade name from another company.

The Company performs an annual impairment test for goodwill and trade names and more frequently if an event or circumstances indicate that an impairment loss has been incurred. Conditions that would trigger an impairment assessment include, but are not limited to, a significant adverse change in legal factors or business climate that could affect the value of an asset. The analysis of potential impairment of goodwill requires a two-step process. The first step is the estimation of fair value of the applicable reporting unit. The Company has determined it has one reporting unit as the Company considers itself one business, and all significant decisions are made on a companywide basis by its chief decision maker. Estimated fair value is based on management judgments and assumptions and those fair values are compared with the aggregate carrying value of the Company. If the fair value of the Company is greater than its carrying amount, there is no impairment. If the Company carrying amount is greater than the fair value, then the second step must be completed to measure the amount of impairment, if any.

The second step calculates the implied fair value of the goodwill, which is compared to its carrying value. If the implied fair value is less than the carrying value, an impairment loss is recognized equal to the difference.

As of October 31, 2008, the Company performed its annual goodwill impairment test. The fair value of the Company was estimated based on a weighted average of a discounted cash flow analysis and comparable public company analysis (i.e. market approach). The rate used in determining discounted cash flows is a rate corresponding to the Company's cost of capital, adjusted for risk where appropriate. In determining the estimated future cash flows, current and future levels of income are considered as well as business trends and market conditions. Due to an increase in the Company's weighted average cost of capital and lower comparable public company market values resulting from weakening economic conditions, the analysis indicated the potential for impairment.

With the assistance of a third-party valuation firm, the Company performed the second step and determined an impairment of goodwill existed. Accordingly, a non-cash charge of \$503,193,000 was recognized in 2008 for goodwill impairment. Due to the current economic uncertainty and other factors, the Company cannot assure remaining goodwill will not be further impaired in future periods. There was no impairment recorded for the year ended December 31, 2007 or the Successor Period.

The changes in the carrying amount of goodwill for the years ended December 31, 2008 and 2007 are as follows (dollars in thousands):

	December 31	
	2008	2007
Balance at beginning of year	\$ 1,029,068	\$ 847,442
Adjustment to finalize purchase accounting	—	181,626
Impairment charge	(503,193)	—
Balance at end of year	\$ 525,875	\$ 1,029,068

The Company performed its annual fair value-based impairment test on trade names as of October 31, 2008. As a result of the test, the Company recorded a non-cash charge of \$80,293,000 for trade name impairment. The primary reason for this impairment charge related to a re-branding strategy implemented in the fourth quarter of 2008, which resulted in the Company's discontinuance of a particular trade name. Accordingly, this trade name was written down to its estimated realizable value of \$8,715,000, which will be amortized over its remaining useful life of 2 years. There was no impairment recorded for the year ended December 31, 2007 or the Successor Period.

Income taxes

Successor

The Company is a C Corporation and, therefore, accounts for income taxes pursuant to the liability method. Accordingly, the current or deferred tax consequences of a transaction are measured by applying the provision of enacted tax laws to determine the amount of taxes payable currently or in future years. Deferred income taxes are provided for temporary differences between the income tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

In assessing the realizability of deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the years in which those temporary differences become deductible. The Company considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies, as appropriate, in making this assessment.

Effective January 1, 2007, the Company adopted the guidance on accounting for uncertainty in income taxes in ASC 740-10 (formerly referred to as FASB Interpretation 48, *Accounting for Uncertainty in Income Taxes*), which provides a comprehensive model for the recognition, measurement, and disclosure in financial statements of uncertain income tax positions a company has taken or expects to take on an income tax return. Additionally, when applicable, the Company would classify interest and penalties related to uncertain tax positions in income tax expense. Upon adoption, the Company determined no additional reserves for uncertain tax positions were required.

Predecessor

The Predecessor Company and its stockholders elected for federal and certain state income tax purposes to be treated as an S Corporation under the provisions of the Internal Revenue Code.

Accordingly, the Predecessor Company's taxable income was included in the individual tax returns of its stockholders, and generally, there was no provision for income taxes or deferred tax assets or liabilities in the financial statements except for certain state income taxes imposed at the corporate level.

Revenue recognition

Sales, net of estimated returns and allowances, are recognized upon shipment of product to the customer, which is when title passes, the Company has no further obligations, and the customer is required to pay. The Company, at the request of certain customers, will warehouse inventory billed to the customer but not delivered. The Company does not recognize revenue on these transactions until the customers take possession of the product. The funds collected on product warehoused for these customers are recorded as a customer advance until the customer takes possession of the product and the Company's obligation to deliver the goods is completed. Customer advances are included in accrued liabilities in the accompanying consolidated balance sheets.

The Company provides for estimated sales promotion and incentive expenses which are recognized as a reduction of sales. Historically, product returns, whether in the normal course of business or resulting from repurchases made under a floor plan financing program, have not been material. The Company has agreed to repurchase product repossessed by a finance company (see Note 10), which has resulted in minimal losses to the Company. However, an adverse change in dealer sales could cause this situation to change.

Shipping and handling costs

Shipping and handling costs billed to customers are included in net sales, and the related costs are included in cost of goods sold in the consolidated statements of operations.

Advertising and co-op advertising

Expenditures for advertising, included in selling and service expenses in the accompanying consolidated statements of operations, are expensed as incurred. Total expenditures for advertising were \$9,210,000, \$11,236,000, \$836,000, and \$9,088,000 for the years ended December 31, 2008 and 2007, the Successor Period, and the Predecessor Period, respectively.

Research and development

The Company expenses research and development costs as incurred. Total expenditures incurred for research and development were \$9,925,000, \$9,606,000, \$1,168,000, and \$9,141,000 for the years ended December 31, 2008 and 2007, the Successor Period, and the Predecessor Period, respectively.

Foreign currency transactions

Realized and unrealized gains and losses on transactions denominated in foreign currency are recorded in earnings as a component of cost of goods sold.

Accumulated other comprehensive income (loss)

Accumulated other comprehensive income (OCI) includes unrealized losses on certain cash flow hedges and the pension liability. The components of OCI at December 31, 2008 and 2007 were (dollars in thousands):

	December 31	
	2008	2007
Pension liability	\$ (4,427)	\$ 2,695
Unrealized losses on cash flow hedges	(24,223)	(18,508)
Accumulated other comprehensive loss	\$ (28,650)	\$ (15,813)

Fair value of financial instruments

The Company believes the carrying amount of its financial instruments (cash and cash equivalents, accounts receivable, notes receivable, accounts payable, and accrued liabilities), excluding long-term debt, approximates the fair value of these instruments based upon their short-term nature. The fair value of long-term debt was approximately \$558.6 million at December 31, 2008, as calculated based on current quotations.

Fair value measurements

The Company adopted Accounting Standards Codification (ASC) 820-10 *Fair Value Measurements and Disclosures* (formerly SFAS No. 157, *Fair Value Measurements*) on January 1, 2008. ASC 820-10, among other things, defines fair value, establishes a consistent framework for measuring fair value, and expands disclosure for each major asset and liability category measured at fair value on either a recurring basis or nonrecurring basis. ASC 820-10 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the pronouncement establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Assets and liabilities measured at fair value are based on the market approach, which is prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Liabilities measured at fair value on a recurring basis are as follows (dollars in millions):

	Total December 31, 2008	Fair value measurement using	
		Quoted prices in active markets for identical contracts (Level 1)	Significant other observable inputs (Level 2)
Net derivative contracts	\$ 25.6	\$ —	\$ 25.6

The fair value of derivative contracts above consider the Company's credit risk in accordance with ASC 820-10. Excluding the impact of credit risk, the fair value of derivatives at December 31, 2008, was \$29,000,000 and this represents the amount the Company would need to pay to exit the agreements on this date.

Use of estimates

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Derivative instruments and hedging activities

The Company records all derivatives in accordance with ASC 815, *Derivatives and Hedging*, which requires all derivative instruments be reported on the consolidated balance sheets at fair value and establishes criteria for designation and effectiveness of hedging relationships. The Company is exposed to market risk such as changes in commodity prices, foreign currencies, and interest rates. The Company does not hold or issue derivative financial instruments for trading purposes.

Commodities

The primary objectives of the commodity risk management activities are to understand and mitigate the impact of potential price fluctuations on the Company's financial results and its economic well-being. While the Company's risk management objectives and strategies will be driven from an economic perspective, the Company attempts, where possible and practical, to ensure that the hedging strategies it engages in can be treated as "hedges" from an accounting perspective or otherwise result in accounting treatment where the earnings effect of the hedging instrument provides substantial offset (in the same period) to the earnings effect of the hedged item. Generally, these risk management transactions will involve the use of commodity derivatives to protect against exposure resulting from significant price fluctuations.

The Company primarily utilizes commodity contracts with maturities of less than 12 months. These are intended to offset the effect of price fluctuations on actual inventory purchases. At December 31, 2008 and 2007, there were two outstanding commodity contracts in place to hedge its projected commodity purchases. In October 2008, the Company entered into commodity swaps to purchase \$4,180,000 of copper. The swaps are effective from October 1

and November 1, 2008, and terminate on March 31, 2009. In November 2007, the Company entered into commodity swaps to purchase \$3,271,000 of copper. The swaps were effective from November 7 and 8, 2007, and terminated on July 2, 2008.

Total losses or gains recognized in the consolidated statements of operations on commodity contracts were a loss of \$1,814,000, gains of \$1,308,000, \$0, and \$862,000 for the years ended December 31, 2008 and 2007, the Successor Period and the Predecessor Period, respectively.

Foreign currencies

The Company is exposed to foreign currency exchange risk as a result of transactions in other currencies. The Company utilizes foreign currency forward purchase and sales contracts to manage the volatility associated with foreign currency purchases in the normal course of business. Contracts typically have maturities of one year or less. There were no outstanding foreign currency hedge contracts outstanding as of December 31, 2008 or 2007. The Predecessor Company entered into a Yen foreign currency contract in the Predecessor Period. The total loss recorded on this contract was \$184,000.

Interest rates

During the Successor Period, the Company entered into various interest rate swap agreements. The Company has formally documented all relationships between interest rate hedging instruments and hedged items, as well as its risk-management objectives and strategies for undertaking various hedge transactions. The Company's interest rate swap agreements qualify as cash flow hedges. For derivatives that are designated and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative is reported as a component of accumulated other comprehensive income (loss) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. The ineffective portion of the derivatives' change in fair value, if any, is immediately recognized in earnings. The Company assesses on an ongoing basis whether derivatives used in hedging transactions are highly effective in offsetting changes in cash flows of hedged items. The impact of hedge ineffectiveness on earnings was not material for the years ended December 31, 2008 and 2007, and the Successor Period. The Predecessor did not have any interest rate swaps.

Stock-based compensation

The Company accounts for its restricted stock awards and other stock-based payments in accordance with SFAS No. 123(R), *Share Based Payments* (SFAS No. 123(R)). The Company adopted SFAS No. 123(R) using the prospective method, accordingly, the provisions of SFAS 123(R) are applied prospectively to new awards and to awards modified, repurchased or cancelled after the adoption date.

Segment reporting

The Company operates in and reports as a single operating segment, which is the manufacture and sale of power products. Net sales are generated through the sale of generators and service parts to distributors and retailers. All of the Company's identifiable assets are located in the United States. The Company's sales outside North America are not material, representing less than 1% of net sales.

New accounting standards to be adopted

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations*. This statement requires the acquiring entity in a business combination to recognize all assets acquired and liabilities assumed in the transaction, establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed, and requires the acquirer to disclose certain information related to the nature and financial effect of the business combination. SFAS No. 141(R) is effective for business combinations entered into in fiscal years beginning on or after December 15, 2008. Depending on the terms, conditions, and details of the business combination, if any, that take place on or subsequent to January 1, 2009, SFAS No. 141(R) may have a material impact on the Company's consolidated financial statements.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment of SFAS No. 133* (SFAS No. 161). SFAS No. 161 is intended to improve financial standards for derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand the effect these instruments and activities have on an entity's financial position, financial performance, and cash flows. Entities are required to provide enhanced disclosures about: how and why an entity uses derivative instruments; how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations; and how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for the Company in the year beginning January 1, 2009 and will impact future disclosures relating to the Company's hedging activities.

In December 2008, the FASB issued FSP No. FAS 132(R)-1 *Employers' Disclosures about Postretirement Benefit Plan Assets* (FSP No. FAS 132(R)-1). FSP No. FAS 132(R)-1 amends SFAS No. 132(R) *Employers' Disclosures about Pensions and Other Postretirement Benefits* to require additional disclosures regarding assets held in an employer's defined benefit pension or other postretirement plan. FSP No. FAS 132(R)-1 replaces the requirement to disclose the percentage of the fair value of total plan assets with a requirement to disclose the fair value of each major asset category, requires disclosure of the level within the fair value hierarchy in which each major category of plan assets falls using the guidance in SFAS No. 157 and requires a reconciliation of beginning and ending balances of plan asset fair values that are derived using significant unobservable inputs. FSP No. FAS 132(R)-1 will be adopted as of January 1, 2010. We are currently reviewing the requirements of FSP No. FAS 132(R)-1 to determine the disclosure impact on our consolidated financial statements.

In April 2008, the FASB issued FSP No. FAS 142-3, *Determination of the Useful Life of Intangible Assets* (FSP No. FAS 142-3). FSP No. FAS 142-3 prospectively amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, *Goodwill and Other Intangible Assets*. The intent of the position is to improve the consistency between the useful life of a recognized intangible asset under SFAS No. 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS No. 141(R). The Company is required to adopt this pronouncement on January 1, 2009. The Company does not believe the adoption of this pronouncement will have a material impact to the Company's consolidated financial statements.

Successor

At December 31, 2008, the Subsidiary had credit agreements which provided for borrowings under a revolving credit facility (the Revolving Credit Facility) and two term loans (collectively, the Credit Agreements), which are described further below. The Credit Agreements of the Subsidiary are secured by the associated collateral agreements which pledge virtually all assets of the Subsidiary.

Borrowings available under the Revolving Credit Facility are limited to a maximum of \$150,000,000. Availability under the Revolving Credit Facility is reduced by the amount of outstanding undrawn letters of credit. Interest on the Revolving Credit Facility is payable at LIBOR plus 2.5%, or ABR plus 1.5%, as selected by the Subsidiary. ABR is the greater of the prime rate or the federal funds rate plus 0.5%. The spreads on these rates may be reduced as a result of the Subsidiary meeting certain financial ratios. As of December 31, 2008, the Subsidiary's interest rate on the Revolving Credit Facility was 6.65%. As of December 31, 2008,

the Subsidiary had \$143,347,000 available under its Revolving Credit Facility and no outstanding borrowings. The Subsidiary pays a Revolving Credit Facility commitment fee of 0.50% on the average available unused commitment. The Revolving Credit Facility matures and is due on November 10, 2012, unless terminated earlier under certain conditions contained in the Credit Agreements.

The Credit Agreements provide the Subsidiary the ability to issue letters of credit. Outstanding undrawn letters of credit reduce availability under the Subsidiary's Revolving Credit Facility. The letters of credit accrue interest at a rate of 2.63%, paid quarterly on the undrawn daily aggregate exposure of the preceding quarter. This rate may be reduced as a result of meeting certain financial ratios. At December 31, 2008 and 2007, letters of credit outstanding were \$6,653,000 and \$2,504,000, respectively.

The principal amount of and the outstanding balance under the First Lien Term Loan (the First Lien) were \$930,104,000 and \$940,500,000 at December 31, 2008 and 2007, respectively. Principal payments are due in quarterly installments of \$2,375,000. Interest on the First Lien is payable at LIBOR plus 2.5%, or ABR plus 1.5%, as selected by the Subsidiary. The spreads on these rates may be reduced as a result of the Subsidiary meeting certain financial ratios. At December 31, 2008, 2007, and 2006, the Subsidiary's interest rate on the First Lien was 6.65%, 7.73%, and 7.82%, respectively. The outstanding principal balance is payable on the earlier of November 10, 2013, or the date of termination of the First Lien, whether by its terms, by prepayment, or by acceleration.

The principal amount of and the outstanding balance under the Second Lien Term Loan (the Second Lien) were \$200,833,000 and \$349,750,000 (excluding loans held in treasury by the Subsidiary) at December 31, 2008 and 2007, respectively. Interest on the Second Lien is payable at LIBOR plus 6.0%, or ABR plus 5.0%, as selected by the Subsidiary. The spreads on these rates may be reduced as a result of meeting certain financial ratios. At December 31, 2008, 2007, and 2006, the Subsidiary's interest rate on the Second Lien was 10.15%, 11.23%, and 11.32%, respectively. The outstanding principal balance is payable on the earlier of May 10, 2014, or the date of termination of the Second Lien, whether by its terms, by prepayment, or by acceleration.

The Credit Agreements require the Subsidiary, among other things, to meet certain financial and nonfinancial covenants and maintain financial ratios in such amounts and for such periods as set forth therein. The Subsidiary is required to maintain a leverage ratio (EBITDA divided by net debt, as defined within the Credit Agreements) of 7.75 as of December 31, 2008. The leverage ratio decreases quarterly, and for 2009, the Subsidiary will be required to maintain a leverage ratio of 7.75, 7.50, 7.25, and 6.75 for the first, second, third, and fourth quarters, respectively. As of September 30, 2008, the Subsidiary had violated its debt covenant. As permitted by the Credit Agreements, this violation was remedied by an equity contribution of \$15,319,000 from CCMP in the fourth quarter of 2008 as part of a \$15,500,000 equity contribution. The Subsidiary was in compliance with all requirements as of December 31, 2008 and 2007.

In an event where full repayment of the Credit Agreements is required, the First Lien and Revolving Credit Facility take priority over the Second Lien.

The Credit Agreements restrict the circumstances in which distributions and dividends can be paid by the Subsidiary. Payments can be made to the Subsidiary for certain expenses, and dividends can be used to repurchase equity interests, subject to an annual limitation.

Additionally, the Credit Agreements restrict the aggregate amount of dividends and distributions that can be paid and require the maintenance of certain leverage ratios.

During 2008, CCMP acquired \$148,917,000 par value of Second Lien term loans for approximately \$81,105,000. CCMP exchanged this debt for additional shares of Class B Common stock and Series A Preferred stock issued by the Company. The Company subsequently contributed this debt to its Subsidiary. The fair value of the shares exchanged was \$81,105,000. These shares have beneficial conversion features which are contingent upon a future event (see Note 6). The Company recorded this transaction as Series A Preferred Stock of \$62,855,000 and Class B Common Stock of \$18,249,000 based on the fair value of the debt contributed by CCMP which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by the Subsidiary. Consequently, the Company recorded a gain on extinguishment of debt of \$65,385,000, which includes the write-off of deferred financing fees and other closing costs, in the consolidated statement of operations for the year ended December 31, 2008. See Note 6.

During 2007, CCMP acquired \$80,250,000 par value of Second Lien term loans for approximately \$59,952,000. CCMP exchanged this debt for additional shares of Class B Common stock issued by the Company. The Company subsequently contributed this debt to the Subsidiary. The fair value of the shares exchanged was \$59,952,000. These shares have beneficial conversion features which are contingent upon a future event (see Note 6). The Company recorded this transaction as additional Class B Common Stock of \$59,952,000 based on the fair value of the debt contributed by CCMP which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by the Subsidiary. Consequently, the Company recorded a gain on extinguishment of debt of \$18,759,000, which includes the write-off of deferred financing fees and other closing costs, in the consolidated statement of operations for the year ended December 31, 2007. See Note 6.

During the Successor Period, the Subsidiary entered into various interest rate swap agreements (the Swaps) with certain banks. The Swaps, which were effective January 2, 2007, October 3, 2007, and January 3, 2008, have notional amounts totaling \$825,000,000, \$100,000,000, and \$275,000,000, respectively. The total notional amount of \$1,200,000,000 declined to \$1,100,000,000 at October 3, 2008, further decline to \$675,000,000 at January 3, 2009, and terminate January 4, 2010. The Subsidiary swapped floating three-month LIBOR interest rates for fixed rates with an aggregate weighted-average interest rate of 4.775% and 4.774% as of December 31, 2008 and 2007, respectively. The fair value of the interest rate swap agreements, including the impact of credit risk, at December 31, 2008, was a liability of \$24,222,000. At December 31, 2007, the fair value of the interest rate swap agreements was a liability of \$18,508,000. The Subsidiary has determined its Swaps meet hedge effectiveness tests and are deemed highly effective for hedge accounting under SFAS No. 133 as of December 31, 2008 and 2007. Accordingly, the change in fair value is recorded in accumulated other comprehensive income (loss) net of tax for the effective portion of the hedges.

Effective January 3, 2009, the Subsidiary, within the terms of the Credit Agreements, changed the interest rate election from three-month LIBOR to one-month LIBOR. The Subsidiary has concluded that as of January 3, 2009, the Swaps no longer meet hedge effectiveness tests and are therefore, no longer highly effective as a hedge against the impact on interest payments of changes in the LIBOR interest rate. The effective portion of the Swaps prior to the change will remain in accumulated other comprehensive income (loss) and will be amortized as interest expense over the period of the originally designated hedged transactions. Future changes in the fair value of the Swaps will be immediately recognized in the consolidated statements of operations as interest expense.

Predecessor

The Predecessor Company had an unsecured revolving credit agreement with a bank that allowed borrowings of up to \$15,000,000 for working capital requirements with interest rates at 0.90% below the prime rate, or LIBOR plus 1.00%, as selected by the Predecessor Company. Under the terms of this credit agreement, the bank agreed, on behalf of the Predecessor Company, to issue letters of credit aggregating not more than the unused revolver balance. The outstanding amount of these letters of credit reduced the amount available to the Predecessor Company under the revolving credit agreement.

On November 6, 2006, the Predecessor Company entered into a credit agreement with a bank establishing a term loan in the amount of \$155,000,000 with interest rates at LIBOR plus 1.25%.

The Predecessor Company had an Industrial Development Revenue Bond Agreement with the Village of Eagle, Wisconsin, for \$4,800,000 at December 31, 2005. The bonds were paid in full and the letter of credit, used as collateral, was terminated when the Predecessor Company elected to exercise its right to pay off the bonds as of September 1, 2006.

6. Redeemable stock and stockholders' equity (deficit)

As a result of the merger transaction on November 10, 2006 and from time to time thereafter, certain of the current equity investors (affiliates of CCMP Capital Advisors, LLC and related entities, affiliates of Unitas Capital Ltd., certain members of management of the Subsidiary and board of directors of the Company) acquired a combination of Class A and Class B Common stock and Series A Preferred stock of GPS CCMP Acquisition Corporation. General terms of these securities are:

Preferred stock

Series A Convertible Preferred stock: Each Series A Preferred share is entitled to a priority return preference equal to the sum of \$10,000 per share base amount plus an amount sufficient to generate a 14% annual return on that base amount compounded quarterly from the date of issuance until the accreted priority return preference is paid in full. Each Series A Preferred share also participates in any equity appreciation beyond the Series A Preferred priority return (the Series A Equity Participation).

Voting: Series A Preferred shares do not have voting rights, subject to certain limited approval rights.

Common stock

Class B Convertible stock: Class B shares participate in the equity after the Series A Preferred priority return is satisfied. Each Class B share is entitled to a priority return preference equal to the sum of \$10,000 per share base amount plus an amount sufficient to generate a 10% annual return on that base amount compounded quarterly from the date of issue until the Class B priority return preference is paid in full. Each Class B share also participates in any equity appreciation beyond the Class B priority return.

Each Class B share is entitled to one vote per share on all matters on which stockholders vote.

Class A common stock: Class A shares participate in the equity appreciation after the Class B priority return is satisfied.

Class A shares do not have voting rights, priority preference or any accretion rights.

Distributions: Dividends and other distributions to stockholders in respect of shares, whether as part of an ordinary distribution of earnings, as a leveraged recapitalization or in the event of an ultimate liquidation and distribution of available corporate assets, are to be paid as follows: First, Series A Preferred shares are entitled to receive an amount equal to the Series A Preferred base amount of \$10,000 per share plus an amount sufficient to generate a 14% annual return on that base amount, compounded quarterly from the date in which the Series A Preferred shares were originally issued. Series A Preferred shares then receive an equity participation on all remaining proceeds after payment of this priority return to all Series A Preferred stockholders equal to 24.3% of remaining proceeds (Series A Equity Participation). Second, after payment of this priority return to Series A Preferred shareholders, Class B shares are entitled to receive an amount equal to the Class B base amount of \$10,000 per share plus an amount sufficient to generate a 10% annual return on that base amount, compounded quarterly from the date in which the Class B shares were originally issued. Lastly, after payment of this priority return to Class B holders, the holders of Class A shares and Class B shares participate together in any and all distributions by the Company.

Liquidations: Any liquidation would be in accordance with the distributions previously described above. In addition, any remaining assets after the Class B preferential distribution will be allocated to the Class A and Class B shares as follows: the Class B shares will receive a percentage of the remaining assets equal to the sum of (i) 88% plus (ii) the product of (A) 12% multiplied by (B) one minus a fraction, the numerator of which is the number of issued and outstanding vested shares of Class A shares and the denominator is 9,350.0098. The remainder will be allocated to the Class A shares.

Conversion of Series A Preferred and Class B shares: Series A Preferred shares and Class B shares automatically convert into Class A shares immediately prior to an initial public offering (IPO).

In the case of any such conversion any unpaid Series A Preferred return (base \$10,000 per share plus 14% accretion) or unpaid Class B Common priority return (base \$10,000 per share plus 10% accretion) will be "paid" in additional Class A common shares valued at the deal (the IPO price net of underwriter's discount). That is, each Series A Preferred share would convert into a number of Class A shares equal to (i) a fraction, the numerator of which is the unpaid priority return on such Series A Preferred share and the denominator of which is the value of a Class A share at the time of conversion plus (ii) the number of Class A shares required to be issued to satisfy the Series A Equity Participation. Each Class B share would convert into a number of Class A shares equal to (i) one plus (ii) a fraction, the numerator of which is the unpaid priority return on such Class B share and the denominator of which is the value of a Class A share at the time of conversion, in all cases subject to the priority rights and preferences of the Series A Preferred Shares.

As the Series A Preferred and Class B common could be redeemed in a "deemed liquidation" in the event of a change of control and the redemption features are considered to be outside the control of the Company, all shares of Series A Preferred and Class B common stock have been

presented outside of permanent equity in accordance with EITF Topic D-98, *Classification and Measurement of Redeemable Securities* and Accounting Standards Codification 480, *Distinguishing Liabilities from Equity*. These securities are redeemable only upon a change in control. Since an occurrence of this event is not considered probable, there has been no adjustment to the carrying value of these securities, and the priority returns have not been accreted.

Cumulative accretion on Series A preferred stock and Class B common stock at December 31, 2008, was as follows:

	Series A preferred	Class B common
Carrying value	\$ 78,355	\$ 765,096
Cumulative accretion	785	173,745
	\$ 79,140	\$ 938,841

The amounts above do not include the additional base amount of \$25,790,000 on Class B common stock or the impact of Series A Equity Participation on Series A Preferred Stock, both of which would be recognized as a beneficial conversion upon an initial public offering.

Management Equity Incentive Plan: On November 10, 2006, the Company adopted the 2006 Management Equity Incentive Plan (2006 Equity Incentive Plan). The 2006 Equity Incentive Plan provides for awards with respect to a maximum of 9,350.0098 Class A Common shares and 5,000 Class B Common shares, subject to certain adjustments. On November 10, 2006, and from time to time thereafter, certain members of management purchased restricted shares of Class A Common stock under the 2006 Equity Incentive Plan for \$341 per share and pursuant to restricted stock agreements. One half of the restricted shares vest over time (Time Vesting Shares), with 25% vesting on November 10, 2007 and on the next three anniversaries thereafter, so long as the participant is still employed by the Company or one of its subsidiaries on the applicable vesting date. Upon the occurrence of a change of control of the Company, any unvested Time Vesting Shares immediately vest in full, so long as the participant is still employed by the Company or one of its subsidiaries. The other half of the restricted shares immediately vest (performance-based vesting) in full, provided the participant is still then employed by the Company or one of its subsidiaries, upon the occurrence of either: (i) a change of control of the Company that provides CCMP with a certain rate of return with respect to net proceeds received by CCMP from their investment in the Company; or (ii) from and after the date of an IPO, the achievement with respect to shares of the Class A Common stock of an average closing trading price exceeding, in any 60 consecutive trading day period starting prior to the later of (a) the fifth year anniversary of the date of grant of the restricted shares, and (b) one year after the IPO, a certain threshold with respect to net proceeds received by CCMP from their investment in the Company. As a condition to the purchase of restricted shares, members of management executed confidentiality, non-competition and intellectual property agreements. The fair value of the Class A common stock on the date of issuance was estimated to be \$390 per share.

The Company has recorded \$40,000, \$53,000 and \$7,000 of stock-based compensation expense related to the Time Vesting Shares in 2008, 2007, and the Successor Period, respectively, related to amortization of the excess of fair value over purchase price of these restricted shares. This excess is being amortized over a four-year vesting period.

Issuance and repurchases of securities

Class A Common Stock: As discussed above, on November 10, 2006 at the time of the merger transaction, certain members of management purchased 8,298.1337 restricted shares of the Class A Common stock, at a price of \$341.36 per share, under the 2006 Equity Incentive Plan and pursuant to restricted stock agreements. In 2007, an additional 623.3301 restricted shares of Class A nonvoting common stock, at a price of \$341.36 per share, were issued to new members of management. In 2008 and 2007, 555.1566 and 2,649.1694 restricted shares of Class A common stock, respectively, were repurchased by the Company, at a price of \$341 per share, from members of management who terminated their employment with the Subsidiary.

Class B Common Stock: On November 10, 2006 at the time of the merger transaction, 68,566.7382 shares of the Class B Common stock were issued to affiliates of CCMP, affiliates of Unitas Capital LLC, certain members of management of the Subsidiary and board of directors of the Company, for their investment in the Company, at a price of \$10,000 per share. In February 2007, 145 shares of the Class B Common stock were issued to new members appointed to the Company's board of directors, at a price of \$10,000 per share. In 2008 and 2007, the Company issued 2,400 and 8,025 shares of Class B Common stock, respectively, to CCMP in exchange for certain term loans under the second lien credit facility that CCMP had purchased. The exchange ratio in connection with the exchange was one share of our Class B Common Stock per \$10,000 of the aggregate outstanding principal amount of the loans that were so exchanged. Such purchased term loans had an aggregate outstanding principal amount equal to \$104,250,000. In accordance with the preemptive rights provisions of the Shareholders' Agreement, CCMP subsequently transferred shares of our Class B Common Stock it had purchased to various investment funds affiliated with CCMP, certain members of management and board members. The shares exchanged were valued at the discounted amount paid for the debt, which approximated the Class B common stock's fair value at that date. The equity consideration was less than the outstanding principal amount, therefore a gain on debt extinguishment was recorded. A summary of how the 10,425 Class B common shares issued in exchange for repurchased debt is accounted for in the consolidated financial statements is as follows (dollars in thousands):

	Number of shares	Face value of debt	Consideration paid	Fair value of shares exchanged	Contingent beneficial conversion	Gain on extinguishment of debt
Year ending December 31, 2008	2,400	\$ 24,000	\$ 18,249	\$ 18,249	\$ 5,492	\$ 5,363
Year ending December 31, 2007	8,025	80,250	59,952	59,952	20,298	18,759
Total	10,425	\$ 104,250	\$ 78,201	\$ 78,201	\$ 25,790	\$ 24,122

In accordance with EITF Issue 98-5, *Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios* ("EITF 98-5"), the Company determined that the conversion feature in the Class B Common stock is in-the-money at the date of issuance and therefore represents a beneficial conversion feature. Since the Class B Common stock is convertible upon an initial public offering, it is contingent upon a future event and has not been recorded in the consolidated financial statements. The beneficial conversion feature, which has been valued at \$25,790,000 at its commitment date, will be recorded at the date of an initial public offering as a return to Class B Common stockholders

analogous to a dividend. If no retained earnings are available to pay this dividend at resolution of the contingency, the dividend will be charged against additional paid in capital resulting in no net impact.

Following the exchange of purchased debt for Class B common stock, certain members of management and the board of directors were provided the opportunity to purchase Class B common stock at fair value. Because the Class B common stock includes a contingent beneficial conversion feature, the Company recorded stock-based compensation expense of \$304,000, which represents the intrinsic value associated with the contingent beneficial conversion feature.

Series A Preferred Stock: In November 2008, the Company issued 1,550 shares of the Series A Preferred Stock to CCMP for an aggregate purchase price of \$15,500,000. In December 2008, the Company issued an aggregate of 6,285 shares of Series A Preferred Stock to CCMP in exchange for certain term loans under the second lien credit facility that CCMP had purchased. The exchange ratio in connection with the exchange was one share of Series A Preferred Stock per \$10,000 of the amount paid by CCMP for the loans that were so exchanged. The equity consideration was less than the outstanding principal amount, therefore a gain on debt extinguishment was recorded. A summary of the exchanges of purchased term loans for Series A Preferred Stock by year is as follows (dollars in thousands):

	Number of shares	Face value of debt	Consideration paid	Gain on extinguishment of debt
Year ending December 31, 2008	6,285	\$ 124,917	\$ 62,855	\$ 60,022

In accordance with EITF Issue 98-5, *Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios* ("EITF 98-5"), the Company determined that the conversion feature in the Series A Preferred stock has a contingent beneficial conversion feature at the date of issuance. Since the Series A Preferred stock is convertible upon an initial public offering and the number of additional Class A Common shares which may be issued is unknown, it is contingent upon a future event and has not been recorded in the consolidated financial statements. The beneficial conversion feature, which is the result of the additional Class A shares which will be issued to satisfy the Series A Equity Participation, will be recorded at the date of an initial public offering as a return to Series A Preferred stockholders analogous to a dividend. If no retained earnings are available to pay this dividend at resolution of the contingency, the dividend will be charged against additional paid in capital resulting in no net impact.

During 2007, the Company entered into subscription notes receivable with certain stockholders related to their purchase of restricted Class A common stock of \$195,000. During 2008, \$37,000 of outstanding notes receivable were repaid. The subscription notes receivables are included in stockholders' equity in the accompanying consolidated financial statements.

7. Earnings per share

The Company has one class of preferred stock (Series A) and two classes of common stock (Class B common stock and Class A common stock). Each Series A Preferred share is entitled to a priority return preference equal to the sum of \$10,000 per share base amount plus an amount sufficient to generate a 14% return on that base amount compounded quarterly from

the date of the transaction in which the Series A Preferred shares were originally issued (issuance dates from November 2008 to September 2009) until the priority return preference is paid in full. Each Series A Preferred share also participates in any equity appreciation beyond the Series A Preferred priority return. Class B Common shares participate in the equity appreciation after the Series A preferred priority return is satisfied. Each Class B share is entitled to a priority return preference equal to the sum of \$10,000 per share base amount plus an amount sufficient to generate a 10% return on that base amount compounded quarterly from the date of the transaction in which the Class B shares were originally issued (November 10, 2006 in the case of the merger transaction, dates from September 2007 to April 2008 in the case of the follow-on Class B investments) until the priority return preference is paid in full. Each Class B share also participates in any equity appreciation beyond the priority return. Class A shares participate in the equity appreciation after the Class B priority return is satisfied.

The Class B common stock is considered a participating stock security requiring use of the "two-class" method for the computation of basic net income (loss) per share in accordance with EITF 03-06. Losses are not allocated to the Class B common stock in the computation of basic earnings per share as the Class B common stock is not obligated to share in losses.

Basic earnings per share excludes the effect of common stock equivalents and is computed using the "two-class" computation method, which divides earnings attributable to the Class B preference from total earnings. Any remaining loss is attributed to the Class A shares.

Class A common stock	5,962	7,848	8,298	n/m

The effect of conversion of Series A Preferred and Class B Common stock at December 31, 2008 and 2007 and the Successor Period is considered anti-dilutive because a net loss applicable to common stockholders was reported.

8. Income taxes

The Company's provision (benefit) for income taxes consists of the following (dollars in thousands):

The Company is the taxpaying entity and files a consolidated federal income tax return. Currently, the Company is not under examination by any major taxing jurisdiction to which the Company is subject. The statute of limitation for tax years 2008 and 2007 is open, as well as, the 2006 tax year for both Predecessor and Successor companies for federal and state income taxes. Additionally, tax years 2004 and 2005 remain open for examination by certain state taxing authorities.

At December 31, 2008, the Company has federal net operating loss carryforwards of approximately \$131,000,000, which expire between 2026 and 2028, and various state net operating loss carryforwards, which expire between 2016 and 2028.

As a result of ownership changes, Section 382 of the Internal Revenue Code of 1986 as amended and similar state provisions can limit the annual deductions of net operating loss and tax credit carry forwards. Such annual limitations could result in the expiration of net operating loss and tax credit carry forwards before utilization. We have no such limitation as of December 31, 2008. Future ownership changes may result in such a limitation.

A reconciliation of the statutory tax rates and the effective tax rates for the years ended December 31, 2008 and 2007 and the Successor Period is as follows:

	Year ended December 31, 2008	Year ended December 31, 2007	For the period from November 11, 2006 through December 31, 2006

At December 31, 2008 and 2007, the Company has no reserves recorded for uncertain tax positions.

The Predecessor Company had elected to be treated as a Subchapter S Corporation and therefore income taxes were paid at the shareholder level. The Predecessor Period included certain corporate level taxes on the sale transaction described in Note 1.

The Predecessor Company generally made quarterly cash distributions to its stockholders for payments of federal and certain state income taxes to be made by the individual stockholders as a result of the Predecessor Company's S Corporation election. The Predecessor Company accrued for such S Corporation distributions based on the Predecessor Company's estimated taxable income for the year multiplied by the highest combined federal and state personal income tax rates. In the event the sum of the Predecessor Company's quarterly cash distributions exceeded the amount of the required annual S Corporation distributions for payments of federal and certain state income taxes, the stockholders had agreed to either apply such excess to reduce future quarterly cash distributions or repay the excess to the Predecessor Company.

As an S Corporation, the Predecessor Company did not have deferred tax assets or liabilities.

9. Benefit plans

Medical and dental plan

The Company has a medical and dental benefit plan covering full-time employees of the Company and their dependents. The plan is a partially self-funded plan under which participant claims are obligations of the plan. The plan is funded through employer and employee contributions at a level sufficient to pay for the benefits provided by the plan. The Company's contributions to the plan were \$6.0 million, \$7.2 million, \$0.8 million, and \$5.1 million for the years ended December 31, 2008 and 2007, the Successor Period and the Predecessor Period, respectively. The plan maintains individual stop loss insurance policies on the medical portion of \$0.2 million to mitigate losses. Balances for the incurred but not yet reported claims, including reported but unpaid claims at December 31, 2008, and 2007, were \$1.0 million and \$0.9 million, respectively. The Company estimates claims incurred but not yet reported each month based on its historical experience, and the Company adjusts its accrual to meet the estimated liability.

Savings plan

The Company maintains a defined-contribution 401(k) savings plan for virtually all employees who meet certain eligibility requirements. Under the plan, employees may defer receipt of a portion of their eligible compensation. The Company made no contributions to this plan in 2008, 2007, Successor Period or Predecessor Period and accordingly, no expense has been recognized in the accompanying consolidated statements of operations.

The Company amended the 401(k) savings plans effective January 1, 2009, to add Company matching and non-elective contributions. The Company may contribute a matching contribution of 50% of the first 6% of eligible compensation of employees. No matching contribution shall be made with respect to employee catch-up contributions. The Company may contribute a non-elective contribution for each plan year after 2008. The contribution will apply to eligible employees employed on or before December 31, 2008. The rate of the non-elective contribution is determined based upon years of service as of December 31, 2008, and is fixed. Both Company matching contributions and non-elective contributions are subject to vesting. Forfeitures may be applied against plan expenses.

Pension plans

The Company has noncontributory salaried and hourly pension plans (combined the Pension Plans) covering substantially all of its employees. The benefits under the salaried plan are based upon years of service and the participants' defined final average monthly compensation. The benefits under the hourly plan are based on a unit amount at the date of termination multiplied by the participant's years of credited service. The Company's funding policy for the Pension Plans is to contribute amounts at least equal to the minimum annual amount required by applicable regulations.

The Company elected to freeze the Pension Plans effective December 31, 2008. This resulted in a cessation of all future benefit accruals for both hourly and salary pension plans. A curtailment liability gain of \$5,809,000 related to the salary plan was recognized as a reduction to the unrecognized net loss, as the curtailment liability gain was less than the unrecognized net loss prior to the plan amendment and, therefore, did not impact the consolidated statement of operations for the year ended December 31, 2008.

The Company uses a December 31 measurement date for the Pension Plans. Information related to the Pension Plans is as follows (dollars in thousands):

	Year ended December 31	
	2008	2007
Accumulated benefit obligation at end of period	\$ 38,030	\$ 32,918

Amounts recognized in accumulated other comprehensive income		
Net actuarial (loss) gain	\$ (7,122)	\$ 2,695

The estimated actuarial loss for the Pension Plans that will be amortized from OCI into net periodic benefit cost during 2009 is \$0.2 million.

The incremental effect of applying SFAS No. 158 as of December 31, 2006, on individual line items in the balance sheet was as follows (dollars in thousands):

	Before application of SFAS No. 158	Adjustments	After application of SFAS No. 158
Other long-term liabilities	\$ 10,891	\$ (457)	\$ 10,434
Deferred income tax	—	—	—
Accumulated other comprehensive income	3	457	460

Effective December 31, 2006, the Company adopted SFAS No. 158, *Employers' Accounting for Defined Pension and Other Postretirement Plans*. SFAS No. 158 requires the recognition of the funded status of defined-benefit and other postretirement benefit plans in the accompanying balance sheets, with changes in the funded status recognized through OCI, net of tax. SFAS No. 158 also requires the measurement of the funded status to be the same as the balance sheet date. The adoption of SFAS No. 158 did not change the amount of net periodic benefit cost included in the Company's consolidated statements of operations.

Additional information related to the Pension Plans is as follows:

	Year ended December 31, 2008	Year ended December 31, 2007	Successor Period from November 11, 2006 through December 31, 2006	Predecessor Period from January 1, 2006 through November 10, 2006

Weighted-average assumptions used to determine benefit obligation are as follows:

	December 31 2008	December 31 2007
Discount rate	6.28%	6.48%
Rate of compensation increase	(1)	4.25%

(1) No compensation increase was assumed, as the plans were frozen effective December 31, 2008.

Weighted-average assumptions used to determine net periodic pension expense are as follows:

	Year ended December 31, 2008	Year ended December 31, 2007	Successor Period from November 11, 2006 through December 31, 2006	Predecessor Period from January 1, 2006 through November 10, 2006
Discount rate	6.48%	5.75%	5.75%	5.75%
Expected long-term rate of return on plan assets	9.00	9.25	9.25	9.25
Rate of compensation increase	4.25	4.25	4.25	4.25

To determine the long-term rate of return assumption for plan assets, the Company studies historical markets and preserves the long-term historical relationships between equities and fixed-income securities consistent with the widely accepted capital market principle that assets with higher volatility generate a greater return over the long run. The Company evaluates current market factors such as inflation and interest rates before it determines long-term capital market assumptions and reviews peer data and historical returns to check for reasonableness and appropriateness.

The Pension Plan's weighted-average asset allocation at December 31, 2008 and 2007, by asset category, is as follows:

	2008	2007
Equity securities	48.0%	55.0%
Debt securities	36.0	37.0
Real estate	9.0	8.0
Other	7.0	—
	100.0%	100.0%

The Company's target allocation for equity securities and real estate is generally between 55%–65%, with the remainder allocated primarily to bonds. The Company regularly reviews its actual asset allocation and periodically rebalances its investments to the targeted allocation when considered appropriate.

The Company expects to contribute \$850,000 to the Pension Plans in 2009.

The following benefit payments are expected to be paid from the Pension Plans (dollars in thousands):

Year	
2009	\$ 1,086
2010	1,230
2011	1,370
2012	1,490

Effective January 1, 1999, the Predecessor Company established the Equity Appreciation Share Plan (the "Plan") for select individuals to promote the long-term success of the Predecessor. The Plan allowed for certain individuals to share in non-tax related distributions and/or redemption of equity appreciation upon termination or a change in control. Grants under the Plan vested according to a graduated vesting schedule over an eight-year period. Each agreement also contained provisions providing for immediate vesting upon the participant's death or disability or in the event of a change in control during the participant's employment. The Equity Appreciation Share Plan provided for plan participants to receive a calculated amount which was derived based on the increase in book value of the Predecessor's equity. At January 1, 2006, the Predecessor had a liability accrued of \$1,650,000 related to the Plan. Prior to the CCMP change in control transaction, the amount charged to net earnings, which represents amortization of the book value at the issuance date for newly granted shares and the estimated change in book value of existing shares, was approximately \$1,377,000 for the Predecessor Period ended November 10, 2006, and was recorded in the consolidated statements of operations.

As a result of the CCMP change in control transaction, which triggered immediate vesting, the Predecessor Company expensed \$149,348,000 in the consolidated statements of operations for the increase in the book value, and paid \$152,375,000 to Plan participants during the

Predecessor Period ended November 10, 2006. This Plan was terminated following the CCMP change of control transaction.

10. Commitments and contingencies

The Company leases certain computer equipment and warehouse space under operating leases with initial lease terms ranging up to three years.

The approximate aggregate minimum rental commitments at December 31, 2008, are as follows (dollars in thousands):

Year	Amount
2009	\$ 297
2010	173
2011	32
Total	\$ 502

Total rent expense for the years ended December 31, 2008 and 2007, the Successor Period and the Predecessor Period which includes short-term data processing equipment rentals, was approximately \$415,000, \$633,000, \$191,000, and \$1,258,000, respectively.

The Company has an arrangement with a finance company to provide floor plan financing for selected dealers. The Company receives payment from the finance company within a few days of shipment of product to the dealer. The Company participates in the cost of dealer financing up to certain limits. The Company has agreed to repurchase products repossessed by the finance company. The Company's financial exposure when repurchasing product is limited to the difference between the outstanding balance due and the amount received on the resale of the repossessed product. In the event of default, the Company is liable for up to 50% of the financed balance. The amount financed by dealers which remained outstanding under this arrangement at December 31, 2008 and 2007 was approximately \$7,547,000 and \$6,811,000, respectively.

Minimal losses have been incurred under this agreement, and a minimal reserve accrual for future losses has been recorded. However, an adverse change in dealer retail sales could cause this situation to change and thereby require the Company to repurchase repossessed units.

In the normal course of business, the Company is named as a defendant in various lawsuits in which claims are asserted against the Company. In the opinion of management, the liabilities, if any, which may result from such lawsuits are not expected to have a material adverse effect on the financial position, results of operations, or cash flows of the Company.

11. Related-party transactions

The Company has entered into an agreement to pay CCMP Capital Advisors, LLC and affiliates of Unitas Capital Ltd. an annual advisory fee of \$500,000. The Company expensed \$500,000 in advisory fees for 2008 and 2007, and \$70,000 in the Successor Period.

The Company also paid CCMP Capital Advisors, LLC and affiliates of Unitas Capital Ltd. a transaction fee of \$30,000,000 related to the November 10, 2006, merger transaction. This fee was a direct transaction cost and, therefore, was included as part of the purchase price.

During the Predecessor Period, the Predecessor Company leased a facility from the then majority stockholder. The lease provided for annual rentals of approximately \$76,000 through November 2007. This lease was terminated prior to the acquisition on November 10, 2006. There was no lease termination penalty incurred.

14. Subsequent events

Subsequent to December 31, 2008, CCMP acquired \$9,898,000 par value of First Lien term loans and \$20,000,000 par value of Second Lien term loans for approximately \$14,755,000. CCMP exchanged this debt for 1,475.4596 additional shares of Series A Preferred stock issued by the Company. The Company subsequently contributed this debt to its Subsidiary, in order to effect extinguishment of the debt.

Subsequent to December 31, 2008, the Company issued 2,000 shares of Series A Preferred Stock for an aggregate purchase price of \$20,000,000 in cash. Additionally, in accordance with the preemptive rights provisions of the Shareholders' Agreement, CCMP sold shares of Series A Preferred Stock it had purchased previously to various investment funds affiliated with CCMP and certain members of management at the same price.

These subsequent Series A preferred stock transactions result in 11,310.8845 shares of outstanding Series A preferred stock.

On October 16, 2009, the board of directors approved the name change of the Company from GPS CCMP Acquisition Corp to Generac Holdings Inc.

The Company evaluated subsequent events through October 20, 2009.

1. Basis of presentation

Description of business

Effective October 19, 2009, GPS CCMP Acquisition Corp. changed its name to Generac Holdings Inc.

Generac Holdings Inc. (the Company) owns all of the common stock of Generac Acquisition Corp., which in turn, owns all of the common stock of Generac Power Systems, Inc. (the Subsidiary). The Company designs, manufactures, and markets a complete line of automatic standby generators for residential, light-commercial, and industrial usage, as well as portable generators and air-cooled engines, for domestic and international markets.

The Company is a Delaware corporation, the outstanding common stock of which is owned by affiliates of CCMP Capital Advisors, LLC (collectively, CCMP), affiliates of Unitas Capital Ltd., and certain members of management of the Subsidiary and board of directors of the Company.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany amounts and transactions have been eliminated in consolidation.

The consolidated balance sheets as of June 30, 2009 and the consolidated statements of operations and cash flows for the six months ended June 30, 2009 and 2008 have been prepared by the Company and have not been audited. In the opinion of management, all adjustments, consisting of only normal recurring adjustments necessary for the fair presentation of the financial position, results of operation and cash flows, have been made.

Certain information and footnote disclosure normally included in consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the consolidated financial statements for the year ended December 31, 2008.

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Demand for our products is significantly affected by unpredictable major power-outage events that can lead to substantial variations in, and uncertainties regarding, our financial results from period to period. This can result in different seasonality trends from year to year. As a result, the results of the consolidated statement of operations for six months ended June 30, 2009 are not necessarily indicative of the operating results for the full fiscal year.

Accumulated other comprehensive income (loss)

Accumulated other comprehensive income (AOCI) includes unrealized gains (losses) on certain cash flow hedges and the pension liability. The components of AOCI at June 30, 2009 and December 31, 2008 were (dollars in thousands):

2. Derivative instruments and hedging activities

The Company accounts for its derivative contracts in accordance with ASC 815, *Derivatives and Hedging*, which requires all derivative instruments be reported on the consolidated balance sheets at fair value and establishes criteria for designation and effectiveness of hedging relationships. The Company is exposed to market risk such as changes in commodity prices, foreign currencies, and interest rates. The Company does not hold or issue derivative financial instruments for trading purposes.

Commodities

The primary objectives of the commodity risk management activities are to understand and mitigate the impact of potential price fluctuations on the Company's financial results and its economic well-being. While the Company's risk management objectives and strategies will be driven from an economic perspective, the Company attempts, where possible and practical, to ensure that the hedging strategies it engages in can be treated as "hedges" from an accounting perspective or otherwise result in accounting treatment where the earnings effect of the hedging instrument provides substantial offset (in the same period) to the earnings effect of the hedged item. Generally, these risk management transactions will involve the use of commodity derivatives to protect against exposure resulting from significant price fluctuations.

The Company primarily utilizes commodity contracts with maturities of less than 12 months. These are intended to offset the effect of price fluctuations on actual inventory purchases. At June 30, 2009 there were no outstanding commodity contracts. At June 30, 2008, there were two outstanding commodity contracts in place to hedge its projected commodity purchases. Total gains recognized in the consolidated statements of operations as a component of cost of goods sold on commodity contracts were \$137,000 and \$459,000 for the six month periods ended June 30, 2009 and 2008, respectively.

Foreign currencies

The Company is exposed to foreign currency exchange risk as a result of transactions in other currencies. The Company utilizes foreign currency forward purchase and sales contracts to manage the volatility associated with foreign currency purchases in the normal course of business. Contracts typically have maturities of one year or less. There were no outstanding

foreign currency hedge contracts outstanding as of June 30, 2009 or December 31, 2008. There were no gains or losses recorded in the consolidated statement of operations for the six month periods ended June 30, 2009 and 2008.

Interest rates

The Company previously entered into various interest rate swap agreements (the Swaps) with certain banks. The Swaps, which were effective January 2, 2007, October 3, 2007, and January 3, 2008, have notional amounts totaling \$825,000,000, \$100,000,000, and \$275,000,000, respectively. The total notional amount of \$1,200,000,000 declined to \$675,000,000 at January 3, 2009, and terminate January 4, 2010.

Effective January 3, 2009, the Company, within the terms of the Credit Agreements, changed the interest rate election from three-month LIBOR to one-month LIBOR. The Company has concluded that as of January 3, 2009, the Swaps no longer meet hedge effectiveness tests and are therefore, no longer highly effective as a hedge against the impact on interest payments of changes in the LIBOR interest rate. The effective portion of the Swaps prior to the change will remain in AOCI and will be amortized as interest expense over the period of the originally designated hedged transactions. Future changes in the fair value of the Swaps are immediately recognized in the consolidated statement of operations as interest expense. For the six month period ended June 30, 2009, the Company recognized in earnings \$12,112,000 of unrealized losses that were previously recorded in AOCI when the swaps were deemed highly effective. The Company recorded in earnings a gain of \$5,184,000 related to the change in fair value in the Swaps, as the Swaps are deemed fully ineffective, for the six months ended June 30, 2009.

Upon entering into those hedge arrangement, the Company formally documented all relationships between interest rate hedging instruments and hedged items, as well as its risk-management objectives and strategies for undertaking various hedge transactions. During 2008, the Company's interest rate swap agreements qualified as cash flow hedges. For derivatives that are designated and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative is reported as a component of AOCI and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. The ineffective portion of the derivatives' change in fair value, if any, is immediately recognized in earnings. The Company assesses on an ongoing basis whether derivatives used in hedging transactions are highly effective in offsetting changes in cash flows of hedged items. The impact of hedge ineffectiveness on earnings was not material for the six month period ended June 30, 2008.

The following table presents, in thousands, the fair value of the Company's derivatives:

	June 30, 2009	December 31, 2008
Derivatives designated as hedging instruments:		
Interest rate swaps	—	\$ 24,223
	—	24,223
Derivatives not designated as hedging instruments:		
Commodity Contracts	—	1,425
Interest rate swaps	19,038	—
Total derivatives	\$ 19,038	\$ 25,648

As of June 30, 2009, all derivatives that are not designated as hedging instruments are included in other current liabilities in the consolidated balance sheet. There were no derivatives that were designated as hedging instruments at June 30, 2009.

All derivatives designated as hedging instruments are included in other long-term liabilities in the consolidated balance sheet at December 31, 2008.

The fair value of the derivative contracts of \$19,038,000 and \$25,648,000 considers the Company's Credit Risk as of June 30, 2009 and December 31, 2008, respectively. Excluding the impact of credit risk, the fair value of the derivatives at June 30, 2009 and December 31, 2008 was \$21,661,000 and \$29,000,000, respectively, and this represents the amount the Company would need to pay to exit the agreements on those dates.

Cash flow hedges are recorded at fair value with a corresponding entry, net of taxes, recorded in earnings. At June 30, 2009, the notional amount of debt under interest rate swap agreements outstanding was \$675.0 million.

The following presents the impact of interest rate swaps and commodity contracts on the consolidated statement of operations for the six months ended June 30, 2009 and 2008 (dollars in thousands):

During the six months ended June 30, 2009 the impact of derivative instruments on the consolidated statement of operations for the interest rate swap agreements not designated as

hedging instruments was a gain of \$5,184,000. There was no impact of derivative instruments on the consolidated statement of operations for the comparable period last year. During the six months ended June 30, 2009 and 2008 the impact of derivative instruments on the consolidated statement of operations for the commodity contracts not designated as hedging instruments was a gain of \$137,000 and \$459,000, respectively.

3. Fair value measurements

ASC 820-10 Fair Value Measurements and Disclosures (formerly SFAS No. 157, *Fair Value Measurements*) among other things, defines fair value, establishes a consistent framework for measuring fair value, and expands disclosure for each major asset and liability category measured at fair value on either a recurring basis or nonrecurring basis. ASC 820-10 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the pronouncement establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Assets and liabilities measured at fair value are based on the market approach, which is prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Liabilities measured at fair value on a recurring basis are as follows (dollars in thousands):

	Total June 30, 2009	Fair value measurement using	
		Quoted prices in active markets for identical contracts (Level 1)	Significant other observable inputs (Level 2)
Net derivative contracts	\$19,038	\$—	\$19,038

The fair value of derivative contracts above consider the Company's credit risk in accordance with ASC 820-10. Excluding the impact of credit risk, the fair value of derivatives at June 30, 2009, was \$21,661,000 and this represents the amount the Company would need to pay to exit the agreements on this date.

The Company also records a liability for specific warranty matters when they become known and are reasonably estimatable. The Company's product warranty obligations are included in other accrued liabilities and other long-term liabilities in the consolidated balance sheets.

Long-term debt consists of the following (dollars in thousands):

	June 30, 2009	December 31, 2008
First lien term loan	\$ 920,604	\$ 930,104

Less current portion	4,750	9,500
	\$ 1,088,789	\$ 1,121,437

The Credit Agreements require the Company, among other things, to meet certain financial and nonfinancial covenants and maintain financial ratios in such amounts and for such periods as set forth therein. The Company is required to maintain a leverage ratio (EBITDA divided by net debt, as defined within the Credit Agreements) of 7.50 as of June 30, 2009. The leverage ratio decreases quarterly, and for the remainder of 2009, the Company will be required to maintain a leverage ratio of 7.25 and 6.75 for the third and fourth quarters, respectively. The Company was in compliance with all requirements as of June 30, 2009.

The Credit Agreements restrict the circumstances in which distributions and dividends can be paid by the Subsidiary. Payments can be made to the Company for certain expenses, and dividends can be used to repurchase equity interests, subject to an annual limitation. Additionally, the Credit Agreements restrict the aggregate amount of dividends and distributions that can be paid and require the maintenance of certain leverage ratios.

During the six months ended June 30, 2009, CCMP acquired \$9,898,000 par value of First Lien term loans and \$18,000,000 par value of Second Lien term loans for approximately \$13,989,000. CCMP exchanged this debt for 1,398.9149 shares of Series A Preferred stock. The Company subsequently contributed this debt to its Subsidiary. The fair value of the shares exchanged was \$13,989,000. These shares have beneficial conversion features which are contingent upon a future event. The Company recorded this transaction as Series A Preferred Stock of \$13,989,000 based on the fair value of the debt contributed by CCMP which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by the Subsidiary. Consequently, the Company recorded a gain on extinguishment of debt of \$13,510,000, which includes the write-off of deferred financing costs and other closing costs in the consolidated statement of operations for the six months ended June 30, 2009.

During the six months ended June 30, 2008, CCMP acquired \$24,000,000 par value of Second Lien term loans for approximately \$18,249,000. CCMP exchanged this debt for 2,400 shares of Class B Common stock. The Company subsequently contributed this debt to its Subsidiary. The fair value of the shares exchanged was \$18,249,000. These shares have beneficial conversion features which are contingent upon a future event. The Company recorded this transaction as Class B Common Stock of \$18,249,000 based on the fair value of the debt contributed by CCMP which approximated the fair value of shares exchanged. The debt is now held in treasury at face value by the Subsidiary. Consequently, the Company recorded a gain on extinguishment of

debt of \$5,311,000, which includes the write-off of deferred financing costs and other closing costs, in the consolidated statement of operations for the six months ended June 30, 2008.

As of June 30, 2008, the fair value of long-term debt was approximately \$774,360,000 as calculated based on current quotations.

7. Earnings per share

The Company has one class of preferred stock (Series A) and two classes of common stock (Class B stock and Class A stock). Each Series A Preferred share is entitled to a priority return preference equal to the sum of \$10,000 per share base amount plus an amount sufficient to generate a 14% return on that base amount compounded quarterly from the date of the transaction in which the Series A Preferred shares were originally issued until the priority return preference is paid in full. Each Series A Preferred share also participates in any equity appreciation beyond the Series A Preferred priority return equal to 24.3% of remaining proceeds (Series A Equity Participation). Class B Common shares participate in the equity appreciation after the Series A preferred priority return is satisfied. Each Class B share is entitled to a priority return preference equal to the sum of \$10,000 per share base amount plus an amount sufficient to generate a 10% return on that base amount compounded quarterly from the date of the transaction in which the Class B shares were originally issued until the priority return preference is paid in full. Each Class B share also participates in any equity appreciation beyond the priority return. Class A shares participate in the equity appreciation after the Class B priority return is satisfied.

The Class B stock is considered a participating stock security requiring use of the "two-class" method for the computation of basic net income (loss) per share in accordance with EITF 03-06. Losses are not allocated to the Class B stock in the computation of basic earnings per share as the Class B stock is not obligated to share in losses.

Basic earnings per share excludes the effect of common stock equivalents and is computed using the "two-class" computation method, which divides earnings attributable to the Class B preference from total earnings. Any remaining loss is attributed to the Class A shares.

Dollars in thousands, except per share data:

Weighted average number of shares outstanding:		
Class A common stock	5,717	6,157
Class B common stock	79,114	78,724

The effect of conversion of Series A preferred and Class B common stock at June 30, 2009 and 2008 is considered anti-dilutive because a net loss applicable to common stockholders was reported.

8. Income taxes

The Company is a C Corporation and, therefore, accounts for income taxes pursuant to the liability method. Accordingly, the current or deferred tax consequences of a transaction are measured by applying the provision of enacted tax laws to determine the amount of taxes payable currently or in future years. Deferred income taxes are provided for temporary differences between the income tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Due to historical taxable losses, the Company provides reserves against its U.S. deferred tax assets.

For the six-month period ended June 30, 2009, the Company recorded tax expense of \$212,000 related to state income taxes.

During the six month period ended June 30, 2008, the Company's tax basis in goodwill was lower than its book basis. As such, a deferred tax liability was recognized in the consolidated balance sheet. These deferred tax liabilities were considered to have an indefinite life and therefore were ineligible to be considered as a source of future taxable income in assessing the realization of deferred tax assets. This resulted in a tax expense of \$4,144,000 recorded in the consolidated statement of operations for the six months ended June 30, 2008. The recognition of an impairment related to goodwill and indefinite-lived intangibles in the fourth quarter of 2008 resulted in a deferred tax asset and tax benefit in the second half of 2008.

9. Benefit plans

The components of net periodic benefit cost for the Company's pension plans were as follows (dollars in thousands):

	Six months ended	
	June 30, 2009	June 30, 2008

	\$ 387	\$ 1,098

10. Commitments and contingencies

The Company has an arrangement with a finance company to provide floor plan financing for selected dealers. The Company receives payment from the finance company within a few days of shipment of product to the dealer. The Company participates in the cost of dealer financing up to certain limits. The Company has agreed to repurchase products repossessed by the finance company. The Company's financial exposure when repurchasing product is limited to the difference between the outstanding balance due and the amount received on the resale of the repossessed product. In the event of default, the Company is liable for up to 50% of the financed balance. The amount financed by dealers which remained outstanding under this arrangement at June 30, 2009 and December 31, 2008 was approximately \$2,828,000 and \$7,547,000, respectively.

Effective February 27, 2009 the arrangement between the Company and the finance company was terminated. Minimal losses have been incurred under this agreement, and a minimal reserve for future losses has been recorded.

Effective May 29, 2009 the Company entered into an arrangement with a different finance company. This arrangement is similar to the previous arrangement, however, the Company does not indemnify the finance company for any credit losses they incur.

11. Subsequent events

Subsequent to June 30, 2009, affiliates of CCMP acquired \$2,000,000 par value of second lien term loans for approximately \$765,000. CCMP's affiliates exchanged this debt for 76.5447 additional shares of Series A Preferred Stock.

Subsequent to June 30, 2009, the Company issued 2,000 shares of Series A preferred stock for an aggregate purchase price of \$20,000,000 in cash to affiliates of CCMP and certain members of management and the board of directors. Additionally, in accordance with the preemptive rights provisions of the Shareholders' Agreement, affiliates of CCMP sold shares of Series A preferred stock they had purchased previously to various investment funds affiliated with CCMP and a member of the board of directors at the same price.

These subsequent Series A preferred stock transactions result in 11,310.8845 shares of outstanding Series A preferred stock.

The Company has evaluated subsequent events through October 20, 2009.

Item 14. Indemnification of directors and officers.

Section 145 of the Delaware General Corporation Law, or DGCL, provides that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees)), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. Section 145 further provides that a corporation similarly may indemnify any such person serving in any such capacity who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that he is or was a director, officer, employee or agent of the corporation or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorney's fees) actually and reasonably incurred in connection with the defense or settlement of such action or suit if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Delaware Court of Chancery or such other court in which such action or suit was brought shall determine upon

application that, despite the adjudication of liability but in view of all of the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Delaware Court of Chancery or such other court shall deem proper.

The Registrant's Bylaws authorize the indemnification of our officers and directors, consistent with Section 145 of the Delaware General Corporation Law, as amended. The Registrant intends to enter into indemnification agreements with each of its directors and executive officers. These agreements, among other things, will require the Registrant to indemnify each director and executive officer to the fullest extent permitted by Delaware law, including indemnification of expenses such as attorneys' fees, judgments, fines and settlement amounts incurred by the director or executive officer in any action or proceeding, including any action or proceeding by or in right of us, arising out of the person's services as a director or executive officer.

Reference is made to Section 102(b)(7) of the Delaware General Corporation Law, or DGCL, which enables a corporation in its original certificate of incorporation or an amendment thereto to eliminate or limit the personal liability of a director for violations of the director's fiduciary duty, except (i) for any breach of the director's duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) pursuant to Section 174 of the DGCL, which provides for liability of directors for unlawful payments of dividends of unlawful stock purchase or redemptions or (iv) for any transaction from which a director derived an improper personal benefit.

Reference is also made to Section 145 of the DGCL, which provides that a corporation may indemnify any person, including an officer or director, who is, or is threatened to be made, party to any threatened, pending or completed legal action, suit or proceeding, whether civil, criminal, administrative or investigative, other than an action by or in the right of such corporation, by reason of the fact that such person was an officer, director, employee or agent of such corporation or is or was serving at the request of such corporation as a director, officer, employee or agent of another corporation or enterprise. The indemnity may include expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding, provided such officer, director, employee or agent acted in good faith and in a manner he reasonably believed to be in, or not opposed to, the corporation's best interest and, for criminal proceedings, had no reasonable cause to believe that his conduct was unlawful. A Delaware corporation may indemnify any officer or director in an action by or in the right of the corporation under the same conditions, except that no indemnification is permitted without judicial approval if the officer or director is adjudged to be liable to the corporation. Where an officer or director is successful on the merits or otherwise in the defense of any action referred to above, the corporation must indemnify him against the expenses that such officer or director actually and reasonably incurred.

The Registrant expects to maintain standard policies of insurance that provide coverage (i) to its directors and officers against loss rising from claims made by reason of breach of duty or other wrongful act and (ii) to the Registrant with respect to indemnification payments that it may make to such directors and officers.

The proposed form of Underwriting Agreement to be filed as Exhibit 1.1 to this Registration Statement provides for indemnification to the Registrant's directors and officers by the underwriters against certain liabilities.

ARTICLE 2

CORPORATE GOVERNANCE

SECTION 2.01 Board of Directors. (a) From and after the Effective Time, at each annual or special meeting at which any directors of the Company are to be elected, and whenever the stockholders of the Company act by written consent with respect to the election of directors, each Investor, severally and not jointly, agrees to vote or otherwise give such Investor's consent in respect of all Class B Common Shares (whether now or hereafter acquired) held of record or beneficially owned by such Investor, and the Company shall take all necessary and desirable actions within its control, in order to cause:

(b) (i) the authorized number of directors on the board of directors of the Company (the "**Board**") to be, initially, seven directors; *provided* that the number of directors on the Board may be increased or decreased at any time and from time to time at the direction of the Sponsors;

(ii) subject to Section 2.02 below, the election to the Board of :

(A) (1) the Chief Executive Officer of the Company and, at the election of the Chief Executive Officer, one director designated by such Chief Executive Officer and (2) that number of directors designated by Capital Investors (the "**CCMP Directors**"); *provided* that Capital Investors shall have the right to designate each successor CCMP Director and shall be entitled to direct the removal from the Board of any CCMP Director; and

(B) that number of directors designated by Capital Investors and determined by Capital Investors in good faith (1) not to have a material relationship with the Company or any Affiliate thereof, and (2) not to be a current employee of a CCMP Fund or CCMP Capital Advisors, LLC (the "**Independent Directors**") (it being understood that

10

Capital Investors shall have the right to designate each successor Independent Director and shall be entitled to direct the removal from the Board of any Independent Director).

The CCMP Directors shall initially be Stephen Murray, Timothy Walsh and Stephen McKenna. Each designation of or any proposal to remove from the Board any director shall be made by delivering to the Board a notice signed by the party entitled to such designation or proposal. As promptly as practicable, but in any event within five (5) days after delivery of such notice, the Company, the Board and the Investors shall take or cause to be taken such actions as may be reasonably required to cause the designation or removal proposed in such notice. Such actions may include calling a meeting or soliciting a written consent of the Board, or calling a meeting or soliciting a written consent of the Investors. Each Investor shall take all actions required on its behalf to give effect to the agreements set forth in this Article 2.

(c) Without limiting the foregoing, Asia Fund shall have the right to designate one non-voting observer to the Board, which observer will be entitled to attend all meetings of the Board, participate in all deliberations of the Board and receive copies of all materials provided to the Board, *provided* that such observer shall have no voting rights with respect to actions taken or elected not to be taken by the Board.

SECTION 2.02 Voting Agreement. In addition, prior to an IPO, as to any matter or action that requires a vote or written consent of the stockholders of the Company, whether by law or pursuant to any agreement, each Investor (other than the Sponsors) agrees to vote its Class B Common Shares, or to provide its written consent, only as directed by the CCMP Representative; *provided* that no Investor shall be required to vote in favor of, or provide its written consent to, any action that would disproportionately affect such Investor relative to the other Investors in any material and adverse manner. In the event that any Investor (other than the Sponsors) entitled to vote on or provide its written consent with respect to a matter shall fail at any time to vote or act by written consent with respect to any Class B Common Shares held of record or beneficially owned by such Investor or as to which such Investor has voting control, such Investor hereby irrevocably grants to and appoints the CCMP Representative such Investor's proxy and attorney-in-fact (with full power of substitution), for and in the name, place and stead of such Investor, to vote or act by written consent with respect to such Class B Common Shares and to grant a consent, proxy or approval in respect of such shares, in each case in such manner as the CCMP Representative shall determine in its sole and absolute discretion. Each Investor (other than the Sponsors) hereby affirms that the irrevocable proxy set forth in this Section 2.02 will be valid for the term of this Agreement and is given to secure the performance of the obligations of such Investor under this Agreement. Each such Investor (other than the Sponsors) hereby further affirms that each proxy hereby granted shall, for the term of this Agreement, be irrevocable and shall be deemed coupled with an interest.

SECTION 2.03 Committees. The Board may, by duly adopted action of the Board, designate one or more committees, including compensation and audit committees, of one or more directors, including alternates who may replace any absent or disqualified member at any meeting of the committee; *provided, however*, any executive committee of the Board must include the Chief Executive Officer. Asia Fund shall have the right to designate one non-voting observer to any committee of the Board comprised of one or more CCMP Directors, which observer will be entitled to attend all meetings of such committee, participate in all deliberations of such committee and receive copies of all materials provided to such committee; *provided* that such observer shall have no voting rights with respect to actions taken or elected not to be taken by such committee.

SECTION 2.04 Chairman. A chairman may be appointed by the directors from among themselves. The Chairman, if appointed, will preside over meetings of the Board but shall otherwise have no greater authority than any other director.

11

SECTION 2.05 Payments to Directors; Reimbursements. No director who is an officer of the Company or otherwise employed by the Company or any of its Subsidiaries shall be entitled to remuneration from the Company for services rendered in his or her capacity as a director (other than for reimbursement of reasonable out-of-pocket expenses of such director in accordance with Company policy and as may be authorized by the Board). The out-of-pocket expenses of the Board observer designated by Asia Fund incurred in connection with his or her attendance at any meeting of the Board or any Committee thereof shall be reimbursed by the Company. The Board may authorize Independent Directors to receive director fees in respect of services rendered as a director of the Company.

SECTION 2.06 Competitive Opportunity. If any director who is not employed by the Company or any of its Subsidiaries acquires knowledge of a potential transaction or matter which may be an investment or business opportunity or prospective economic or competitive advantage in which the Company could have an interest or expectancy (a "**Competitive Opportunity**") or otherwise is then exploiting any Competitive Opportunity, the Company shall have no interest in, and no expectation that, such Competitive Opportunity be offered to it, any such interest or expectation being hereby renounced so that each director who is not employed by the Company or any of its Subsidiaries (other than any such director who is bound by any employment, consulting or noncompetition agreements that prohibit such actions) shall (i) have no duty to communicate or present such Competitive Opportunity to the Company and (ii) have the right to hold any such Competitive Opportunity for such director's (and its agents', partners' or affiliates') own account and benefit or to recommend, assign or otherwise transfer or deal in such Competitive Opportunity to Persons other than the Company or any Affiliate of the Company.

SECTION 2.07 Notice of Meetings. Regular meetings of the Board may be held without notice. Special meetings of the Board may be called by any CCMP Director and may be held upon 48 hours' notice to each director and Board observer, either personally, by mail, by telegram or by facsimile, or such shorter period as approved by the Board; *provided* that such notice requirement shall be deemed waived for any special meeting if each director is present at such special meeting.

SECTION 2.08 Subsidiary Directors. If requested by the CCMP Representative, the Parties agree to take all necessary action, either directly through the Company or otherwise, to cause the board of directors of each Subsidiary of the Company (if any) to have at all times a board composition identical (including with respect to the Asia Fund board observer but excluding any Independent Directors) to the Board.

SECTION 2.09 Termination Upon IPO. The provisions of this Article 2 shall terminate and have no further force or effect upon the first to occur of the consummation of an IPO or a Change of Control.

ARTICLE 3

RESTRICTIONS ON TRANSFER

SECTION 3.01 General Restrictions on Transfer.

(a) Each Investor understands and agrees that the Company Equity Securities held by it on the date hereof have not been registered under the Securities Act and are restricted securities under the Securities Act. No Investor shall Transfer any Company Equity Securities (or solicit any offers in respect of any Transfer of any Company Equity Securities), except in compliance with the Securities Act, any other applicable securities or "*blue sky*" laws and any restrictions on Transfer contained in this Agreement or any other provisions set forth in any other agreements or instruments pursuant to which such Company Equity Securities were issued. No Investor shall Transfer any Company Equity Securities

12

if such Transfer would cause any class of Company Equity Securities to be required to become subject to registration under the Exchange Act.

(b) Notwithstanding anything in this Agreement to the contrary, any attempt to Transfer any Company Equity Securities not in compliance with this Agreement shall be null and void and have no force or effect, and the Company shall not, and shall cause any transfer agent not to, give any effect in such entity's share records to such attempted Transfer. The parties hereto acknowledge that the transfer restrictions contained herein are reasonable and in the best interests of the Company.

SECTION 3.02 Restrictions on Transfer by Management Shareholders. Notwithstanding anything in this Agreement to the contrary:

(a) Prior to the IPO, no Management Shareholder may Transfer any of its Company Equity Securities, except to a Permitted Transferee in accordance with Section 3.04 or in a Transfer of Company Equity Securities in a Tag-Along Sale or Drag-Along Sale pursuant to Sections 4.01 or 4.02 (in each case, in compliance with any agreement or instrument pursuant to which such Company Equity Securities have been issued).

(b) Following the IPO, and subject to Section 3.01, in addition to Transfers to Permitted Transferees, each Management Shareholder may Transfer Company Equity Securities, other than any unvested Class A Common Shares (such Company Equity Securities that may be Transferred, "Unrestricted Securities").

SECTION 3.03 Legends.

(a) At all times prior to the IPO, in addition to any other legend that may be required, each certificate for Company Equity Securities issued to any Investor shall bear a legend in substantially the following form:

"THIS SECURITY HAS NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, OR ANY FOREIGN OR STATE SECURITIES LAWS AND MAY NOT BE TRANSFERRED, OFFERED OR SOLD EXCEPT IN COMPLIANCE THEREWITH. THIS SECURITY IS ALSO SUBJECT TO ADDITIONAL RESTRICTIONS ON TRANSFER AS SET FORTH IN THE SHAREHOLDERS' AGREEMENT DATED AS OF NOVEMBER 10, 2006 (AS AMENDED FROM TIME TO TIME), A COPY OF WHICH MAY BE OBTAINED UPON REQUEST FROM THE COMPANY OR ANY SUCCESSOR THERETO."

(b) If any Company Equity Securities shall become freely transferable under the Securities Act, upon the written request of the holder thereof, the Company shall issue to such holder a new certificate evidencing such Company Equity Securities without the first sentence of the legend required by Section 3.03(a) endorsed thereon. The Company may request that the holder provide an opinion of legal counsel reasonably acceptable to it stating that such Company Equity Securities are freely transferable under the Securities Act. If any Company Equity Securities cease to be subject to any and all restrictions on Transfer and all other obligations set forth in this Agreement, the Company upon the written request of the holder thereof, shall issue to such holder a new certificate evidencing such

13

Company Equity Securities without the second sentence of the legend required by Section 3.03(a) endorsed thereon.

SECTION 3.04 Permitted Transferees.

(a) Subject to Section 3.01, any Management Shareholder may at any time Transfer any or all of its Company Equity Securities to a Permitted Transferee of such Management Shareholder without the consent of any Person so long as such Permitted Transferee shall have agreed in writing to be bound by the terms of this Agreement by executing a Joinder Agreement (and such Transfer is otherwise in compliance with any agreement or instrument to which such Company Equity Securities were issued). Such Management Shareholder must give prior written notice to the Company of any proposed Transfer to a Permitted Transferee, including the identity of such proposed Permitted Transferee and such other documentation reasonably requested by the Company to ensure compliance with the terms of this Agreement.

(b) If, while a Permitted Transferee holds any Company Equity Securities, a Permitted Transferee (a "Non-Qualified Permitted Transferee") ceases to qualify as a Permitted Transferee in relation to the initial transferor Management Shareholder (being the original member of management of the Company that originally held such Company Equity Securities) (any such initial transferor Management Shareholder, an "Original Management Shareholder") from whom or which such Permitted Transferee or any previous Permitted Transferee of such initial transferor Management Shareholder received such shares (an "Unwinding Event"), then:

(i) such Original Management Shareholder and such Non-Qualified Permitted Transferee shall forthwith notify the Company and the CCMP Representative of the pending occurrence of such Unwinding Event; and

(ii) immediately following such Unwinding Event, such Original Management Shareholder and such Non-Qualified Permitted Transferee shall take all actions necessary to effect a Transfer of all the Company Equity Securities held by the Non-Qualified Permitted Transferee either back to such Management Shareholder or, pursuant to this Section 3.04, to another Person that qualifies as a Permitted Transferee of such Original Management Shareholder.

ARTICLE 4

TAG-ALONG RIGHTS; DRAG-ALONG RIGHTS; PREEMPTIVE RIGHTS

SECTION 4.01 Tag-Along Rights.

(a) Subject to Section 4.03, if, prior to any IPO or Change of Control, one or more Sponsors (collectively, the "Tag-Along Seller") propose to Transfer more than 15% of the Aggregate Ownership of all Sponsors of any class of Company Equity Securities held by the Sponsors on the date hereof ("Offered Securities") to any Third Party or Third Parties in a single transaction or in a series of related transactions, (a "Tag-Along Sale"), the Tag-Along Seller shall first, by written notice to the Company (a copy of which ("Tag-Along Notice") the Company shall provide to each of the other Investors (the "Tag-Along Offerees")) offer the Tag-Along Offerees ("Tag-Along Offer") the opportunity to participate in such Transfer in accordance with this Section 4.01.

(b) The Tag-Along Notice shall identify (i) the class and number of shares of Offered Securities proposed to be sold by the Tag-Along Seller, (ii) the fraction expressed as a

14

percentage, determined by dividing the number of shares of the specified class to be purchased from the Tag-Along Seller in such Tag-Along Sale by the Aggregate Ownership of the Tag-Along Seller of the specified class (the "Tag-Along Sale Percentage"), (iii) the consideration for which the Transfer is proposed to be made, (iv) the name and address of each proposed Third Party transferee, (v) the proposed Transfer date and (vi) all other material terms and conditions of the Tag-Along Offer, including the form of the proposed agreement, if any, and a firm offer by each proposed Third Party transferee to purchase shares of the specified class of Offered Securities.

(c) From the date of its receipt of the Tag-Along Notice, each Tag-Along Offeree shall have the right (a "Tag-Along Right"), exercisable by written notice ("Tag-Along Response Notice") given to the Tag-Along Seller within 10 days after receipt of the Tag-Along Notice (the "Tag-Along Notice Period"), to request that the Tag-Along Seller include in the proposed Transfer a number of vested shares of the specified class of Offered Securities held by such Tag-Along Offeree (such number of shares shall not in any event exceed the Tag-Along Sale Percentage of the total number of shares of the specified class of Offered Securities held by such Tag-Along Offeree). The Tag-Along Response Notice shall include wire transfer instructions for payment of the purchase price for the Offered Securities to be sold in such Tag-Along Sale. The Tag-Along Offerees that exercise their Tag-Along Rights hereunder (the "Tagging Persons") shall, upon request, deliver to the Tag-Along Seller, with the Tag-Along Response Notice, the certificate or certificates representing the Company Equity Securities of such Tagging Persons to be included in the Tag-Along Sale, together with a limited power-of-attorney authorizing the Tag-Along Seller to Transfer such Company Equity Securities on the terms set forth in the Tag-Along Notice. Delivery of the Tag-Along Response Notice with such certificate or certificates and limited power-of-attorney shall constitute an irrevocable acceptance of the Tag-Along Offer by the Tagging Persons. In order to participate in a Tag-Along Sale, subject to Section 4.03(b), the Tagging Persons must agree to enter into and execute substantially identical agreements and documents as the Tag-Along Seller enters into and executes in connection with the Tag-Along Sale.

(d) The Tag-Along Seller shall attempt to obtain the inclusion in the proposed Tag-Along Sale of the entire number of shares of the specified class of Offered Securities which each of the Tagging Persons requested to have included in the Tag-Along Sale (as evidenced by each such Tagging Person's Tag-Along Response Notice prepared in accordance with Section 4.01(c)). In the event the Tag-Along Seller shall be unable to obtain the inclusion of such entire number of shares of the specified class of Offered Securities in the proposed Tag-Along Sale, the number of shares of the specified class of Offered Securities to be sold in the proposed Tag-Along Sale shall be allocated among the Tag-Along Seller and each Tagging Person, with each such Person being entitled to include in such Tag-Along Sale a number of shares of the specified class of Offered Securities as is equal to the Tag-Along Pro Rata Share with respect to such Tag-Along Seller or such Tagging Person (as applicable).

(e) If, at the end of a 120-day period after the date of receipt of the Tag-Along Notice (which 120-day period shall be extended if any of the transactions contemplated by the Tag-Along Offer are subject to regulatory approval until the expiration of five Business Days after all such approvals have been received, but in no event later than 180 days after the date of receipt of the Tag-Along Notice), the Tag-Along Seller has not completed the Transfer of the Offered Securities on substantially the same terms and conditions set forth in the Tag-Along Notice, the Tag-Along Seller shall (i) promptly return to the Tagging Persons the limited power-of-attorney (and all copies thereof) together with all certificates representing the Offered Securities that such Tagging Persons delivered for Transfer pursuant to this Section 4.01 and any other documents in the possession of the Tag-Along Seller executed by the Tagging Persons in connection with the proposed Tag-Along Sale, and (ii) not conduct any Transfer of such shares of the specified class of Offered Securities without again complying with this Section 4.01.

15

(f) Concurrently with the consummation of the Tag-Along Sale, the Tag-Along Seller shall (i) notify the Tagging Persons thereof and (ii) remit or cause to be remitted to each Tagging Person the total consideration paid at the closing of the Tag-Along Sale for the Company Equity Securities of such Tagging Person Transferred pursuant thereto, with the cash portion of the purchase price paid by wire transfer of immediately available funds in accordance with the wire transfer instructions in the Tag-Along Response Notice.

(g) If, at the termination of the Tag-Along Notice Period, any Investor has not elected to participate in the Tag-Along Sale, such Investor shall be deemed to have waived its rights under this [Section 4.01\(a\)](#) with respect to the Transfer of the class or classes of Offered Securities owned by it or its Permitted Transferees pursuant to such Tag-Along Sale.

(h) Notwithstanding anything contained in this [Section 4.01](#), there shall be no liability on the part of the Tag-Along Seller to the Tagging Persons (other than the obligation to return any certificates evidencing Company Equity Securities and limited powers-of-attorney received by the Tag-Along Seller) if the Transfer of Company Equity Securities pursuant to this [Section 4.01](#) is not consummated for any reason or no reason. The decision to effect a Transfer of Company Equity Securities pursuant to this [Section 4.01](#) by the Tag-Along Seller is in the sole and absolute discretion of the Tag-Along Seller.

(i) This [Section 4.01](#) shall not apply to any Transfer of Company Equity Securities (A) in a Drag-Along Sale for which the Drag-Along Seller shall have elected to exercise its rights under [Section 4.02](#) or (B) in connection with the IPO.

(j) The provisions of this [Section 4.01](#) shall terminate and have no further force or effect upon the first to occur of the consummation of an IPO or a Change of Control.

SECTION 4.02 [Drag-Along Rights](#).

(a) Subject to [Section 4.03](#), if at any time one or more Sponsors (collectively, the “*Drag-Along Seller*”) propose to Transfer more than a majority of the Aggregate Ownership of all Sponsors of any class of Company Equity Securities held by the Sponsors on the date hereof (a “*Drag-Along Sale*”) to any Third Party or Third Parties (the “*Drag-Along Transferee*”) in a single transaction or in a series of related transactions, the Drag-Along Seller may at its option require each Investor other than the Drag-Along Seller (a “*Drag-Along Investor*”) to Transfer, and each Drag-Along Investor hereby agrees to Transfer, such percentage of each class of Company Equity Securities then held by such Drag-Along Investor as is equal to the percentage of all shares of Company Equity Securities held by such Drag-Along Seller that are proposed to be sold by such Drag-Along Seller in such Drag-Along Sale, on substantially the same terms and conditions as are applicable to the Drag-Along Seller; *provided* that, consistent with [Section 4.03\(f\)](#), the terms of such Drag-Along Sale may provide different per share consideration for different classes of Company Equity Securities. All Drag-Along Investors shall cooperate in, and shall take all actions that the Drag-Along Seller deems reasonably necessary or desirable to consummate the Drag-Along Sale, including, without limitation, (i) voting their respective Company Equity Securities (or executing and delivering any written consents in lieu thereof) in favor of the Drag-Along Sale and all actions deemed necessary or appropriate by the Drag-Along Seller in connection with the Drag-Along Sale, including voting to approve a Drag-Along Sale if such Drag-Along Sale is structured as a merger or a sale of all or substantially all of the assets of the Company, and against any action or proposal that may prevent, hinder or impede the consummation of the Drag-Along Sale, (ii) to the extent permitted by applicable law, not exercising any dissenters’ or appraisal rights to which they may be entitled in connection with the Drag-Along Sale, and (iii) subject to [Section 4.03\(b\)](#), entering into agreements with the Drag-Along Transferee on terms substantially identical to those (if any) entered into

16

between the Drag-Along Transferee and the Drag-Along Seller. Each Drag-Along Investor hereby grants to the CCMP Representative, an irrevocable proxy coupled with an interest to vote, including in any action by written consent, such Drag-Along Investor’s Company Equity Securities in accordance with such Drag-Along Investor’s agreements in this [Section 4.03](#) and a power of attorney to execute and deliver in the name and on behalf of such Drag-Along Investor all such agreements, instruments and other documentation (including any written consents of shareholders) as is required to Transfer the Company Equity Securities held by such Drag-Along Investor to the Drag-Along Transferee.

(b) The Drag-Along Seller shall provide written notice of such Drag-Along Sale to each Drag-Along Investor (a “*Drag-Along Sale Notice*”) not later than 10 days prior to the proposed Drag-Along Sale. The Drag-Along Sale Notice shall identify the Drag-Along Transferee and the consideration for which a Transfer is proposed to be made (the “*Drag-Along Sale Price*”) and all other material terms and conditions of the Drag-Along Sale. Each Drag-Along Investor shall be required to participate in the Drag-Along Sale on the terms and conditions set forth in the Drag-Along Sale Notice and to tender its Company Equity Securities. The price and form of consideration payable in such Transfer shall be the Drag-Along Sale Price. Not later than five days after receipt of the Drag-Along Sale Notice (the “*Drag-Along Sale Notice Period*”), each Drag-Along Investor shall deliver to a representative of the Drag-Along Seller designated in the Drag-Along Sale Notice the certificate or certificates and other applicable instruments representing the Company Equity Securities of each such Drag-Along Investor to be included in the Drag-Along Sale, together with wire transfer instructions for payment of the cash portion of the consideration to be received in such Drag-Along Sale, or, if such delivery is not permitted by applicable law, an unconditional agreement to deliver such Company Equity Securities pursuant to this [Section 4.02\(b\)](#) at the closing for such Drag-Along Sale against delivery to such Drag-Along Investor of the consideration therefor. If a Drag-Along Investor should fail to deliver such certificates to the Drag-Along Seller and the Drag-Along Sale is consummated, the Company shall cause the books and records of the Company to reflect that such Company Equity Securities are bound by the provisions of this [Section 4.02\(b\)](#) and that such Company Equity Securities shall be Transferred to the Drag-Along Transferee immediately upon surrender for Transfer by the holder thereof.

(c) The Drag-Along Seller shall have a period of 120 days from the date of receipt of the Drag-Along Sale Notice to consummate the Drag-Along Sale on the terms and conditions set forth in such Drag-Along Sale Notice; *provided* that if such Drag-Along Sale is subject to regulatory approval, such 120-day period shall be extended until the expiration of five Business Days after all such approvals have been received, but in no event later than 180 days after the date of receipt of the Drag-Along Sale Notice. If the Drag-Along Sale shall not have been consummated during such period, the Drag-Along Seller shall promptly return to each of the Drag-Along Investors all certificates and other applicable instruments representing Company Equity Securities that such Drag-Along Investors delivered for Transfer pursuant hereto, together with any other documents in the possession of the Drag-Along Seller executed by each such Drag-Along Investor in connection with such proposed Transfer, and all the restrictions on Transfer contained in this Agreement or otherwise applicable at such time with respect to such Company Equity Securities owned by each such Drag-Along Investor shall again be in effect.

(d) Concurrently with the consummation of the Drag-Along Sale, the Drag-Along Seller shall give notice thereof to the Drag-Along Investors and shall remit or cause to be remitted to each Drag-Along Investor that have surrendered their certificates and other applicable instruments the total consideration paid at the closing of the Drag-Along Sale for the Company Equity Securities of such Drag-Along Investor Transferred pursuant thereto, with the cash portion of which is to be paid by wire transfer of immediately available funds in accordance with such Drag-Along Investor’s wire transfer instructions.

(e) Notwithstanding anything contained in this [Section 4.02](#), there shall be no liability on the part of the Drag-Along Seller to the Drag-Along Investors (other than the obligation to

17

return the limited power-of-attorney and the certificates and other applicable instruments representing Company Equity Securities received by the Drag-Along Seller) if the Transfer of Company Equity Securities pursuant to this [Section 4.02](#) is not consummated for any reason or for no reason, regardless of whether the Drag-Along Seller has delivered a Drag-Along Sale Notice. The decision to effect a Transfer of Company Equity Securities pursuant to this [Section 4.02](#) by the Drag-Along Seller is in the sole and absolute discretion of the Drag-Along Seller.

(f) The provisions of this [Section 4.02](#) shall terminate and have no further force or effect upon the first to occur of the consummation of an IPO or a Change of Control.

SECTION 4.03 [Additional Provisions Related to Tag-Along Sales and Drag-Along Sales](#). Notwithstanding anything contained in [Section 4.01](#) or [Section 4.02](#) to the contrary, in connection with a Tag-Along Sale under [Section 4.01](#) or a Drag-Along Sale under [Section 4.02](#):

(a) Upon the consummation of such Tag-Along Sale or Drag-Along Sale, all Sponsors and Management Shareholders holding the same class of Company Equity Securities participating therein will receive the same form and amount of consideration per share, or, if any Investor is given an option as to the form and amount of consideration to be received in respect of a specified class of Company Equity Securities, all Investors holding such specified class of Company Equity Securities participating therein will be given the same option.

(b) Each Tag-Along Offeree or Drag-Along Investor, as the case may be, shall (i) make such representations and warranties (to the best of its knowledge) and shall make such covenants and enter into such definitive agreements as are customary for transactions of the nature of the proposed Transfer, (ii) benefit from and be subject to all of the same provisions of the definitive agreements as are applicable to the Tag-Along Seller or Drag-Along Seller, as the case may be, and (iii) be required to bear its proportionate share of any escrows, holdbacks or adjustments in respect of the purchase price or indemnification obligations, and (iv) cooperate in obtaining all governmental and third-party consents and approvals reasonably necessary or desirable to consummate such Tag-Along Sale or Drag-Along Sale (as applicable).

(c) In the event the consideration to be paid in exchange for Company Equity Securities in a Tag-Along Sale or a Drag-Along Sale includes securities, and the receipt thereof by a Tag-Along Offeree or Drag-Along Investor, as the case may be, would require under applicable law (a) the registration or qualification of such securities or of any Person as a broker or dealer or agent with respect to such securities where such registration or qualification is not otherwise required for the Tag-Along Sale or a Drag-Along Sale or (b) the provision to any Tag-Along Seller or Drag-Along Seller of any specified information regarding such securities or the issuer thereof that is not otherwise required to be provided for the Tag-Along Sale or Drag-Along Sale, then such Tag-Along Offeree or Drag-Along Investor, as the case may be, shall not have the right to sell Company Equity Securities in such proposed Tag-Along Sale or Drag-Along Sale. In such event, the Tag-Along Seller or Drag-Along Seller, as the case may be, shall (i) in the case of a Tag-Along Sale, have the right, but not the obligation, and (ii) in the case of a Drag-Along Sale, have the obligation, in each case, to cause to be paid to such Tag-Along Offeree or Drag-Along Investor, as the case may be, in lieu thereof, against surrender of the Company Equity Securities which would have otherwise been Transferred by such Tag-Along Offeree or Drag-

Along Investor, as the case may be, to the prospective purchaser in the proposed Tag-Along Sale or a Drag-Along Sale, an amount in cash equal to the Fair Market Value of such Company Equity Securities as of the date such securities would have been issued, in exchange for such Company Equity Securities.

(d) The Company and the Investors will cooperate in obtaining all governmental and third-party approvals and consents reasonably necessary or desirable to consummate such Transfer.

18

(e) Each Tagging Person shall bear an amount of the reasonable costs and expenses incurred by the Investors or the Company in connection with any proposed Tag-Along Sale (whether or not consummated), including all attorneys fees and charges, all accounting fees and charges and all finders, brokerage or investment banking fees, charges or commissions, pro rata in proportion to the consideration paid or proposed to be paid to such Tagging Person in connection with such Tag-Along Sale as compared to the aggregate consideration to be paid to the Tag-Along Seller and all Tagging Persons in connection with such Tag-Along Sale; *provided*, that, in connection with any Tag-Along Sale, each Tagging Person shall bear in its entirety any attorneys fees and charges, accounting fees and charges and any other advisor fees, charges or commissions incurred by such Tagging Person in connection with such Tag-Along Sale.

(f) In connection with (i) each Tag-Along Sale, each Tagging Person shall receive, with respect to the Class B Common Shares, the same amount of consideration received by the Tag-Along Sellers per Class B Common Share and (ii) each Drag-Along Sale, each Drag-Along Investor shall receive, with respect to the Class B Common Shares, the same amount of consideration received by the Drag-Along Sellers per Class B Common Share; *provided, however*, that in connection with any such sale (A) Class A Common Shares may be valued at (and the holder thereof entitled to receive) a lower price per share than the Class B Common Shares, and (B) after giving effect to any vesting triggered by such Tag-Along Sale or Drag-Along Sale, unvested Class A Common Shares may be valued at (and the holder thereof entitled to receive) a lower price per share than vested Class A Common Shares, in each case, to account for the different rights, powers, preferences and privileges in respect thereof as set forth in the Company's Certificate of Incorporation and other agreements relating to such shares (including, without limitation, the right of the holders of Class B Common Shares to receive distributions in respect of their unreturned paid-in-capital of the Company prior the right of the holders of Class A Common Shares to receive distributions ratably based on the number of outstanding Shares held by such holders).

SECTION 4.04 Preemptive Rights.

(a) Prior to the consummation of an IPO, the Company shall give each of the Investor that is an "accredited investor" (as such term is defined in Rule 501(a) of the Securities Act) as of the time of any proposed issuance by the Company of any Company Equity Securities, written notice (an "Issuance Notice") of such proposed issuance at least 10 days prior to the proposed issuance date. The Issuance Notice shall specify the number of Company Equity Securities and the price at which such Company Equity Securities are proposed to be issued and the other material terms and conditions of the issuance, including, without limitation, the proposed closing date. Subject to Section 4.04(g), (i) the holders of Class B Common Shares (taken as a whole) shall be entitled to purchase, at the price and on the other terms and conditions specified in the Issuance Notice, a percentage of such newly issued Company Equity Securities equal to the percentage of Company consideration, assets and properties to which the holders of Class B Common Shares would be entitled upon the liquidation, dissolution or winding up of the Company (and after giving effect to the repayment, in full, of the Unreturned Paid-in Capital to such holders) (the "Class B Preemptive Rights Percentage"; and the product of (x) the aggregate number of Company Equity Securities proposed to be sold by the Company and set forth in such Issuance Notice multiplied by (y) the Class B Preemptive Rights Percentage being the "Class B Preemptive Rights Share"), (ii) the holders of Class A Common Shares (taken as a whole) shall be entitled to purchase, at the price and on the other terms and conditions specified in the Issuance Notice, such percentage of such newly issued Company Equity Securities as is equal the difference between (A) 100% minus (B) the Class B Preemptive Rights Percentage (the "Class A Percentage"; and the product of (x) the aggregate number of Company Equity Securities proposed to be sold by the Company and set forth in such Issuance Notice multiplied by (y) the Class A Preemptive Rights Percentage being the "Class A Preemptive Rights Share"), (iii) each Investor holding Class B Common Shares (solely in such capacity) shall be entitled to purchase, at the price and on the other terms and conditions specified in the

19

Issuance Notice, such number of Company Equity Securities proposed to be sold by the Company as is equal to the product of (x) the Class B Preemptive Rights Share, multiplied by (y) a fraction, the numerator of which is such Investor's Aggregate Ownership of Class B Common Shares as of the date of such Issuance Notice, and the denominator of which is the Aggregate Ownership of Class B Common Shares of all Investors as of the date of such Issuance Notice and (iv) each Investor holding Class A Common Shares (solely in such capacity) shall be entitled to purchase, at the price and on the other terms and conditions specified in the Issuance Notice, such number of Company Equity Securities proposed to be sold by the Company as is equal to the product of (x) the Class A Preemptive Rights Share, multiplied by (y) a fraction, the numerator of which is such Investor's Aggregate Ownership of Class A Common Shares as of the date of such Issuance Notice, and the denominator of which is the Aggregate Ownership of Class A Common Shares of all Investors as of the date of such Issuance Notice.

(b) Each Investor may exercise its rights under this Section 4.04 by delivering written notice of its election to purchase such Company Equity Securities to the Company, within 10 days after receipt of the Issuance Notice. A delivery of such notice (which notice shall specify the number of Company Equity Securities requested to be purchased by the Investor submitting such notice) by such Investor shall constitute a binding agreement of such Investor to purchase, at the price and on the terms and conditions specified in the Issuance Notice, the number of Company Equity Securities specified in such Investor's notice. If, at the termination of such 10 day-period, any Investor has not exercised its right to purchase any of its pro rata share of such offered Company Equity Securities (as calculated pursuant to Section 4.04(a)), such Investor shall be deemed to have waived all of its rights under this Section 4.04 with respect to, and only with respect to, the purchase of such Company Equity Securities specified in the Issuance Notice.

(c) If (i) any Investor holding Class B Common Shares fails to exercise its preemptive rights under this Section 4.04, or elects to exercise such rights with respect to less than such Investor's allocated share (the difference between such Investor's allocated share (solely in its capacity as a holder of Class B Common Shares (as calculated pursuant to Section 4.04(a))) and the number of shares for which such Investor exercised its preemptive rights under this Section 4.04 (solely in its capacity as a holder of Class B Common Shares), the "Class B Excess Shares"), any participating Investor holding Class B Common Shares and electing to exercise its rights with respect to its full allocated share (a "Fully Participating Class B Investor") shall be entitled to purchase from the Company an additional number of Company Equity Securities equal to the product of (A) the Class B Excess Shares and (B) a fraction, the numerator of which is the Aggregate Ownership of Class B Common Shares of such Fully Participating Investor, and the denominator of which is equal to the sum of the Aggregate Ownership of Class B Common Shares of all Fully Participating Class B Investors purchasing such additional shares and (ii) any Investor holding Class A Common Shares fails to exercise its preemptive rights under this Section 4.04, or elects to exercise such rights with respect to less than such Investor's allocated share (the difference between such Investor's allocated share (solely in its capacity as a holder of Class A Common Shares (as calculated pursuant to Section 4.04(a))) and the number of shares for which such Investor exercised its preemptive rights under this Section 4.04 (solely in its capacity as a holder of Class A Common Shares), the "Class A Excess Shares"), any participating Investor holding Class A Common Shares and electing to exercise its rights with respect to its full allocated share (a "Fully Participating Class A Investor") shall be entitled to purchase from the Company an additional number of Company Equity Securities equal to the product of (A) the Class A Excess Shares and (B) a fraction, the numerator of which is the Aggregate Ownership of Class A Common Shares of such Fully Participating Investor, and the denominator of which is equal to the sum of the Aggregate Ownership of Class A Common Shares of all Fully Participating Class A Investors purchasing such additional shares.

(d) The Company shall have 120 days after the date of the Issuance Notice to consummate the proposed issuance of any or all of such Company Equity Securities that the Investors

20

have elected not to purchase at the price and upon terms and conditions that are not materially less favorable to the Company than those specified in the Issuance Notice; *provided* that if such issuance is subject to regulatory approval, such 120-day period shall be extended until the expiration of five Business Days after all such approvals have been received, but in no event later than 180 days after the date of the Issuance Notice. At the consummation of such issuance, the Company shall issue certificates representing the Company Equity Securities to be purchased by each Investor exercising preemptive rights pursuant to this Section 4.04 registered in the name of such Investor, against payment by such Investor of the purchase price for such Company Equity Securities. If the Company proposes to issue any Company Equity Securities after such 120-day period or on other terms materially less favorable to the Company, it shall again comply with the procedures set forth in this Section 4.04.

(e) The closing of any issuance of Company Equity Securities contemplated by this Section 4.04 shall take place at the time and in the manner provided in the Issuance Notice. The Company shall be under no obligation to consummate any proposed issuance of Company Equity Securities, nor shall there be any liability on the part of such entity to any Investor if the Company has not consummated any proposed issuance of Company Equity Securities pursuant to this Section 4.04 for any reason or no reason, regardless of whether it shall have delivered an Issuance Notice in respect of such proposed issuance.

(f) The Company may offer and sell Company Equity Securities subject to the preemptive rights under this Section 4.04 to an existing Sponsor without first offering such Company Equity Securities to each of the other Investors or complying with the procedures of this Section 4.04, so long as (i) each of the other Investors receives prompt written notice of the consummation of such sales and thereafter is given the opportunity to purchase a number of Company Equity Securities equal to such number of shares as the Board shall, in good faith, determine would have been offered for sale to such other Investors had the other provisions of this Section 4.04 been complied with by the Company in connection with such sale, within 45 days after the close of such sale and in any event no later than 30 days after receipt of the notice referred to herein on the same terms and conditions as such prior sale, and (ii) the price per Company Equity Securities shall be identical to the price per share paid in such prior sale.

(g) The preemptive rights under this Section 4.04 shall not apply to issuances or sales in, or in connection with, the IPO, a merger of the Company with or into another Person or an acquisition by the Company of another Person or substantially all the assets of another Person, or issuances of Company Equity Securities as a bona-fide "equity kicker" to a lender in connection with a third party debt financing, issuances of Company Equity Securities in connection with a dividend or upon any split or subdivision or combination of Company Equity Securities, issuances, grants or sales of Company equity Securities to employees, officers, managers and/or directors of the Company or any of its Subsidiaries pursuant to employee benefit, incentive or other plan, arrangement or agreement by the Company.

(h) The provisions of this Section 4.04 shall terminate and have no further force or effect upon the occurrence of the consummation of an IPO or a Change of Control.

ARTICLE 5

REPURCHASE RIGHTS

SECTION 5.01 Repurchase Rights upon Termination.

(a) Upon any Management Shareholder who is an employee of the Company or any of its Subsidiaries (the entity employing such Management Shareholder, the “**Employer**”) ceasing to be employed by any of the Company or any of its Subsidiaries (a “**Terminated Management Shareholder**”) for any reason (the reason for the cessation or termination of such employment, the “**Termination Event**” and the effective date of such termination, the “**Termination Date**”), subject to applicable law and the provisions of this Article 5, the Company shall have the right (but not the obligation) to purchase, and if such right is exercised, such Terminated Management Shareholder shall sell, and shall cause any Permitted Transferees of such Terminated Management Shareholder to sell (and such Permitted Transferees shall sell), to the Company all or any portion (as determined by the Company) of the Termination Securities owned by such Terminated Management Shareholder and such Permitted Transferees at a price per Termination Security equal to the Termination Price therefor (determined pursuant to Section 5.02 below).

(b) With respect to each Termination Security, the Company shall notify a Terminated Management Shareholder in writing, within the Call Period with respect to such Termination Security, whether the Company will exercise its right to purchase such Termination Security (the date on which a Terminated Management Shareholder is so notified, the “**Call Notice Date**”).

(c) The closing of the purchase by the Company of Termination Securities pursuant to this Article 5 shall take place at the principal office of the Company on the date chosen by such entity, which date shall, except as may be reasonably necessary to determine the Termination Price, in no event be more than 45 days after the Company notifies such Terminated Management Shareholder of the exercise of its right to purchase such Termination Securities pursuant to Section 5.01(b). At such closing, (i) the Company shall pay the Terminated Management Shareholder and/or such Terminated Management Shareholder’s Permitted Transferees, as applicable, against delivery of duly endorsed certificates described below representing such Termination Securities, the aggregate Termination Price by wire transfer of immediately available federal funds and (ii) the Terminated Management Shareholder and/or such Terminated Management Shareholder’s Permitted Transferees, as applicable, shall deliver to the Company a certificate or certificates representing the Termination Securities to be purchased by the Company duly endorsed, or with stock powers duly endorsed, for transfer with signature guaranteed, free and clear of any lien or encumbrance, with any necessary share (or equivalent) transfer tax stamps affixed. The delivery of a certificate or certificates for the Termination Securities by any Person selling such Termination Securities pursuant to this Section 5.01 shall be deemed a representation and warranty by such Person that: (i) such Person has full right, title and interest in and to such Termination Securities; (ii) such Person has all necessary power and authority and has taken all necessary action to sell such Termination Securities as contemplated; (iii) such Termination Securities are free and clear of any and all liens or encumbrances and (iv) there is no adverse claim with respect to such Termination Securities.

SECTION 5.02 Termination Pricing and Payment Terms.

(a) Subject to Section 5.04, the “**Termination Price**” of a Termination Security shall be determined as follows:

(i) If (x) the Termination Security is unvested as of the Termination Date, and (y) the Termination Event was for any reason other than a termination by the Employer for Cause or a termination by the Terminated Management Shareholder without Good Reason, the Termination Price for such Termination Security shall be the purchase price paid by such Terminated Management Shareholder with respect to a Class A Common Share,

(ii) If (x) the Termination Security is unvested as of the Termination Date, and (y) the Termination Event was a termination by the Employer for Cause or a termination by the

22

Terminated Management Shareholder without Good Reason, the Termination Price for such Termination Security shall be the lower of (1) the Fair Market Value on the FMV Calculation Date of such Termination Security and (2) the purchase price paid by such Terminated Management Shareholder, and

(iii) If the Termination Security is vested as of the Termination Date, the Termination Price for such Termination Security shall be the lower of (1) the Fair Market Value on the FMV Calculation Date of such Termination Security and (2) the purchase price paid by such Terminated Management Shareholder in respect of such Termination Security.

(b) In the event that the Company exercises a repurchase right pursuant to Section 5.01(a), the Company shall pay the Termination Price in cash; *provided, however*, that if at the time of the closing of the purchase of such Termination Securities, the Company is prohibited from purchasing all or any portion of such Termination Securities (i) because restrictive covenants or other provisions contained in the documents evidencing such entity’s or any of its Affiliates’ indebtedness for borrowed money do not permit or allow such entity to make such payments in cash in whole or in part; or (ii) pursuant to applicable law, then in each case, either (x) the portion of the Termination Price not permitted to be made in cash may be paid by the execution and delivery by the Company of a promissory note or other deferred cash payment arrangement (if applicable, any promissory note to be subordinated to the indebtedness for borrowed money of such company or any of its Affiliates) bearing interest at the prime rate, as published in the Wall Street Journal, Eastern edition, on the first Business Day immediately prior to the day on which such promissory note or other deferred cash payment is issued, with principal and accrued interest payable at such time as is required in the Board’s determination to ensure that any payment pursuant to such promissory note or other deferred cash payment arrangement is not prohibited because of any of the matters described in clauses (i) or (ii) of this Section 5.02(b) above or (y) the Company may designate one or more Sponsors to purchase and acquire from the Terminated Management Shareholder, the Termination Securities, on the same terms and subject to the same conditions at those that would be applicable to the Company.

(c) In the event that pursuant to the application of the provision of Article 5 of this Agreement the Board determines the Fair Market Value (x) of a Termination Security of a Terminated Management Shareholder in connection with the exercise of its repurchase right in Section 5.01 or (y) of any Company Equity Securities in connection with the exercise of its repurchase right in Section 5.03, in each case, pursuant to clause (b) of the definition of Fair Market Value (such determination, the “**Board Determination**”), the following provisions shall apply:

(i) if the applicable Terminated Management Shareholder disagrees with the Board Determination, such Terminated Management Shareholder may, within ten days after receiving notice of the Board Determination, deliver a notice to the Board disagreeing with the Board Determination.

(ii) If the applicable Terminated Management Shareholder delivers such a disagreement notice to the Board in such ten-day period, such Terminated Management Shareholder and the Board shall, during the 15 days following such delivery, use their commercially reasonable efforts to negotiate an agreement as to the “**Fair Market Value**” of such Termination Security. If the applicable Terminated Management Shareholder does not deliver a notice to the Board in such ten-day period disagreeing with the Board Determination, the Board Determination shall be final and binding on such Terminated Management Shareholder.

(iii) If during the 15-day negotiation period described in Section 5.02(c), the applicable Terminated Management Shareholder and the Board are unable to negotiate an

23

agreement, the Company shall promptly thereafter engage an independent appraiser or valuation firm mutually and reasonably acceptable to such Terminated Management Shareholder and the Board (the “**Referee**”) to determine the fair market value of the Termination Security (it being understood that in making such determination, the Referee shall be functioning as an expert and not as an arbitrator). The Referee shall deliver to the applicable Terminated Management Shareholder and the Board as promptly as practicable (but no later than 30 days from the date of engagement of the Referee) a report setting forth its reasoned written determination as to the fair market value of the Termination Security (the “**Referee Determination**”). The Referee Determination shall be final and binding upon such Terminated Management Shareholder and the Board. Each party shall bear its own expenses in connection with any application of this Section 5.02(c), except that the fees and expenses of the Referee (including, but not limited to, the fees and expenses of any counsel or other advisors retained by the Referee) (collectively, the “**Referee Expenses**”) shall be paid as follows:

(A) if the Referee Determination is equal to or between 95% and 105% of the Board Determination, each of the Terminated Management Shareholder and the Company shall pay one-half of the Referee Expenses,

(B) if the Referee Determination is less than 95% of the Board Determination, the Terminated Management Shareholder shall pay the Referee Expenses, and

(C) if the Referee Determination is greater than 105% of the Board Determination, the Company shall pay the Referee Expenses.

SECTION 5.03 Repurchase Right Upon Breach of Restrictive Covenant Agreement.

(a) In the event that, at any time during the employment of any Management Shareholder who is an employee of the Company or any of its Subsidiaries or thereafter, such Management Shareholder has violated the terms of any non-competition or non-solicitation covenant applicable to such Management Shareholder, subject to applicable law and the provisions of this Article 5, the Company shall have the right (but not the obligation) to purchase, and if such right is exercised, such Management Shareholder shall sell, and shall cause any Permitted Transferees of such Management Shareholder to sell (and such Permitted Transferees shall sell), to the Company all or any portion (as determined by the Company) of the Company Equity Securities owned by such Management Shareholder and such

Permitted Transferees at a price per share of Company Equity Securities equal to (i) in the case of any Class B Common Share, the Fair Market Value thereof, and (ii) in the case of any Class A Common Share, the lower of (1) the Fair Market Value on the FMV Calculation Date of such Class A Common Share and (2) the purchase price paid by such Management Shareholder therefor. Any determination of Fair Market Value in connection with a Company repurchase shall be subject to the provisions of [Section 5.02\(c\)](#).

(b) In the event that the Company exercises a repurchase right pursuant to [Section 5.03](#), the Company shall pay the repurchase price in cash; *provided, however*, that if at the time of the closing of the purchase of such Company Equity Securities, the Company is prohibited from purchasing all or any portion of such Company Equity Securities (i) because restrictive covenants or other provisions contained in the documents evidencing such entity's or any of its Affiliates' indebtedness for borrowed money do not permit or allow such entity to make such payments in cash in whole or in part; or (ii) pursuant to applicable law, then in each case, either (x) the portion of the purchase price not permitted to be made in cash may be paid by the execution and delivery by the Company of a promissory note or other

24

deferred cash payment arrangement (if applicable, any promissory note to be subordinated to the indebtedness for borrowed money of such company or any of its Affiliates) bearing interest at the prime rate, as published in the Wall Street Journal, Eastern edition, on the first Business Day immediately prior to the day on which such promissory note or other deferred cash payment is issued, with principal and accrued interest payable at such time as is required in the Board's determination to ensure that any payment pursuant to such promissory note or other deferred cash payment arrangement is not prohibited because of any of the matters described in clauses (i) or (ii) of this [Section 5.03\(b\)](#) above or (y) the Company may designate one or more Sponsors to purchase and acquire from the Management Shareholder, the Company Equity Securities owned by such Management Shareholder and its Permitted Transferees, on the same terms and subject to the same conditions as those that would be applicable to the Company.

SECTION 5.04 Termination of Repurchase Right. Upon the occurrence of the consummation of an IPO or a Change of Control, the repurchase rights of the Company under this Article 5 with respect to Termination Securities shall terminate except as follows:

(a) With respect to a Termination Security that is an unvested Class A Common Share as of the date of the consummation of the IPO, the Company shall continue to have all rights pursuant to this Article 5 until such Termination Security (or part thereof) vests, at which point the rights of the Company pursuant to this Article 5 with respect to such Termination Security (or part thereof) shall terminate; and

(b) With respect to a Termination Security that is a vested Class A Common Share, if prior to the first anniversary of the consummation of the IPO, the employment of a Management Shareholder with the Company or any of its Subsidiaries terminates and the Termination Event is a termination by the Employer for Cause, all rights pursuant to this Article 5 shall remain in effect and be applicable to such Termination Event.

ARTICLE 6

REGISTRATION RIGHTS

SECTION 6.01 Demand Registration.

(a) Subject to the restrictions set forth herein, if at any time the Company receives a written request from the CCMP Funds (as such, the "**Requesting Shareholder**") that the Company effect the registration under the Securities Act of all or any portion of the Sponsors' Registrable Securities, and specifying the intended method of disposition thereof (each such request shall be referred to herein as a "**Demand Registration**"), then, within five Business Days, the Company shall promptly give notice of such Demand Registration to the other Investors and thereupon shall use its best efforts to effect, as expeditiously as possible, the registration under the Securities Act of all Registrable Securities for which the Requesting Shareholder have requested registration under this [Section 6.01](#); *provided that* the Company shall not be obligated to effect (a) more than five (5) Demand Registrations by the CCMP Funds, (b) any Demand Registration unless the aggregate gross proceeds expected to be received from the sale of the Registrable Securities requested to be included by the Requesting Shareholder in such Demand Registration are at least \$25 million (unless such Registrable Securities identified in the Demand Registration constitute all remaining Registrable Securities held by the Requesting Shareholder), or (c) more than one Demand Registration during any six-month period.

(b) Notwithstanding the foregoing, the Company may delay the filing of a registration statement, or suspend the continued use of a registration statement, required by [Section 6.01](#)

25

(i) for a period up to 90 days after the request to file a registration statement if at the time the Company receives the request to register Registrable Securities, the Company or any of its Subsidiaries are engaged in confidential negotiations or other confidential business activities, disclosure of which would be required in such registration statement (but would not be required if such registration statement were not filed), and the Board determines in good faith, after consultation with external legal counsel, that such disclosure would have a material adverse effect on the Company or its business or on the Company's ability to effect a proposed material acquisition, disposition, financing, reorganization, recapitalization or similar transaction and (ii) for a period of time required by an underwriting agreement relating to a Public Offering of newly issued shares by the Company; *provided that* such period of time shall not exceed 90 days from the date of such underwriting agreement. A deferral of the filing of a registration statement, or the suspension of the continued use of a registration statement, pursuant to this [Section 6.01\(b\)](#), shall be lifted, and the requested registration statement shall be filed forthwith, if, in the case of a deferral, the negotiations or other activities are disclosed or terminated. In order to defer the filing of a registration statement, or suspend the continued use of a registration statement, pursuant to this [Section 6.01\(b\)](#), the Company shall promptly (but in any event within five days), upon determining to seek such deferral or suspension, deliver to the Requesting Shareholder a certificate signed by an executive officer of the Company stating that the Company is deferring such filing, or suspending the continued use of a registration statement, pursuant to this [Section 6.01\(b\)](#) and a general statement of the reason for such deferral or suspension, as the case may be, and an approximation of the anticipated delay. The Company may defer the filing, or suspend the continued use of, a particular registration statement pursuant to this [Section 6.01\(b\)](#) no more than twice and for no more than 120 days in the aggregate in any twelve-month period; *provided that* there must be an interim period of at least 60 days between the end of one deferral or suspension period and the beginning of a subsequent deferral or suspension period. The Company agrees, that in the event it exercises its rights under this [Section 6.01\(b\)](#), it shall, within seven days following receipt by the holders of Registrable Securities of the notice of deferral or suspension, as the case may be, update the deferred or suspended registration statement as may be necessary to permit the holders of Registrable Securities to resume use thereof in connection with the offer and sale of their Registrable Securities in accordance with applicable law.

(c) At any time prior to the effective date of the registration statement relating to such Demand Registration, the Requesting Shareholder may revoke in writing such request, without liability to any Person, by providing a notice to the Company revoking such request; *provided, however*, that no such withdrawn demand request shall be deemed to have been a Demand Registration if (i) such demand request is withdrawn prior to the filing by the Company of a registration statement pursuant thereto, or (ii) such withdrawal is due to the disclosure of material adverse information relating specifically to the Company that was not known by the Requesting Shareholder at the time it submitted its demand request, *provided that*, in either event, the Requesting Shareholder elects to bear all expenses associated with such withdrawn demand request and the registration statement pursuant thereto.

(d) Except as expressly set forth herein, the Company shall be liable for and pay all Registration Expenses in connection with each Demand Registration, regardless of whether such Registration is effected.

(e) A Demand Registration shall not be deemed to have occurred unless the registration statement relating thereto (A) has become effective under the Securities Act, and (B) has remained effective for a period of at least 180 days (or such shorter period in which all Registrable Securities of the Requesting Shareholder included in such registration have actually been sold thereunder); *provided that* such registration statement shall not be considered a Demand Registration if, after such registration statement becomes effective, (1) such registration statement is interfered with by any stop order, injunction or other order or requirement of the SEC or other governmental agency or court, and (2) less than 75% of the Registrable Securities included in such registration statement have

26

been sold thereunder; or if the Maximum Offering Size is reduced in accordance with [Section 6.01\(f\)](#) such that less than 75% of the Registrable Securities of the Requesting Shareholder sought to be included in such registration are included.

(f) If a Demand Registration involves a Public Offering and the managing underwriter advises the Company and the Requesting Shareholder that, in its view, the number of Registrable Securities that the Company and any other Person (if any) propose to include in such registration exceeds the largest number of Registrable Securities that can be sold without having an adverse effect on such offering, including the price at which such shares can be sold (the "**Maximum Offering Size**"), the Company shall include in such registration, in the priority listed below, up to the Maximum Offering Size:

(i) first, all Registrable Securities requested to be registered by the Requesting Shareholder;

(ii) second, all Registrable Securities requested to be included in such registration by any Registering Investors exercising piggyback registration rights pursuant to [Section 6.02\(a\)](#) (ii) pro rata among such Registering Investors based on their relative number of Registrable Securities requested to be included in the Piggyback Registration, and

(iii) third, all Registrable Securities proposed to be registered for the account of the Company.

SECTION 6.02 Piggyback Registration.

(a) If, after the IPO, the Company proposes to register any Company Equity Securities under the Securities Act (whether for itself or otherwise in connection with a sale of securities by another Person, but other than in connection with a registration on a Form S-4 in connection with a direct or indirect acquisition by the Company of another Person or a registration on a Form S-8), the Company shall at each such time give prompt written notice at least 10 days prior to the anticipated filing date of the registration statement relating to such registration to each Investor holding at least one percent (1%) of the outstanding Registrable Securities hereunder, which notice shall set forth such Investor's rights under this [Section 6.01](#) and shall offer such Investor the opportunity to include in such registration statement all or any portion of the Registrable Securities held by such Investor (a "**Piggyback Registration**"), subject to the restrictions set forth herein. Upon the request of any such Investor (a "**Registering Investor**") made within 10 days after the receipt of notice from the Company (which request shall specify the number of Registrable Securities intended to be registered by such Registering Investor), the Company shall use its best efforts to effect the registration under the Securities Act of all Registrable Securities that the Company has been so requested to register by all Registering Investors to the extent requisite to permit the disposition of the Registrable Securities so to be registered; *provided* that if such registration involves a Public Offering, all such Registering Investors requesting to be included in the Company's registration must sell their Registrable Securities to the underwriters on the same terms and conditions as apply to the Company or any other selling shareholders; *provided, however*, that no such Registering Investor shall be required to make any representations or warranties, or provide any indemnity, in connection with any such registration other than representations and warranties (or indemnities with respect thereto) as to (i) such Registering Investor's ownership of his or her Registrable Securities to be transferred free and clear of all liens, claims, and encumbrances, (ii) such Registering Investor's power and authority to effect such transfer, and (iii) such matters pertaining to compliance with securities laws by such Registering Investor as may be reasonably requested; *provided, further, however*, that the obligation of such Registering Investor to indemnify pursuant to any such underwriting arrangements shall be several, not joint and several, among all Persons selling Registrable Securities in

27

such registration, and the liability of each such Registering Investor will be in proportion thereto, and *provided, further*, that such liability will be limited to the net amount received by such Registering Investor from the sale of his or her Registrable Securities pursuant to such registration. If, at any time after giving notice of its intention to register any Registrable Securities pursuant to this [Section 6.02\(a\)](#) and prior to the effective date of the registration statement filed in connection with such registration, the Company or the initiating shareholders, as applicable, shall determine for any reason not to register such securities, the Company shall give notice to all such Registering Investors and, thereupon, shall be relieved of its obligation to register any Registrable Securities in connection with such registration. The Company shall be liable for and pay all Registration Expenses in connection with each Piggyback Registration, regardless of whether such registration is effected.

(b) If a Piggyback Registration involves a Public Offering and the managing underwriter advises the Company that, in its view, the number of Registrable Securities that the Company and any selling shareholders with rights to require registration of Registrable Securities propose to include in such registration exceeds the largest number of Registrable Securities that can be sold without having an adverse effect on such offering, including the price at which such Registrable Securities can be sold (the "**Piggyback Maximum Offering Size**"), the Company shall include in such Piggyback Registration, in the following priority, up to the Piggyback Maximum Offering Size:

(i) with respect to a Public Offering by the Company for its own account:

(A) first, such number of Registrable Securities proposed to be registered for the account of the Company, if any, as would not cause the offering to exceed the Piggyback Maximum Offering Size, and

(B) second, all Registrable Securities requested to be included in such registration by any Registering Investors exercising piggyback registration rights pursuant to this [Section 6.02\(b\)\(i\)](#), pro rata among such Registering Investors based on their relative number of Registrable Securities requested to be included in the Piggyback Registration, and

(ii) With respect to a Public Offering by the Company for the account of selling shareholders:

(A) all Registrable Securities requested to be included in such registration by any shareholders with rights to require registration of Registrable Securities,

(B) second, all Registrable Securities requested to be included in such registration by any Registering Investors exercising piggyback registration rights pursuant to this [Section 6.02\(b\)\(ii\)](#), pro rata among such Registering Investors based on their relative number of Registrable Securities requested to be included in the Piggyback Registration, and

(C) third, all Registrable Securities proposed to be registered for the account of the Company.

(c) Notwithstanding anything to the contrary contained herein, the provisions of this [Section 6.02](#) shall not be applicable with respect to the IPO or any shelf registration (including any shelf registration under [Section 6.03](#)) or with respect to any resales of securities pursuant to any such shelf registration.

28

SECTION 6.03 [Shelf Registrations](#).

(a) At any time after the one year anniversary of the consummation by the Company of the IPO, upon receipt of a written request (the "**Shelf Request**") from the CCMP Funds that the Company file a "shelf" registration statement pursuant to Rule 415 under the Securities Act (the "**Shelf Registration**") on Form S-3 (or any successor form to Form S-3, or any similar short-form registration statement), covering the resale of Registrable Securities, the reasonably anticipated gross proceeds from all resales covered thereunder of which would exceed \$25 million, the Company shall use its reasonable best efforts consistent with the terms of this Agreement to (i) cause the Shelf Registration to be filed with the SEC as soon as practicable (but in no event later than 30 days of its receipt of the Shelf Request) and to include all Registrable Securities held by the Sponsors to be registered on such form, and (ii) cause such Shelf Registration to be declared effective by the SEC as soon as possible. As soon as reasonably practicable after the IPO, the Company will use its reasonable best efforts, consistent with the terms of this Agreement, to qualify for and remain eligible to use Form S-3 registration or a similar short-form registration. The provisions of [Section 6.05](#) shall be applicable to each Shelf Registration initiated under this [Section 6.03](#) and any subsequent resale of Registrable Securities pursuant thereto; *provided*, that the gross proceeds therefrom equal at least \$25 million.

(b) In connection with any proposed underwritten resale of Registrable Securities which is not pursuant to a Demand Registration under [Section 6.01](#) (an "**Underwritten Shelf Takedown**") pursuant to a Shelf Registration, the CCMP Funds agree, in an effort to conduct any such Underwritten Shelf Takedown in the most efficient and organized manner, to coordinate with the Company prior to initiating any sales efforts and cooperate with the Company as to the terms and consummation of such Underwritten Shelf Takedown.

(c) The Company shall be liable for and pay all Registration Expenses in connection with each Shelf Registration, regardless of whether such Shelf Registration is effected, and any Underwritten Shelf Takedown; *provided* that the Sponsors shall be responsible for any brokerage or underwriting commissions and taxes of any kind (including, without limitation, transfer taxes) with respect to any disposition, sale or transfer of the Registrable Securities of the Sponsors.

SECTION 6.04 [Lock-Up Agreements](#). In connection with each underwritten Public Offering, if requested by the managing underwriter, each Management Shareholder agrees not to effect any public sale or private offer or distribution of any Registrable Securities during the 10 days prior to the consummation of such Public Offering and during such time period after the consummation of such Public Offering, not to exceed 90 days (180 days in the case of the IPO and 30 days in the case of an underwritten resale of securities pursuant to any shelf registration); *provided* that the time periods provided for in this sentence in respect of each Management Shareholder shall not be any greater than the time periods requested by the managing underwriter in respect of any other Investor in connection with such Public Offering.

SECTION 6.05 [Registration Procedures](#). Whenever any Investor request that any Registrable Securities be registered pursuant to [Section 6.01](#), [6.02](#) or [6.03](#), subject to the provisions of such Section, the Company shall use its best efforts to effect the registration and the sale of such Registrable Securities in accordance with the intended method of disposition thereof as quickly as practicable, and, in connection with any such request:

(a) The Company shall, as expeditiously as possible, prepare and file with the SEC a registration statement on any form for which the Company then qualifies and the managing underwriter, if any, and the holders of a majority of the Registrable Securities to be registered thereunder shall deem appropriate and which form shall be available for the sale of the Registrable Securities to be registered

29

thereunder in accordance with the intended method of distribution thereof, and use its best efforts to cause such filed registration statement to become and remain effective for a period of not less than 180 days or in the case of a Shelf Registration, not less than two years (or such shorter period in which all of the Registrable Securities of the Investors included in such registration statement shall have actually been sold thereunder); *provided, however*, that such 180-day period or two year period, as applicable, shall be extended for a period of time equal to the period any Investor refrains from selling any securities included in such registration at the request of an underwriter and in the case of any Shelf Registration, subject to compliance with applicable SEC rules, such two year period shall be extended, if necessary, to keep the registration statement effective until all such Registrable Securities are sold.

(b) Prior to filing a registration statement or prospectus or any amendment or supplement thereto, the Company shall furnish to each participating Investor such number of copies of such registration statement, each amendment and supplement thereto (in each case including all exhibits thereto and documents incorporated by reference therein), the prospectus included in such registration

statement (including each preliminary prospectus and any summary prospectus) and any other prospectus filed under Rule 424 or Rule 430A under the Securities Act and such other documents as such Investor may reasonably request in order to facilitate the disposition of the Registrable Securities owned by such Investor.

(c) After the filing of the registration statement, the Company shall (i) cause the related prospectus to be supplemented by any required prospectus supplement, and, as so supplemented, to be filed pursuant to Rule 424 under the Securities Act, (ii) comply with the provisions of the Securities Act with respect to the disposition of all Registrable Securities covered by such registration statement during the applicable period in accordance with the intended methods of disposition by the Requesting Shareholder and/or the Registering Investors thereof set forth in such registration statement or supplement to such prospectus and (iii) promptly notify the Requesting Shareholder and/or each Registering Investor holding Registrable Securities covered by such registration statement of any stop order issued or threatened by the SEC or any state securities commission and take all reasonable actions required to prevent the entry of such stop order or to remove it if entered.

(d) The Company shall use its best efforts to (i) register or qualify the Registrable Securities covered by such registration statement under such other securities or “blue sky” laws of such jurisdictions in the United States as any Requesting Shareholder and/or Registering Investor holding such Registrable Securities reasonably (in light of such Requesting Shareholder’s and/or Registering Investor’s intended plan of distribution) requests and (ii) cause such Registrable Securities to be registered with or approved by such other governmental agencies or authorities as may be necessary by virtue of the business and operations of the Company and do any and all other acts and things that may be reasonably necessary or advisable to enable such Requesting Shareholder and/or Registering Investor to consummate the disposition of the Registrable Securities owned by such Requesting Shareholder and/or Registering Investor; *provided* that the Company shall not be required to (A) qualify generally to do business in any jurisdiction where it would not otherwise be required to qualify but for this Section 6.03(d), (B) subject itself to taxation in any such jurisdiction or (C) consent to general service of process in any such jurisdiction.

(e) The Company shall immediately notify the Requesting Shareholder and/or each Registering Investor holding such Registrable Securities covered by such registration statement, at any time when a prospectus relating thereto is required to be delivered under the Securities Act, of the occurrence of an event requiring the preparation of a supplement or amendment to such prospectus so that, as thereafter delivered to the purchasers of such Registrable Securities, such prospectus will not contain an untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein not misleading and promptly prepare and make

30

available to the Requesting Shareholder and/or each such Registering Investor and file with the SEC any such supplement or amendment.

(f) Except for a Demand Registration or an Underwritten Shelf Takedown, the Board shall have the right to select the underwriter or underwriters in connection with any Public Offering. In connection with the offering of Registrable Securities pursuant to a Demand Registration, the Requesting Shareholder shall have the right, in its sole discretion, to select the underwriter or underwriters. In connection with any Public Offering, the Company shall enter into customary agreements (including an underwriting agreement in customary form, provided that the scope of the indemnity contained in such underwriting agreement is not more extensive than the indemnity described in Section 6.07 hereof), provided that such agreements are consistent with this Agreement, and take all such other actions as are reasonably required in order to expedite or facilitate the disposition of such Registrable Securities in any such Public Offering, including the engagement of a “qualified independent underwriter” in connection with the qualification of the underwriting arrangements with the NASD. Each Investor participating in such underwriting shall also enter into such agreement, provided that the terms of any such agreement are consistent with this Agreement; *provided, however*, that no such Investor shall be required to make any representations or warranties, or provide any indemnity, in connection with any such registration other than representations and warranties (or indemnities with respect thereto) as to (i) such Person’s ownership of his, her or its Registrable Securities to be transferred free and clear of all liens, claims, and encumbrances, (ii) such Person’s power and authority to effect such transfer, and (iii) such matters pertaining to compliance with securities laws by such Investor as may be reasonably requested; *provided, further, however*, that the obligation of such Person to indemnify pursuant to any such underwriting arrangements shall be several, not joint and several, among such Persons selling Registrable Securities, and the liability of each such Person will be in proportion thereto; and *provided, further*, that such liability will be limited to, the net amount received by such Person from the sale of his or its Registrable Securities pursuant to such registration.

(g) Upon execution of confidentiality agreements in form and substance reasonably satisfactory to the Company, the Company shall make available for inspection by any Requesting Shareholder, Registering Investor and any underwriter participating in any disposition pursuant to a registration statement being filed by the Company pursuant to this Section 6.05 and any attorney, accountant or other professional retained by any such Investor or underwriter (collectively, the “Inspectors”), all financial and other records, pertinent corporate documents and properties of the Company (collectively, the “Records”) as shall be reasonably necessary or desirable to enable them to exercise their due diligence responsibility, and cause the Company’s officers, directors and employees to supply all information reasonably requested by any Inspectors in connection with such registration statement. Records that the Company determines, in good faith, to be confidential and that it notifies the Inspectors are confidential shall not be disclosed by the Inspectors unless (i) the disclosure of such Records is necessary to avoid or correct a misstatement or omission in such registration statement or (ii) the release of such Records is ordered pursuant to a subpoena or other order from a court of competent jurisdiction or is otherwise required by law. Each Investor agrees that at the time that such Investor is a Requesting Shareholder and/or a Registering Investor, information obtained by it as a result of such inspections shall be deemed confidential and shall not be used by it or its Affiliates as the basis for any market transactions in Common Shares unless and until such information is made generally available to the public, and further agrees that, upon learning that disclosure of such Records is sought in a court of competent jurisdiction, it shall give notice to the Company and allow the Company, at its expense, to undertake appropriate action to prevent disclosure of the Records deemed confidential.

(h) The Company shall cause to be furnished to the Requesting Shareholder and/or each Registering Investor and to each such underwriter, if any, a signed counterpart, addressed to such Investor or underwriter, of an opinion or opinions of counsel to the Company in customary form and

31

covering such matters of the kind customarily covered by opinions as a majority of such Investors or the managing underwriter therefor reasonably requests.

(i) The Company shall otherwise use its best efforts to comply with all applicable rules and regulations of the SEC, and make available to its security holders, as soon as reasonably practicable, an earnings statement or such other document that shall satisfy the provisions of Section 11(a) of the Securities Act and Rule 158 thereunder.

(j) The Company may require the Requesting Shareholder and/or each such Registering Investor, by written notice given to the Requesting Shareholder and each such Registering Investor (as applicable) not less than 10 days prior to the filing date of such registration statement, to promptly, and in any event within 7 days after receipt of such notice, furnish in writing to the Company such information regarding the distribution of the Registrable Securities as the Company may from time to time request and such other information as may be legally required in connection with such registration.

(k) Each Investor agrees that at the time that such Investor is a Requesting Shareholder and/or a Registering Investor, upon receipt of any written notice from the Company of the occurrence of any event requiring the preparation of a supplement or amendment of a prospectus relating to the Registrable Securities covered by a registration statement that is required to be delivered under the Securities Act so that, as thereafter delivered to the purchasers of such Registrable Securities, such prospectus will not contain an untrue statement of a material fact or omit to state any material fact required to be stated therein or to make the statements therein not misleading, such Investor shall forthwith discontinue disposition of Registrable Securities pursuant to the registration statement covering such Registrable Securities until such Investor’s receipt of the copies of a supplemented or amended prospectus, and, if so directed by the Company, such Investor shall deliver to the Company all copies, other than any permanent file copies then in such Investor’s possession, of the most recent prospectus covering such Registrable Securities at the time of receipt of such notice. If the Company shall give such notice, the Company shall extend the period during which such registration statement shall be maintained effective by the number of days during the period from and including the date of the giving of notice pursuant to Section 6.03(e) to the date when the Company shall make available to such Investor a prospectus supplemented or amended to conform with the requirements of Section 6.03(e).

(l) The Company shall use its reasonable best efforts to list all Registrable Securities covered by such registration statement on any securities exchange or quotation system on which any of the Registrable Securities are then listed or traded and if none of the Registrable Securities are so listed, on any securities exchange or quotations system on which similar securities issued by the Company are then listed, and if no Common Shares are listed, on any national securities exchange or on the NASDAQ.

(m) The Company shall have appropriate officers of the Company (i) prepare and make presentations at any “road shows” and before analysts and rating agencies, as the case may be, (ii) take other reasonable actions to obtain ratings for any Registrable Securities and (iii) otherwise use their reasonable efforts to cooperate as requested by the underwriters in the offering, marketing or selling of the Registrable Securities.

SECTION 6.06 Indemnification by the Company. The Company agrees to indemnify and hold harmless each Investor, solely in its capacity as a selling shareholder, from and against any and all losses, claims, damages, liabilities and expenses (including reasonable expenses of investigation and reasonable attorneys’ fees and expenses) (“Damages”) caused by or relating to any untrue statement or alleged untrue statement of a material fact contained in any registration statement or prospectus relating to the Registrable Securities (as amended or supplemented if the Company shall have

32

furnished any amendments or supplements thereto) or any preliminary prospectus, or caused by or relating to any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading or caused by or related to any violation or alleged violation of the Securities Act or Exchange Act, except insofar as such Damages are caused by or related to any such untrue statement or omission or alleged untrue statement or omission so made in reliance upon and in conformity with information furnished in writing to the Company by such Investor or on such Investor’s behalf, solely in its capacity as a selling shareholder, expressly for use therein, provided that, with respect to any untrue statement or omission or alleged untrue statement or omission made in any preliminary prospectus, or in any prospectus, as the case may be, the indemnity agreement contained in this paragraph shall not apply to the extent that any Damages result from the fact that a current

copy of the prospectus (or such amended or supplemented prospectus, as the case may be) was not sent or given to the Person asserting any such Damages at or prior to the written confirmation of the sale of the Registrable Securities concerned to such Person if it is determined that the Company has provided such prospectus to such Investor and it was the responsibility of such Investor to provide such Person with a current copy of the prospectus (or such amended or supplemented prospectus, as the case may be) and such current copy of the prospectus (or such amended or supplemented prospectus, as the case may be) would have cured the defect giving rise to such Damages.

SECTION 6.07 Indemnification by the Participating Investors. Each Investor, at the time that such Investor is a Requesting Shareholder and/or a Registering Investor holding Registrable Securities included in any registration statement agrees, severally but not jointly, to indemnify and hold harmless from and against all Damages the Company, its officers, directors and agents and each Person, if any, who controls the Company within the meaning of either Section 15 of the Securities Act or Section 20 of the Exchange Act (i) with respect to information furnished in writing to the Company by such Investor or on such Investor's behalf, solely in its capacity as selling shareholder, expressly for use in any registration statement or prospectus relating to the Registrable Securities, or any amendment or supplement thereto, or any preliminary prospectus or (ii) to the extent that any Damages result from the fact that a current copy of the prospectus (or such amended or supplemented prospectus, as the case may be) was not sent or given to the Person asserting any such Damages at or prior to the written confirmation of the sale of the Registrable Securities concerned to such Person if it is determined that it was the responsibility of such Investor to provide such Person with a current copy of the prospectus (or such amended or supplemented prospectus, as the case may be) and such current copy of the prospectus (or such amended or supplemented prospectus, as the case may be) was available to such Investor and would have cured the defect giving rise to such Damages. As a condition to including Registrable Securities in any registration statement filed in accordance with Article 6, the Company may require that it shall have received an undertaking reasonably satisfactory to it from any underwriter to indemnify and hold it harmless to the extent customarily provided by underwriters with respect to similar securities. No Investor shall be liable under this Section 6.07 for any Damages in excess of the net proceeds realized by such Investor in the sale of Registrable Securities of such Investor to which such Damages relate.

SECTION 6.08 Conduct of Indemnification Proceedings. If any proceeding (including any governmental investigation) shall be instituted involving any Person in respect of which indemnity may be sought pursuant to this Article 6, such Person (an "**Indemnified Party**") shall promptly notify the Person against whom such indemnity may be sought (the "**Indemnifying Party**") in writing and the Indemnifying Party shall assume the defense thereof, including the employment of counsel reasonably satisfactory to such Indemnified Party, and shall assume the payment of all fees and expenses, provided that the failure of any Indemnified Party so to notify the Indemnifying Party shall not relieve the Indemnifying Party of its obligations hereunder except to the extent that the Indemnifying Party is materially prejudiced by such failure to notify. In any such proceeding, any Indemnified Party shall have the right to retain its own counsel, but the fees and expenses of such counsel shall be at the expense of such Indemnified Party unless (i) the Indemnifying Party and the Indemnified Party shall have mutually

33

agreed to the retention of such counsel or (ii) in the reasonable judgment of such Indemnified Party, representation of both parties by the same counsel would be inappropriate due to actual or potential differing interests between them. It is understood that, in connection with any proceeding or related proceedings in the same jurisdiction, the Indemnifying Party shall not be liable for the reasonable fees and expenses of more than one separate firm of attorneys (in addition to any local counsel) at any time for all such Indemnified Parties, and that all such fees and expenses shall be reimbursed as they are incurred. In the case of any such separate firm for the Indemnified Parties, such firm shall be designated in writing by the Indemnified Parties. The Indemnifying Party shall not be liable for any settlement of any proceeding effected without its written consent, which consent shall not be unreasonably withheld, but if settled with such consent, or if there be a final judgment for the plaintiff, the Indemnifying Party shall indemnify and hold harmless such Indemnified Parties from and against any Damages (to the extent stated above) by reason of such settlement or judgment. Without the prior written consent of the Indemnified Party, no Indemnifying Party shall effect any settlement of any pending or threatened proceeding in respect of which any Indemnified Party is or could have been a party and indemnity could have been sought hereunder by such Indemnified Party, unless such settlement includes an unconditional release of such Indemnified Party from all liability arising out of such proceeding.

SECTION 6.09 Contribution.

(a) If the indemnification provided for in this Article 6 is unavailable to the Indemnified Party or insufficient in respect of any Damages (other than by reason of the exceptions provided herein), then each such Indemnifying Party, in lieu of indemnifying such Indemnified Party, shall contribute to the amount paid or payable by such Indemnified Party as a result of such Damages, as between the Company on the one hand and each such Investor on the other, in such proportion as is appropriate to reflect the relative fault of the Company and of each such Investor in connection with such statements or omissions, as well as any other relevant equitable considerations. The relative fault of the Company on the one hand and of each such Investor on the other shall be determined by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or the omission or alleged omission to state a material fact relates to information supplied by such party, and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission.

(b) The Company and the Investors agree that it would not be just and equitable if contribution pursuant to this Section 6.09 were determined by pro rata allocation or by any other method of allocation that does not take account of the equitable considerations referred to in the immediately preceding paragraph. The amount paid or payable by an Indemnified Party as a result of the Damages referred to in the immediately preceding paragraph shall be deemed to include, subject to the limitations set forth above, any legal or other expenses reasonably incurred by such Indemnified Party in connection with investigating or defending any such action or claim. Notwithstanding the provisions of this Section 6.09, no Investor shall be required to contribute any amount in excess of the amount by which the net proceeds realized by such Investor in the sale of Registrable Securities of such Investor to which such Damages relate exceeds the amount of any Damages that such Investor has otherwise been required to pay by reason of such untrue or alleged untrue statement or omission or alleged omission. No Person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution from any Person who was not guilty of such fraudulent misrepresentation. Subject to the foregoing and as among the Investors, each Investor's obligation to contribute pursuant to this Section 6.09 is several in the proportion that the proceeds of the offering received by such Investor bears to the total proceeds of the offering received by all such Investors and not joint.

34

SECTION 6.10 Cooperation by the Company. With a view to making available to the Investors the benefits of certain rules and regulations of the SEC that may at any time permit the sale of securities to the public without registration, the Company agrees to use its best efforts to:

- (a) make and keep public information available, as those terms are defined in Rule 144, at all times after the effective date that the Company becomes subject to the reporting requirements of the Securities Act or the Exchange Act;
- (b) file with the SEC in a timely manner all reports and other documents required of the Company under the Securities Act and the Exchange Act (at any time after it has become subject to such reporting requirements);
- (c) furnish to any Investor, so long as such Investor owns any Registrable Securities, upon request by such Investor, (i) a written statement by the Company that it has complied with the reporting requirements of Rule 144 (at any time after 90 days after the effective date of the first registration statement filed by the Company for a Public Offering), and of the Securities Act and the Exchange Act (at any time after it has become subject to such reporting requirements) or that it qualifies as a registrant whose securities may be resold pursuant to Form S-3 (at any time after it so qualifies), (ii) a copy of the most recent annual or quarterly report of the Company and (iii) such other reports and documents of the Company and other information in the possession of or reasonably obtainable by the Company as a Investor may reasonably request in availing itself of any rule or regulation of the SEC allowing a Investor to sell any such securities without registration; and
- (d) upon the request of any Investor, instruct the transfer agent in writing that it shall rely on the written legal opinion such Investor's counsel, and shall act in accordance with the written instructions of such Investor's counsel, with respect to any transfer of Company Equity Securities.

WHEREAS, Executive and the Company desire to enter into this Agreement to set forth the terms and conditions upon which Executive will serve as the Chief Financial Officer of the Company.

NOW THEREFORE in consideration of the promises and mutual covenants herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto hereby agree as follows:

(c) Termination Date. In connection with any termination of Executive's employment pursuant to any of Sections 4(a)(i) — (v) above, Executive's employment with the

3

Company shall terminate on the Termination Date. For purposes of this Agreement, "**Termination Date**" shall mean (i) if Executive's employment is terminated by his death, the date of his death, (ii) if Executive's employment is terminated because Executive is or becomes Disabled, the date specified by the Company in the related Notice of Termination (which shall, in no event, be less than 30 days after delivery of such Notice of Termination), (iii) if Executive terminates his employment without Good Reason, 30 days following the date on which a Notice of Termination is given or such earlier date as is determined by the Company, and (iv) if Executive's employment is terminated for any other reason, the date on which a Notice of Termination is given or any later date (within 30 days after the giving of such notice) set forth in the related Notice of Termination.

5. Effect of Termination.

(a) Death of Executive. Upon termination of Executive's employment due to the death of Executive during the Employment Period, Executive's surviving spouse and dependents or, if none, his estate, shall be entitled to receive from the Company (i) any accrued but unpaid Base Salary and vacation pay through the Termination Date, payable as soon as practicable following such Termination Date and (ii) any earned Annual Bonus for the fiscal year during which the Termination Date occurred (and the Annual Bonus for the prior fiscal year, if earned but not yet paid), payable in accordance with the Company's usual bonus payment schedule. In addition, Executive's surviving spouse and dependents shall be entitled to the continued participation in the Company's medical, hospitalization, dental, and life insurance programs in which Executive participated immediately prior to the Termination Date (collectively, "**Continued Benefits**") for a period of 18 months following such Termination Date.

(b) Disability of Executive. In the event of termination of Executive's employment due to the Executive being or becoming Disabled, Executive shall be entitled to receive from the Company (i) any accrued but unpaid Base Salary and vacation pay through the Termination Date, payable as soon as practicable following such Termination Date and (ii) any earned Annual Bonus for the fiscal year during which the Termination Date occurred (and the Annual Bonus for the prior fiscal year, if earned but not yet paid), payable in accordance with the Company's usual bonus payment schedule. In addition, Executive shall be entitled to continue to receive installments of Executive's then current Base Salary and Continued Benefits from the Termination Date until the later to occur of (A) the six (6) month anniversary thereof and (B) the date on which Executive becomes entitled to long-term disability benefits under the applicable plan or program of the Company, which shall be payable (in the case of Base Salary) or provided (in the case of Continued Benefits) in accordance with the usual payroll and benefits policies of the Company.

(c) Termination for Cause; Termination without Good Reason. Upon the termination of Executive's employment either by the Company for Cause, or by Executive without Good Reason, subject to Executive's execution and the effectiveness of a release of claims in the form attached hereto as Exhibit A (the "**Release**") and Executive's continued compliance with the Non-Competition Agreement (as hereinafter defined), the Company shall pay to Executive (i) any accrued but unpaid Base Salary and vacation pay through the Termination Date, payable as soon as practicable following such Termination Date and (ii) any earned Annual Bonus for the fiscal year during which the Termination Date occurred (and the Annual Bonus for the prior fiscal year, if earned but not yet paid), payable in accordance with the Company's usual bonus payment schedule.

4

(d) Termination without Cause; Termination for Good Reason. Upon the termination of Executive's employment either by Executive with Good Reason, or by the Company without Cause, subject to Executive's execution and the effectiveness of the Release and Executive's continued compliance with the Non-Competition Agreement, Executive shall be entitled to receive from the Company (i) any accrued but unpaid Base Salary and vacation pay through the Termination Date, payable as soon as practicable following such Termination Date, (ii) any earned Annual Bonus for the fiscal year during which the Termination Date occurred (and the Annual Bonus for the prior fiscal year, if earned but not yet paid), payable in accordance with the Company's usual bonus payment schedule, and (iii) for a period of 18 months commencing on the Termination Date, 150% of Executive's then current Base Salary, payable in accordance with the standard payroll practices of the Company. Solely for illustrative purposes, if each installment of Base Salary payable to the Executive (in accordance with the standard payroll practices of the Company) prior to such termination (and before giving effect to any withholding amounts) was \$1,000, then after such termination, each installment payment payable by the Company to the Executive (in accordance with the standard payroll practices of the Company) during the immediately following 18-month period (prior to giving effect to any withholding amounts) shall be \$1,500. In addition, Company shall maintain the Continued Benefits in full force and effect, for the continued benefit of Executive, his spouse and his dependents for a period of 18 months commencing on the Termination Date, and Executive shall be entitled to full COBRA rights following the termination of such Continued Benefits. If Executive elects to utilize rights under COBRA after the Termination Date, Executive shall be responsible for all premiums in respect thereof, as permitted by law.

Executive acknowledges and agrees that the payments set forth in this Section 5 constitute liquidated damages for termination of his employment and shall exclusively govern Executive's rights upon termination of employment with the Company.

6. Confidentiality, Non-Compete, Non-Solicit/Hire and Intellectual Property Agreement. Simultaneously with the execution and delivery of this Agreement, the Company and Executive shall execute and deliver a confidentiality, non-competition agreement and intellectual property agreement in the form attached hereto as Exhibit B, dated as the date hereof, by and between the Company and Executive.

Executive will play a significant role in the development and management of the businesses of the Company and has and will be entrusted with the Company's confidential information relating to the Company, the Company's customers, suppliers, subcontractors, employees and others.

WHEREAS, in partial consideration of the payments received by Executive under that certain Agreement and Plan of Merger, dated September 13, 2006, by and among the Executive, the Company and the other parties thereto, the Executive has agreed to execute and deliver to the Company this Non-Competition Agreement.

NOW, THEREFORE, it is mutually agreed as follows:

21. Confidentiality.

(a) Confidential Information. In addition to all duties of loyalty imposed on Executive by law, during the term of Executive's employment with the Company, and for 18 months following the termination of such employment for any reason, Executive shall maintain Confidential Information in confidence and secrecy and shall not disclose Confidential Information or use it for the benefit of any person or organization (including Executive) other than the Company without the prior written consent of an authorized officer of the Company (except for disclosures to persons acting on the Company's behalf with a need to know such information), under any circumstances where any Confidential Information so disclosed or used is reasonably likely to be used anywhere on behalf of any Competitive Business.

3

(b) Trade Secrets. During his employment with the Company, Executive shall preserve and protect Trade Secrets of the Company from unauthorized use or disclosure; and after termination of such employment, Executive shall not use or disclose any Trade Secret of the Company for so long as that Trade Secret remains a Trade Secret.

(c) Procedures. In the event that Executive is requested or required (by deposition, interrogatories, requests for information or documents in legal proceedings, subpoenas, civil demand or similar process) to disclose any Confidential Information or Trade Secrets, Executive will give the Company prompt written notice of such request or requirement so that the Company may seek an appropriate protective order or other remedy and/or waive compliance with the provisions of this Non-Competition Agreement, and Executive will cooperate with the Company's efforts to obtain such protective order. In the event that such protective order or other remedy is not obtained or the Company waives compliance with the relevant provisions of this Non-Competition Agreement, Executive is permitted to furnish that Confidential Information or Trade Secrets which is legally required to be disclosed and will use his reasonable efforts to obtain assurances that confidential treatment will be accorded to such information.

As used in this Non-Competition Agreement, all capitalized terms used without definition shall have the meanings ascribed to them in the Employment Agreement. In addition, the following terms have the meanings set forth below:

"**Competitive Business**" means any corporation, partnership, association, or other person or entity, including but not limited to Executive, (i) which competes directly, or is planning to compete directly, with the Company with respect to the design, development, manufacture, remanufacture, assembly, marketing, sales, or service of standby power products, or any other business of the Company, that was within Executive's management, operational, marketing, purchasing or sales responsibility, including the responsibility of personnel reporting directly to Executive, or about which Executive received any Confidential Information or Trade Secrets at any time within eighteen (18) months prior to termination of Executive's employment with the Company, and (ii) which engages or plans to engage in such competition in any state of the United States in which the Company sold or distributed, or actively attempted to sell or to distribute, such products within eighteen (18) months prior to termination of Executive's employment with the Company.

"**Confidential Information**" shall mean information related to the Company's business, not generally known in the trade or industry, which Executive learns or creates during the period of Executive's employment with the Company, which may include but is not limited to product specifications, manufacturing procedures, methods, equipment, compositions, technology, formulas, know-how, research and development programs, sales methods, customer lists, customer usages and requirements, computer programs and other confidential technical or business information and data. Confidential Information shall not include any information that (A) is or becomes generally available to the public other than as a result of a disclosure by Executive in violation of this Non-Competition Agreement or (B) becomes available to Executive on a non-confidential basis from a source other than the Company or its affiliates which is not prohibited from disclosing such information to Executive by a legal, contractual or fiduciary obligation to the Company or any other person.

4

"**Trade Secret(s)**" means information, including a formula, pattern, compilation, program, device, method, technique or process, that derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use, and that is the subject of efforts to maintain its secrecy that are reasonable under the circumstances.

(d) Executive further agrees to take all reasonable measures to prevent unauthorized persons or entities from obtaining or using Confidential Information. Promptly upon termination of his employment with the Company, Executive agrees to deliver to the Company all property and materials within Executive's possession or control which belong to the Company or which contain Confidential Information.

22. Non-Competition; Non-Solicitation.

(a) Noncompetition. During the term of Executive's employment with the Company and for eighteen (18) months following the termination of such employment for any reason, Executive shall not, directly or indirectly, participate in, consult with, be employed by, or assist with the organization, planning, ownership, financing, management, operation or control of any Competitive Business in any capacity in which, in the absence of this Agreement, Confidential Information, Trade Secrets or Goodwill of the Company would reasonably be considered useful.

"**Goodwill**" means any tendency of customers, distributors, representatives, employees, or federal, state, local or foreign governmental entities to continue or renew any valuable business relationship with the Company or any Competitive Business with which Executive may be associated, based in whole or in part on past successful relationships with the Company or the lawful efforts of the Company to foster such relationships, and in which Executive, or any personnel reporting directly to Executive, actively participated at any time within eighteen (18) months prior to termination of Executive's employment with the Company.

(b) Nonsolicitation. During the term of Executive's employment with the Company and for eighteen (18) months following the termination of such employment for any reason, Executive shall not, directly or indirectly, on behalf of any Competitive Business, either by himself or by providing substantial assistance to others, solicit to terminate employment with the Company, or to

accept or begin employment with or service to any Competitive Business, any employee of the Company whom Executive supervised or about whom Executive gained Confidential Information at any time during the last eighteen (18) months of Executive's employment with the Company.

23. No Right to Continued Employment. Nothing in this Non-Competition Agreement shall confer upon Executive any right to continue in the employ of the Company or shall interfere with or restrict in any way the rights of the Company, which, subject to the terms of the Employment Agreement, are hereby reserved, to discharge Executive at any time for any reason whatsoever, with or without cause.

24. No Conflicting Agreements. Executive warrants that Executive is not bound by the terms of a confidentiality agreement, non-competition or other agreement with a third party that would conflict with Executive's obligations hereunder.

5

25. Remedies.

(a) In the event of breach or threatened breach by Executive of any provision hereof, the Company shall be entitled to seek temporary or preliminary injunctive relief or other equitable relief to which either of them may be entitled, without the posting of any bond or other security.

(b) The period of time during which the restrictions set forth in Section 2(a) hereof will be in effect will be extended by the length of time during which Executive is in breach of the terms of those provisions as finally determined by an arbitrator or any court of competent jurisdiction.

26. Successors and Assigns. This Non-Competition Agreement shall be binding upon Executive and Executive's heirs, assigns and representatives and inure to the benefit of the Company and its successors and assigns, including without limitation any entity to which substantially all of the assets or the business of either of the Company are sold or transferred. The obligations of Executive are personal to Executive and shall not be assigned by Executive.

27. Severability. It is expressly agreed that if any restrictions set forth in this Non-Competition Agreement are found by any court having jurisdiction to be unreasonable because they are too broad in any respect, then and in each such case, the remaining provisions herein contained shall, to the greatest extent permissible under applicable law, nevertheless, remain effective, and this Non-Competition Agreement, or any portion hereof, shall, to the extent permitted by applicable law, be considered to be amended, so as to be considered reasonable and enforceable by such court, and the court shall specifically have the right to restrict the time period or the business or geographical scope of such restrictions to any portion of the time period, business or geographic areas to the extent the court deems such restriction to be necessary to cause the covenants to be enforceable and, in such event, the covenants shall be enforced to the extent so permitted and the remaining provisions shall be unaffected thereby. In such event, the parties hereto agree to execute all documents necessary to evidence such amendment so as to eliminate or modify any such unreasonable provision in order to carry out the intent of this Non-Competition Agreement insofar as possible and to render this Non-Competition Agreement enforceable in all respects as so modified. The covenants contained in this Section 7 shall be construed to extend to separate jurisdictions or sub-jurisdictions of the United States in which the Company, during the term of Executive's employment, have been or are engaged in business, and to the extent that any such covenant shall be illegal and/or unenforceable with respect to any jurisdiction, said covenant shall not be affected thereby with respect to each other jurisdiction, such covenants with respect to each jurisdiction being construed as severable and independent. The restrictive covenant provisions of this Non-Competition Agreement shall govern to the extent there is any conflict between their terms and the terms of any other agreement or understanding with the Company.

28. Notices. Any notice required or permitted to be given under this Non-Competition Agreement shall be in writing and be deemed given when delivered by hand or received by registered or certified mail, postage prepaid, or by nationally reorganized overnight courier service addressed to the party to receive such notice at the following address or any other address substituted therefor by notice pursuant to these provisions:

This Non-Competition Agreement constitute the entire agreement of the parties hereto with respect to the subject matter hereof, and supersedes all prior agreements and understandings of the parties hereto, oral or written, with respect to the subject matter hereof, however, if any portion of this Non-Competition Agreement is determined to be unenforceable by a court of law, then solely the appropriate conflicting provisions of any other agreement binding upon Executive shall control.

31. 33. Enforcement. If any party shall institute legal action to enforce or interpret the terms and conditions of this Non-Competition Agreement or to collect any monies hereunder, venue for any such action shall be the State of Wisconsin. Each party irrevocably consents to the jurisdiction of the courts located in the State of Wisconsin for all suits or actions arising out of this Non-Competition Agreement. from her disability or from termination by the Executive for Good Reason), after a written demand for substantial performance is delivered to Executive that specifically identifies the manner in which Executive has not substantially performed his duties, and Executive has not remedied such failure within a reasonable time after receipt of such written notice; for purposes of this paragraph, no act, or failure to act, on Executive's part will be deemed "willful" unless done, or omitted to be done, by Executive not in good faith and without reasonable belief that his action or omission was in the best interest of the Company;

(B) Executive's gross negligence or willful misconduct in the performance of her duties as an employee of the Company;

(C) Executive's commission of fraud, embezzlement, misappropriation of funds, breach of fiduciary duty or a material act of dishonesty against the Company;

(D) the indictment of Executive for a felony; or

(E) the drug addiction or habitual intoxication of Executive that adversely effects Employee's job performance and duties hereunder, or the reputation or best interests of the Company.

(iv) Good Reason. The Executive shall have the right to terminate her employment with the Company for Good Reason. For purposes of this Agreement, "**Good Reason**" shall mean:

(C) a requirement by the Company that Executive be based in an office that is located more than 50 miles from Executive's principal place of employment as of the Effective Date.

(v) Without Cause or Good Reason. The Company shall have the right to terminate Executive's employment hereunder without Cause and the Executive shall have the right to terminate her employment with the Company without Good Reason.

(b) Notice of Termination. Any termination of Executive's employment pursuant to any of Sections 4(a)(ii) — (v) above shall be communicated by written "Notice of Termination" to the non-terminating party delivered in accordance with Section 10 below. For purposes of this Agreement, "**Notice of Termination**" shall mean a notice by a terminating party which shall indicate the specific termination provision hereunder pursuant to which Executive's employment is being terminated.

3

(c) Termination Date. In connection with any termination of Executive's employment pursuant to any of Sections 4(a)(i) — (v) above, Executive's employment with the Company shall terminate on the Termination Date. For purposes of this Agreement, "**Termination Date**" shall mean (i) if Executive's employment is terminated by her death, the date of her death, (ii) if Executive's employment is terminated because Executive is or becomes Disabled, the date specified by the Company in the related Notice of Termination (which shall, in no event, be less than 30 days after delivery of such Notice of Termination), (iii) if Executive terminates her employment without Good Reason, 30 days following the date on which a Notice of Termination is given or such earlier date as is determined by the Company, and (iv) if Executive's employment is terminated for any other reason, the date on which a Notice of Termination is given or any later date (within 30 days after the giving of such notice) set forth in the related Notice of Termination.

5. Effect of Termination.

(a) Death of Executive. Upon termination of Executive's employment due to the death of Executive during the Employment Period, Executive's surviving spouse and dependents or, if none, her estate, shall be entitled to receive from the Company (i) any accrued but unpaid Base Salary and vacation pay through the Termination Date, payable as soon as practicable following such Termination Date and (ii) any earned Annual Bonus for the fiscal year during which the Termination Date occurred (and the Annual Bonus for the prior fiscal year, if earned but not yet paid), payable in accordance with the Company's usual bonus payment schedule. In addition, Executive's surviving spouse and dependents shall be entitled to the continued participation in the Company's medical, hospitalization, dental, and life insurance programs in which Executive participated immediately prior to the Termination Date (collectively, "**Continued Benefits**") for a period of 18 months following such Termination Date.

(b) Disability of Executive. In the event of termination of Executive's employment due to the Executive being or becoming Disabled, Executive shall be entitled to receive from the Company (i) any accrued but unpaid Base Salary and vacation pay through the Termination Date, payable as soon as practicable following such Termination Date and (ii) any earned Annual Bonus for the fiscal year during which the Termination Date occurred (and the Annual Bonus for the prior fiscal year, if earned but not yet paid), payable in accordance with the Company's usual bonus payment schedule. In addition, Executive shall be entitled to continue to receive installments of Executive's then current Base Salary and Continued Benefits from the Termination Date until the later to occur of (A) the six (6) month anniversary thereof and (B) the date on which Executive becomes entitled to long-term disability benefits under the applicable plan or program of the Company, which shall be payable (in the case of Base Salary) or provided (in the case of Continued Benefits) in accordance with the usual payroll and benefits policies of the Company.

(c) Termination for Cause; Termination without Good Reason. Upon the termination of Executive's employment either by the Company for Cause, or by Executive without Good Reason, subject to Executive's execution and the effectiveness of a release of claims in the form attached hereto as Exhibit A (the "**Release**") and Executive's continued compliance with the Non-Competition Agreement (as hereinafter defined), the Company shall pay to Executive (i) any accrued but unpaid Base Salary and vacation pay through the Termination Date, payable as soon as practicable following such Termination Date and (ii) any earned Annual Bonus for the fiscal year during which the Termination Date occurred (and the Annual Bonus for the prior fiscal year, if earned but not yet paid), payable in accordance with the Company's usual bonus payment schedule.

4

(d) Termination without Cause; Termination for Good Reason. Upon the termination of Executive's employment either by Executive with Good Reason, or by the Company without Cause, subject to Executive's execution and the effectiveness of the Release and Executive's continued compliance with the Non-Competition Agreement, Executive shall be entitled to receive from the Company (i) any accrued but unpaid Base Salary and vacation pay through the Termination Date, payable as soon as practicable following such Termination Date, (ii) any earned Annual Bonus for the fiscal year during which the Termination Date occurred (and the Annual Bonus for the prior fiscal year, if earned but not yet paid), payable in accordance with the Company's usual bonus payment schedule, and (iii) for a period of 18 months commencing on the Termination Date, 150% of Executive's then current Base Salary, payable in accordance with the standard payroll practices of the Company. Solely for illustrative purposes, if each installment of Base Salary payable to the Executive (in accordance with the standard payroll practices of the Company) prior to such termination (and before giving effect to any withholding amounts) was \$1,000, then after such termination, each installment payment payable by the Company to the Executive (in accordance with the standard payroll practices of the Company) during the immediately following 18-month period (prior to giving effect to any withholding amounts) shall be \$1,500. In addition, Company shall maintain the Continued Benefits in full force and effect, for the continued benefit of Executive, her spouse and her dependents for a period of 18 months commencing on the Termination Date, and Executive shall be entitled to full COBRA rights following the termination of such Continued Benefits. If Executive elects to utilize rights under COBRA after the Termination Date, Executive shall be responsible for all premiums in respect thereof, as permitted by law.

Executive acknowledges and agrees that the payments set forth in this Section 5 constitute liquidated damages for termination of her employment and shall exclusively govern Executive's rights upon termination of employment with the Company.

6. Confidentiality, Non-Compete, Non-Solicit/Hire and Intellectual Property Agreement. Simultaneously with the execution and delivery of this Agreement, the Company and Executive shall execute and deliver a confidentiality, non-competition agreement and intellectual property agreement in the form attached hereto as Exhibit B, dated as the date hereof, by and between the Company and Executive.

RELEASE OF CLAIMS

A release is required as a condition for receiving the benefits described in Section 5 of the Employment Agreement between GENERAC POWER SYSTEMS, INC. (the "**Company**") and Dawn Tabat ("**Executive**") dated November 10, 2006, (the "**Employment Agreement**"); thus, by executing this release ("**Release**"), you have advised us that you hold no claims against the Company, its predecessors, successors or assigns, affiliates, shareholders or members and each of their respective officers, directors, agents and employees (collectively, the "**Releasees**"), and by execution of this Release you agree to waive and release any such claims, except relating to any compensation, severance pay and benefits described in the Employment Agreement.

You understand and agree that this Release will extend to all claims, demands, liabilities and causes of action of every kind, nature and description whatsoever, whether known, unknown or suspected to exist, which you ever had or may now have against the Releasees in your capacity as an employee of the Company, including, without limitation, any claims, demands, liabilities and causes of action arising from your employment with the Releasees and the termination of that employment, including any claims for severance or vacation pay, business expenses, and/or pursuant to any federal, state, county, or local employment laws, regulations, executive orders, or other requirements, including, but not limited to, Title VII of the 1964 Civil Rights Act, the 1866 Civil Rights Act, the Age Discrimination in Employment Act as amended by the Older Workers Benefit Protection Act, the Americans with Disabilities Act, the Civil Rights Act of 1991, the Workers Adjustment and Retraining Notification Act and any other local, state or federal fair employment laws, and any contract or tort claims.

It is also acknowledged that your termination is not in any way related to any work-related injury.

Based on executing this Release, it is further understood and agreed that you covenant not to sue to challenge the enforceability of this Release. At your option, you may elect to execute this Release on an earlier date. Additionally, you have seven days after the date you execute this Release to revoke it. As a result, this Release will not be effective until eight days after you execute it. Finally, this is to expressly acknowledge:

· You understand that you are not waiving any claims or rights that may arise after the date you execute this Release.

· You understand and agree that the compensation and benefits described in the Employment Agreement offer you consideration greater than that to which you would otherwise be entitled.

I hereby state that I have carefully read this Release and that I am signing this Release knowingly and voluntarily with the full intent of releasing the Releasees from any and all claims, except as set forth herein. Further, if signed prior to the completion of the 21 day review period, this is to acknowledge that I knowingly and voluntarily signed this Release on an earlier date.

WHEREAS, in partial consideration of the payments received by Executive under that certain Agreement and Plan of Merger, dated September 13, 2006, by and among the Executive, the Company and the other parties thereto, the Executive has agreed to execute and deliver to the Company this Non-Competition Agreement.

NOW, THEREFORE, it is mutually agreed as follows:

21. **Confidentiality.**

(a) **Confidential Information.** In addition to all duties of loyalty imposed on Executive by law, during the term of Executive's employment with the Company, and for 18 months following the termination of such employment for any reason, Executive shall maintain Confidential Information in confidence and secrecy and shall not disclose Confidential Information or use it for the benefit of any person or organization (including Executive) other than the Company without the prior written consent of an authorized officer of the Company (except for disclosures to persons acting on the Company's behalf with a need to know such information), under any circumstances where any Confidential Information so disclosed or used is reasonably likely to be used anywhere on behalf of any Competitive Business.

(b) **Trade Secrets.** During his or her employment with the Company, Executive shall preserve and protect Trade Secrets of the Company from unauthorized use or disclosure; and after termination of such employment, Executive shall not use or disclose any Trade Secret of the Company for so long as that Trade Secret remains a Trade Secret.

(c) **Procedures.** In the event that Executive is requested or required (by deposition, interrogatories, requests for information or documents in legal proceedings, subpoenas, civil demand or similar process) to disclose any Confidential Information or Trade Secrets, Executive will give the Company prompt written notice of such request or requirement so that the Company may seek an appropriate protective order or other remedy and/or waive compliance with the provisions of this Non-Competition Agreement, and Executive will cooperate with the Company's efforts to obtain such protective order. In the event that such protective order or other remedy is not obtained or the Company waives compliance with the relevant provisions of this Non-Competition Agreement, Executive is permitted to furnish that Confidential Information or Trade Secrets which is legally required to be disclosed and will use her reasonable efforts to obtain assurances that confidential treatment will be accorded to such information.

As used in this Non-Competition Agreement, all capitalized terms used without definition shall have the meanings ascribed to them in the Employment Agreement. In addition, the following terms have the meanings set forth below:

"**Competitive Business**" means any corporation, partnership, association, or other person or entity, including but not limited to Executive, (i) which competes directly, or is planning to compete directly, with the Company with respect to the design, development, manufacture, remanufacture, assembly, marketing, sales, or service of standby power products, or any other business of the Company, that was within Executive's management, operational, marketing, purchasing or sales responsibility, including the responsibility of personnel reporting directly to Executive, or about which Executive received any Confidential Information or Trade Secrets at any time within eighteen (18) months prior to termination of Executive's employment with the Company, and (ii) which engages or plans to engage in such competition in any state of the United States in which the Company sold or distributed, or actively attempted to sell or to distribute, such products within eighteen (18) months prior to termination of Executive's employment with the Company.

"**Confidential Information**" shall mean information related to the Company's business, not generally known in the trade or industry, which Executive learns or creates during the period of Executive's employment with the Company, which may include but is not limited to product specifications, manufacturing procedures, methods, equipment, compositions, technology, formulas, know-how, research and development programs, sales methods, customer lists, customer usages and requirements, computer programs and other confidential technical or business information and data. Confidential Information shall not include any information that (A) is or becomes generally available to the public other than as a result of a disclosure by Executive in violation of this Non-Competition Agreement or (B) becomes available to Executive on a non-confidential basis from a source other than the Company or its affiliates which is not prohibited from disclosing such information to Executive by a legal, contractual or fiduciary obligation to the Company or any other person.

"**Trade Secret(s)**" means information, including a formula, pattern, compilation, program, device, method, technique or process, that derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use, and that is the subject of efforts to maintain its secrecy that are reasonable under the circumstances.

(d) Executive further agrees to take all reasonable measures to prevent unauthorized persons or entities from obtaining or using Confidential Information. Promptly upon termination of her employment with the Company, Executive agrees to deliver to the Company all property and materials within Executive's possession or control which belong to the Company or which contain Confidential Information.

22. **Non-Competition; Non-Solicitation.**

(a) **Noncompetition.** During the term of Executive's employment with the Company and for eighteen (18) months following the termination of such employment for any reason, Executive shall not, directly or indirectly, participate in, consult with, be employed by, or assist with the organization, planning, ownership, financing, management, operation or control of any Competitive Business in any capacity in which, in the absence of this Agreement, Confidential Information, Trade Secrets or Goodwill of the Company would reasonably be considered useful.

"**Goodwill**" means any tendency of customers, distributors, representatives, employees, or federal, state, local or foreign governmental entities to continue or renew any valuable business relationship with the Company or any Competitive Business with which Executive may be associated, based in whole or in part on past successful relationships with the Company or the lawful efforts of the Company to foster such relationships, and in which Executive, or any personnel reporting directly to Executive, actively participated at any time within eighteen (18) months prior to termination of Executive's employment with the Company.

(b) **Nonsolicitation.** During the term of Executive's employment with the Company and for eighteen (18) months following the termination of such employment for any reason, Executive shall not, directly or indirectly, on behalf of any Competitive Business, either by himself or by providing substantial assistance to others, solicit to terminate employment with the Company, or to accept or begin employment with or service to any Competitive Business, any employee of the Company whom Executive supervised or about whom Executive gained Confidential Information at any time during the last eighteen (18) months of Executive's employment with the Company.

23. **No Right to Continued Employment.** Nothing in this Non-Competition Agreement shall confer upon Executive any right to continue in the employ of the Company or shall interfere with or restrict in any way the rights of the Company, which, subject to the terms of the Employment Agreement, are hereby reserved, to discharge Executive at any time for any reason whatsoever, with or without

cause.

24. **No Conflicting Agreements.** Executive warrants that Executive is not bound by the terms of a confidentiality agreement, non-competition or other agreement with a third party that would conflict with Executive's obligations hereunder.

5

25. **Remedies.**

(a) In the event of breach or threatened breach by Executive of any provision hereof, the Company shall be entitled to seek temporary or preliminary injunctive relief or other equitable relief to which either of them may be entitled, without the posting of any bond or other security.

(b) The period of time during which the restrictions set forth in Section 2(a) hereof will be in effect will be extended by the length of time during which Executive is in breach of the terms of those provisions as finally determined by an arbitrator or any court of competent jurisdiction.

26. **Successors and Assigns.** This Non-Competition Agreement shall be binding upon Executive and Executive's heirs, assigns and representatives and inure to the benefit of the Company and its successors and assigns, including without limitation any entity to which substantially all of the assets or the business of either of the Company are sold or transferred. The obligations of Executive are personal to Executive and shall not be assigned by Executive.

27. **Severability.** It is expressly agreed that if any restrictions set forth in this Non-Competition Agreement are found by any court having jurisdiction to be unreasonable because they are too broad in any respect, then and in each such case, the remaining provisions herein contained shall, to the greatest extent permissible under applicable law, nevertheless, remain effective, and this Non-Competition Agreement, or any portion hereof, shall, to the extent permitted by applicable law, be considered to be amended, so as to be considered reasonable and enforceable by such court, and the court shall specifically have the right to restrict the time period or the business or geographical scope of such restrictions to any portion of the time period, business or geographic areas to the extent the court deems such restriction to be necessary to cause the covenants to be enforceable and, in such event, the covenants shall be enforced to the extent so permitted and the remaining provisions shall be unaffected thereby. In such event, the parties hereto agree to execute all documents necessary to evidence such amendment so as to eliminate or modify any such unreasonable provision in order to carry out the intent of this Non-Competition Agreement insofar as possible and to render this Non-Competition Agreement enforceable in all respects as so modified. The covenants contained in this Section 7 shall be construed to extend to separate jurisdictions or sub-jurisdictions of the United States in which the Company, during the term of Executive's employment, have been or are engaged in business, and to the extent that any such covenant shall be illegal and/or unenforceable with respect to any jurisdiction, said covenant shall not be affected thereby with respect to each other jurisdiction, such covenants with respect to each jurisdiction being construed as severable and independent. The restrictive covenant provisions of this Non-Competition Agreement shall govern to the extent there is any conflict between their terms and the terms of any other agreement or understanding with the Company.

28. **Notices.** Any notice required or permitted to be given under this Non-Competition Agreement shall be in writing and be deemed given when delivered by hand or received by registered or certified mail, postage prepaid, or by nationally reorganized overnight courier service addressed to the party to receive such notice at the following address or any other address substituted therefor by notice pursuant to these provisions:

31. **Waiver, etc.** The failure of the Company to enforce at any time any of the provisions of this Non-Competition Agreement shall not be deemed or construed to be a waiver of any such provision, nor in any way affect the validity of this Non-Competition Agreement or any provision hereof or the right of the Company to enforce thereafter each and every provision of this Non-Competition Agreement. 33. **Enforcement.** If any party shall institute legal action to enforce or interpret the terms and conditions of this Non-Competition Agreement or to collect any monies hereunder, venue for any such action shall be the State of Wisconsin. Each party irrevocably consents to the jurisdiction of the courts located in the State of Wisconsin for all suits or actions arising out of this Non-Competition Agreement. In consideration and in furtherance of the foregoing, each Revolving Facility Lender hereby absolutely and unconditionally agrees to pay to the Administrative Agent, for the account of the applicable Issuing Bank, such Revolving Facility Lender's Revolving Facility Percentage of each L/C Disbursement made by such Issuing Bank and not reimbursed by the Borrower on the date due as provided in paragraph (e) of this Section, or of any reimbursement payment required to be refunded to the Borrower for any reason. Each Revolving Facility Lender acknowledges and agrees that its obligation to acquire participations pursuant to this paragraph in respect of Letters of Credit is absolute and unconditional and shall not be affected by any circumstance whatsoever, including any amendment, renewal or extension of any Letter of Credit or the occurrence and continuance of a Default or Event of Default or reduction or termination of the Commitments, and that each such payment shall be made without any offset, abatement, withholding or reduction whatsoever.

(e) **Reimbursement.** If the applicable Issuing Bank shall make any L/C Disbursement in respect of a Letter of Credit, the Borrower shall reimburse such L/C Disbursement by paying to the Administrative Agent an amount equal to such L/C Disbursement not later than 4:00 p.m., Local Time, on (i) the Business Day that the Borrower receives notice under paragraph (g) of this Section of such L/C Disbursement, if such notice is received on such day prior to 1:00 p.m., Local Time, or (ii) if clause (i) does not apply, the Business Day immediately following the date the Borrower receives such notice, provided that the Borrower may, subject to the conditions to borrowing set forth herein, request in accordance with Section 2.03 or 2.04 that such payment be financed with an ABR Revolving Facility Borrowing or a Swingline Borrowing, as applicable, in an equivalent amount and, to the extent so financed, the Borrower's obligation to make such payment shall be discharged and replaced by the resulting ABR Revolving Facility Borrowing or Swingline Borrowing. If the Borrower fails to reimburse any L/C Disbursement when due, then the Administrative Agent shall promptly notify the applicable Issuing Bank and each other Revolving Facility Lender of the applicable L/C Disbursement, the payment then due from the Borrower in respect thereof and, in the case of a Revolving Facility Lender, such Lender's Revolving Facility Percentage thereof. Promptly following receipt of such notice, each Revolving Facility Lender shall pay to the Administrative Agent its Revolving Facility Percentage of the payment then due from the Borrower in respect of such L/C Disbursement in the same manner as provided in Section 2.06 with respect to Loans made by such Revolving Facility Lender (and Section 2.06 shall apply, mutatis mutandis, to the payment obligations of the Revolving Facility Lenders), and the Administrative Agent shall promptly pay to the applicable Issuing Bank the amounts so received by it from the Revolving Facility Lenders. Promptly following receipt by the Administrative Agent of any payment from the Borrower pursuant to this paragraph, the Administrative Agent shall distribute such payment to the applicable Issuing Bank or, to the extent that Revolving Facility Lenders have made payments pursuant to this paragraph to reimburse such Issuing Bank, then to such Revolving Facility Lenders and such Issuing Bank as their interests may appear. Any payment made by a Revolving Facility Lender pursuant to this paragraph to reimburse an Issuing Bank for any L/C Disbursement (other than the funding of an ABR Revolving Loan or a Swingline Borrowing as contemplated above) shall not constitute a Loan and shall not relieve the Borrower of its obligation to reimburse such L/C Disbursement in accordance with Section 2.05(e).

39

(f) **Obligations Absolute.** The obligation of the Borrower to reimburse L/C Disbursements as provided in paragraph (e) of this Section shall be absolute, unconditional and irrevocable, and shall be performed strictly in accordance with the terms of this Agreement under any and all circumstances whatsoever and irrespective of (i) any lack of validity or enforceability of any Letter of Credit or this Agreement, or any term or provision therein, (ii) any draft or other document presented under a Letter of Credit proving to be forged, fraudulent or invalid in any respect or any statement therein being untrue or inaccurate in any respect, (iii) payment by the applicable Issuing Bank under a Letter of Credit against presentation of a draft or other document that does not comply with the terms of such Letter of Credit or (iv) any other event or circumstance whatsoever, whether or not similar to any of the foregoing, that might, but for the provisions of this Section, constitute a legal or equitable discharge of, or provide a right of setoff against, the Borrower's obligations hereunder. Neither the Administrative Agent, the Lenders nor any Issuing Bank, nor any of their Related Parties, shall have any liability or responsibility by reason of or in connection with the issuance or transfer of any Letter of Credit or any payment or failure to make any payment thereunder (irrespective of any of the circumstances referred to in the preceding

sentence), or any error, omission, interruption, loss or delay in transmission or delivery of any draft, notice or other communication under or relating to any Letter of Credit (including any document required to make a drawing thereunder), any error in interpretation of technical terms or any consequence arising from causes beyond the control of such Issuing Bank, or any of the circumstances referred to in clauses (i), (ii) or (iii) of the first sentence of this [Section 2.05\(f\)](#); provided that the foregoing shall not be construed to excuse the applicable Issuing Bank from liability to the Borrower to the extent of any direct damages (as opposed to consequential damages, claims in respect of which are hereby waived by the Borrower to the extent permitted by applicable law) suffered by the Borrower caused by (i) such Issuing Bank's failure to exercise care when determining whether drafts and other documents presented under a Letter of Credit comply with the terms thereof or (ii) such Issuing Bank's refusal to issue a Letter of Credit in accordance with the terms of this Agreement. The parties hereto expressly agree that, in the absence of gross negligence, willful misconduct or bad faith on the part of, or breach of any Loan Document by, the applicable Issuing Bank, such Issuing Bank shall be deemed to have exercised care in each such determination and each refusal to issue a Letter of Credit. In furtherance of the foregoing and without limiting the generality thereof, the parties agree that, with respect to documents presented which appear on their face to be in substantial compliance with the terms of a Letter of Credit, the applicable Issuing Bank may, in its sole discretion, either accept and make payment upon such documents without responsibility for further investigation, regardless of any notice or information to the contrary, or refuse to accept and make payment upon such documents if such documents are not in strict compliance with the terms of such Letter of Credit.

(g) Disbursement Procedures. The applicable Issuing Bank shall, promptly following its receipt thereof, examine all documents purporting to represent a demand for payment under a Letter of Credit. Such Issuing Bank shall promptly notify the Administrative Agent and the Borrower by telephone (confirmed by fax) of such demand for payment and whether such Issuing Bank has made or will make a L/C Disbursement thereunder; provided that any failure to give or delay in giving such notice shall not relieve the Borrower of its obligation to reimburse such Issuing Bank or the Revolving Facility Lenders from the amount of any such L/C Disbursement.

(h) Interim Interest. If an Issuing Bank shall make any L/C Disbursement, then, unless the Borrower shall reimburse such L/C Disbursement in full on the date such L/C Disbursement is made, the unpaid amount thereof shall bear interest, for each day from and including the date such L/C Disbursement is made to but excluding the date that the Borrower reimburses such L/C Disbursement, at the rate per annum then applicable to ABR Revolving Loans; provided that, if such L/C Disbursement is not reimbursed by the Borrower when due pursuant to paragraph (e) of this Section, then [Section 2.13\(c\)](#) shall apply. Interest accrued pursuant to this paragraph shall be for the account of the applicable Issuing Bank, except that interest accrued on and after the date of payment by any Revolving Facility Lender

40

pursuant to paragraph (e) of this Section to reimburse such Issuing Bank shall be for the account of such Revolving Facility Lender to the extent of such payment.

(i) Replacement of an Issuing Bank. An Issuing Bank may be replaced at any time by written agreement among the Borrower, the Administrative Agent, the replaced Issuing Bank and the successor Issuing Bank. The Administrative Agent shall notify the Lenders of any such replacement of an Issuing Bank. At the time any such replacement shall become effective, the Borrower shall pay all unpaid fees accrued for the account of the replaced Issuing Bank pursuant to [Section 2.12](#). From and after the effective date of any such replacement, (i) the successor Issuing Bank shall have all the rights and obligations of the replaced Issuing Bank under this Agreement with respect to Letters of Credit to be issued thereafter and (ii) references herein to the term "Issuing Bank" shall be deemed to refer to such successor or to any previous Issuing Bank, or to such successor and all previous Issuing Banks, as the context shall require. After the replacement of an Issuing Bank hereunder, the replaced Issuing Bank shall remain a party hereto and shall continue to have all the rights and obligations of such Issuing Bank under this Agreement with respect to Letters of Credit issued by it prior to such replacement but shall not be required to issue additional Letters of Credit.

(j) Cash Collateralization. If any Event of Default shall occur and be continuing (i) in the case of an Event of Default described in [Section 7.01\(h\)](#) or (i)(i), (ii), (iii) or (iv) on the Business Day or (ii) in the case of any other Event of Default, on the third Business Day, following the date on which the Borrower receives notice from the Administrative Agent (or, if the maturity of the Loans has been accelerated, the Revolving Facility Lenders with Revolving L/C Exposure representing greater than 50% of the total Revolving L/C Exposure) demanding the deposit of cash collateral pursuant to this paragraph, the Borrower shall deposit in an account with or at the direction of the Administrative Agent, in the name of the Administrative Agent and for the benefit of the Lenders, an amount in cash equal to the Revolving L/C Exposure as of such date plus any accrued and unpaid interest thereon; provided that upon the occurrence of any Event of Default with respect to the Borrower described in clause (h) or (i) of [Section 7.01](#), the obligation to deposit such cash collateral shall become effective immediately, and such deposit shall become immediately due and payable, without demand or other notice of any kind. Each such deposit pursuant to this paragraph shall be held by the Administrative Agent as collateral for the payment and performance of the obligations of the Borrower under this Agreement. The Administrative Agent shall have exclusive dominion and control, including the exclusive right of withdrawal, over such account. Other than any interest earned on the investment of such deposits, which investments shall be made at the option and sole discretion of (i) for so long as an Event of Default shall be continuing, the Administrative Agent and (ii) at any other time, the Borrower, in each case, in Permitted Investments and at the risk and expense of the Borrower, such deposits shall not bear interest. Interest or profits, if any, on such investments shall accumulate in such account. Moneys in such account shall be applied by the Administrative Agent to reimburse each Issuing Bank for L/C Disbursements for which such Issuing Bank has not been reimbursed and, to the extent not so applied, shall be held for the satisfaction of the reimbursement obligations of the Borrower for the Revolving L/C Exposure at such time or, if the maturity of the Loans has been accelerated (but subject to the consent of the Revolving Facility Lenders with Revolving L/C Exposure representing greater than 50% of the total Revolving L/C Exposure), be applied to satisfy other obligations of the Borrower under this Agreement. If the Borrower is required to provide an amount of cash collateral hereunder as a result of the occurrence of an Event of Default, such amount (to the extent not applied as aforesaid) shall be returned to the Borrower within three Business Days after all Events of Default have been cured or waived.

(k) Additional Issuing Banks. From time to time, the Borrower may by notice to the Administrative Agent designate additional Lenders as an Issuing Bank each of which agrees (in its sole discretion) to act in such capacity and is reasonably satisfactory to the Administrative Agent. Each such additional Issuing Bank shall execute a counterpart of this Agreement upon the approval of the

41

Administrative Agent (which approval shall not be unreasonably withheld) and shall thereafter be an Issuing Bank hereunder for all purposes.

(l) Reporting. Unless otherwise requested by the Administrative Agent, each Issuing Bank shall (i) provide to the Administrative Agent copies of any notice received from the Borrower pursuant to [Section 2.05\(b\)](#) no later than the next Business Day after receipt thereof and (ii) report in writing to the Administrative Agent (A) on or prior to each Business Day on which such Issuing Bank expects to issue, amend, renew or extend any Letter of Credit, the date of such issuance, amendment, renewal or extension, and the aggregate face amount of the Letters of Credit to be issued, amended, renewed or extended by it and outstanding after giving effect to such issuance, amendment, renewal or extension (and whether the amount thereof changed), and the Issuing Bank shall be permitted to issue, amend, renew or extend such Letter of Credit if the Administrative Agent shall not have advised the Issuing Bank that such issuance, amendment renewal or extension would not be in conformity with the requirements of this Agreement, (B) on each Business Day on which such Issuing Bank makes any L/C Disbursement, the date of such L/C Disbursement and the amount of such L/C Disbursement and (C) on any other Business Day, such other information as the Administrative Agent shall reasonably request, including but not limited to prompt verification of such information as may be requested by the Administrative Agent.

SECTION 2.06. Funding of Borrowings. (a) Each Lender shall make each Loan to be made by it hereunder on the proposed date thereof by wire transfer of immediately available funds by 12:00 p.m., Local Time, to the account of the Administrative Agent most recently designated by it for such purpose by notice to the Lenders; provided that Swingline Loans shall be made as provided in [Section 2.04](#). The Administrative Agent will make the proceeds of such Loans available to the Borrower by promptly crediting the amounts so received, in like funds, to an account designated by the Borrower in the applicable Borrowing Request; provided that ABR Revolving Loans and Swingline Borrowings made to finance the reimbursement of a L/C Disbursement and reimbursements as provided in [Section 2.05\(e\)](#) shall be remitted by the Administrative Agent to the applicable Issuing Bank.

(b) Unless the Administrative Agent shall have received notice from a Lender prior to the proposed date of any Borrowing that such Lender will not make available to the Administrative Agent such Lender's share of such Borrowing, the Administrative Agent may assume that such Lender has made such share available on such date in accordance with paragraph (a) of this Section and may, in reliance upon such assumption, make available to the Borrower a corresponding amount. In such event, if a Lender has not in fact made its share of the applicable Borrowing available to the Administrative Agent, then the applicable Lender and the Borrower severally agree to pay to the Administrative Agent forthwith on demand (without duplication) such corresponding amount with interest thereon, for each day from and including the date such amount is made available to the Borrower to but excluding the date of payment to the Administrative Agent, at (i) in the case of such Lender, the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation or (ii) in the case of the Borrower, the interest rate applicable to ABR Loans. If such Lender pays such amount to the Administrative Agent, then such amount shall constitute such Lender's Loan included in such Borrowing.

SECTION 2.07. Interest Elections. (a) Each Borrowing initially shall be of the Type specified in the applicable Borrowing Request and, in the case of a Eurocurrency Borrowing, shall have an initial Interest Period as specified in such Borrowing Request. Thereafter, the Borrower may elect to convert such Borrowing to a different Type or to continue such Borrowing and, in the case of a Eurocurrency Borrowing, may elect Interest Periods therefor, all as provided in this Section. The Borrower may elect different options with respect to different portions of the affected Borrowing, in which case each such portion shall be allocated ratably among the Lenders holding the Loans comprising

42

such Borrowing, and the Loans comprising each such portion shall be considered a separate Borrowing. This Section shall not apply to Swingline Borrowings, which may not be converted or continued.

(b) To make an election pursuant to this Section, the Borrower shall notify the Administrative Agent of such election by telephone by the time that a Borrowing Request would be required under [Section 2.03](#) if the Borrower were requesting a Borrowing of the Type resulting from such election to be made on the effective date of such election. Each such telephonic Interest Election Request shall be irrevocable and shall be confirmed promptly (but in any event on the same Business Day) by hand delivery or fax to the Administrative Agent of a written Interest Election Request in the form of Exhibit D and signed by the Borrower.

(c) Each telephonic and written Interest Election Request shall specify the following information in compliance with Section 2.02:

- (i) the Borrowing to which such Interest Election Request applies and, if different options are being elected with respect to different portions thereof, the portions thereof to be allocated to each resulting Borrowing (in which case the information to be specified pursuant to clauses (iii) and (iv) below shall be specified for each resulting Borrowing);
- (ii) the effective date of the election made pursuant to such Interest Election Request, which shall be a Business Day;
- (iii) whether the resulting Borrowing is to be an ABR Borrowing or a Eurocurrency Borrowing; and
- (iv) if the resulting Borrowing is a Eurocurrency Borrowing, the Interest Period to be applicable thereto after giving effect to such election, which shall be a period contemplated by the definition of the term "Interest Period".

(d) Promptly following receipt of an Interest Election Request, the Administrative Agent shall advise each Lender to which such Interest Election Request relates of the details thereof and of such Lender's portion of each resulting Borrowing.

(e) If the Borrower fails to deliver a timely Interest Election Request with respect to a Eurocurrency Borrowing prior to the end of the Interest Period applicable thereto, then, unless such Borrowing is repaid as provided herein, at the end of such Interest Period such Borrowing shall be converted to an ABR Borrowing. Notwithstanding any contrary provision hereof, if an Event of Default has occurred and is continuing and the Administrative Agent, at the written request (including a request through electronic means) of the Required Lenders, so notifies the Borrower, then, so long as an Event of Default is continuing (i) no outstanding Borrowing may be converted to or continued as a Eurocurrency Borrowing and (ii) unless repaid, each Eurocurrency Borrowing shall be converted to an ABR Borrowing at the end of the Interest Period applicable thereto.

SECTION 2.08. Termination and Reduction of Commitments. (a) Unless previously terminated, the Revolving Facility Commitments shall terminate on the Revolving Facility Maturity Date. The parties hereto acknowledge that the Term Loan Commitments will terminate at the earlier to occur of (x) 5:00 p.m., Local Time, on the Closing Date and (y) the making of any Term Loans hereunder.

(b) The Borrower may at any time terminate, or from time to time reduce, the Commitments under any Facility; provided that (i) each reduction of the Commitments under any Facility

43

shall be in an amount that is an integral multiple of the Borrowing Multiple and not less than the Borrowing Minimum (or, if less, the remaining amount of the Revolving Facility Commitments) and (ii) the Borrower shall not terminate or reduce the Revolving Facility Commitments if, after giving effect to any concurrent prepayment of the Revolving Facility Loans in accordance with Section 2.11, the Revolving Facility Credit Exposure would exceed the total Revolving Facility Commitments.

(c) The Borrower shall notify the Administrative Agent of any election to terminate or reduce the Revolving Facility Commitments under paragraph (b) of this Section at least three Business Days prior to the effective date of such termination or reduction, specifying such election and the effective date thereof. Promptly following receipt of any notice, the Administrative Agent shall advise the applicable Lenders of the contents thereof. Each notice delivered by the Borrower pursuant to this Section shall be irrevocable; provided that a notice of termination of the Revolving Facility Commitments delivered by the Borrower may state that such notice is conditioned upon the effectiveness of other credit facilities, in which case such notice may be revoked by the Borrower (by notice to the Administrative Agent on or prior to the specified effective date) if such condition is not satisfied. Any termination or reduction of the Commitments shall be permanent. Each reduction of the Commitments under a Facility shall be made ratably among the Lenders in accordance with their respective Commitments under such Facility.

SECTION 2.09. Repayment of Loans; Evidence of Debt. (a) The Borrower hereby unconditionally promises to pay (i) to the Administrative Agent for the account of each Revolving Facility Lender the then unpaid principal amount of each Revolving Facility Loan on the Revolving Facility Maturity Date, (ii) to the Administrative Agent for the account of each Lender the then unpaid principal amount of each Term Loan of such Lender as provided in Section 2.10 and (iii) to the Swingline Lender the then unpaid principal amount of each Swingline Loan on the Revolving Facility Maturity Date. Once prepaid or repaid, Term Loans may not be reborrowed.

(b) Each Lender shall maintain in accordance with its usual practice an account or accounts evidencing the indebtedness of the Borrower to such Lender resulting from each Loan made by such Lender, including the amounts of principal and interest payable and paid to such Lender from time to time hereunder.

(c) The Administrative Agent (or its agent or sub-agent appointed by it) shall maintain the Register, as set forth in Section 9.04(b)(iv), in which it shall record (i) the amount of each Loan made hereunder, the Facility and Type thereof and the Interest Period (if any) applicable thereto, (ii) the amount of any principal or interest due and payable or to become due and payable from the Borrower to each Lender hereunder and (iii) any amount received by the Administrative Agent hereunder for the account of the Lenders and each Lender's share thereof.

(d) The entries made in the accounts maintained pursuant to paragraph (b) or (c) of this Section shall be prima facie evidence of the existence and amounts of the obligations recorded therein absent manifest error; provided that the failure of any Lender or the Administrative Agent to maintain such accounts or any error therein shall not in any manner affect the obligation of the Borrower to repay the Loans in accordance with the terms of this Agreement and, provided further that in the event of any inconsistency between the Register and any Lender's records, the recordations in the Register shall govern.

(e) Any Lender may request that Loans made by it be evidenced by a promissory note (a "Note"). In such event, the Borrower shall prepare, execute and deliver to such Lender a promissory note payable to the order of such Lender (or, if requested by such Lender, to such Lender and its registered assigns) and in a form approved by the Administrative Agent and the Borrower. Thereafter,

44

the Loans evidenced by such promissory note and interest thereon shall at all times (including after assignment pursuant to Section 9.04) be represented by one or more promissory notes in such form payable to the payee named therein.

SECTION 2.10. Repayment of Term Loans and Revolving Facility Loans. (a) Subject to the other paragraphs of this Section, the Borrower shall repay Term Borrowings on each date set forth below, or if any such date is not a Business Day, on the next succeeding Business Day, in the aggregate principal amount set forth below opposite such date (each such date being referred to as a "Term Loan Installment Date"):

provided that the final principal repayment installment of the Term Loans repaid on the Term Facility Maturity Date shall be, in any event, in an amount equal to the aggregate principal amount of all Term Loans outstanding on such date.

- (b) To the extent not previously paid, outstanding Revolving Facility Loans shall be due and payable on the Revolving Facility Maturity Date.

45

- (c) Prepayment of the Borrowings from:

(i) Net Proceeds pursuant to Section 2.11(b) and Excess Cash Flow pursuant to Section 2.11(c), shall be applied first to ABR Term Loans and then to Eurocurrency Term Loans, and to such Term Borrowings on a pro rata basis, with the application thereof in direct order of maturity, and

- (ii) any optional prepayments of the Term Loans pursuant to Section 2.11(a), shall be applied to the remaining installments thereof as directed by the Borrower.

(d) Prior to any optional repayment of any Borrowing under any Facility hereunder, the Borrower shall notify the Administrative Agent by telephone (confirmed by fax) of the Borrowings under the applicable Facility to be repaid not later than 12:00 p.m., Local Time, (i) in the case of an ABR Borrowing, one Business Day before the scheduled date of such repayment and (ii) in the case of a Eurocurrency Borrowing, three Business Days before the scheduled date of such repayment. Each repayment of a Borrowing (x) in the case of the Revolving Facility, shall be applied to the Revolving Facility Loans included in the repaid Borrowing such that each Revolving Facility Lender receives its ratable share of such repayment (based upon the respective Revolving Facility Credit Exposures of the Revolving Facility Lenders at the time of such repayment) and (y) in all other cases, shall be applied ratably to the Loans included in the repaid Borrowing. Notwithstanding anything to the contrary in the immediately preceding sentence, prior to any repayment of a Swingline Borrowing hereunder, the Borrower shall select the Borrowing or Borrowings to be repaid and shall notify the Administrative Agent by telephone (confirmed by fax) of such selection not later than 1:00 p.m., Local Time, on the scheduled date of such repayment. Repayments of Borrowings (other than repayments of ABR Revolving Facility Borrowings that are not made in connection with the termination or permanent reduction of the Revolving Facility Commitments) shall be accompanied by accrued interest on the amount repaid. In the event the Borrower fails to specify the Borrowings to which any such voluntary prepayment shall be applied, such prepayment shall be applied as follows:

first, to repay outstanding ABR Swing line Loans to the full extent thereof;

second, to repay outstanding ABR Revolving Facility Loans and then to outstanding Eurocurrency Revolving Facility Loans to the full extent thereof; and

third, to prepay the ABR Term Loans and then to the Eurocurrency Term Loans, in each case, on a pro rata basis (in accordance with the respective outstanding principal amounts thereof).

SECTION 2.11. Prepayment of Loans. (a) The Borrower shall have the right at any time and from time to time to prepay any Borrowing in whole or in part, without premium or penalty (but subject to Section 2.16), in an aggregate principal amount that is an integral multiple of the Borrowing Multiple and not less than the Borrowing Minimum or, if less, the amount outstanding, subject to prior notice in accordance with Section 2.10(d).

- (b) The Borrower shall apply, without duplication, all Net Proceeds within three Business Days of receipt thereof to prepay Term Borrowings in accordance with paragraphs (c) and (d) of Section 2.10.

- (c) Not later than 125 days after the end of each Excess Cash Flow Period, the Borrower shall prepay Term Borrowings in an amount equal to (i) an amount equal to the Required Percentage of Excess Cash Flow for such Excess Cash Flow Period minus (ii) the aggregate amount of Voluntary

46

Prepayments made during such Excess Cash Flow Period. Prepayments pursuant to the immediately preceding sentence shall be applied in accordance with paragraphs (c) and (d) of Section 2.10.

- (d) If at any time the aggregate amount of the Revolving Credit Exposure exceeds the total Revolving Facility Commitment then in effect, the Borrower will immediately prepay Swing Line Borrowings and Revolving Facility Borrowings and cash collateralize the Revolving L/C Exposure in an aggregate amount equal to such excess (with no reduction of the Revolving Facility Commitment).

- (e) Concurrently with any prepayment pursuant to Section 2.11(b), the Borrower shall deliver to the Administrative Agent a certificate of a Financial Officer demonstrating the calculation of the amount of the applicable Net Proceeds. In the event that the Borrower shall subsequently determine that the actual amount received exceeded the amount set forth in such certificate, the Borrower shall promptly make an additional prepayment of the Loans in an amount equal to such excess, and the Borrower shall concurrently therewith deliver to Administrative Agent a certificate of a Financial Officer demonstrating the derivation of such excess.

SECTION 2.12. Fees. (a) The Borrower agrees to pay to each Revolving Facility Lender (other than any Defaulting Lender), through the Administrative Agent, on the last day of March, June, September and December in each year, and on the date on which the Revolving Facility Commitments of all the Revolving Facility Lenders shall be terminated as provided herein, a commitment fee (a "Revolving Credit Commitment Fee") on the daily amount of the Available Unused Commitment of such Lender during the preceding quarter (or other period commencing with the Closing Date or ending with the date on which the last of the Commitments of such Lender shall be terminated) at the Revolving Credit Commitment Fee Rate. All Revolving Credit Commitment Fees shall be computed on the basis of the actual number of days elapsed in a year of 360 days. For the purpose of calculating any Revolving Facility Lender's Revolving Credit Commitment Fee, the outstanding Swingline Loans during the period for which such Revolving Facility Lender's Revolving Credit Commitment Fee is calculated shall be deemed to be zero. The Revolving Credit Commitment Fee due to each Lender shall commence to accrue on the Closing Date and shall cease to accrue on the date on which the last of the Revolving Facility Commitments of such Revolving Facility Lender shall be terminated as provided herein.

- (b) The Borrower from time to time agrees to pay (i) to each Revolving Facility Lender (other than any Defaulting Lender), through the Administrative Agent, on the last day of March, June, September and December of each year and on the date on which the Revolving Facility Commitments of all the Lenders shall be terminated as provided herein, a fee (an "L/C Participation Fee") on such Lender's Revolving Facility Percentage of the daily aggregate Revolving L/C Exposure (excluding the portion thereof attributable to unreimbursed L/C Disbursements), during the preceding quarter (or shorter period commencing with the Closing Date or ending with the Revolving Facility Maturity Date or the date on which the Revolving Facility Commitments shall be terminated) at the rate per annum equal to the Applicable Margin for Eurocurrency Revolving Facility Borrowings effective for each day in such period and (ii) to each Issuing Bank, for its own account, (x) on the last day of March, June, September and December of each year and on the date on which the Revolving Facility Commitments of all the Lenders shall be terminated as provided herein, a fronting fee in respect of each Letter of Credit issued by such Issuing Bank for the period from and including the date of issuance of such Letter of Credit to and including the termination of such Letter of Credit, computed at a rate equal to 0.125% of the daily average stated amount of such Letter of Credit, plus (y) in connection with the issuance, amendment or transfer of any such Letter of Credit or any L/C Disbursement thereunder, such Issuing Bank's customary documentary and processing charges (collectively, "Issuing Bank Fees"). All L/C Participation Fees and Issuing Bank Fees that are payable on a per annum basis shall be computed on the basis of the actual number of days elapsed in a year of 360 days.

47

- (c) The Borrower agrees to pay to the Administrative Agent, for the account of the Administrative Agent, the agency fees set forth in the Fee Letter, as amended, restated, supplemented or otherwise modified from time to time, at the times and in the amount specified therein (the "Administrative Agent Fees").

- (d) All Fees shall be paid on the dates due, in immediately available funds, to the Administrative Agent for distribution, if and as appropriate, among the Lenders, except that Issuing Bank Fees shall be paid directly to the applicable Issuing Banks. Once paid, none of the Fees shall be refundable under any circumstances.

SECTION 2.13. Interest. (a) The Loans comprising each ABR Borrowing (including each Swingline Loan) shall bear interest at the ABR plus the Applicable Margin.

- (b) The Loans comprising each Eurocurrency Borrowing shall bear interest at the Adjusted LIBO Rate for the Interest Period in effect for such Borrowing plus the Applicable Margin.

- (c) Notwithstanding the foregoing, if any principal of or interest on any Loan or any Fees or other amount payable by the Borrower hereunder is not paid when due, whether at stated maturity, upon acceleration or otherwise, such overdue amount shall bear interest, after as well as before judgment, at a rate per annum equal to (i) in the case of overdue principal of any Loan, 2% plus the rate otherwise applicable to such Loan as provided in the preceding paragraphs of this Section or (ii) in the case of any other amount, 2% plus the rate applicable to ABR Loans as provided in paragraph (a) of this Section.

(d) Accrued interest on each Loan shall be payable in arrears (i) on each Interest Payment Date for such Loan, (ii) in the case of Revolving Facility Loans, upon termination of the Revolving Facility Commitments and (iii) in the case of the Term Loans, on the Term Facility Maturity Date; provided that (i) interest accrued pursuant to paragraph (c) of this Section shall be payable on demand, (ii) in the event of any repayment or prepayment of any Loan (other than a prepayment of an ABR Revolving Loan prior to the end of the Availability Period), accrued interest on the principal amount repaid or prepaid shall be payable on the date of such repayment or prepayment and (iii) in the event of any conversion of any Eurocurrency Loan prior to the end of the current Interest Period therefor, accrued interest on such Loan shall be payable on the effective date of such conversion.

(e) All interest hereunder shall be computed on the basis of a year of 360 days, except that interest computed by reference to the ABR at times when the ABR is based on the Prime Rate shall be computed on the basis of a year of 365 days (or 366 days in a leap year), and in each case shall be payable for the actual number of days elapsed (including the first day but excluding the last day). The applicable ABR, Adjusted LIBO Rate or LIBO Rate shall be determined by the Administrative Agent, and such determination shall be conclusive absent manifest error.

SECTION 2.14. Alternate Rate of Interest. If prior to the commencement of any Interest Period for a Eurocurrency Borrowing:

(a) the Administrative Agent determines (which determination shall be conclusive absent manifest error) that adequate and reasonable means do not exist for ascertaining the Adjusted LIBO Rate or the LIBO Rate, as applicable, for such Interest Period; or

(b) the Administrative Agent is advised by the Required Lenders or the Majority Lenders under the Revolving Facility that the Adjusted LIBO Rate or the LIBO Rate, as applicable, for such Interest Period will not adequately and fairly reflect the cost to such Lenders of making or maintaining their Loans included in such Borrowing for such Interest Period;

48

then the Administrative Agent shall give written notice thereof to the Borrower and the Lenders as promptly as practicable thereafter and, until the Administrative Agent notifies the Borrower and the Lenders that the circumstances giving rise to such notice no longer exist, (i) any Interest Election Request that requests the conversion of any Borrowing to, or continuation of any Borrowing as, a Eurocurrency Borrowing shall be ineffective and such Borrowing shall be converted to or continued as on the last day of the Interest Period applicable thereto an ABR Borrowing, and (ii) if any Borrowing Request requests a Eurocurrency Borrowing, such Borrowing shall be made as an ABR Borrowing.

SECTION 2.15. Increased Costs. (a) If any Change in Law shall:

(i) impose, modify or deem applicable any reserve, special deposit or similar requirement against assets of, deposits with or for the account of, or credit extended by, any Lender (except any such reserve requirement reflected in the Adjusted LIBO Rate) or Issuing Bank; or

(ii) impose on any Lender or Issuing Bank or the London interbank market any other condition affecting this Agreement or Eurocurrency Loans made by such Lender or any Letter of Credit or participation therein;

and the result of any of the foregoing shall be to increase the cost to such Lender of making or maintaining any Eurocurrency Loan (or of maintaining its obligation to make any such Loan) or to increase the cost to such Lender or Issuing Bank of participating in, issuing or maintaining any Letter of Credit or to reduce the amount of any sum received or receivable by such Lender or Issuing Bank hereunder (whether of principal, interest or otherwise), then within thirty days of receipt of a certificate of the type specified in paragraph (c) below the Borrower will pay to such Lender or Issuing Bank, as applicable, such additional amount or amounts as will compensate such Lender or Issuing Bank, as applicable, for such additional costs incurred or reduction suffered.

(b) If any Lender or Issuing Bank determines that any Change in Law regarding capital requirements has or would have the effect of reducing the rate of return on such Lender's or Issuing Bank's capital or on the capital of such Lender's or Issuing Bank's holding company, if any, as a consequence of this Agreement or the Loans made by, or participations in Letters of Credit held by, such Lender, or the Letters of Credit issued by such Issuing Bank, to a level below that which such Lender or such Issuing Bank or such Lender's or such Issuing Bank's holding company could have achieved but for such Change in Law (taking into consideration such Lender's or such Issuing Bank's policies and the policies of such Lender's or such Issuing Bank's holding company with respect to capital adequacy), then from time to time within thirty days of receipt of a certificate of the type specified in paragraph (c) below the Borrower shall pay to such Lender or such Issuing Bank, as applicable, such additional amount or amounts as will compensate such Lender or such Issuing Bank or such Lender's or such Issuing Bank's holding company for any such reduction suffered.

(c) A certificate of a Lender or an Issuing Bank setting forth in reasonable detail the calculation of the amount or amounts necessary to compensate such Lender or Issuing Bank or its holding company, as applicable, as specified in paragraph (a) or (b) of this Section shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay such Lender or Issuing Bank, as applicable, the amount shown as due on any such certificate within 30 days after receipt thereof.

(d) Promptly after any Lender or any Issuing Bank has determined that it will make a request for increased compensation pursuant to this Section 2.15, such Lender or Issuing Bank shall notify the Borrower thereof. Failure or delay on the part of any Lender or Issuing Bank to demand compensation pursuant to this Section shall not constitute a waiver of such Lender's or Issuing Bank's

49

right to demand such compensation; provided that the Borrower shall not be required to compensate a Lender or an Issuing Bank pursuant to this Section for any increased costs or reductions incurred more than 90 days prior to the date that such Lender or Issuing Bank, as applicable, notifies the Borrower of the Change in Law giving rise to such increased costs or reductions and of such Lender's or Issuing Bank's intention to claim compensation therefor; provided, further, that, if the Change in Law giving rise to such increased costs or reductions is retroactive, then the 90-day period referred to above shall be extended to include the period of retroactive effect thereof

(e) This Section 2.15 shall not apply to Taxes, which shall be exclusively governed by Section 2.17.

SECTION 2.16. Break Funding Payments. In the event of (a) the payment of any principal of any Eurocurrency Loan other than on the last day of an Interest Period applicable thereto (including as a result of an Event of Default), (b) the conversion of any Eurocurrency Loan other than on the last day of the Interest Period applicable thereto, (c) the failure to borrow, convert, continue or prepay any Eurocurrency Loan on the date specified in any notice delivered pursuant hereto or (d) the assignment of any Eurocurrency Loan other than on the last day of the Interest Period applicable thereto as a result of a request by the Borrower pursuant to Section 2.19, then, in any such event, the Borrower shall compensate each Lender for the loss, cost and expense attributable to such event (excluding loss of margin). A certificate of any Lender setting forth any amount or amounts that such Lender is entitled to receive pursuant to this Section shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay such Lender the amount shown as due on any such certificate within 30 days after receipt thereof.

SECTION 2.17. Taxes. (a) Any and all payments by or on account of any obligation of any Loan Party hereunder shall be made free and clear of and without deduction or withholding for any Indemnified Taxes or Other Taxes; provided that if a Loan Party shall be required to deduct any Indemnified Taxes or Other Taxes from such payments, then (i) the sum payable shall be increased as necessary so that after making all required deductions (including deductions applicable to additional sums payable under this Section) the Administrative Agent, any Lender or any Issuing Bank, as applicable, receives an amount equal to the sum it would have received had no such deductions been made, (ii) such Loan Party shall make such deductions and (iii) such Loan Party shall timely pay the full amount deducted to the relevant Governmental Authority in accordance with applicable law.

(b) In addition, the Loan Parties shall pay any Other Taxes to the relevant Governmental Authority in accordance with applicable law.

(c) Each Loan Party shall indemnify the Administrative Agent, each Lender and each Issuing Bank, within 10 days after written demand therefor, for the full amount of any Indemnified Taxes or Other Taxes paid by the Administrative Agent, such Lender or such Issuing Bank, as applicable, on or with respect to any payment by or on account of any obligation of such Loan Party hereunder (including Indemnified Taxes or Other Taxes imposed or asserted on or attributable to amounts payable under this Section) and any penalties, interest and reasonable expenses arising therefrom or with respect thereto. A certificate as to the amount of such payment or liability, prepared in good faith and delivered to such Loan Party by a Lender or an Issuing Bank, or by the Administrative Agent on its own behalf, on behalf of another Agent or on behalf of a Lender or an Issuing Bank, shall be conclusive absent manifest error.

(d) As soon as practicable after any payment of Indemnified Taxes or Other Taxes by a Loan Party to a Governmental Authority, such Loan Party shall deliver to the Administrative Agent the original or a certified copy of a receipt issued by such Governmental Authority evidencing such payment,

50

a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to the Administrative Agent.

(e) Each Foreign Lender shall deliver to the Borrower and the Administrative Agent (in such number of copies as shall be reasonably requested by the recipient) on the date on which such Foreign Lender becomes a Lender under this Agreement, whichever of the following is applicable: (i) duly completed copies of Internal Revenue Service Form W-8BEN (or any subsequent versions thereof or successors thereto), claiming eligibility for benefits of an income tax treaty to which the United States of America is a party, (ii) duly completed copies of Internal Revenue Service Form W-8ECI (or any

subsequent versions thereof or successors thereto), (iii) in the case of a Foreign Lender claiming the benefits of the exemption for portfolio interest under Section 871(h) or 881(c) of the Code, (x) a certificate to the effect that such Foreign Lender is not (A) a "bank" within the meaning of Section 881(c)(3)(A) of the Code, (B) a "10 percent shareholder" of the Borrower within the meaning of Section 871(h)(3) or 881(c)(3)(B) of the Code, or (C) a "controlled foreign corporation" described in Section 881(c)(3)(C) of the Code and (y) duly completed copies of Internal Revenue Service Form W-8BEN (or any subsequent versions thereof or successors thereto) or (iv) any other form prescribed by applicable law as a basis for claiming exemption from or a reduction in United States federal withholding tax duly completed together with such supplementary documentation as may be prescribed by applicable law to permit the Borrower to determine the withholding or deduction required to be made. Each Foreign Lender shall promptly notify the Borrower and the Administrative Agent at any time it determines that it is no longer in a position to provide any previously delivered certificate to the Borrower (or any other form of certification adopted by the United States of America or other taxing authorities for such purpose) and shall deliver updated forms and/or certifications promptly upon the inaccuracy or invalidity of any previously delivered form or certificate. In addition, each Lender that is not a Foreign Lender shall deliver to the Borrower and the Administrative Agent two copies of Internal Revenue Service Form W-9 (or any subsequent versions thereof or successors thereto) on or before the date such Lender becomes a party and upon the expiration or inaccuracy of any form previously delivered by such Lender. Notwithstanding any other provision of this paragraph, a Lender shall not be required to deliver any form pursuant to this paragraph that such Lender is not legally able to deliver.

(f) If the Administrative Agent or a Lender receives a refund of any Indemnified Taxes or Other Taxes as to which it has been indemnified by a Loan Party or with respect to which such Loan Party has paid additional amounts pursuant to this Section 2.17, it shall pay over such refund to such Loan Party (but only to the extent of indemnity payments made, or additional amounts paid, by such Loan Party under this Section 2.17 with respect to the Indemnified Taxes or Other Taxes giving rise to such refund), net of all out-of-pocket expenses of the Administrative Agent or such Lender (including any Taxes imposed with respect to such refund) as is determined by the Administrative Agent or Lender and in its sole discretion, and without interest (other than any interest paid by the relevant Governmental Authority with respect to such refund); provided that such Loan Party, upon the request of the Administrative Agent or such Lender, agrees to repay as soon as reasonably practicable the amount paid over to such Loan Party (plus any penalties, interest or other charges imposed by the relevant Governmental Authority) to the Administrative Agent or such Lender in the event the Administrative Agent or such Lender is required to repay such refund to such Governmental Authority. This Section 2.17(f) shall not be construed to require the Administrative Agent or any Lender to make available its Tax returns (or any other information relating to its Taxes which it deems confidential) to the Loan Parties or any other person.

SECTION 2.18. Payments Generally; Pro Rata Treatment; Sharing of Set-offs. (a) Unless otherwise specified, the Borrower shall make each payment required to be made by it hereunder (whether of principal, interest, fees or reimbursement of L/C Disbursements, or of amounts payable under Section 2.15, 2.16, or 2.17, or otherwise) prior to 2:00 p.m., Local Time, on the date when due, in immediately available funds, without condition or deduction for any defense, recoupment, set-off or

51

counterclaim. Any amounts received after such time on any date may, in the discretion of the Administrative Agent, be deemed to have been received on the next succeeding Business Day for purposes of calculating interest thereon. All such payments shall be made to the Administrative Agent to the applicable account designated to the Borrower by the Administrative Agent, except payments to be made directly to the applicable Issuing Bank or the Swingline Lender as expressly provided herein. The Administrative Agent shall distribute any such payments received by it for the account of any other person to the appropriate recipient promptly following receipt thereof. If any payment or performance obligation hereunder shall be due or required on a day that is not a Business Day, the date for payment or performance shall be extended to the next succeeding Business Day, and, in the case of any payment accruing interest, interest thereon shall be payable for the period of such extension. All payments hereunder shall be made in Dollars. Any payment required to be made by the Administrative Agent hereunder shall be deemed to have been made by the time required if the Administrative Agent shall, at or before such time, have taken the necessary steps to make such payment in accordance with the regulations or operating procedures of the clearing or settlement system used by the Administrative Agent to make such payment.

(b) If at any time insufficient funds are received by and available to the Administrative Agent from the Borrower to pay fully all amounts of principal, unreimbursed L/C Disbursements, interest and fees then due from the Borrower hereunder, such funds (except as otherwise provided in the Collateral Agreement with respect to the application of amounts realized from the Collateral) shall be applied (i) first, towards payment of interest and fees then due from the Borrower hereunder, ratably among the parties entitled thereto in accordance with the amounts of interest and fees then due to such parties, and (ii) second, towards payment of principal and unreimbursed L/C Disbursements then due from the Borrower hereunder, ratably among the parties entitled thereto in accordance with the amounts of principal and unreimbursed L/C Disbursements then due to such parties.

(c) If any Lender shall, by exercising any right of set-off or counterclaim or otherwise, obtain payment in respect of any principal of or interest on any of its Term Loans, Revolving Facility Loans or participations in L/C Disbursements or Swingline Loans resulting in such Lender receiving payment of a greater proportion of the aggregate amount of its Term Loans, Revolving Facility Loans and participations in L/C Disbursements and Swingline Loans and accrued interest thereon than the proportion received by any other Lender, then the Lender receiving such greater proportion shall purchase (for cash at face value) participations in the Term Loans, Revolving Facility Loans and participations in L/C Disbursements and Swingline Loans of other Lenders to the extent necessary so that the benefit of all such payments shall be shared by the Lenders ratably in accordance with the aggregate amount of principal of and accrued interest on their respective Term Loans, Revolving Facility Loans and participations in L/C Disbursements and Swingline Loans; provided that (i) if any such participations are purchased and all or any portion of the payment giving rise thereto is recovered, such participations shall be rescinded and the purchase price restored to the extent of such recovery, without interest, and (ii) the provisions of this paragraph (c) shall not be construed to apply to any payment made by the Borrower pursuant to and in accordance with the express terms of this Agreement or any payment obtained by a Lender as consideration for the assignment of or sale of a participation in any of its Loans or participations in L/C Disbursements to any assignee or participant, other than to the Borrower or any Subsidiary thereof (as to which the provisions of this paragraph (c) shall apply). The Borrower consents to the foregoing and agrees, to the extent it may effectively do so under applicable law, that any Lender acquiring a participation pursuant to the foregoing arrangements may exercise against the Borrower rights of set-off and counterclaim with respect to such participation as fully as if such Lender were a direct creditor of the Borrower in the amount of such participation.

(d) Unless the Administrative Agent shall have received notice from the Borrower prior to the date on which any payment is due to the Administrative Agent for the account of the Lenders or the

52

applicable Issuing Bank hereunder that the Borrower will not make such payment, the Administrative Agent may assume that the Borrower has made such payment on such date in accordance herewith and may, in reliance upon such assumption, distribute to the Lenders or the applicable Issuing Bank, as applicable, the amount due. In such event, if the Borrower has not in fact made such payment, then each of the Lenders or the applicable Issuing Bank, as applicable, severally agrees to repay to the Administrative Agent forthwith on demand the amount so distributed to such Lender or Issuing Bank with interest thereon, for each day from and including the date such amount is distributed to it to but excluding the date of payment to the Administrative Agent, at the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation.

(e) If any Lender shall fail to make any payment required to be made by it pursuant to Section 2.04(c), 2.05(d) or (e), 2.06(b) or 2.18(d), then the Administrative Agent may, in its discretion (notwithstanding any contrary provision hereof), apply any amounts thereafter received by the Administrative Agent for the account of such Lender to satisfy such Lender's obligations under such Sections until all such unsatisfied obligations are fully paid.

SECTION 2.19. Mitigation Obligations; Replacement of Lenders. (a) If any Lender requests compensation under Section 2.15, or if the Borrower is required to pay any additional amount to any Lender or any Governmental Authority for the account of any Lender pursuant to Section 2.17, then such Lender shall use reasonable efforts to designate a different Lending Office for funding or booking its Loans hereunder or to assign its rights and obligations hereunder to another of its offices, branches or Affiliates, if, in the reasonable judgment of such Lender, such designation or assignment (i) would eliminate or reduce amounts payable pursuant to Section 2.15 or 2.17, as applicable, in the future and (ii) would not subject such Lender to any material unreimbursed cost or expense and would not otherwise be disadvantageous to such Lender in any material respect. The Borrower hereby agrees to pay all reasonable costs and expenses incurred by any Lender in connection with any such designation or assignment.

(b) If any Lender requests compensation under Section 2.15, or if the Borrower is required to pay any additional amount to any Lender or any Governmental Authority for the account of any Lender pursuant to Section 2.17, or is a Defaulting Lender, or becomes an Affected Lender, then the Borrower may, at its sole expense and effort, upon notice to such Lender and the Administrative Agent, (i) terminate the Commitments of such Lender and repay all obligations of the Borrower owing to such Lender relating to the Loans and participations held by such Lender as of such termination date or (ii) require such Lender to assign and delegate, without recourse (in accordance with and subject to the restrictions contained in Section 9.04), all its interests, rights and obligations under this Agreement to an assignee that shall assume such obligations (which assignee may be another Lender, if a Lender accepts such assignment); provided that (i) the Borrower shall have received the prior written consent of the Administrative Agent, which consent shall not unreasonably be withheld, (ii) such Lender shall have received payment of an amount equal to the outstanding principal of its Loans and participations in L/C Disbursements and Swingline Loans, accrued interest thereon, accrued fees and all other amounts payable to it hereunder, from the assignee (to the extent of such outstanding principal and accrued interest and fees) or the Borrower (in the case of all other amounts) and (iii) in the case of any such assignment resulting from a claim for compensation under Section 2.15 or payments required to be made pursuant to Section 2.17, such assignment will result in a reduction in such compensation or payments. Nothing in this Section 2.19 shall be deemed to prejudice any rights that the Borrower may have against any Lender that is a Defaulting Lender.

(c) If any Lender (such Lender, a "Non-Consenting Lender") has failed to consent to a proposed amendment, waiver, discharge or termination which pursuant to the terms of Section 9.08

53

requires the consent of all of the Lenders affected and with respect to which the Required Lenders shall have granted their consent, then the Borrower shall have the right (unless such Non-Consenting Lender grants such consent) to replace such Non-Consenting Lender by (i) terminating the Commitments of such Lender and repaying all obligations of the Borrower owing to such Lender relating to the Loans and participations held by such Lender as of such termination date or (ii) requiring such Non-Consenting Lender to assign all or the affected portion of its Loans, and its Commitments hereunder to one or more

assignees reasonably acceptable to the Administrative Agent, provided that: (a) all Obligations of the Borrower owing to such Non-Consenting Lender being replaced shall be paid in full to such Non-Consenting Lender concurrently with such assignment, (b) the replacement Lender shall purchase the foregoing by paying to such Non-Consenting Lender a price equal to the principal amount thereof plus accrued and unpaid interest thereon, (c) in connection with any such assignment the Borrower, Administrative Agent, such Non-Consenting Lender shall otherwise comply with Section 9.04 and (d) the replacement Lender shall grant its consent with respect to the applicable proposed amendment, waiver, discharge or termination. Each Lender hereby grants to the Administrative Agent an irrevocable power of attorney (which power is coupled with an interest) to execute and deliver, on behalf of such Lender as assignor, any Assignment and Acceptance necessary to effectuate any assignment of such Lender's interests hereunder in the circumstances contemplated by this Section 2.19(c).

SECTION 2.20. Illegality. If any Lender reasonably determines that any Change in Law has made it unlawful, or that any Governmental Authority has asserted after the Closing Date that it is unlawful, for any Lender or its applicable Lending Office to make or maintain any Eurocurrency Loans, then, on notice thereof by such Lender to the Borrower through the Administrative Agent (at which time such Lender shall be deemed an "Affected Lender"), any obligations of such Affected Lender to make or continue Eurocurrency Loans or to convert ABR Borrowings to Eurocurrency Borrowings shall be suspended until such Affected Lender notifies the Administrative Agent and the Borrower that the circumstances giving rise to such determination no longer exist. Upon receipt of such notice, the Borrower shall upon demand from such Affected Lender (with a copy to the Administrative Agent), either convert all Eurocurrency Borrowings of such Affected Lender to ABR Borrowings, either on the last day of the Interest Period thereof, if such Affected Lender may lawfully continue to maintain such Eurocurrency Borrowings to such day, or immediately, if such Affected Lender may not lawfully continue to maintain such Loans. Upon any such prepayment or conversion, the Borrower shall also pay accrued interest on the amount so prepaid or converted.

SECTION 2.21. Incremental Extensions of Credit. Subject to the terms and conditions set forth herein, the Borrower may at any time and from time to time, request to add additional term loans and/or increase the Revolving Facility (the "Incremental Extensions of Credit") in minimum principal amounts of \$20.0 million, provided that (a) immediately prior to and after giving effect to any Incremental Facility Amendment (and the making of any Incremental Extensions of Credit pursuant thereto), no Default or Event of Default has occurred or is continuing or shall result therefrom and the Borrower shall be in compliance, on a Pro Forma Basis (including giving pro forma effect to any Incremental Facility Amendment (and the making of any Incremental Extensions of Credit pursuant thereto)), with the Total Leverage Ratio required by Section 6.10 and (b) the aggregate principal amount (or committed amount, if applicable) of all Incremental Extensions of Credit pursuant to this Section 2.21 shall not exceed (i) \$100.0 million minus (ii) the aggregate principal amount (or committed amount, if applicable) of "Incremental Extensions of Credit" (as defined in the Second Lien Credit Agreement). The Incremental Extensions of Credit shall rank pari passu in right of payment and right of security in respect of the Collateral with the Term Loans or the Revolving Loans, as applicable. In the case of additional term loans, other than amortization, pricing or maturity date, such additional term loans shall have the same terms as the Term Loans (the "Existing Term Loans") existing immediately prior to the effectiveness of an Incremental Facility Amendment (except as otherwise agreed by the Administrative Agent and Additional Lenders agreeing to provide a commitment in respect of such Incremental

54

Extension of Credit provided that any such agreement shall affect solely the terms of such Incremental Extension of Credit and not any other Loan or Borrowings or Commitments (or any other Lender) unless this Agreement has been amended in accordance with Section 9.08 without reference to this Section 2.21; provided that, without the prior written consent of the Required Lenders, (i) any increase in the Revolving Facility shall be on the terms described in this Section 2.21 and pursuant to the terms hereof otherwise applicable to the Revolving Facility, (ii) the Incremental Extensions of Credit shall not have a final maturity date earlier than the Term Loan Maturity Date or the Revolving Facility Maturity Date, as applicable, and (iii) in the case of additional term loans, Incremental Extensions of Credit shall not have a weighted average life that is shorter than that of the then-remaining weighted average life of the Term Loans. Any additional bank, financial institution, existing Lender or other person that elects to extend commitments to provide Incremental Extensions of Credit shall be reasonably satisfactory to the Borrower and the Administrative Agent (any such bank, financial institution or other person being called an "Additional Lender") and shall become a Lender under this Agreement, pursuant to an amendment (an "Incremental Facility Amendment") to this Agreement, giving effect to the modifications permitted by this Section 2.21, and, as appropriate, the other Loan Documents, executed by the Borrower, each Additional Lender, if any, and the Administrative Agent. Commitments in respect of Incremental Extensions of Credit shall become Commitments under this Agreement after giving effect to such Incremental Facility Amendment. An Incremental Facility Amendment providing for term loans may, without the consent of any other Lenders, effect such amendments to this Agreement and the other Loan Documents as may be reasonably necessary or appropriate, in the opinion of the Administrative Agent, to effect the provisions of this Section, and provided, however, the interest rates and fees applicable to any Incremental Extension of Credit shall be determined by the Borrower and the Additional Lenders (as defined below). The effectiveness of any Incremental Facility Amendment shall be subject to the satisfaction on the date thereof (each, an "Incremental Facility Closing Date") of each of the conditions set forth in Section 4.01 (it being understood that all references to "the date of such Borrowing" in such Section 4.01 shall be deemed to refer to the Incremental Facility Closing Date), and, except as otherwise specified in the applicable Incremental Facility Amendment, the Administrative Agent shall have received legal opinions, board resolutions and other closing documents and certificates reasonably requested by the Administrative Agent and consistent with those delivered on the Closing Date under Section 4.02. The proceeds of the Incremental Extensions of Credit may be used for any purpose not otherwise prohibited hereunder. Notwithstanding anything to the contrary in this Section 2.21, no existing Lender shall be obligated to provide Incremental Extensions of Credit.

(ii) Amend or modify, or permit the amendment or modification of, any provision of the Second Lien Loan Documents except to the extent not prohibited under the Intercreditor Agreement.

(c) Permit the Borrower or any Restricted Subsidiary to enter into any agreement or instrument that by its terms restricts (i) the payment of dividends or distributions or the making of cash advances to (or the repayment of cash advances from) the Borrower or any Restricted Subsidiary or (ii) the granting of Liens pursuant to the Security Documents, in each case other than those arising under any Loan Document, except, in each case, restrictions existing by reason of:

(K) customary net worth provisions contained in real property leases entered into by Subsidiaries of the Borrower, so long as the Borrower has determined in good faith that such net worth provisions could not reasonably be expected to impair the ability of the Borrower and its Subsidiaries to meet their ongoing obligations;

(L) any agreement in effect at the time such person becomes a Restricted Subsidiary, so long as such agreement was not entered into in contemplation of such person becoming a Restricted Subsidiary; or

(M) restrictions contained in any documents documenting Indebtedness of any Foreign Subsidiary permitted hereunder.

(i) EBITDA shall be increased, solely for the purpose of determining compliance with Section 6.10 and not for any other purpose under this Agreement (including taking any Restricted Action), by an amount equal to the Specified Equity Contribution; and

(ii) if, after giving effect to the foregoing recalculations, the Borrower shall then be in compliance with the requirements of the Total Leverage Ratio, the Borrower shall be deemed to have satisfied the requirements of the Total Leverage Ratio as of the relevant date of determination with the same effect as though there had been no failure to comply therewith at such date, and the applicable breach or default of the Total Leverage Ratio that had occurred shall be deemed cured for this purposes of this Agreement.

ARTICLE VIII

The Agents

SECTION 8.01. Appointment. Each Lender hereby irrevocably designates and appoints the Administrative Agent as the agent of such Lender under this Agreement and the other Loan Documents, and each such Lender irrevocably authorizes the Administrative Agent, in such capacity, to take such action on its behalf under the provisions of this Agreement and the other Loan Documents and to exercise such powers and perform such duties as are expressly delegated to the Administrative Agent by the terms of this Agreement and the other Loan Documents, together with such other powers as are reasonably incidental thereto. Notwithstanding any provision to the contrary elsewhere in this Agreement, the Administrative Agent shall not have any duties or responsibilities, except those expressly set forth herein, or any fiduciary relationship with any Lender, and no implied covenants, functions, responsibilities, duties, obligations or liabilities shall be read into this Agreement or any other Loan Document or otherwise exist against the Administrative Agent. Without limiting the generality of the foregoing, the Agents are hereby expressly authorized to execute any and all documents (including releases) with respect to the Collateral and the rights of the Secured Parties with respect thereto, as contemplated by and in accordance with the provisions of this Agreement and the Security Documents.

93

SECTION 8.02. Delegation of Duties. The Administrative Agent may execute any of its duties under this Agreement and the other Loan Documents by or through agents or attorneys-in-fact and shall be entitled to advice of counsel concerning all matters pertaining to such duties. The Administrative Agent shall not be responsible for the negligence or misconduct of any agents or attorneys-in-fact selected by it with reasonable care.

SECTION 8.03. Exculpatory Provisions. The Agents shall not have any duties or obligations except those expressly set forth in the Loan Documents. Neither any Agent nor any of their respective officers, directors, employees, agents, attorneys-in-fact or affiliates shall be (i) liable for any action lawfully taken or omitted to be taken by it or such person under or in connection with this Agreement or any other Loan Document (except to the extent that any of the foregoing are found by a final and nonappealable decision of a court of competent jurisdiction to have resulted from its or such person's own gross negligence or willful misconduct) or (ii) responsible in any manner to any of the Lenders for (or have any duty to ascertain or acquire into) any recitals, statements, representations or warranties made by any Loan Party or any officer thereof contained in this Agreement or any other Loan Document or in any certificate, report, statement or other document referred to or provided for in, or received by the Agents under or in connection with, this Agreement or any other Loan Document or for the value, validity, effectiveness, genuineness, enforceability or sufficiency of this Agreement or any other Loan Document or for any failure of any Loan Party a party thereto to perform its obligations hereunder or thereunder. The Agents shall not (x) be subject to any fiduciary or other implied duties regardless of whether a Default has occurred and is continuing and (y) except as expressly set forth in the Loan Documents, have any duty to disclose, nor shall it be liable for the failure to disclose, any information relating to Holdings, the Borrower or any Subsidiary that is communicated to or obtained by the bank serving as Administrative Agent or any of its affiliates in any capacity. The Agents shall not be under any obligation to any Lender to ascertain or to inquire as to the observance or performance of any of the agreements contained in, or conditions of, this Agreement or any other Loan Document, or to inspect the properties, books or records of any Loan Party.

SECTION 8.04. Reliance by Administrative Agent. The Administrative Agent shall be entitled to rely, and shall be fully protected in relying, upon any instrument, writing, resolution, notice, consent, certificate, affidavit, letter, fax, telex or teletype message, statement, order or other document or conversation believed by it to be genuine and correct and to have been signed, sent or made by the proper person or persons and upon advice and statements of legal counsel (including counsel to Holdings or the Borrower), independent accountants and other experts selected by the Administrative Agent. The Administrative Agent may deem and treat the payee of any Note as the owner thereof for all purposes unless a written notice of assignment, negotiation or transfer thereof shall have been filed with the Administrative Agent. The Administrative Agent shall be fully justified in failing or refusing to take any action under this Agreement or any other Loan Document unless it shall first receive such advice or concurrence of the Required Lenders (or, if so specified by this Agreement, all Lenders) as it deems appropriate or it shall first be indemnified to its satisfaction by the Lenders against any and all liability and expense that may be incurred by it by reason of taking or continuing to take any such action. The Administrative Agent shall in all cases be fully protected in acting, or in refraining from acting, under this Agreement and the other Loan Documents in accordance with a request of the Required Lenders (or, if so specified by this Agreement, all Lenders), and such request and any action taken or failure to act pursuant thereto shall be binding upon all the Lenders and all future holders of the Loans.

SECTION 8.05. Notice of Default. The Administrative Agent shall not be deemed to have knowledge or notice of the occurrence of any Default or Event of Default unless the Administrative Agent has received notice from a Lender, Holdings or the Borrower referring to this Agreement, describing such Default or Event of Default and stating that such notice is a "notice of default". In the event that the Administrative Agent receives such a notice, the Administrative Agent

94

shall give notice thereof to the Lenders. The Administrative Agent shall take such action with respect to such Default or Event of Default as shall be reasonably directed by the Required Lenders (or, if so specified by this Agreement, all Lenders); provided that unless and until the Administrative Agent shall have received such directions, the Administrative Agent may (but shall not be obligated to) take such action, or refrain from taking such action, with respect to such Default or Event of Default as it shall deem advisable in the best interests of the Lenders.

SECTION 8.06. Non-Reliance on Agents and Other Lenders. Each Lender expressly acknowledges that neither the Agents nor any of their respective officers, directors, employees, agents, attorneys-in-fact or affiliates have made any representations or warranties to it and that no act by any Agent hereafter taken, including any review of the affairs of a Loan Party or any affiliate of a Loan Party, shall be deemed to constitute any representation or warranty by any Agent to any Lender. Each Lender represents to the Agents that it has, independently and without reliance upon any Agent or any other Lender, and based on such documents and information as it has deemed appropriate, made its own appraisal of and investigation into the business, operations, property, financial and other condition and creditworthiness of the Loan Parties and their affiliates and made its own decision to make its Loans hereunder and enter into this Agreement. Each Lender also represents that it will, independently and without reliance upon any Agent or any other Lender, and based on such documents and information as it shall deem appropriate at the time, continue to make its own credit analysis, appraisals and decisions in taking or not taking action under this Agreement and the other Loan Documents, and to make such investigation as it deems necessary to inform itself as to the business, operations, property, financial and other condition and creditworthiness of the Loan Parties and their affiliates. Except for notices, reports and other documents expressly required to be furnished to the Lenders by the Administrative Agent hereunder, the Administrative Agent shall not have any duty or responsibility to provide any Lender with any credit or other information concerning the business, operations, property, condition (financial or otherwise), prospects or creditworthiness of any Loan Party or any affiliate of a Loan Party that may come into the possession of the Administrative Agent or any of its officers, directors, employees, agents, attorneys-in-fact or affiliates.

SECTION 8.07. Indemnification. The Lenders agree to indemnify each Agent in its capacity as such (to the extent not reimbursed by Holdings or the Borrower and without limiting the obligation of Holdings or the Borrower to do so), each in an amount equal to its pro rata share (based on its Commitments hereunder (or if such Commitments shall have expired or been terminated, in accordance with the respective principal amounts of its applicable outstanding Loans or participations in L/C Disbursements, as applicable)) thereof, from and against any and all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind whatsoever that may at any time (whether before or after the payment of the Loans) be imposed on, incurred by or asserted against such Agent in any way relating to or arising out of, the Commitments, this Agreement, any of the other Loan Documents or any documents contemplated by or referred to herein or therein or the transactions contemplated hereby or thereby or any action taken or omitted by such Agent under or in connection with any of the foregoing; provided that no Lender shall be liable for the payment of any portion of such liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements that are found by a final and nonappealable decision of a court of competent jurisdiction to have resulted from such Agent's gross negligence or willful misconduct. The agreements in this Section shall survive the payment of the Loans and all other amounts payable hereunder.

SECTION 8.08. Agent in Its Individual Capacity. Each Agent and its affiliates may make loans to, accept deposits from and generally engage in any kind of business with any Loan Party as though such Agent were not an Agent. With respect to its Loans made or renewed by it and with respect to any Letter of Credit issued or participated in by it, each Agent shall have the same rights and powers under this Agreement and the other Loan Documents as any Lender and may exercise the same as though

95

it were not an Agent, and the terms "Lender" and "Lenders" shall include each Agent in its individual capacity.

SECTION 8.09. Successor Administrative Agent. The Administrative Agent may resign as Administrative Agent upon 30 days' notice to the Lenders and the Borrower. If the Administrative Agent shall resign as Administrative Agent under this Agreement and the other Loan Documents, then the Required Lenders shall appoint from among the Lenders a successor agent for the Lenders, which successor agent shall (unless an Event of Default under Sections 7.01 (h) or (i)(i), (ii), (iii) or (iv) above shall have occurred and be continuing) be subject to approval by the Borrower (which

approval shall not be unreasonably withheld or delayed), whereupon such successor agent shall succeed to the rights, powers and duties of the Administrative Agent, and the term "Administrative Agent" shall mean such successor agent effective upon such appointment and approval, and the former Administrative Agent's rights, powers and duties as Administrative Agent shall be terminated, without any other or further act or deed on the part of such former Administrative Agent or any of the parties to this Agreement or any holders of the Loans. If no successor agent has accepted appointment as Administrative Agent by the date that is 30 days following a retiring Administrative Agent's notice of resignation, the retiring Administrative Agent's resignation shall nevertheless thereupon become effective, and the Lenders shall assume and perform all of the duties of the Administrative Agent hereunder until such time, if any, as the Required Lenders appoint a successor agent as provided for above; provided that nothing herein shall require that the Administrative Agent resign or retire from its role as collateral agent under any Security Document whether referred to therein as administrative agent, collateral agent or any analogous term therein. After any retiring Administrative Agent's resignation as Administrative Agent, the provisions of this Article VIII shall inure to its benefit and to the benefit of its officers, directors, employees, agents, attorneys-in-fact and affiliates as to any actions taken or omitted to be taken by it while it was Administrative Agent under this Agreement and the other Loan Documents.

SECTION 8.10. Syndication Agent and Documentation Agent. Neither the Syndication Agent nor the Documentation Agent shall have any duties or responsibilities hereunder in its capacity as such.

SECTION 8.11. Withholding Tax. To the extent required by any applicable law, the Administrative Agent may withhold from any interest payment to any Lender an amount equivalent to any applicable withholding tax. If the Internal Revenue Service or any other Governmental Authority asserts a claim that the Administrative Agent did not properly withhold tax from amounts paid to or for the account of any Lender because the appropriate form was not delivered or was not properly executed or because such Lender failed to notify the Administrative Agent of a change in circumstance which rendered the exemption from, or reduction of, withholding tax ineffective or for any other reason, such Lender shall indemnify the Administrative Agent fully for all amounts paid, directly or indirectly, by the Administrative Agent as tax or otherwise, including any penalties or interest and together with all expenses (including legal expenses, allocated internal costs and out-of-pocket expenses) incurred.

SECTION 8.12. Co-Collateral Agent; Separate Collateral Agent.

(a) At any time or from time to time, in order to comply with any applicable requirement of law, the Administrative Agent may appoint another bank or trust company or one or more other persons, either to act as co-agent or agents on behalf of the Administrative Agent and the other Secured Parties with such power and authority as may be necessary for the effectual operation of the provisions hereof and which may be specified in the instrument of appointment (which may, in the discretion of the Administrative Agent, include provisions for indemnification and similar protections of such co-agent or separate agent substantially the same as those contained herein). Each of the Borrower, for itself and on behalf of each Grantor (as defined in the Collateral Agreement), and each other party

96

hereto, accepts the appointment of Goldman Sachs Specialty Lending Group, L.P, as sub-collateral agent and mortgagee under each of the Mortgages. Notwithstanding anything to the contrary contained herein, every such agent, sub-collateral agent and every co-agent shall, to the extent permitted by law, be appointed and act and be such, subject to the condition that no power given hereby, or which is provided herein or in any other Loan Document to any such co-agent, sub-collateral agent or agent shall be exercised hereunder or thereunder by such co-agent or agent except jointly with, or with the consent in writing of, the Administrative Agent.

(c) All notices and other communications given to any party hereto in accordance with the provisions of this Agreement shall be deemed to have been given on the date of receipt if delivered by hand or overnight courier service, sent by fax or (to the extent permitted by paragraph (b) above) electronic means or on the date five Business Days after dispatch by certified or registered mail if mailed, in each case delivered, sent or mailed (properly addressed) to such party as provided in this Section 9.01 or in accordance with the latest unrevoked direction from such party given in accordance with this Section 9.01.

97

(d) Any party hereto may change its address or fax number for notices and other communications hereunder by notice to the other parties hereto.

SECTION 9.02. Survival of Agreement. All representations and warranties made by the Loan Parties herein and in the other Loan Documents shall be considered to have been relied upon by the Lenders and each Issuing Bank and shall survive the making of the Loans, the execution and delivery of the Loan Documents and the issuance of the Letters of Credit, and shall continue in full force and effect as long as the principal of or any accrued interest on any Loan or L/C Disbursement or any Fee or any other amount (other than obligations for taxes, costs, indemnifications, reimbursements, damages and other contingent liabilities in respect of which no claim or demand for payment has been made or, in the case of indemnifications, no notice has been given (or reasonably satisfactory arrangements have otherwise been made)) payable under this Agreement or any other Loan Document is outstanding and unpaid or any Letter of Credit is outstanding and so long as the Commitments have not been terminated. Without prejudice to the survival of any other agreements contained herein, obligations for taxes, costs, indemnifications, reimbursements, damages and other contingent liabilities contained herein (including pursuant to Sections 2.15, 2.17 and 9.05) shall survive the payment in full of the principal and interest hereunder, the expiration of the Letters of Credit, the termination of the Commitments or this Agreement limited in the manner set forth herein, or the invalidity or unenforceability of any term or provision of this Agreement or any other Loan Document.

SECTION 9.03. Binding Effect. This Agreement shall become effective when it shall have been executed by Holdings, the Borrower and the Administrative Agent and when the Administrative Agent shall have received copies hereof which, when taken together, bear the signatures of each of the other parties hereto, and thereafter shall be binding upon and inure to the benefit of Holdings, the Borrower, each Issuing Bank, the Administrative Agent and each Lender and their respective permitted successors and assigns.

SECTION 9.04. Successors and Assigns. (a) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns permitted hereby (including any Affiliate of the Issuing Bank that issues any Letter of Credit), except that (i) the Borrower may not assign or otherwise transfer any of its rights or obligations hereunder without the prior written consent of each Lender (and any attempted assignment or transfer by the Borrower without such consent shall be null and void) and (ii) no Lender may assign or otherwise transfer its rights or obligations hereunder except in accordance with this Section 9.04. Nothing in this Agreement, expressed or implied, shall be construed to confer upon any person (other than the parties hereto, their respective successors and assigns permitted hereby (including any Affiliate of the Issuing Bank that issues any Letter of Credit), Participants (to the extent provided in paragraph (c) of this Section 9.04), and, to the extent expressly contemplated hereby, the Related Parties of each of the Agents, the Issuing Bank and the Lenders) any legal or equitable right, remedy or claim under or by reason of this Agreement.

(b) (i) Subject to the conditions set forth in clause (ii) below, any Lender may assign to one or more Eligible Assignees (other than to any Disqualified Institution) all or a portion of its rights and obligations under this Agreement (including all or a portion of its Commitments and the Loans at the time owing to it) (provided, however, that pro rata assignments shall not be required and each assignment shall be of a uniform, and not varying, percentage of all rights and obligations under and in respect of any applicable Loan and any related Commitments) with the prior written consent (such consent not to be unreasonably withheld or delayed) of:

98

(A) the Borrower, provided that no consent of the Borrower shall be required for an assignment to an Affiliate of a Lender, or if an Event of Default under Section 7.01(b), (c), (h) or (i)(i), (ii), (iii) or (iv) has occurred and is continuing; and

(B) in the case of the Revolving Facility, the Issuing Bank and the Swingline Lender.

(ii) Assignments shall be subject to the following additional conditions:

(A) except in the case of an assignment to a Lender, an affiliate of a Lender or an Related Fund or an assignment of the entire remaining amount of the assigning Lender's Commitments or Loans under any Facility, the amount of the Commitments or Loans of the assigning Lender subject to each such assignment (determined as of the date the Assignment and Acceptance with respect to such assignment is delivered to the Administrative Agent) shall not be less than \$1.0 million in the case of Term Loans, and not less than \$5.0 million in the case of Revolving Facility Loans or Revolving Facility Commitments, unless each of the Borrower and the Administrative Agent otherwise consent, provided that (1) no such consent of the Borrower shall be required if an Event of Default under Section 7.01(b), (c), (h) or (i)(i), (ii), (iii) or (iv) has occurred and is continuing and (2) such amounts shall be aggregated in respect of each Lender and its Affiliates or Related Funds, if any.

(B) the parties to each assignment shall execute and deliver to the Administrative Agent an Assignment and Acceptance together with a processing and recordation fee of \$3,500; and

(C) the Eligible Assignee, if it shall not be a Lender, shall deliver to the Administrative Agent an Administrative Questionnaire and all applicable tax forms.

(iii) Subject to acceptance and recording thereof pursuant to clause (b)(v) below, from and after the effective date specified in each Assignment and Acceptance the Eligible Assignee thereunder shall be a party hereto and, to the extent of the interest assigned by such Assignment and Acceptance, have the rights and obligations of a Lender under this Agreement, and the assigning Lender thereunder shall, to the extent of the interest assigned by such Assignment and Acceptance, be released from its obligations under this Agreement (and, in the case of an Assignment and Acceptance covering all of the assigning Lender's rights and obligations under this Agreement, such Lender shall cease to be a party hereto but shall continue to be entitled to the benefits of Sections 2.15, 2.16, 2.17 and 9.05, as well as any Fees accrued for its account and not yet paid). Any assignment or transfer by a Lender of rights or obligations under this Agreement that does not comply with this Section 9.04 shall be treated for purposes of this Agreement as a sale by such Lender of a participation in such rights and obligations in accordance with paragraph (c) of this Section 9.04.

(iv) The Administrative Agent, acting for this purpose as an agent of the Borrower, shall maintain at one of its offices a copy of each Assignment and Acceptance delivered to it and a register for the recordation of the names and addresses of the Lenders, and the Commitments of, and principal amount of the Loans and Revolving L/C Exposure owing to, each Lender pursuant to the terms hereof from time to time (the "Register"). The entries in the Register shall be conclusive absent manifest error, and the Borrower, the Administrative Agent, the Issuing Bank and the Lenders may treat each person whose name is recorded in the Register pursuant to the terms hereof as a Lender hereunder for all purposes of this Agreement, notwithstanding notice to

99

the contrary. The Register shall be available for inspection by the Borrower, the Issuing Bank and any Lender (with respect to any entry related to such Lender's Loans), at any reasonable time and from time to time upon reasonable prior notice.

(v) Upon its receipt of a duly completed Assignment and Acceptance executed by an assigning Lender and an Eligible Assignee, the Eligible Assignee's completed Administrative Questionnaire (unless the Eligible Assignee shall already be a Lender hereunder) and any applicable tax forms, and any written consent to such assignment required by clause (i) above, the Administrative Agent shall accept such Assignment and Acceptance and record the information contained therein in the Register. No assignment, whether or not evidenced by a promissory note, shall be effective for purposes of this Agreement unless it has been recorded in the Register as provided in this clause (v).

(c) (i) Any Lender may, without the consent of the Borrower, the Swingline Lender, the Issuing Bank or the Administrative Agent, sell participations to one or more banks or other entities (other than to any Company Competitor) (a "Participant") in all or a portion of such Lender's rights and obligations under this Agreement (including all or a portion of its Commitments and the Loans owing to it); provided that (A) such Lender's obligations under this Agreement shall remain unchanged, (B) such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations and (C) the Borrower, the Administrative Agent, the Issuing Bank and the other Lenders shall continue to deal solely and directly with such Lender in connection with such Lender's rights and obligations under this Agreement. Any agreement pursuant to which a Lender sells such a participation shall provide that such Lender shall retain the sole right to enforce this Agreement and the other Loan Documents and to approve any amendment, modification or waiver of any provision of this Agreement and the other Loan Documents; provided that such agreement may provide that such Lender will not, without the consent of the Participant, agree to any amendment, modification or waiver that requires the consent of each Lender directly affected thereby pursuant to Section 9.04(a)(i) or clauses (i), (ii), (iii) or (vi) of the first proviso to Section 9.08(b). Subject to paragraph (c)(ii) of this Section 9.04, the Borrower agrees that each Participant shall be entitled to the benefits of Sections 2.15, 2.16 and 2.17 to the same extent as if it were a Lender and had acquired its interest by assignment pursuant to paragraph (b) of this Section 9.04. To the extent permitted by law, each Participant also shall be entitled to the benefits of Section 9.06 as though it were a Lender, provided such Participant shall be subject to Section 2.18(c) as though it were a Lender.

(ii) A Participant shall not be entitled to receive any greater payment under Section 2.15, 2.16 or 2.17 than the applicable Lender would have been entitled to receive with respect to the participation sold to such Participant, unless the sale of the participation to such Participant is made with the Borrower's prior written consent expressly acknowledging such Participant may receive a greater benefit. A Participant that would be a Foreign Lender if it were a Lender shall not be entitled to the benefits of Section 2.17 to the extent such Participant fails to comply with Section 2.17(e) as though it were a Lender.

(d) Any Lender may at any time, without the consent of or notice to the Administrative Agent or the Borrower, pledge or assign a security interest in all or any portion of its rights under this Agreement to secure obligations of such Lender, including any pledge or assignment to secure obligations to a Federal Reserve Bank, and this Section 9.04 shall not apply to any such pledge or assignment of a security interest; provided that no such pledge or assignment of a security interest shall release a Lender from any of its obligations hereunder or substitute any such pledgee or Eligible Assignee for such Lender as a party hereto.

100

(e) The Borrower, upon receipt of written notice from the relevant Lender, agrees to issue Notes to any Lender requiring Notes to facilitate transactions of the type described in paragraph (d) above.

(f) Notwithstanding the foregoing, any Conduit Lender may assign any or all of the Loans it may have funded hereunder to its designating Lender without the consent of the Borrower or the Administrative Agent. Each of Holdings, the Borrower, each Lender and the Administrative Agent hereby confirms that it will not institute against a Conduit Lender or join any other person in instituting against a Conduit Lender any bankruptcy, reorganization, arrangement, insolvency or liquidation proceeding under any state bankruptcy or similar law, for one year and one day after the payment in full of the latest maturing commercial paper note issued by such Conduit Lender; provided, however, that each Lender designating any Conduit Lender hereby agrees to indemnify, save and hold harmless each other party hereto and each Loan Party for any loss, cost, damage or expense arising out of its inability to institute such a proceeding against such Conduit Lender during such period of forbearance.

(g) If the Borrower wishes to replace the Loans or Commitments under any Facility with ones having different terms, it shall have the option, with the consent of the Administrative Agent and subject to at least three Business Days' advance notice to the Lenders under such Facility, instead of prepaying the Loans or reducing or terminating the Commitments to be replaced, to (i) require the Lenders under such Facility to assign such Loans or Commitments to the Administrative Agent or its designees and (ii) amend the terms thereof in accordance with Section 9.08 (with such replacement, if applicable, being deemed to have been made pursuant to Section 9.08(d)). Pursuant to any such assignment, all Loans and Commitments to be replaced shall be purchased at par (allocated among the Lenders under such Facility in the same manner as would be required if such Loans were being optionally prepaid or such Commitments were being optionally reduced or terminated by the Borrower), accompanied by payment of any accrued interest and fees thereon and any amounts owing pursuant to Section 9.05(b). By receiving such purchase price, the Lenders under such Facility shall automatically be deemed to have assigned the Loans or Commitments under such Facility pursuant to the terms of the form of Assignment and Acceptance attached hereto as Exhibit A, and accordingly no other action by such Lenders shall be required in connection therewith. The provisions of this paragraph (g) are intended to facilitate the maintenance of the perfection and priority of existing security interests in the Collateral during any such replacement.

SECTION 9.05. Expenses; Indemnity. (a) The Borrower agrees to pay (i) all reasonable out-of-pocket expenses (including Other Taxes) incurred by the Administrative Agent in connection with the preparation of this Agreement and the other Loan Documents, or by the Administrative Agent in connection with the syndication of the Commitments or the administration of this Agreement (including expenses incurred in connection with due diligence and initial and ongoing Collateral examination to the extent incurred with the reasonable prior approval of the Borrower and the reasonable fees, disbursements and charges for no more than one outside counsel and, if necessary one local counsel in each jurisdiction where Collateral is located) or in connection with the administration of this Agreement and any amendments, modifications or waivers of the provisions hereof or thereof (whether or not the Transactions hereby contemplated shall be consummated) and (ii) all reasonable out-of-pocket expenses incurred by the Administrative Agent or any Lender in connection with the enforcement or protection of their rights in connection with this Agreement and the other Loan Documents, in connection with the Loans made or the Letters of Credit issued hereunder (including the reasonable fees, charges and disbursements of Simpson Thacher & LLP, counsel for the Administrative Agent and the Joint Lead Arrangers, and, if necessary, the reasonable fees, charges and disbursements of one local counsel per relevant jurisdiction).

101

(b) The Borrower agrees to indemnify the Administrative Agent, the Joint Lead Arrangers, each Issuing Bank, each Lender and each of their respective Affiliates, successors and assigns and the directors, trustees, officers, employees, advisors, controlling persons and agents of each of the foregoing (each such person being called an "Indemnitee") against, and to hold each Indemnitee harmless from, any and all losses, claims, damages, liabilities and reasonable out-of-pocket costs and related expenses (including reasonable documented fees, charges and disbursements of Simpson Thacher & Bartlett LLP and, if necessary, one local counsel in each relevant jurisdiction to the Agents, taken as a whole, in each relevant jurisdiction) incurred by or asserted against any Indemnitee arising out of, relating to, or as a result of (i) the execution or delivery of this Agreement or any other Loan Document or any agreement or instrument contemplated hereby or thereby, the performance by the parties hereto and thereto of their respective obligations thereunder or the consummation of the Transactions and the other transactions contemplated hereby, (ii) the use of the proceeds of the Loans or the use of any Letter of Credit or (iii) any claim, litigation, investigation or proceeding relating to any of the foregoing, whether or not any Indemnitee is a party thereto, provided that such indemnity shall not, as to any Indemnitee, be available to the extent that such losses, claims, damages, liabilities or costs or related expenses (x) are determined by a judgment of a court of competent jurisdiction to have resulted by reason of the gross negligence, bad faith or willful misconduct of, or breach by, such Indemnitee (or its Related Parties), (y) arise out of any claim, litigation, investigation or proceeding brought by such Indemnitee (or its Related Parties) against another Indemnitee (or its Related Parties) (other than any claim, litigation, investigation or proceeding brought by or against the Administrative Agent, acting in its capacity as Administrative Agent) that does not involve any act or omission of the Borrower or any of its Affiliates and arises out of disputes among the Lenders and/or their transferees. Subject to and without limiting the generality of the foregoing sentence, the Borrower agrees to indemnify each Indemnitee against, and hold each Indemnitee harmless from, any and all losses, claims, damages, liabilities and reasonable out-of-pocket documented costs and reasonable out-of-pocket costs and related expenses, including reasonable counsel or consultant fees, charges and disbursements (limited to one counsel, plus, if necessary, one local counsel in each relevant jurisdiction), incurred by or asserted against any Indemnitee arising out of, in any way connected with, or as a result of (A) any claim related in any way to Environmental Laws and Holdings, the Borrower or any of their Subsidiaries, or (B) any actual or alleged presence, Release or threatened Release of Hazardous Materials at, under, on or from any Property, provided that such indemnity shall not, as to any Indemnitee, be available to the extent that such losses, claims, damages, liabilities or costs or related expenses are determined by a court of competent jurisdiction by judgment to have resulted from the gross negligence, bad faith or willful misconduct of, or breach by, such Indemnitee or any of its Related Parties. The Borrower shall not be liable for any settlement of any proceeding referred to in this Section 9.05 effected without the Borrower's written consent (such consent not to be unreasonably withheld or delayed); provided, however, that the Borrower shall indemnify the Indemnitees from and against any loss or liability by reason of such settlement if the Borrower was offered the right to assume the defense of such proceeding and did not assume such defense or such proceeding was settled with the written consent of the Borrower, subject to, in each case, the Borrower's right in this Section 9.05 to claim an exemption from such indemnity obligations. The Borrower shall indemnify the Indemnitees from and against any final judgment for the plaintiff in any proceeding referred to in this Section 9.05, subject to the Borrower's right in this Section 9.05 to claim an exemption from such indemnity obligations. The Borrower shall not, without the prior written consent of any Indemnitee, effect any settlement of any pending or threatened proceeding in respect of which such Indemnitee is a party and indemnity could have been sought hereunder by such Indemnitee unless such settlement (i) includes an unconditional release of such Indemnitee from all liability or claims that are the subject matter of such proceeding and (ii) does not include a statement as to or an admission of fault, culpability or a failure to act by or on behalf of any Indemnitee. To the extent permitted by applicable law, each party hereto hereby waives for itself (and, in the case of the Borrower, for each other Loan Party) any claim against any Loan Party, any Lender, any Agent and their respective affiliates, directors, employees, attorneys, agents or sub-agents, on any theory of liability, for special, indirect, consequential

102

or punitive damages (as opposed to direct or actual damages) (whether or not the claim therefor is based on contract, tort or duty imposed by any applicable legal requirement) arising out of, in connection with, as a result of, or in any way related to, this Agreement or any Loan Document or any agreement or instrument contemplated hereby or thereby or referred to herein or therein, the transactions contemplated hereby or thereby, any Loan or the use of the proceeds thereof or any act or omission or event occurring in connection therewith, and each party hereto (and in the case of the Borrower on behalf of each other Loan Party) hereby waive, release and agree not to sue upon any such claim or any such damages, whether or not accrued and whether or not known or suspected to exist in its favor. The provisions of this Section 9.05 shall remain operative and in full force and effect regardless of the expiration of the term of this Agreement, the consummation of the transactions contemplated hereby, the repayment of any of the Obligations, the termination of the Commitments, the expiration of any Letters of Credit, the invalidity or unenforceability of any term or provision of this Agreement or any other Loan Document, or any investigation made by or on behalf of the Administrative Agent, any Issuing Bank or any Lender. All amounts due under this Section 9.05 shall be payable on written demand therefor accompanied by reasonable documentation with respect to any reimbursement, indemnification or other amount requested.

(c) Except as expressly provided in Section 9.05(a) with respect to Other Taxes, which shall not be duplicative with any amounts paid pursuant to Section 2.17, this Section 9.05 shall not apply to Taxes.

SECTION 9.06. Right of Set-off. If an Event of Default shall have occurred and be continuing, each Lender and each Issuing Bank is hereby authorized at any time and from time to time, to the fullest extent permitted by law, to set off and apply any and all deposits (general or special, time or demand, provisional or final) at any time held and other indebtedness at any time owing by such Lender or such Issuing Bank to or for the credit or the account of Holdings, the Borrower or any Subsidiary Loan Party against any of and all the obligations of Holdings or the Borrower now or hereafter existing under this Agreement or any other Loan Document held by such Lender or such Issuing Bank, irrespective of whether or not such Lender or such Issuing Bank shall have made any demand under this Agreement or such other Loan Document and although the obligations may be unmaturred. The rights of each Lender and each Issuing Bank under this Section 9.06 are in addition to other rights and remedies (including other rights of set-off) that such Lender or such Issuing Bank may have.

SECTION 9.07. Applicable Law. THIS AGREEMENT AND THE OTHER LOAN DOCUMENTS (OTHER THAN LETTERS OF CREDIT AND AS EXPRESSLY SET FORTH IN OTHER LOAN DOCUMENTS) SHALL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE STATE OF NEW YORK. EACH LETTER OF CREDIT SHALL BE GOVERNED BY, AND SHALL BE CONSTRUED IN ACCORDANCE WITH, THE LAWS OR RULES DESIGNATED IN SUCH LETTER OF CREDIT, OR IF NO SUCH LAWS OR RULES ARE DESIGNATED, THE UNIFORM CUSTOMS AND PRACTICE FOR DOCUMENTARY CREDITS MOST RECENTLY PUBLISHED AND IN EFFECT, ON THE DATE SUCH LETTER OF CREDIT WAS ISSUED, BY THE INTERNATIONAL CHAMBER OF COMMERCE (THE "UNIFORM CUSTOMS") AND, AS TO MATTERS NOT GOVERNED BY THE UNIFORM CUSTOMS, THE LAWS OF THE STATE OF NEW YORK.

SECTION 9.08. Waivers; Amendment. (a) No failure or delay of the Administrative Agent, any Issuing Bank or any Lender in exercising any right or power hereunder or under any Loan Document shall operate as a waiver thereof, nor shall any single or partial exercise of any such right or power, or any abandonment or discontinuance of steps to enforce such a right or power, preclude any other or further exercise thereof or the exercise of any other right or power. The rights and remedies of the Administrative Agent, each Issuing Bank and the Lenders hereunder and under the other Loan Documents are cumulative and are not exclusive of any rights or remedies that they would

103

otherwise have. No waiver of any provision of this Agreement or any other Loan Document or consent to any departure by Holdings, the Borrower or any other Loan Party therefrom shall in any event be effective unless the same shall be permitted by paragraph (b) below, and then such waiver or consent shall be effective only in the specific instance and for the purpose for which given. No notice or demand on Holdings, the Borrower or any other Loan Party in any case shall entitle such person to any other or further notice or demand in similar or other circumstances.

(b) Except as provided in Section 2.21 with respect to an Incremental Facility Amendment, neither this Agreement nor any other Loan Document nor any provision hereof or thereof may be waived, amended or modified except (x) in the case of this Agreement, pursuant to an agreement or agreements in writing entered into by Holdings, the Borrower, the Administrative Agent and the Required Lenders and (y) in the case of any other Loan Document, pursuant to an agreement or agreements in writing entered into by each party thereto and the Administrative Agent and consented to by the Required Lenders; provided, however, that no such agreement shall

(i) decrease or forgive the principal amount of, or extend the final maturity of, or decrease the rate of interest on, any Loan or any L/C Disbursement, or extend the stated expiration of any Letter of Credit beyond the Revolving Facility Maturity Date, without the prior written consent of each Lender directly and adversely affected thereby; provided, that any amendment to the Total Leverage Ratio or the component definitions in this Agreement shall not constitute a reduction in the rate of interest for purposes of this clause (i),

(ii) increase or extend the Revolving Credit Commitment of any Lender or decrease the Revolving Credit Commitment Fees or L/C Participation Fees without the prior written consent of such Lender (it being understood that waivers or modifications of conditions precedent, covenants, Defaults or Events of Default or of a mandatory reduction in the aggregate Commitments shall not constitute an increase of the Commitments of any Lender),

(iii) extend or waive any Term Loan Installment Date or reduce the amount due on any Term Loan Installment Date or extend any date on which payment of interest on any Loan or any L/C Disbursement or any Fees is due, without the prior written consent of each Lender directly and adversely affected thereby,

(iv) amend or modify the provisions of Section 2.18(b) or (c) or 2.10(d) of this Agreement or Section 6.5 of the Collateral Agreement in a manner that would by its terms alter the pro rata sharing of payments required thereby, without the prior written consent of each Lender directly and adversely affected thereby,

(v) amend or modify the provisions of this Section 9.08, Section 9.04(a)(i) or the definition of the terms "Required Lenders", "Majority Lenders", without the prior written consent of each Lender directly and adversely affected thereby (it being understood that, with the consent of the Required Lenders, additional extensions of credit pursuant to this Agreement may be included in the determination of the Required Lenders on substantially the same basis as the Loans and Commitments are included on the Closing Date),

(vi) release all or substantially all the Collateral or release all or substantially all of the value of the Guarantees under the Collateral Agreement, unless, in the case of a Subsidiary Loan Party, all or substantially all the Equity Interests of such Subsidiary Loan Party is sold or otherwise disposed of in a transaction permitted by this Agreement, without the prior written consent of each Lender, or

104

(vii) amend, modify or waive Section 2.18(b) or (c) of this Agreement or the analogous provisions of any Security Document so as to alter the ratable treatment of Obligations arising under the Loan Documents and Obligations arising under Swap Agreements or the definition of "Lender Counterparty," "Swap Agreement," or "Obligations," in each case in a manner adverse to any Lender Counterparty with Obligations then outstanding without the written consent of any such Lender Counterparty,

provided, further, that no such agreement shall amend, modify or otherwise affect the rights or duties of the Administrative Agent, an Issuing Bank or the Swingline Lender hereunder without the prior written consent of the Administrative Agent, such Issuing Bank acting as such at the effective date of such agreement or the Swingline Lender, as applicable; provided, however, if an Affiliate of Holdings or any Permitted Investor shall be a Lender, the Loans held by such person shall be deemed to have been voted in the same manner as the Required Lenders (assuming for this purpose that the Loans held by such person were not outstanding other than in respect of Section 9.04(a)(ii), and clauses (i), (ii), (iii) or (iv) of the first proviso to this Section 9.08(b)). Each Lender shall be bound by any waiver, amendment or modification authorized by this Section 9.08 and any consent by any Lender pursuant to this Section 9.08 shall bind any assignee of such Lender.

(c) Without the consent of the Syndication Agent, the Documentation Agent or any Joint Lead Arranger or Lender or Issuing Bank, the Loan Parties and the Administrative Agent may (in their respective sole discretion, or shall, to the extent required by any Loan Document) enter into any amendment, modification or waiver of any Loan Document, or enter into any new agreement or instrument, to effect the granting, perfection, protection, expansion or enhancement of any security interest in any Collateral or additional property to become Collateral for the benefit of the Secured Parties, or as required by local law to give effect to, or protect any security interest for the benefit of the Secured Parties, in any property or so that the security interests therein comply with applicable law.

(d) Notwithstanding the foregoing, this Agreement may be amended (or amended and restated) with the written consent of the Required Lenders, the Administrative Agent and the Borrower (a) to add one or more additional credit facilities to this Agreement and to permit the extensions of credit from time to time outstanding thereunder and the accrued interest and fees in respect thereof to share ratably in the benefits of this Agreement and the other Loan Documents with the Term Loans and the Revolving Facility Loans and the accrued interest and fees in respect thereof and (b) to include appropriately the Lenders holding such credit facilities in any determination of the Required Lenders.

SECTION 9.09. Interest Rate Limitation. Notwithstanding anything herein to the contrary, if at any time the applicable interest rate on any Loan or participation in any L/C Disbursement, together with all fees and charges that are treated as interest under applicable law (collectively, the "Charges"), as provided for herein or in any other document executed in connection herewith, or otherwise contracted for, charged, received, taken or reserved by any Lender or any Issuing Bank, shall exceed the maximum lawful rate (the "Maximum Rate") that may be contracted for, charged, taken, received or reserved by such Lender in accordance with applicable law, the rate of interest payable hereunder, together with all Charges payable to such Lender or such Issuing Bank, shall be limited to the Maximum Rate, provided that such excess amount shall be paid to such Lender or such Issuing Bank on subsequent payment dates to the extent not exceeding the legal limitation.

SECTION 9.10. Entire Agreement. This Agreement, the other Loan Documents and the agreements regarding certain Fees referred to herein constitute the entire contract between the parties relative to the subject matter hereof. Any previous agreement among or representations from the parties or their Affiliates with respect to the subject matter hereof is superseded by this Agreement and the other Loan Documents. Notwithstanding the foregoing, the Fee Letter shall survive the execution and

105

delivery of this Agreement and remain in full force and effect. Nothing in this Agreement or in the other Loan Documents, expressed or implied, is intended to confer upon any party other than the parties hereto and thereto, and their respective successors and assigns permitted hereunder, any rights, remedies, obligations or liabilities under or by reason of this Agreement or the other Loan Documents.

SECTION 9.11. WAIVER OF JURY TRIAL. EACH OF THE PARTIES HERETO HEREBY AGREES TO WAIVE ITS RESPECTIVE RIGHTS TO A JURY TRIAL OF ANY CLAIM OR CAUSE OF ACTION BASED UPON OR ARISING HEREUNDER OR UNDER ANY OF THE OTHER LOAN DOCUMENTS OR ANY DEALINGS BETWEEN THEM RELATING TO THE SUBJECT MATTER OF THIS LOAN TRANSACTION OR THE LENDER/BORROWER RELATIONSHIP THAT IS BEING ESTABLISHED. THE SCOPE OF THIS WAIVER IS INTENDED TO BE ALL-ENCOMPASSING OF ANY AND ALL DISPUTES THAT MAY BE FILED IN ANY COURT AND THAT RELATE TO THE SUBJECT MATTER OF THIS TRANSACTION, INCLUDING CONTRACT CLAIMS, TORT CLAIMS, BREACH OF DUTY CLAIMS AND ALL OTHER COMMON LAW AND STATUTORY CLAIMS. EACH PARTY HERETO ACKNOWLEDGES THAT THIS WAIVER IS A MATERIAL INDUCEMENT TO ENTER INTO A BUSINESS RELATIONSHIP, THAT EACH HAS ALREADY RELIED ON THIS WAIVER IN ENTERING INTO THIS AGREEMENT, AND THAT EACH WILL CONTINUE TO RELY ON THIS WAIVER IN ITS RELATED FUTURE DEALINGS. EACH PARTY HERETO FURTHER WARRANTS AND REPRESENTS THAT IT HAS REVIEWED THIS WAIVER WITH ITS LEGAL COUNSEL AND THAT IT KNOWINGLY AND VOLUNTARILY WAIVES ITS JURY TRIAL RIGHTS FOLLOWING CONSULTATION WITH LEGAL COUNSEL. THIS WAIVER IS IRREVOCABLE, MEANING THAT IT MAY NOT BE MODIFIED EITHER ORALLY OR IN WRITING (OTHER THAN BY A MUTUAL WRITTEN WAIVER SPECIFICALLY REFERRING TO THIS SECTION 9.11 AND EXECUTED BY EACH OF THE PARTIES HERETO), AND THIS WAIVER SHALL APPLY TO ANY SUBSEQUENT AMENDMENTS, RENEWALS, SUPPLEMENTS OR MODIFICATIONS HERETO OR ANY OF THE OTHER LOAN DOCUMENTS OR TO ANY OTHER DOCUMENTS OR AGREEMENTS RELATING TO THE LOANS MADE HEREUNDER. IN THE EVENT OF LITIGATION, THIS AGREEMENT MAY BE FILED AS A WRITTEN CONSENT TO A TRIAL BY THE COURT.

SECTION 9.12. Severability. In the event any one or more of the provisions contained in this Agreement or in any other Loan Document should be held invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein and therein shall not in any way be affected or impaired thereby. The parties shall endeavor in good-faith negotiations to replace the invalid, illegal or unenforceable provisions with valid provisions the economic effect of which comes as close as possible to that of the invalid, illegal or unenforceable provisions.

SECTION 9.13. Counterparts. This Agreement may be executed in two or more counterparts, each of which shall constitute an original but all of which, when taken together, shall constitute but one contract, and shall become effective as provided in Section 9.03. Delivery of an executed counterpart to this Agreement by facsimile transmission shall be as effective as delivery of a manually signed original.

SECTION 9.14. Headings. Article and Section headings and the Table of Contents used herein are for convenience of reference only, are not part of this Agreement and are not to affect the construction of, or to be taken into consideration in interpreting, this Agreement.

SECTION 9.15. Jurisdiction; Consent to Service of Process. (a) Each of the parties hereto hereby irrevocably and unconditionally submits, for itself and its property, to the nonexclusive

106

jurisdiction of any New York State court or federal court of the United States of America sitting in New York City, and any appellate court from any thereof, in any action or proceeding arising out of or relating to this Agreement or the other Loan Documents, or for recognition or enforcement of any judgment, and each of the parties hereto hereby irrevocably and unconditionally agrees that all claims in respect of any such action or proceeding may be heard and determined in such New York State or, to the extent permitted by law, in such federal court. Each of the parties hereto agrees that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Nothing in this Agreement shall affect any right that any Lender, the Administrative Agent or any Issuing Bank may otherwise have to bring any action or proceeding relating to this Agreement or the other Loan Documents against Holdings, the Borrower or any Loan Party or their properties in the courts of any jurisdiction.

(b) Each of the parties hereto hereby irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection which it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this Agreement or the other Loan Documents in any New York State or federal court. Each of the parties hereto hereby irrevocably waives, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court.

(c) Each of the parties hereto agrees that service of all process in any such proceeding in any such court may be made by registered or certified mail, return receipt requested at its address provided in Section 9.01 agrees that service as so provided in is sufficient to confer personal jurisdiction over the applicable credit party in any such proceeding in any such court, and otherwise constitutes effective and binding service in every respect; and agrees that agents and lenders retain the right to serve process in any other manner permitted by law or to bring proceedings against any credit party in the courts of any other jurisdiction.

SECTION 9.16. Confidentiality. Each of the Lenders, each Issuing Bank and each of the Agents agrees that it shall maintain in confidence any information relating to Holdings, the Borrower and the other Loan Parties furnished to it by or on behalf of Holdings, the Borrower or the other Loan Parties (other than information that (a) has become generally available to the public other than as a result of a disclosure by such party, (b) has been independently developed by such Lender, such Issuing Bank or such Agent without violating this Section 9.16 or (c) was available to such Lender, such Issuing Bank or such Agent from a third party having, to such person's knowledge, no obligations of confidentiality to Holdings, the Borrower or any other Loan Party) and shall not reveal the same other than to its directors, trustees, officers, employees and advisors with a need to know or to any person that approves or administers the Loans on behalf of such Lender (so long as each such person shall have been instructed to keep the same confidential in accordance with this Section 9.16), except: (A) to the extent necessary to comply with law or any legal process or the requirements of any Governmental Authority, self-regulatory authorities (including the National Association of Insurance Commissioners) or of any securities exchange on which securities of the disclosing party or any affiliate of the disclosing party are listed or traded (in which case we will promptly notify you, in advance, to the extent permitted by applicable law or the rules governing the process requiring such disclosure) (B) as part of the reporting or review procedures to, or examinations by, Governmental Authorities or self-regulatory authorities, including the National Association of Insurance Commissioners or the National Association of Securities Dealers, Inc., (C) to its parent companies, affiliates, auditors, assignees, transferees and participants (so long as each such person shall have been instructed to keep the same confidential in accordance with provisions not less restrictive than this Section 9.16), (D) in order to enforce its rights under any Loan Document in a legal proceeding, (E) to any pledgee under Section 9.04(d) or any other prospective assignee of, or prospective Participant in, any of its rights under this Agreement (so long as such person shall have been instructed to keep the same confidential in accordance with this Section 9.16 or other

provisions at least as restrictive as this Section 9.16), (F) to any direct or indirect contractual counterparty in Swap Agreements or such contractual counterparty's professional advisor (so long as such contractual counterparty or professional advisor to such contractual counterparty agrees to be bound by the provisions of this Section 9.16), (G) disclosure to any rating agency when required by it (so long as such person shall have been instructed to keep the same confidential in accordance with this Section 9.16) and (H) with the consent of the Borrower. In addition, each Agent and each Lender may disclose the existence of this Agreement and the information about this Agreement to market data collectors, similar services providers to the lending industry, and service providers to the Agents and the Lenders in connection with the administration and management of this Agreement, the other Loan Documents any Swap Agreement to which a Lender Counterparty is a party.

SECTION 9.17. Release of Liens and Guarantees. In the event that any Loan Party conveys, sells, leases, assigns, transfers or otherwise disposes of any assets or all or any portion of any of the Equity Interests or assets of any Subsidiary Loan Party to a person that is not (and is not required to become) a Loan Party in each case in a transaction not prohibited by Section 6.05 or in connection with a Subsidiary Redesignation or in connection with a pledge of the Equity Interests of joint ventures permitted by Section 6.02, the Administrative Agent (or any co-agent, sub-collateral agent or other agent appointed pursuant to Section 8.12) shall promptly (and the Lenders hereby authorize the Administrative Agent to) take such action and execute any such documents as may be reasonably requested by Holdings or the Borrower and at the Borrower's expense to release any Liens created by any Loan Document in respect of such Equity Interests or assets, and, in the case of a disposition of the Equity Interests of any Subsidiary Loan Party in a transaction permitted by Section 6.05 and Section 8.12 or in connection with a Subsidiary Redesignation and as a result of which such Subsidiary Loan Party would cease to be a Subsidiary, terminate such Subsidiary Loan Party's obligations under its Guarantee. Any representation, warranty or covenant contained in any Loan Document relating to any such Equity Interests, asset or subsidiary of Holdings shall no longer be deemed to be made once such Equity Interests or asset is so conveyed, sold, leased, assigned, transferred or disposed of.

SECTION 9.18. USA PATRIOT Act. Each Lender hereby notifies the Borrower that pursuant to the requirements of the USA PATRIOT Act, it is required to obtain, verify and record information that identifies the Borrower, which information includes the name and address of the Borrower and other information that will allow such Lender to identify the Borrower in accordance with the USA PATRIOT Act.

SECTION 9.19. Marshalling; Payments Set Aside. Neither any Agent nor any Lender shall be under any obligation to marshal any assets in favor of any Loan Party or any other person or against or in payment of any or all of the Obligations. To the extent that any Loan Party makes a payment or payments to Administrative Agent or Lenders (or to Administrative Agent, on behalf of Lenders), or any Agent or Lenders enforce any security interests or exercise their rights of setoff, and such payment or payments or the proceeds of such enforcement or setoff or any part thereof are subsequently invalidated, declared to be fraudulent or preferential, set aside and/or required to be repaid to a trustee, receiver or any other party under any bankruptcy law, any other state or federal law, common law or any equitable cause, then, to the extent of such recovery, the obligation or part thereof originally intended to be satisfied, and all Liens, rights and remedies therefor or related thereto, shall be revived and continued in full force and effect as if such payment or payments had not been made or such enforcement or setoff had not occurred.

SECTION 9.20. Obligations Several; Independent Nature of Lenders' Rights. The obligations of Lenders hereunder are several and no Lender shall be responsible for the obligations or Commitment of any other Lender hereunder. Nothing contained herein or in any other Loan Document, and no action taken by Lenders pursuant hereto or thereto, shall be deemed to constitute Lenders as a

partnership, an association, a joint venture or any other kind of entity. The amounts payable at any time hereunder to each Lender shall be a separate and independent debt, and each Lender shall be entitled to protect and enforce its rights arising out hereof and it shall not be necessary for any other Lender to be joined as an additional party in any proceeding for such purpose.

SECTION 9.21. Electronic Execution of Assignments. The words "execution," "signed," "signature," and words of like import in any Assignment Agreement shall be deemed to include electronic signatures or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any applicable law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act.

ARTICLE I

For purposes hereof: "Prime Rate" shall mean the rate of interest per annum determined from time to time by JPMorgan Chase Bank, N.A. as its prime rate in effect at its principal office in New York, City and notified to the Borrower (the Prime Rate not being intended to be the lowest rate of interest charged by JPMorgan Chase Bank, N.A. in connection with extensions of credit to debtors). Any change in the ABR due to a change in the Prime Rate or the Federal Funds Effective Rate shall be effective as of the opening of business on the effective day of such change in the Prime Rate or the Federal Funds Effective Rate, respectively.

"ABR Borrowing" shall mean a Borrowing comprised of ABR Loans.

"ABR Loan" shall mean any ABR Term Loan.

"ABR Term Loan" shall mean any Term Loan bearing interest at a rate determined by reference to the ABR in accordance with the provisions of Article II.

"Additional Lender" shall have the meaning assigned to such term in Section 2.21.

"Adjusted LIBO Rate" shall mean, with respect to any Eurocurrency Borrowing for any Interest Period, an interest rate per annum equal to (a) the LIBO Rate in effect for such Interest Period divided by (b) one minus the Statutory Reserves applicable to such Eurocurrency Borrowing, if any.

"Administrative Agent" shall have the meaning assigned to such term in the introductory paragraph of this Agreement.

"Administrative Agent Fee Letter" shall mean the Fee Letter dated November 9, 2006 between the Borrower and the Administrative Agent.

"Administrative Agent Fees" shall have the meaning assigned to such term in Section 2.12(a).

"Administrative Questionnaire" shall mean an Administrative Questionnaire in the form of Exhibit B.

"Affected Lender" shall have the meaning assigned to such term in Section 2.20.

"Affiliate" shall mean, when used with respect to a specified person, another person that directly, or indirectly through one or more intermediaries, Controls or is Controlled by or is under common Control with the person specified; provided, however, no Agent or Lender shall be deemed to be an Affiliate of any Loan Party by virtue of its execution of this Agreement.

“Assignment and Acceptance” shall mean an assignment and acceptance entered into by a Lender and an assignee, and accepted by the Administrative Agent and the Borrower (if the Borrower’s consent is required by this Agreement), in the form of Exhibit A or such other form as shall be approved by the Administrative Agent.

“Available Basket Amount” at any date of determination, an amount (to the extent not otherwise applied prior to such date) equal to:

(a) the sum of (i) the Available Excess Cash Flow Amount, (ii) the cumulative amount of cash proceeds from the sale of Qualified Capital Stock of the Borrower after the Closing Date the proceeds of which have been received by the Borrower (other than such proceeds used for the purpose specified in Section 6.09(b) or for any Specified Equity Contribution) and (iii) the aggregate amount of Below Threshold Net Proceeds, minus

(b) the sum at the time of determination of:

(i) any amounts thereof used to make (A) Investments pursuant to Section 6.04(b) and (g), and (B) expenditures that would be Capital Expenditures but for paragraph (a) of the proviso to the definition thereof after the Closing Date and on or prior to the date of determination, and

2

(ii) the cumulative amount of dividends paid and distributions made pursuant to Section 6.06(e)(ii) (without duplication of amounts paid by the Borrower to Holdings which are then further distributed by Holdings under said section) after the Closing Date and on or prior to the date of determination.

“Available Excess Cash Flow Amount” shall mean, at any date of determination, (a) the sum of the amounts of Excess Cash Flow for all Excess Cash Flow Periods ending on or prior to such date minus (b) the sum at such date of (i) the aggregate amount of prepayments required to be made pursuant to Section 2.11(c) of the First Lien Credit Agreement through the date of determination and (ii) the aggregate amount of Voluntary Prepayments of First Lien Indebtedness and Voluntary Prepayments of Second Lien Indebtedness made for all Excess Cash Flow Periods ending on or prior to the date of determination; provided that, in the case of any Excess Cash Flow Period which has been completed and in respect of which the amount of Excess Cash Flow shall have been calculated as contemplated by Section 5.04(c), but the prepayment required pursuant to Section 2.11(c) of the First Lien Credit Agreement is not yet due and payable in accordance with the provisions of Section 2.11(c) of the First Lien Credit Agreement as of such date of determination, then the amount of Excess Cash Flow for such Excess Cash Flow Period and the amount of prepayments that will be so required to be made in respect of such Excess Cash Flow shall be included for purposes of this definition.

(b) Unless the Administrative Agent shall have received notice from a Lender prior to the proposed date of any Borrowing that such Lender will not make available to the Administrative Agent such Lender's share of such Borrowing, the Administrative Agent may assume that such Lender has made such share available on such date in accordance with paragraph (a) of this Section and may, in reliance upon such assumption, make available to the Borrower a corresponding amount. In such event, if a Lender has not in fact made its share of the applicable Borrowing available to the Administrative Agent, then the applicable Lender and the Borrower severally agree to pay to the Administrative Agent forthwith on demand (without duplication) such corresponding amount with interest thereon, for each day from and including the date such amount is made available to the Borrower to but excluding the date of payment to the Administrative Agent, at (i) in the case of such Lender, the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation or (ii) in the case of the Borrower, the interest rate applicable to ABR Loans. Notwithstanding any contrary provision hereof, if an Event of Default has occurred and is continuing and the Administrative Agent, at the written request (including a request through electronic means) of the Required Lenders, so notifies the Borrower, then, so long as an Event of Default is continuing (i) no outstanding Borrowing may be converted to or continued as a Eurocurrency Borrowing and (ii) unless repaid, each Eurocurrency Borrowing shall be converted to an ABR Borrowing at the end of the Interest Period applicable thereto.

Once prepaid or repaid, Term Loans may not be reborrowed.

(b) Each Lender shall maintain in accordance with its usual practice an account or accounts evidencing the indebtedness of the Borrower to such Lender resulting from each Loan made by such Lender, including the amounts of principal and interest payable and paid to such Lender from time to time hereunder.

(c) The Administrative Agent (or its agent or sub-agent appointed by it) shall maintain the Register, as set forth in Section 9.04(b)(iv), in which it shall record (i) the amount of each Loan made hereunder, the Facility and Type thereof and the Interest Period (if any) applicable thereto, (ii) the amount of any principal or interest due and payable or to become due and payable from the Borrower to each Lender hereunder and (iii) any amount received by the Administrative Agent hereunder for the account of the Lenders and each Lender's share thereof.

(d) The entries made in the accounts maintained pursuant to paragraph (b) or (c) of this Section shall be prima facie evidence of the existence and amounts of the obligations recorded therein absent manifest error; provided that the failure of any Lender or the Administrative Agent to maintain such accounts or any error therein shall not in any manner affect the obligation of the Borrower to repay the Loans in accordance with the terms of this Agreement and, provided further that in the event of any inconsistency between the Register and any Lender's records, the recordations in the Register shall govern.

34

(e) Any Lender may request that Loans made by it be evidenced by a promissory note (a "Note"). In such event, the Borrower shall prepare, execute and deliver to such Lender a promissory note payable to the order of such Lender (or, if requested by such Lender, to such Lender and its registered assigns) and in a form approved by the Administrative Agent and the Borrower.

Thereafter, the Loans evidenced by such promissory note and interest thereon shall at all times (including after assignment pursuant to Section 9.04) be represented by one or more promissory notes in such form payable to the payee named therein.

SECTION 2.10. Repayment of Term Loans. (a) The Borrower shall repay all Term Loans on the Maturity Date.

(b) [Reserved].

(c) Prepayment of the Borrowings from:

(i) Net Proceeds pursuant to Section 2.11(b) shall be applied first to ABR Term Loans and then to Eurocurrency Term Loans, and to such Term Borrowings on a pro rata basis, with the application thereof in direct order of maturity, and

(ii) any optional prepayments of the Term Loans pursuant to Section 2.11(a), shall be applied to the remaining installments thereof as directed by the Borrower.

(d) Prior to any optional repayment of any Borrowing hereunder, the Borrower shall notify the Administrative Agent by telephone (confirmed by fax) of the Borrowings to be repaid not later than 12:00 p.m., Local Time, (i) in the case of an ABR Borrowing, one Business Day before the scheduled date of such repayment and (ii) in the case of a Eurocurrency Borrowing, three Business Days before the scheduled date of such repayment. Each repayment of a Borrowing shall be applied ratably to the Loans included in the repaid Borrowing. Repayments of Borrowings shall be accompanied by accrued interest on the amount repaid. In the event the Borrower fails to specify the Borrowings to which any such prepayment shall be applied, such prepayment shall be applied to prepay the ABR Term Loans and then to the Eurocurrency Term Loans, in each case, on a pro rata basis (in accordance with the respective outstanding principal amounts thereof).

SECTION 2.11. Prepayment of Loans. (a) The Borrower shall have the right at any time and from time to time to prepay any Borrowing in whole or in part, without premium or penalty (but subject to Section 2.11(f) and Section 2.16), in an aggregate principal amount that is an integral multiple of the Borrowing Multiple and not less than the Borrowing Minimum or, if less, the amount outstanding, subject to prior notice in accordance with Section 2.10(d).

(b) To the extent not required to be used to prepay loans under the First Lien Credit Agreement, the Borrower shall apply, without duplication, all Net Proceeds within three Business Days of receipt thereof to prepay Term Borrowings in accordance with paragraphs (c) and (d) of Section 2.10.

(c) [Reserved].

(d) [Reserved].

(e) Concurrently with any prepayment pursuant to Section 2.11(b), the Borrower shall deliver to the Administrative Agent a certificate of a Financial Officer demonstrating the calculation of the amount of the applicable Net Proceeds. In the event that the Borrower shall subsequently determine that the actual amount received exceeded the amount set forth in such certificate, the Borrower shall

35

promptly make an additional prepayment of the Loans in an amount equal to such excess, and the Borrower shall concurrently therewith deliver to Administrative Agent a certificate of a Financial Officer demonstrating the derivation of such excess.

(f) In the event that the Term Loans are prepaid or repaid in whole or in part by the Borrower pursuant to Section 2.11(a) or made pursuant to Section 2.11(b) with Net Proceeds of the type described in clause (b) of the definition of Net Proceeds prior to the second anniversary of the Closing Date, the Borrower shall pay to Lenders, a prepayment premium on the amount so prepaid or repaid as follows: (i) 2.00% if such repayment occurs on or prior to the first anniversary of the Closing Date and (ii) 1.00% if such repayment occurs after the first anniversary of the Closing Date but on or before the second anniversary of the Closing Date.

(g) Notwithstanding the foregoing provisions of this Section 2.11, no mandatory prepayments shall be required pursuant to Section 2.11(b) to the extent that an amount equal to the applicable Net Proceeds is applied to prepay amounts outstanding under the First Lien Credit Agreement.

SECTION 2.12. Fees. (a) The Borrower agrees (i) to pay to the Administrative Agent, for the account of the Administrative Agent, the agency fees set forth in the Administrative Agent Fee Letter at the times and in the amount specified therein (the "Administrative Agent Fees") and (ii) to pay to the Collateral Agent, for the account of the Collateral Agent, such fees and expenses as may be agreed to from time to time between the Borrower and the Collateral Agent, when and as due (the "Collateral Agent Fees").

(b) All Fees shall be paid on the dates due, in immediately available funds, to (i) the Collateral Agent and (ii) the Administrative Agent for distribution, if and as appropriate, among the Lenders. Once paid, none of the Fees shall be refundable under any circumstances.

SECTION 2.13. Interest. (a) The Loans comprising each ABR Borrowing shall bear interest at the ABR plus the Applicable Margin.

(b) The Loans comprising each Eurocurrency Borrowing shall bear interest at the Adjusted LIBO Rate for the Interest Period in effect for such Borrowing plus the Applicable Margin.

(c) Notwithstanding the foregoing, if any principal of or interest on any Loan or any Fees or other amount payable by the Borrower hereunder is not paid when due, whether at stated maturity, upon acceleration or otherwise, such overdue amount shall bear interest, after as well as before judgment, at a rate per annum equal to (i) in the case of overdue principal of any Loan, 2% plus the rate otherwise applicable to such Loan as provided in the preceding paragraphs of this Section or (ii) in the case of any other amount, 2% plus the rate applicable to ABR Loans as provided in paragraph (a) of this Section.

(d) Accrued interest on each Loan shall be payable in arrears on each Interest Payment Date for such Loan on the Maturity Date; provided that (i) interest accrued pursuant to paragraph (c) of this Section shall be payable on demand, (ii) in the event of any repayment or prepayment of any Loan, accrued interest on the principal amount repaid or prepaid shall be payable on the date of such repayment or prepayment and (iii) in the event of any conversion of any Eurocurrency Loan prior to the end of the current Interest Period therefor, accrued interest on such Loan shall be payable on the effective date of such conversion.

(e) All interest hereunder shall be computed on the basis of a year of 360 days, except that interest computed by reference to the ABR at times when the ABR is based on the Prime Rate shall

36

be computed on the basis of a year of 365 days (or 366 days in a leap year), and in each case shall be payable for the actual number of days elapsed (including the first day but excluding the last day). The applicable ABR, Adjusted LIBO Rate or LIBO Rate shall be determined by the Administrative Agent, and such determination shall be conclusive absent manifest error.

SECTION 2.14. Alternate Rate of Interest. If prior to the commencement of any Interest Period for a Eurocurrency Borrowing:

(a) the Administrative Agent determines (which determination shall be conclusive absent manifest error) that adequate and reasonable means do not exist for ascertaining the Adjusted LIBO Rate or the LIBO Rate, as applicable, for such Interest Period; or

(b) the Administrative Agent is advised by the Required Lenders that the Adjusted LIBO Rate or the LIBO Rate, as applicable, for such Interest Period will not adequately and fairly reflect the cost to such Lenders of making or maintaining their Loans included in such Borrowing for such Interest Period;

then the Administrative Agent shall give written notice thereof to the Borrower and the Lenders as promptly as practicable thereafter and, until the Administrative Agent notifies the Borrower and the Lenders that the circumstances giving rise to such notice no longer exist, (i) any Interest Election Request that requests the conversion of any Borrowing to, or continuation of any Borrowing as, a Eurocurrency Borrowing shall be ineffective and such Borrowing shall be converted to or continued as on the last day of the Interest Period applicable thereto an ABR Borrowing, and (ii) if any Borrowing Request requests a Eurocurrency Borrowing, such Borrowing shall be made as an ABR Borrowing.

SECTION 2.15. Increased Costs. (a) If any Change in Law shall:

(i) impose, modify or deem applicable any reserve, special deposit or similar requirement against assets of, deposits with or for the account of, or credit extended by, any Lender (except any such reserve requirement reflected in the Adjusted LIBO Rate); or

(ii) impose on any Lender or the London interbank market any other condition affecting this Agreement or Eurocurrency Loans made by such Lender;

and the result of any of the foregoing shall be to increase the cost to such Lender of making or maintaining any Eurocurrency Loan (or of maintaining its obligation to make any such Loan) or to increase the cost to such Lender or to reduce the amount of any sum received or receivable by such Lender hereunder (whether of principal, interest or otherwise), then within thirty days of receipt of a certificate of the type specified in paragraph (c) below the Borrower will pay to such Lender such additional amount or amounts as will compensate such Lender for such additional costs incurred or reduction suffered.

(b) If any Lender determines that any Change in Law regarding capital requirements has or would have the effect of reducing the rate of return on such Lender's capital or on the capital of such Lender's holding company, if any, as a consequence of this Agreement or the Loans made by such Lender to a level below that which such Lender or such Lender's holding company could have achieved but for such Change in Law (taking into consideration such Lender's policies and the policies of such Lender's holding company with respect to capital adequacy), then from time to time within thirty days of receipt of a certificate of the type specified in paragraph (c) below the Borrower shall pay to such Lender such additional amount or amounts as will compensate such Lender or such Lender's holding company for any such reduction suffered.

37

(c) A certificate of a Lender setting forth in reasonable detail the calculation of the amount or amounts necessary to compensate such Lender or its holding company, as applicable, as specified in paragraph (a) or (b) of this Section shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay such Lender the amount shown as due on any such certificate within 30 days after receipt thereof.

(d) Promptly after any Lender has determined that it will make a request for increased compensation pursuant to this Section 2.15, such Lender shall notify the Borrower thereof. Failure or delay on the part of any Lender to demand compensation pursuant to this Section shall not constitute a waiver of such Lender's right to demand such compensation; provided that the Borrower shall not be required to compensate a Lender pursuant to this Section for any increased costs or reductions incurred more than 90 days prior to the date that such Lender notifies the Borrower of the Change in Law giving rise to such increased costs or reductions and of such Lender's intention to claim compensation therefor; provided, further, that, if the Change in Law giving rise to such increased costs or reductions is retroactive, then the 90-day period referred to above shall be extended to include the period of retroactive effect thereof

(e) This Section 2.15 shall not apply to Taxes, which shall be exclusively governed by Section 2.17.

SECTION 2.16. Break Funding Payments. In the event of (a) the payment of any principal of any Eurocurrency Loan other than on the last day of an Interest Period applicable thereto (including as a result of an Event of Default), (b) the conversion of any Eurocurrency Loan other than on the last day of the Interest Period applicable thereto, (c) the failure to borrow, convert, continue or prepay any Eurocurrency Loan on the date specified in any notice delivered pursuant hereto or (d) the assignment of any Eurocurrency Loan other than on the last day of the Interest Period applicable thereto as a result of a request by the Borrower pursuant to Section 2.19, then, in any such event, the Borrower shall compensate each Lender for the loss, cost and expense attributable to such event (excluding loss of margin). A certificate of any Lender setting forth any amount or amounts that such Lender is entitled to receive pursuant to this Section shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay such Lender the amount shown as due on any such certificate within 30 days after receipt thereof.

SECTION 2.17. Taxes. (a) Any and all payments by or on account of any obligation of any Loan Party hereunder shall be made free and clear of and without deduction or withholding for any Indemnified Taxes or Other Taxes; provided that if a Loan Party shall be required to deduct any Indemnified Taxes or Other Taxes from such payments, then (i) the sum payable shall be increased as necessary so that after making all required deductions (including deductions applicable to additional sums payable under this Section) the Administrative Agent or any Lender receives an amount equal to the sum it would have received had no such deductions been made, (ii) such Loan Party shall make such deductions and (iii) such Loan Party shall timely pay the full amount deducted to the relevant Governmental Authority in accordance with applicable law.

(b) In addition, the Loan Parties shall pay any Other Taxes to the relevant Governmental Authority in accordance with applicable law.

(c) Each Loan Party shall indemnify the Administrative Agent and each Lender, within 10 days after written demand therefor, for the full amount of any Indemnified Taxes or Other Taxes paid by the Administrative Agent, such Lender on or with respect to any payment by or on account of any obligation of such Loan Party hereunder (including Indemnified Taxes or Other Taxes imposed or asserted on or attributable to amounts payable under this Section) and any penalties, interest and

38

reasonable expenses arising therefrom or with respect thereto. A certificate as to the amount of such payment or liability, prepared in good faith and delivered to such Loan Party by a Lender or by the Administrative Agent on its own behalf, on behalf of another Agent or on behalf of a Lender, shall be conclusive absent manifest error.

(d) As soon as practicable after any payment of Indemnified Taxes or Other Taxes by a Loan Party to a Governmental Authority, such Loan Party shall deliver to the Administrative Agent the original or a certified copy of a receipt issued by such Governmental Authority evidencing such payment, a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to the Administrative Agent.

(e) Each Foreign Lender shall deliver to the Borrower and the Administrative Agent (in such number of copies as shall be reasonably requested by the recipient) on the date on which such Foreign Lender becomes a Lender under this Agreement, whichever of the following is applicable: (i) duly completed copies of Internal Revenue Service Form W-8BEN (or any subsequent versions thereof or successors thereto), claiming eligibility for benefits of an income tax treaty to which the United States of America is a party, (ii) duly completed copies of Internal Revenue Service Form W-8ECI (or any subsequent versions thereof or successors thereto), (iii) in the case of a Foreign Lender claiming the benefits of the exemption for portfolio interest under Section 871(h) or 881(c) of the Code, (x) a certificate to the effect that such Foreign Lender is not (A) a "bank" within the meaning of Section 881(c)(3)(A) of the Code, (B) a "10 percent shareholder" of the Borrower within the meaning of Section 871(h)(3) or 881(c)(3)(B) of the Code, or (C) a "controlled foreign corporation" described in Section 881(c)(3)(C) of the Code and (y) duly completed copies of Internal Revenue Service Form W-8BEN (or any subsequent versions thereof or successors thereto) or (iv) any other form prescribed by applicable law as a basis for claiming exemption from or a reduction in United States federal withholding tax duly completed together with such supplementary documentation as may be prescribed by applicable law to permit the Borrower to determine the withholding or deduction required to be made. Each Foreign Lender shall promptly notify the Borrower and the Administrative Agent at any time it determines that it is no longer in a position to provide any previously delivered certificate to the Borrower (or any other form of certification adopted by the United States of America or other taxing authorities for such purpose) and shall deliver updated forms and/or certifications promptly upon the inaccuracy or invalidity of any previously delivered form or certificate. In addition, each Lender that is not a Foreign Lender shall deliver to the Borrower and the Administrative Agent two copies of Internal Revenue Service Form W-9 (or any subsequent versions thereof or successors thereto) on or before the date such Lender becomes a party and upon the expiration or inaccuracy of any form previously delivered by such Lender. Notwithstanding any other provision of this paragraph, a Lender shall not be required to deliver any form pursuant to this paragraph that such Lender is not legally able to deliver.

(f) If the Administrative Agent or a Lender receives a refund of any Indemnified Taxes or Other Taxes as to which it has been indemnified by a Loan Party or with respect to which such Loan Party has paid additional amounts pursuant to this Section 2.17, it shall pay over such refund to such Loan Party (but only to the extent of indemnity payments made, or additional amounts paid, by such Loan Party under this Section 2.17 with respect to the Indemnified Taxes or Other Taxes giving rise to such refund), net of all out-of-pocket expenses of the Administrative Agent or such Lender (including any Taxes imposed with respect to such refund) as is determined by the Administrative Agent or Lender and in its sole discretion, and without interest (other than any interest paid by the relevant Governmental Authority with respect to such refund); provided that such Loan Party, upon the request of the Administrative Agent or such Lender, agrees to repay as soon as reasonably practicable the amount paid over to such Loan Party (plus any penalties, interest or other charges imposed by the relevant Governmental Authority) to the Administrative Agent or such Lender in the event the Administrative Agent or such Lender is required to repay such refund to such Governmental Authority. This Section 2.17(f) shall not be construed to

39

require the Administrative Agent or any Lender to make available its Tax returns (or any other information relating to its Taxes which it deems confidential) to the Loan Parties or any other person.

SECTION 2.18. Payments Generally; Pro Rata Treatment; Sharing of Set-offs. (a) Unless otherwise specified, the Borrower shall make each payment required to be made by it hereunder (whether of principal, interest, fees, or of amounts payable under Section 2.15, 2.16, or 2.17, or otherwise) prior to 2:00 p.m., Local Time, on the date when due, in immediately available funds, without condition or deduction for any defense, recoupment, set-off or counterclaim. Any amounts received after such time on any date may, in the discretion of the Administrative Agent, be deemed to have been received on the next succeeding Business Day for purposes of calculating interest thereon. All such payments shall be made to the Administrative Agent to the applicable account designated to the Borrower by the Administrative Agent. The Administrative Agent shall distribute any such payments received by it for the account of any other person to the appropriate recipient promptly following receipt thereof. If any payment or performance obligation hereunder shall be due or required on a day that is not a Business Day, the date for payment or performance shall be extended to the next succeeding Business Day, and, in the case of any payment accruing interest, interest thereon shall be payable for the period of such extension. All payments hereunder shall be made in Dollars. Any payment required to be made by the Administrative Agent hereunder shall be deemed to have been made by the time required if the Administrative Agent shall, at or before such time, have taken the necessary steps to make such payment in accordance with the regulations or operating procedures of the clearing or settlement system used by the Administrative Agent to make such payment.

(b) If at any time insufficient funds are received by and available to the Administrative Agent from the Borrower to pay fully all amounts of principal, interest and fees then due from the Borrower hereunder, such funds (except as otherwise provided in the Collateral Agreement with respect to the application of amounts realized from the Collateral) shall be applied (i) first, towards payment of interest and fees then due from the Borrower hereunder, ratably among the parties entitled thereto in accordance with the amounts of interest and fees then due to such parties, and (ii) second, towards payment of principal then due from the Borrower hereunder, ratably among the parties entitled thereto in accordance with the amounts of principal then due to such parties.

(c) If any Lender shall, by exercising any right of set-off or counterclaim or otherwise, obtain payment in respect of any principal of or interest on any of its Term Loans resulting in such Lender receiving payment of a greater proportion of the aggregate amount of its Term Loans and accrued interest thereon than the proportion received by any other Lender, then the Lender receiving such greater proportion shall purchase (for cash at face value) participations in the Term Loans of other Lenders to the extent necessary so that the benefit of all such payments shall be shared by the Lenders ratably in accordance with the aggregate amount of principal of and accrued interest on their respective Term Loans; provided that (i) if any such participations are purchased and all or any portion of the payment giving rise thereto is recovered, such participations shall be rescinded and the purchase price restored to the extent of such recovery, without interest, and (ii) the provisions of this paragraph (c) shall not be construed to apply to any payment made by the Borrower pursuant to and in accordance with the express terms of this Agreement or any payment obtained by a Lender as consideration for the assignment of or sale of a participation in any of its Loans, other than to the Borrower or any Subsidiary thereof (as to which the provisions of this paragraph (c) shall apply). The Borrower consents to the foregoing and agrees, to the extent it may effectively do so under applicable law, that any Lender acquiring a participation pursuant to the foregoing arrangements may exercise against the Borrower rights of set-off and counterclaim with respect to such participation as fully as if such Lender were a direct creditor of the Borrower in the amount of such participation.

40

(d) Unless the Administrative Agent shall have received notice from the Borrower prior to the date on which any payment is due to the Administrative Agent for the account of the Lenders hereunder that the Borrower will not make such payment, the Administrative Agent may assume that the Borrower has made such payment on such date in accordance herewith and may, in reliance upon such assumption, distribute to the Lenders the amount due. In such event, if the Borrower has not in fact made such payment, then each of the Lenders severally agrees to repay to the Administrative Agent forthwith on demand the amount so distributed to such Lender with interest thereon, for each day from and including the date such amount is distributed to it to but excluding the date of payment to the Administrative Agent, at the greater of the Federal Funds Effective Rate and a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation.

(e) If any Lender shall fail to make any payment required to be made by it pursuant to Section 2.06(b) or 2.18(d), then the Administrative Agent may, in its discretion (notwithstanding any contrary provision hereof), apply any amounts thereafter received by the Administrative Agent for the account of such Lender to satisfy such Lender's obligations under such Sections until all such unsatisfied obligations are fully paid.

SECTION 2.19. Mitigation Obligations; Replacement of Lenders. (a) If any Lender requests compensation under Section 2.15, or if the Borrower is required to pay any additional amount to any Lender or any Governmental Authority for the account of any Lender pursuant to Section 2.17, then such Lender shall use reasonable efforts to designate a different Lending Office for funding or booking its Loans hereunder or to assign its rights and obligations hereunder to another of its offices, branches or Affiliates, if, in the reasonable judgment of such Lender, such designation or assignment (i) would eliminate or reduce amounts payable pursuant to Section 2.15 or 2.17, as applicable, in the future and (ii) would not subject such Lender to any material unreimbursed cost or expense and would not otherwise be disadvantageous to such Lender in any material respect. The Borrower hereby agrees to pay all reasonable costs and expenses incurred by any Lender in connection with any such designation or assignment.

(b) If any Lender requests compensation under Section 2.15, or if the Borrower is required to pay any additional amount to any Lender or any Governmental Authority for the account of any Lender pursuant to Section 2.17, or is a Defaulting Lender, or becomes an Affected Lender, then the Borrower may, at its sole expense and effort, upon notice to such Lender and the Administrative Agent, (i) terminate the Commitments of such Lender and repay all obligations of the Borrower owing to such Lender relating to the Loans and participations held by such Lender as of such termination date or (ii) require such Lender to assign and delegate, without recourse (in accordance with and subject to the restrictions contained in Section 9.04), all its interests, rights and obligations under this Agreement to an assignee that shall assume such obligations (which assignee may be another Lender, if a Lender accepts such assignment); provided that (i) the Borrower shall have received the prior written consent of the Administrative Agent, which consent shall not unreasonably be withheld, (ii) such Lender shall have received payment of an amount equal to the outstanding principal of its Loans, accrued interest thereon, accrued fees and all other amounts payable to it hereunder, from the assignee (to the extent of such outstanding principal and accrued interest and fees) or the Borrower (in the case of all other amounts) and (iii) in the case of any such assignment resulting from a claim for compensation under Section 2.15 or payments required to be made pursuant to Section 2.17, such assignment will result in a reduction in such compensation or payments. Nothing in this Section 2.19 shall be deemed to prejudice any rights that the Borrower may have against any Lender that is a Defaulting Lender.

(c) If any Lender (such Lender, a "Non-Consenting Lender") has failed to consent to a proposed amendment, waiver, discharge or termination which pursuant to the terms of Section 9.08 requires the consent of all of the Lenders affected and with respect to which the Required Lenders shall

41

have granted their consent, then the Borrower shall have the right (unless such Non-Consenting Lender grants such consent) to replace such Non-Consenting Lender by (i) terminating the Commitments of such Lender and repaying all obligations of the Borrower owing to such Lender relating to the Loans and participations held by such Lender as of such termination date or (ii) requiring such Non-Consenting Lender to assign all or the affected portion of its Loans, and its Commitments hereunder to one or more assignees reasonably acceptable to the Administrative Agent, provided that: (a) all Obligations of the Borrower owing to such Non-Consenting Lender being replaced shall be paid in full to such Non-Consenting Lender concurrently with such assignment, (b) the replacement Lender shall purchase the foregoing by paying to such Non-Consenting Lender a price equal to the principal amount thereof plus accrued and unpaid interest thereon, plus any amount equal to the prepayment premium that would otherwise be received by such Lender under Section 2.11(f), upon an optional repayment in full of such Lender's Loans, (c) in connection with any such assignment the Borrower, Administrative Agent, such Non-Consenting Lender shall otherwise comply with Section 9.04, and (d) the replacement Lender shall grant its consent with respect to the applicable proposed amendment, waiver, discharge or termination. Each Lender hereby grants to the Administrative Agent an irrevocable power of attorney (which power is coupled with an interest) to execute and deliver, on behalf of such Lender as assignor, any Assignment and Acceptance necessary to effectuate any assignment of such Lender's interests hereunder in the circumstances contemplated by this Section 2.19(c).

SECTION 2.20. Illegality. If any Lender reasonably determines that any Change in Law has made it unlawful, or that any Governmental Authority has asserted after the Closing Date that it is unlawful, for any Lender or its applicable Lending Office to make or maintain any Eurocurrency Loans, then, on notice thereof by such Lender to the Borrower through the Administrative Agent (at which time such Lender shall be deemed an "Affected Lender"), any obligations of such Affected Lender to make or continue Eurocurrency Loans or to convert ABR Borrowings to Eurocurrency Borrowings shall be suspended until such Affected Lender notifies the Administrative Agent and the Borrower that the circumstances giving rise to such determination no longer exist. Upon receipt of such notice, the Borrower shall upon demand from such Affected Lender (with a copy to the Administrative Agent), either convert all Eurocurrency Borrowings of such Affected Lender to ABR Borrowings, either on the last day of the Interest Period therefor, if such Affected Lender may lawfully continue to maintain such Eurocurrency Borrowings to such day, or immediately, if such Affected Lender may not lawfully continue to maintain such Loans. Upon any such prepayment or conversion, the Borrower shall also pay accrued interest on the amount so prepaid or converted.

SECTION 2.21. Incremental Extensions of Credit. Subject to the terms and conditions set forth herein, the Borrower may at any time and from time to time, request to add additional term loans (the "Incremental Extensions of Credit") in minimum principal amounts of \$20.0 million, provided that (a) immediately prior to and after giving effect to any Incremental Facility Amendment (and the making of any Incremental Extensions of Credit pursuant thereto), no Default or Event of Default has occurred or is continuing or shall result therefrom and the Borrower shall be in compliance, on a Pro Forma Basis (including giving pro forma effect to any Incremental Facility Amendment (and the making of any Incremental Extensions of Credit pursuant thereto)), with the Total Leverage Ratio required by Section 6.10 and (b) the aggregate principal amount (or committed amount, if applicable) of all Incremental Extensions of Credit pursuant to this Section 2.21 shall not exceed (i) \$100.0 million minus (ii) the aggregate principal amount (or committed amount, if applicable) of "Incremental Extensions of Credit" (as defined in the First Lien Credit Agreement). The Incremental Extensions of Credit shall rank pari passu in right of payment and right of security in respect of the Collateral with the Term Loans. In the case of additional term loans, other than amortization, pricing or maturity date, such additional term loans shall have the same terms as the Term Loans (the "Existing Term Loans") existing immediately prior to the effectiveness of an Incremental Facility Amendment (except as otherwise agreed by the Administrative Agent and Additional Lenders agreeing to provide a commitment in respect of such

42

Incremental Extension of Credit provided that any such agreement shall affect solely the terms of such Incremental Extension of Credit and not any other Loan or Borrowings or Commitments (or any other Lender) unless this Agreement has been amended in accordance with Section 9.08 without reference to this Section 2.21; provided that, without the prior written consent of the Required Lenders, Incremental Extensions of Credit shall not have a final maturity date earlier than the Maturity Date and shall not have a weighted average life that is shorter than that of the then-remaining weighted average life of the Term Loans. Any additional bank, financial institution, existing Lender or other person that elects to extend commitments to provide Incremental Extensions of Credit shall be reasonably satisfactory to the Borrower and the Administrative Agent (any such bank, financial institution or other person being called an "Additional Lender") and shall become a Lender under this Agreement, pursuant to an amendment (an "Incremental Facility Amendment") to this Agreement, giving effect to the modifications permitted by this Section 2.21, and, as appropriate, the other Loan Documents, executed by the Borrower, each Additional Lender, if any, and the Administrative Agent. Commitments in respect of Incremental Extensions of Credit shall become Commitments under this Agreement after giving effect to such Incremental Facility Amendment. An Incremental Facility Amendment providing for term loans may, without the consent of any other Lenders, effect such amendments to this Agreement and the other Loan Documents as may be reasonably necessary or appropriate, in the opinion of the Administrative Agent, to effect the provisions of this Section, and provided, however, the interest rates and fees applicable to any Incremental Extension of Credit shall be determined by the Borrower and the Additional Lenders (as defined below). The effectiveness of any Incremental Facility Amendment shall be subject to the satisfaction on the date thereof (each, an "Incremental Facility Closing Date") of each of the conditions set forth in Section 4.01 (it being understood that all references to "the date of such Borrowing" in such Section 4.01 shall be deemed to refer to the Incremental Facility Closing Date), and, except as otherwise specified in the applicable Incremental Facility Amendment, the Administrative Agent shall have received legal opinions, board resolutions and other closing documents and certificates reasonably requested by the Administrative Agent and consistent with those delivered on the Closing Date under Section 4.02. The proceeds of the Incremental Extensions of Credit may be used for any purpose not otherwise prohibited hereunder. Notwithstanding anything to the contrary in this Section 2.21, no existing Lender shall be obligated to provide Incremental Extensions of Credit.

ARTICLE III

(ii) if, after giving effect to the foregoing recalculations, the Borrower shall then be in compliance with the requirements of the Total Leverage Ratio, the Borrower shall be deemed to have satisfied the requirements of the Total Leverage Ratio as of the relevant date of determination with the same effect as though there had been no failure to comply therewith at such date, and the applicable breach or default of the Total Leverage Ratio that had occurred shall be deemed cured for this purposes of this Agreement.

(b) Notwithstanding anything herein to the contrary, (i) in each four-fiscal-quarter period there shall be at least one fiscal quarter with respect to which the Cure Right is not exercised, (ii) in each eight fiscal quarter period, there shall be a period of at least four consecutive fiscal quarters with respect to which the Cure Right is not exercised and (iii) the Specified Equity Contribution shall be no greater than the amount required for purposes of complying with the Total Leverage Ratio.

The Agents

SECTION 8.01. Appointment. Each Lender hereby irrevocably designates and appoints the Administrative Agent as the agent of such Lender and Wilmington Trust Company as Collateral Agent of such Lender under this Agreement and the other Loan Documents and the Collateral Agent, and each such Lender irrevocably authorizes the Administrative Agent and the Collateral Agent, in such capacities, to take such action on its behalf under the provisions of this Agreement and the other Loan Documents and to exercise such powers and perform such duties as are expressly delegated to such Agent by the terms of this Agreement and the other Loan Documents, together with such other powers as are reasonably incidental thereto. Notwithstanding any provision to the contrary elsewhere in this Agreement, neither the Administrative Agent nor the Collateral Agent shall have any duties or responsibilities, except those expressly set forth herein, or any fiduciary relationship with any Lender, and no implied covenants, functions, responsibilities, duties, obligations or liabilities shall be read into this Agreement or any other Loan Document or otherwise exist against the Administrative Agent or the Collateral Agent, as applicable. Without limiting the generality of the foregoing, the Agents are hereby expressly authorized to execute any and all documents (including releases) with respect to the Collateral and the rights of the Secured Parties with respect thereto, as contemplated by and in accordance with the provisions of this Agreement and the Security Documents. Without limiting the foregoing, each Lender irrevocably appoints the Collateral Agent to act as the "Second Lien Collateral Agent" under the

80

Intercreditor Agreement and authorizes and directs the Collateral Agent to execute, deliver and perform the Intercreditor Agreement on such Lender's behalf and each such Lender agrees to be bound by the terms thereof.

SECTION 8.02. Delegation of Duties. The Administrative Agent and the Collateral Agent may execute any of its duties under this Agreement and the other Loan Documents by or through agents or attorneys-in-fact and shall be entitled to advice of counsel concerning all matters pertaining to such duties. Neither the Administrative Agent nor the Collateral Agent shall be responsible for the negligence or misconduct of any agents or attorneys-in-fact selected by it with reasonable care.

SECTION 8.03. Exculpatory Provisions. The Agents shall not have any duties or obligations except those expressly set forth in the Loan Documents. Neither any Agent nor any of their Related Parties shall be (i) liable for any action lawfully taken or omitted to be taken by it or such person under or in connection with this Agreement or any other Loan Document (except to the extent that any of the foregoing are found by a final and nonappealable decision of a court of competent jurisdiction to have resulted from its or such person's own gross negligence or willful misconduct) or (ii) responsible in any manner to any of the Lenders for (or have any duty to ascertain or acquire into) any recitals, statements, representations or warranties made by any Loan Party or any officer thereof contained in this Agreement or any other Loan Document or in any certificate, report, statement or other document referred to or provided for in, or received by the Agents or any Related Party under or in connection with, this Agreement or any other Loan Document or for the value, validity, effectiveness, genuineness, enforceability or sufficiency of this Agreement or any other Loan Document or for any failure of any Loan Party a party thereto to perform its obligations hereunder or thereunder. The Agents shall not (x) be subject to any fiduciary or other implied duties regardless of whether a Default has occurred and is continuing and (y) except as expressly set forth in the Loan Documents, have any duty to disclose, nor shall it be liable for the failure to disclose, any information relating to Holdings, the Borrower or any Subsidiary that is communicated to or obtained by the bank serving as Administrative Agent or any of its affiliates in any capacity. The Agents shall not be under any obligation to any Lender to ascertain or to inquire as to the observance or performance of any of the agreements contained in, or conditions of, this Agreement or any other Loan Document, or to inspect the properties, books or records of any Loan Party.

SECTION 8.04. Reliance by Agents. The Agents and their respective Related Parties shall be entitled to rely, and shall be fully protected in relying, upon any instrument, writing, resolution, notice, consent, certificate, affidavit, letter, fax, telex or teletype message, statement, order or other document or conversation believed by it to be genuine and correct and to have been signed, sent or made by the proper person or persons and upon advice and statements of legal counsel (including counsel to Holdings or the Borrower), independent accountants and other experts selected by the Agents. The Agents and their Related Parties may deem and treat the payee of any Note as the owner thereof for all purposes unless a written notice of assignment, negotiation or transfer thereof shall have been filed with the Administrative Agent. The Agents and their Related Parties shall be fully justified in failing or refusing to take any action under this Agreement or any other Loan Document unless it shall first receive such advice or concurrence of the Required Lenders (or, if so specified by this Agreement, all Lenders) as any such person deems appropriate or such person shall first be indemnified to its satisfaction by the Lenders against any and all liability and expense that may be incurred by such person by reason of taking or continuing to take any such action. The Agents and their respective Related Parties shall in all cases be fully protected in acting, or in refraining from acting, under this Agreement and the other Loan Documents in accordance with a request of the Required Lenders (or, if so specified by this Agreement, all Lenders) (or, in the case of the Collateral Agent, in accordance with a request from the Administrative Agent), and such request and any action taken or failure to act pursuant thereto shall be binding upon all the Lenders and all future holders of the Loans.

81

SECTION 8.05. Notice of Default. No Agent shall be deemed to have knowledge or notice of the occurrence of any Default or Event of Default unless such Agent has received notice from a Lender, Holdings or the Borrower referring to this Agreement, describing such Default or Event of Default and stating that such notice is a "notice of default". In the event that an Agent receives such a notice, such Agent shall give notice thereof to the Lenders. The Agents shall take such action with respect to such Default or Event of Default as shall be reasonably directed in writing by the Required Lenders (or, if so specified by this Agreement, all Lenders (or, in the case of the Collateral Agent, as directed in writing the Administrative Agent)); provided that unless and until the Agents shall have

received such directions, the Agents may (but shall not be obligated to) take such action, or refrain from taking such action, with respect to such Default or Event of Default as it shall deem advisable in the best interests of the Lenders.

SECTION 8.06. Non-Reliance on Agents and Other Lenders. Each Lender expressly acknowledges that neither the Agents nor any of their respective Related Parties have made any representations or warranties to it and that no act by any Agent hereafter taken, including any review of the affairs of a Loan Party or any affiliate of a Loan Party, shall be deemed to constitute any representation or warranty by any Agent to any Lender. Each Lender represents to the Agents that it has, independently and without reliance upon any Agent or any other Lender, and based on such documents and information as it has deemed appropriate, made its own appraisal of and investigation into the business, operations, property, financial and other condition and creditworthiness of the Loan Parties and their affiliates and made its own decision to make its Loans hereunder and enter into this Agreement. Each Lender also represents that it will, independently and without reliance upon any Agent or any other Lender, and based on such documents and information as it shall deem appropriate at the time, continue to make its own credit analysis, appraisals and decisions in taking or not taking action under this Agreement and the other Loan Documents, and to make such investigation as it deems necessary to inform itself as to the business, operations, property, financial and other condition and creditworthiness of the Loan Parties and their affiliates. Except for notices, reports and other documents expressly required to be furnished to the Lenders by the Agents hereunder, the Agents shall not have any duty or responsibility to provide any Lender with any credit or other information concerning the business, operations, property, condition (financial or otherwise), prospects or creditworthiness of any Loan Party or any affiliate of a Loan Party that may come into the possession of the Agents or respective Related Parties.

SECTION 8.07. Indemnification. The Lenders agree to indemnify each Agent in its capacity as such and its Related Parties (to the extent not reimbursed by Holdings or the Borrower and without limiting the obligation of Holdings or the Borrower to do so), each in an amount equal to its pro rata share (based on its Commitments hereunder (or if such Commitments shall have expired or been terminated, in accordance with the respective principal amounts of its applicable outstanding Loans)) thereof, from and against any and all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind whatsoever (including, without limitation, attorneys fees) that may at any time (whether before or after the payment of the Loans) be imposed on, incurred by or asserted against such Agent and/or its or their Related Parties in any way relating to or arising out of, the Commitments, this Agreement, any of the other Loan Documents or any documents contemplated by or referred to herein or therein or the transactions contemplated hereby or thereby or any action taken or omitted by such Agent and/or its or their Related Parties under or in connection with any of the foregoing; provided that no Lender shall be liable for the payment of any portion of such liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements that are found by a final and nonappealable decision of a court of competent jurisdiction to have resulted from such Person's gross negligence or willful misconduct. The agreements in this Section shall survive the payment of the Loans and all other amounts payable hereunder.

82

SECTION 8.08. Agent in Its Individual Capacity. Each Agent and its affiliates may make loans to, accept deposits from and generally engage in any kind of business with any Loan Party as though such Agent were not an Agent. With respect to its Loans made or renewed by it, each Agent shall have the same rights and powers under this Agreement and the other Loan Documents as any Lender and may exercise the same as though it were not an Agent, and the terms "Lender" and "Lenders" shall include each Agent in its individual capacity.

SECTION 8.09. Successor Agent. The Administrative Agent or the Collateral Agent may resign as Administrative Agent or Collateral Agent, as applicable, upon 30 days' notice to the Lenders and the Borrower. If either the Administrative Agent or the Collateral Agent shall resign in such capacity under this Agreement and the other Loan Documents, then the Required Lenders shall appoint from among the Lenders a successor agent for the Lenders, which successor agent shall (unless an Event of Default under Sections 7.01 (h) or (i)(i),(ii),(iii) or (iv) above shall have occurred and be continuing) be subject to approval by the Borrower (which approval shall not be unreasonably withheld or delayed), whereupon such successor agent shall succeed to the rights, powers and duties of the Administrative Agent or the Collateral Agent as the case may be, and the term "Administrative Agent" or "Collateral Agent" shall mean such successor agent effective upon such appointment and approval, and the former Administrative Agent's or Collateral Agent's rights, powers and duties as Administrative Agent or Collateral Agent shall be terminated, without any other or further act or deed on the part of such former Administrative Agent or Collateral Agent or any of the parties to this Agreement or any holders of the Loans. If no successor agent has accepted appointment as Administrative Agent or Collateral Agent, as applicable, by the date that is 30 days following a retiring Administrative Agent's or Collateral Agent's notice of resignation, the retiring Administrative Agent's or Collateral Agent's resignation shall nevertheless thereupon become effective, and the Lenders shall assume and perform all of the duties of the Administrative Agent or Collateral Agent, as applicable, hereunder until such time, if any, as the Required Lenders appoint a successor agent as provided for above; provided that nothing herein shall require that the Collateral Agent resign or retire from its role as collateral agent under any Security Document whether referred to therein collateral agent or any analogous term therein. After any retiring Administrative Agent's resignation as Administrative Agent or Collateral Agent's retiring as Collateral Agent, the provisions of this Article VIII shall inure to its benefit and to the benefit of its officers, directors, employees, agents, attorneys-in-fact and affiliates as to any actions taken or omitted to be taken by it while it was Administrative Agent or Collateral Agent, as applicable, under this Agreement and the other Loan Documents.

SECTION 8.10. Syndication Agent and Documentation Agent. Neither the Syndication Agent nor the Documentation Agent shall have any duties or responsibilities hereunder in its capacity as such.

SECTION 8.11. Withholding Tax. To the extent required by any applicable law, the Administrative Agent may withhold from any interest payment to any Lender an amount equivalent to any applicable withholding tax. If the Internal Revenue Service or any other Governmental Authority asserts a claim that the Administrative Agent did not properly withhold tax from amounts paid to or for the account of any Lender because the appropriate form was not delivered or was not properly executed or because such Lender failed to notify the Administrative Agent of a change in circumstance which rendered the exemption from, or reduction of, withholding tax ineffective or for any other reason, such Lender shall indemnify the Administrative Agent fully for all amounts paid, directly or indirectly, by the Administrative Agent as tax or otherwise, including any penalties or interest and together with all expenses (including legal expenses, allocated internal costs and out-of-pocket expenses) incurred.

SECTION 8.12. Collateral Matters, Collateral Agent's Duties. The Collateral Agent is authorized on behalf of all the Lenders and the other Secured Parties, without the necessity of any

83

notice to or further consent from the Lenders, from time to time to take any action with respect to any Collateral or the Security Documents which may be necessary to perfect and maintain a perfected security interest in and Liens upon the Collateral granted pursuant to the Loan Documents. Except for the safe custody of any Collateral in its possession and the accounting for moneys actually received by it hereunder or under any of the other Loan Documents, the Collateral Agent shall have no duty as to any Collateral, as to ascertaining or taking action with respect to calls, conversions, exchanges, maturities, trades or other matters relative to any Collateral, whether or not the Collateral Agent is deemed to have knowledge of such matters, or as to taking of any necessary steps to create or preserve rights against any parties or any other rights pertaining to any Collateral (including the filing of UCC-1 Financing Statements, UCC Continuation Statements or any amendments thereto). The Collateral Agent shall be deemed to have exercised appropriate and due care in the custody and preservation of any Collateral in its possession if such Collateral is accorded treatment substantially equal to that which other collateral agents accord similar property. Each Lender agrees that any action taken by the Collateral Agent or the Required Lenders in accordance with the terms of this Agreement or the other Loan Documents, and the exercise by the Collateral Agent or the Required Lenders of their respective powers set forth therein or herein, together with such other powers that are reasonably incidental thereto, shall be binding upon all of the Lenders.

(d) Any party hereto may change its address or fax number for notices and other communications hereunder by notice to the other parties hereto.

SECTION 9.02. Survival of Agreement. All representations and warranties made by the Loan Parties herein and in the other Loan Documents shall be considered to have been relied upon by the Lenders and shall survive the making of the Loans, the execution and delivery of the Loan Documents, and shall continue in full force and effect as long as the principal of or any accrued interest on any Loan or any Fee or any other amount (other than obligations for taxes, costs, indemnifications, reimbursements, damages and other contingent liabilities in respect of which no claim or demand for payment has been made or, in the case of indemnifications, no notice has been given (or reasonably satisfactory arrangements have otherwise been made)) payable under this Agreement or any other Loan Document is outstanding and unpaid and so long as the Commitments have not been terminated. Without prejudice to the survival of any other agreements contained herein, obligations for taxes, costs, indemnifications, reimbursements, damages and other contingent liabilities contained herein (including pursuant to [Sections 2.15, 2.17 and 9.05](#)) shall survive the payment in full of the principal and interest hereunder, the termination of the Commitments or this Agreement limited in the manner set forth herein, or the invalidity or unenforceability of any term or provision of this Agreement or any other Loan Document.

SECTION 9.03. Binding Effect. This Agreement shall become effective when it shall have been executed by Holdings, the Borrower and the Administrative Agent and when the Administrative Agent shall have received copies hereof which, when taken together, bear the signatures of each of the other parties hereto, and thereafter shall be binding upon and inure to the benefit of Holdings, the Borrower, the Administrative Agent and each Lender and their respective permitted successors and assigns.

SECTION 9.04. Successors and Assigns. (a) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns permitted hereby, except that (i) the Borrower may not assign or otherwise transfer any of its rights or obligations hereunder without the prior written consent of each Lender (and any attempted assignment or transfer by the Borrower without such consent shall be null and void) and (ii) no Lender may assign or otherwise transfer its rights or obligations hereunder except in accordance with this [Section 9.04](#). Nothing in this Agreement, expressed or implied, shall be construed to confer upon any person (other than the parties hereto, their respective successors and assigns permitted hereby, Participants (to the extent provided in paragraph (c) of this [Section 9.04](#)), and, to the extent expressly contemplated hereby, the Related Parties of each of the Agents and the Lenders) any legal or equitable right, remedy or claim under or by reason of this Agreement.

(b) (i) Subject to the conditions set forth in clause (ii) below, any Lender may assign to one or more Eligible Assignees (other than to any Disqualified Institution) all or a portion of its rights and obligations under this Agreement (including all or a portion of its Commitments and the Loans at the time owing to it) (provided, however, that pro rata assignments shall not be required and each assignment shall be of a uniform, and not varying, percentage of all rights and obligations under and in respect of any applicable Loan and any related Commitments) with the prior written consent (such consent not to be unreasonably withheld or delayed) of the Borrower, provided that no consent of the Borrower shall be required for an assignment to an Affiliate of a Lender, or if an Event of Default under [Section 7.01\(b\)](#), (c), (h) or (i)(i), (ii), (iii) or (iv) has occurred and is continuing.

85

(ii) Assignments shall be subject to the following additional conditions:

(A) except in the case of an assignment to a Lender, an affiliate of a Lender or an Related Fund or an assignment of the entire remaining amount of the assigning Lender's Commitments or Loans, the amount of the Commitments or Loans of the assigning Lender subject to each such assignment (determined as of the date the Assignment and Acceptance with respect to such assignment is delivered to the Administrative Agent) shall not be less than \$1.0 million, unless each of the Borrower and the Administrative Agent otherwise consent, provided that (1) no such consent of the Borrower shall be required if an Event of Default under [Section 7.01\(b\)](#), (c), (h) or (i)(i), (ii), (iii) or (iv) has occurred and is continuing and (2) such amounts shall be aggregated in respect of each Lender and its Affiliates or Related Funds, if any.

(B) the parties to each assignment shall execute and deliver to the Administrative Agent an Assignment and Acceptance together with a processing and recordation fee of \$3,500; and

(C) the Eligible Assignee, if it shall not be a Lender, shall deliver to the Administrative Agent an Administrative Questionnaire and all applicable tax forms.

(iii) Subject to acceptance and recording thereof pursuant to clause (b)(v) below, from and after the effective date specified in each Assignment and Acceptance the Eligible Assignee thereunder shall be a party hereto and, to the extent of the interest assigned by such Assignment and Acceptance, have the rights and obligations of a Lender under this Agreement, and the assigning Lender thereunder shall, to the extent of the interest assigned by such Assignment and Acceptance, be released from its obligations under this Agreement (and, in the case of an Assignment and Acceptance covering all of the assigning Lender's rights and obligations under this Agreement, such Lender shall cease to be a party hereto but shall continue to be entitled to the benefits of [Sections 2.15, 2.16, 2.17 and 9.05](#), as well as any Fees accrued for its account and not yet paid). Any assignment or transfer by a Lender of rights or obligations under this Agreement that does not comply with this [Section 9.04](#) shall be treated for purposes of this Agreement as a sale by such Lender of a participation in such rights and obligations in accordance with paragraph (c) of this [Section 9.04](#).

(iv) The Administrative Agent, acting for this purpose as an agent of the Borrower, shall maintain at one of its offices a copy of each Assignment and Acceptance delivered to it and a register for the recordation of the names and addresses of the Lenders, and the Commitments of, and principal amount of the Loans owing to, each Lender pursuant to the terms hereof from time to time (the "Register"). The entries in the Register shall be conclusive absent manifest error, and the Borrower, the Administrative Agent and the Lenders may treat each person whose name is recorded in the Register pursuant to the terms hereof as a Lender hereunder for all purposes of this Agreement, notwithstanding notice to the contrary. The Register shall be available for inspection by the Borrower and any Lender (with respect to any entry related to such Lender's Loans), at any reasonable time and from time to time upon reasonable prior notice.

(v) Upon its receipt of a duly completed Assignment and Acceptance executed by an assigning Lender and an Eligible Assignee, the Eligible Assignee's completed Administrative Questionnaire (unless the Eligible Assignee shall already be a Lender hereunder) and any applicable tax forms, and any written consent to such assignment required by clause (i) above, the Administrative Agent shall accept such Assignment and Acceptance and record the information contained therein in the Register. No assignment, whether or not evidenced by a promissory

86

note, shall be effective for purposes of this Agreement unless it has been recorded in the Register as provided in this clause (v).

(c) (i) Any Lender may, without the consent of the Borrower or the Administrative Agent, sell participations to one or more banks or other entities (other than to any Company Competitor) (a "Participant") in all or a portion of such Lender's rights and obligations under this Agreement (including all or a portion of its Commitments and the Loans owing to it); provided that (A) such Lender's obligations under this Agreement shall remain unchanged, (B) such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations and (C) the Borrower, the Administrative Agent and the other Lenders shall continue to deal solely and directly with such Lender in connection with such Lender's rights and obligations under this Agreement. Any agreement pursuant to which a Lender sells such a participation shall provide that such Lender shall retain the sole right to enforce this Agreement and the other Loan Documents and to approve any amendment, modification or waiver of any provision of this Agreement and the other Loan Documents; provided that such agreement may provide that such Lender will not, without the consent of the Participant, agree to any amendment, modification or waiver that requires the consent of each Lender directly affected thereby pursuant to [Section 9.04\(a\)\(i\)](#) or clauses (i), (ii), (iii) or (vi) of the first proviso to [Section 9.08\(b\)](#). Subject to paragraph (c)(ii) of this [Section 9.04](#), the Borrower agrees that each Participant shall be entitled to the benefits of [Sections 2.15, 2.16 and 2.17](#) to the same extent as if it were a Lender and had acquired its interest by assignment pursuant to paragraph (b) of this [Section 9.04](#). To the extent permitted by law, each Participant also shall be entitled to the benefits of [Section 9.06](#) as though it were a Lender, provided such Participant shall be subject to [Section 2.18\(c\)](#) as though it were a Lender.

(ii) A Participant shall not be entitled to receive any greater payment under [Section 2.15, 2.16 or 2.17](#) than the applicable Lender would have been entitled to receive with respect to the participation sold to such Participant, unless the sale of the participation to such Participant is made with the Borrower's prior written consent expressly acknowledging such Participant may receive a greater benefit. A Participant that would be a Foreign Lender if it were a Lender shall not be entitled to the benefits of [Section 2.17](#) to the extent such Participant fails to comply with [Section 2.17\(e\)](#) as though it were a Lender.

(d) Any Lender may at any time, without the consent of or notice to the Administrative Agent or the Borrower, pledge or assign a security interest in all or any portion of its rights under this Agreement to secure obligations of such Lender, including any pledge or assignment to secure obligations to a Federal Reserve Bank, and this [Section 9.04](#) shall not apply to any such pledge or assignment of a security interest; provided that no such pledge or assignment of a security interest shall release a Lender from any of its obligations hereunder or substitute any such pledgee or Eligible Assignee for such Lender as a party hereto.

(e) The Borrower, upon receipt of written notice from the relevant Lender, agrees to issue Notes to any Lender requiring Notes to facilitate transactions of the type described in paragraph (d) above.

(f) Notwithstanding the foregoing, any Conduit Lender may assign any or all of the Loans it may have funded hereunder to its designating Lender without the consent of the Borrower or the Administrative Agent. Each of Holdings, the Borrower, each Lender and the Administrative Agent hereby confirms that it will not institute against a Conduit Lender or join any other person in instituting against a Conduit Lender any bankruptcy, reorganization, arrangement, insolvency or liquidation proceeding under any state bankruptcy or similar law, for one year and one day after the payment in full of the latest maturing commercial paper note issued by such Conduit Lender; provided, however, that each Lender designating any Conduit Lender hereby agrees to indemnify, save and hold harmless each

other party hereto and each Loan Party for any loss, cost, damage or expense arising out of its inability to institute such a proceeding against such Conduit Lender during such period of forbearance.

(g) If the Borrower wishes to replace the Loans or Commitments under any Facility with ones having different terms, it shall have the option, with the consent of the Administrative Agent and subject to at least three Business Days' advance notice to the Lenders under such Facility, instead of prepaying the Loans or reducing or terminating the Commitments to be replaced, to (i) require the Lenders under such Facility to assign such Loans or Commitments to the Administrative Agent or its designees and (ii) amend the terms thereof in accordance with Section 9.08 (with such replacement, if applicable, being deemed to have been made pursuant to Section 9.08(d)). Pursuant to any such assignment, all Loans and Commitments to be replaced shall be purchased at par (allocated among the Lenders under such Facility in the same manner as would be required if such Loans were being optionally prepaid or such Commitments were being optionally reduced or terminated by the Borrower), accompanied by payment of any accrued interest and fees thereon and any amounts owing pursuant to Section 9.05(b). By receiving such purchase price, the Lenders under such Facility shall automatically be deemed to have assigned the Loans or Commitments under such Facility pursuant to the terms of the form of Assignment and Acceptance attached hereto as Exhibit A, and accordingly no other action by such Lenders shall be required in connection therewith. The provisions of this paragraph (g) are intended to facilitate the maintenance of the perfection and priority of existing security interests in the Collateral during any such replacement.

SECTION 9.05. **Expenses; Indemnity.** (a) The Borrower agrees to pay (i) all reasonable out-of-pocket expenses (including Other Taxes) incurred by the Administrative Agent in connection with the preparation of this Agreement and the other Loan Documents, or by the Administrative Agent in connection with the syndication of the Commitments or by the Administrative Agent or the Collateral Agent in connection with the administration of this Agreement (including expenses incurred in connection with due diligence and initial and ongoing Collateral examination to the extent incurred with the reasonable prior approval of the Borrower and the reasonable fees, disbursements and charges for no more than one outside counsel and, if necessary one local counsel in each jurisdiction where Collateral is located and one outside counsel to the Collateral Agent) or in connection with the administration of this Agreement and any amendments, modifications or waivers of the provisions hereof or thereof (whether or not the Transactions hereby contemplated shall be consummated) and (ii) all reasonable out-of-pocket expenses incurred by the Administrative Agent, the Collateral Agent or any Lender in connection with the enforcement or protection of their rights in connection with this Agreement and the other Loan Documents, in connection with the Loans made hereunder (including the reasonable fees, charges and disbursements of Simpson Thacher & LLP, counsel for the Administrative Agent and the Joint Lead Arrangers, and, if necessary, the reasonable fees, charges and disbursements of one local counsel per relevant jurisdiction and one outside counsel to the Collateral Agent).

(b) The Borrower agrees to indemnify the Administrative Agent, the Collateral Agent, the Joint Lead Arrangers, each Lender and each of their respective Affiliates, successors and assigns and the directors, trustees, officers, employees, advisors, controlling persons and agents of each of the foregoing (each such person being called an "Indemnitee") against, and to hold each Indemnitee harmless from, any and all losses, claims, damages, liabilities and reasonable out-of-pocket costs and related expenses (including reasonable documented fees, charges and disbursements of Simpson Thacher & Bartlett LLP and, if necessary, one local counsel in each relevant jurisdiction to the Agents, taken as a whole, in each relevant jurisdiction and one outside counsel to the Collateral Agent) incurred by or asserted against any Indemnitee arising out of, relating to, or as a result of (i) the execution or delivery of this Agreement or any other Loan Document or any agreement or instrument contemplated hereby or thereby, the performance by the parties hereto and thereto of their respective obligations thereunder or the consummation of the Transactions and the other transactions contemplated hereby, (ii) the use of the

proceeds of the Loans or (iii) any claim, litigation, investigation or proceeding relating to any of the foregoing, whether or not any Indemnitee is a party thereto, provided that such indemnity shall not, as to any Indemnitee, be available to the extent that such losses, claims, damages, liabilities or costs or related expenses (x) are determined by a judgment of a court of competent jurisdiction to have resulted by reason of the gross negligence, bad faith or willful misconduct of, or breach by, such Indemnitee (or its Related Parties), (y) arise out of any claim, litigation, investigation or proceeding brought by such Indemnitee (or its Related Parties) against another Indemnitee (or its Related Parties) (other than any claim, litigation, investigation or proceeding brought by or against the Administrative Agent, acting in its capacity as Administrative Agent) that does not involve any act or omission of the Borrower or any of its Affiliates and arises out of disputes among the Lenders and/or their transferees. Subject to and without limiting the generality of the foregoing sentence, the Borrower agrees to indemnify each Indemnitee against, and hold each Indemnitee harmless from, any and all losses, claims, damages, liabilities and reasonable out-of-pocket documented costs and reasonable out-of-pocket costs and related expenses, including reasonable counsel or consultant fees, charges and disbursements (limited to one counsel plus, if necessary, one local counsel in each relevant jurisdiction), incurred by or asserted against any Indemnitee arising out of, in any way connected with, or as a result of (A) any claim related in any way to Environmental Laws and Holdings, the Borrower or any of their Subsidiaries, or (B) any actual or alleged presence, Release or threatened Release of Hazardous Materials at, under, on or from any Property, provided that such indemnity shall not, as to any Indemnitee, be available to the extent that such losses, claims, damages, liabilities or costs or related expenses are determined by a court of competent jurisdiction by judgment to have resulted from the gross negligence, bad faith or willful misconduct of, or breach by, such Indemnitee or any of its Related Parties. The Borrower shall not be liable for any settlement of any proceeding referred to in this Section 9.05 effected without the Borrower's written consent (such consent not to be unreasonably withheld or delayed); provided, however, that the Borrower shall indemnify the Indemnitees from and against any loss or liability by reason of such settlement if the Borrower was offered the right to assume the defense of such proceeding and did not assume such defense or such proceeding was settled with the written consent of the Borrower, subject to, in each case, the Borrower's right in this Section 9.05 to claim an exemption from such indemnity obligations. The Borrower shall indemnify the Indemnitees from and against any final judgment for the plaintiff in any proceeding referred to in this Section 9.05, subject to the Borrower's right in this Section 9.05 to claim an exemption from such indemnity obligations. The Borrower shall not, without the prior written consent of any Indemnitee, effect any settlement of any pending or threatened proceeding in respect of which such Indemnitee is a party and indemnity could have been sought hereunder by such Indemnitee unless such settlement (i) includes an unconditional release of such Indemnitee from all liability or claims that are the subject matter of such proceeding and (ii) does not include a statement as to or an admission of fault, culpability or a failure to act by or on behalf of any Indemnitee. To the extent permitted by applicable law, each party hereto hereby waives for itself (and, in the case of the Borrower, for each other Loan Party) any claim against any Loan Party, any Lender, any Agent and their respective affiliates, directors, employees, attorneys, agents or sub-agents, on any theory of liability, for special, indirect, consequential or punitive damages (as opposed to direct or actual damages) (whether or not the claim therefor is based on contract, tort or duty imposed by any applicable legal requirement) arising out of, in connection with, as a result of, or in any way related to, this Agreement or any Loan Document or any agreement or instrument contemplated hereby or thereby or referred to herein or therein, the transactions contemplated hereby or thereby, any Loan or the use of the proceeds thereof or any act or omission or event occurring in connection therewith, and each party hereto (and in the case of the Borrower on behalf of each other Loan Party) hereby waive, release and agree not to sue upon any such claim or any such damages, whether or not accrued and whether or not known or suspected to exist in its favor. The provisions of this Section 9.05 shall remain operative and in full force and effect regardless of the expiration of the term of this Agreement, the consummation of the transactions contemplated hereby, the repayment of any of the Obligations, the termination of the Commitments, the invalidity or unenforceability of any term or provision of this Agreement or any other Loan Document, or any investigation made by or on behalf of

the Agents or any Lender. All amounts due under this Section 9.05 shall be payable on written demand therefor accompanied by reasonable documentation with respect to any reimbursement, indemnification or other amount requested.

(c) Except as expressly provided in Section 9.05(a) with respect to Other Taxes, which shall not be duplicative with any amounts paid pursuant to Section 2.17, this Section 9.05 shall not apply to Taxes.

SECTION 9.06. **Right of Set-off.** If an Event of Default shall have occurred and be continuing, each Lender is hereby authorized at any time and from time to time, to the fullest extent permitted by law, to set off and apply any and all deposits (general or special, time or demand, provisional or final) at any time held and other indebtedness at any time owing by such Lender to or for the credit or the account of Holdings, the Borrower or any Subsidiary Loan Party against any of and all the obligations of Holdings or the Borrower now or hereafter existing under this Agreement or any other Loan Document held by such Lender, irrespective of whether or not such Lender shall have made any demand under this Agreement or such other Loan Document and although the obligations may be unmaturing. The rights of each Lender under this Section 9.06 are in addition to other rights and remedies (including other rights of set-off) that such Lender may have.

SECTION 9.07. **Applicable Law.** THIS AGREEMENT AND THE OTHER LOAN DOCUMENTS (OTHER THAN AS EXPRESSLY SET FORTH IN OTHER LOAN DOCUMENTS) SHALL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE STATE OF NEW YORK.

SECTION 9.08. **Waivers; Amendment.** (a) No failure or delay of the Administrative Agent or any Lender in exercising any right or power hereunder or under any Loan Document shall operate as a waiver thereof, nor shall any single or partial exercise of any such right or power, or any abandonment or discontinuance of steps to enforce such a right or power, preclude any other or further exercise thereof or the exercise of any other right or power. The rights and remedies of the Administrative Agent and the Lenders hereunder and under the other Loan Documents are cumulative and are not exclusive of any rights or remedies that they would otherwise have. No waiver of any provision of this Agreement or any other Loan Document or consent to any departure by Holdings, the Borrower or any other Loan Party therefrom shall in any event be effective unless the same shall be permitted by paragraph (b) below, and then such waiver or consent shall be effective only in the specific instance and for the purpose for which given. No notice or demand on Holdings, the Borrower or any other Loan Party in any case shall entitle such person to any other or further notice or demand in similar or other circumstances.

(b) Except as provided in Section 2.21 with respect to an Incremental Facility Amendment, neither this Agreement nor any other Loan Document nor any provision hereof or thereof may be waived, amended or modified except (x) in the case of this Agreement, pursuant to an agreement or agreements in writing entered into by Holdings, the Borrower, the Administrative Agent and the Required Lenders and (y) in the case of any other Loan Document, pursuant to an agreement or agreements in writing entered into by each party thereto and the Administrative Agent and consented to by the Required Lenders; provided, however, that no such agreement shall

(i) decrease or forgive the principal amount of, or extend the final maturity of, or decrease the rate of interest on, any Loan, without the prior written consent of each Lender directly and adversely affected thereby; provided, that any amendment to the Total Leverage Ratio or the component definitions in this Agreement shall not constitute a reduction in the rate of interest for purposes

- (ii) decrease the amount of any fees or of premium payable to any Lender without the prior written consent of such Lender,
- (iii) extend or waive any date on which payment of interest on any Loan or any premium or any Fees is due, without the prior written consent of each Lender directly and adversely affected thereby,
- (iv) amend or modify the provisions of Section 2.18(b) or (c) or 2.10(d) of this Agreement or Section 6.5 of the Collateral Agreement in a manner that would by its terms alter the pro rata sharing of payments required thereby, without the prior written consent of each Lender directly and adversely affected thereby,
- (v) amend or modify the provisions of this Section 9.08, Section 9.04(a)(i) or the definition of the term "Required Lenders", without the prior written consent of each Lender directly and adversely affected thereby (it being understood that, with the consent of the Required Lenders, additional extensions of credit pursuant to this Agreement may be included in the determination of the Required Lenders on substantially the same basis as the Loans and Commitments are included on the Closing Date), or
- (vi) release all or substantially all the Collateral or release all or substantially all of the value of the Guarantees under the Collateral Agreement, unless, in the case of a Subsidiary Loan Party, all or substantially all the Equity Interests of such Subsidiary Loan Party is sold or otherwise disposed of in a transaction permitted by this Agreement, without the prior written consent of each Lender,

provided, further, that no such agreement shall amend, modify or otherwise affect the rights or duties of the Administrative Agent or Collateral Agent hereunder without the prior written consent of the Administrative Agent or Collateral Agent, as applicable; provided, however, if an Affiliate of Holdings or any Permitted Investor shall be a Lender, the Loans held by such person shall be deemed to have been voted in the same manner as the Required Lenders (assuming for this purpose that the Loans held by such person were not outstanding other than in respect of Section 9.04(a)(ii), and clauses (i), (ii), (iii) or (iv) of the first proviso to this Section 9.08(b)). Each Lender shall be bound by any waiver, amendment or modification authorized by this Section 9.08 and any consent by any Lender pursuant to this Section 9.08 shall bind any assignee of such Lender.

(c) Without the consent of the Syndication Agent, the Documentation Agent or any Joint Lead Arranger or Lender, the Loan Parties and the Agents may (in their respective sole discretion, or shall, to the extent required by any Loan Document) enter into any amendment, modification or waiver of any Loan Document, or enter into any new agreement or instrument, to effect the granting, perfection, protection, expansion or enhancement of any security interest in any Collateral or additional property to become Collateral for the benefit of the Secured Parties, or as required by local law to give effect to, or protect any security interest for the benefit of the Secured Parties, in any property or so that the security interests therein comply with applicable law.

(d) Notwithstanding the foregoing, this Agreement may be amended (or amended and restated) with the written consent of the Required Lenders, the Administrative Agent and the Borrower (a) to add one or more additional credit facilities to this Agreement and to permit the extensions of credit from time to time outstanding thereunder and the accrued interest and fees in respect thereof to share ratably in the benefits of this Agreement and the other Loan Documents with the Term Loans and the accrued interest and fees in respect thereof and (b) to include appropriately the Lenders holding such credit facilities in any determination of the Required Lenders.

SECTION 9.09. Interest Rate Limitation. Notwithstanding anything herein to the contrary, if at any time the applicable interest rate on any Loan, together with all fees and charges that are treated as interest under applicable law (collectively, the "Charges"), as provided for herein or in any other document executed in connection herewith, or otherwise contracted for, charged, received, taken or reserved by any Lender, shall exceed the maximum lawful rate (the "Maximum Rate") that may be contracted for, charged, taken, received or reserved by such Lender in accordance with applicable law, the rate of interest payable hereunder, together with all Charges payable to such Lender, shall be limited to the Maximum Rate, provided that such excess amount shall be paid to such Lender on subsequent payment dates to the extent not exceeding the legal limitation.

SECTION 9.10. Entire Agreement. This Agreement, the other Loan Documents and the agreements regarding certain Fees referred to herein constitute the entire contract between the parties relative to the subject matter hereof. Any previous agreement among or representations from the parties or their Affiliates with respect to the subject matter hereof is superseded by this Agreement and the other Loan Documents. Notwithstanding the foregoing, the Fee Letter shall survive the execution and delivery of this Agreement and remain in full force and effect. Nothing in this Agreement or in the other Loan Documents, expressed or implied, is intended to confer upon any party other than the parties hereto and thereto, and their respective successors and assigns permitted hereunder, any rights, remedies, obligations or liabilities under or by reason of this Agreement or the other Loan Documents.

SECTION 9.11. WAIVER OF JURY TRIAL. EACH OF THE PARTIES HERETO HEREBY AGREES TO WAIVE ITS RESPECTIVE RIGHTS TO A JURY TRIAL OF ANY CLAIM OR CAUSE OF ACTION BASED UPON OR ARISING HEREUNDER OR UNDER ANY OF THE OTHER LOAN DOCUMENTS OR ANY DEALINGS BETWEEN THEM RELATING TO THE SUBJECT MATTER OF THIS LOAN TRANSACTION OR THE LENDER/BORROWER RELATIONSHIP THAT IS BEING ESTABLISHED. THE SCOPE OF THIS WAIVER IS INTENDED TO BE ALL-ENCOMPASSING OF ANY AND ALL DISPUTES THAT MAY BE FILED IN ANY COURT AND THAT RELATE TO THE SUBJECT MATTER OF THIS TRANSACTION, INCLUDING CONTRACT CLAIMS, TORT CLAIMS, BREACH OF DUTY CLAIMS AND ALL OTHER COMMON LAW AND STATUTORY CLAIMS. EACH PARTY HERETO ACKNOWLEDGES THAT THIS WAIVER IS A MATERIAL INDUCEMENT TO ENTER INTO A BUSINESS RELATIONSHIP, THAT EACH HAS ALREADY RELIED ON THIS WAIVER IN ENTERING INTO THIS AGREEMENT, AND THAT EACH WILL CONTINUE TO RELY ON THIS WAIVER IN ITS RELATED FUTURE DEALINGS. EACH PARTY HERETO FURTHER WARRANTS AND REPRESENTS THAT IT HAS REVIEWED THIS WAIVER WITH ITS LEGAL COUNSEL AND THAT IT KNOWINGLY AND VOLUNTARILY WAIVES ITS JURY TRIAL RIGHTS FOLLOWING CONSULTATION WITH LEGAL COUNSEL. THIS WAIVER IS IRREVOCABLE, MEANING THAT IT MAY NOT BE MODIFIED EITHER ORALLY OR IN WRITING (OTHER THAN BY A MUTUAL WRITTEN WAIVER SPECIFICALLY REFERRING TO THIS SECTION 9.11 AND EXECUTED BY EACH OF THE PARTIES HERETO), AND THIS WAIVER SHALL APPLY TO ANY SUBSEQUENT AMENDMENTS, RENEWALS, SUPPLEMENTS OR MODIFICATIONS HERETO OR ANY OF THE OTHER LOAN DOCUMENTS OR TO ANY OTHER DOCUMENTS OR AGREEMENTS RELATING TO THE LOANS MADE HEREUNDER. IN THE EVENT OF LITIGATION, THIS AGREEMENT MAY BE FILED AS A WRITTEN CONSENT TO A TRIAL BY THE COURT.

SECTION 9.12. Severability. In the event any one or more of the provisions contained in this Agreement or in any other Loan Document should be held invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein and therein shall not in any way be affected or impaired thereby. The parties shall endeavor in good-faith negotiations to replace the invalid, illegal or unenforceable provisions with valid

provisions the economic effect of which comes as close as possible to that of the invalid, illegal or unenforceable provisions.

SECTION 9.13. Counterparts. This Agreement may be executed in two or more counterparts, each of which shall constitute an original but all of which, when taken together, shall constitute but one contract, and shall become effective as provided in Section 9.03. Delivery of an executed counterpart to this Agreement by facsimile transmission shall be as effective as delivery of a manually signed original.

SECTION 9.14. Headings. Article and Section headings and the Table of Contents used herein are for convenience of reference only, are not part of this Agreement and are not to affect the construction of, or to be taken into consideration in interpreting, this Agreement.

SECTION 9.15. Jurisdiction; Consent to Service of Process. (a) Each of the parties hereto hereby irrevocably and unconditionally submits, for itself and its property, to the nonexclusive jurisdiction of any New York State court or federal court of the United States of America sitting in New York City, and any appellate court from any thereof, in any action or proceeding arising out of or relating to this Agreement, the other Loan Documents, or for recognition or enforcement of any judgment, and each of the parties hereto hereby irrevocably and unconditionally agrees that all claims in respect of any such action or proceeding may be heard and determined in such New York State or, to the extent permitted by law, in such federal court. Each of the parties hereto agrees that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Nothing in this Agreement shall affect any right that any Lender, the Administrative Agent may otherwise have to bring any action or proceeding relating to this Agreement, the other Loan Documents against Holdings, the Borrower or any Loan Party or their properties in the courts of any jurisdiction.

(b) Each of the parties hereto hereby irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection which it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this Agreement or the other Loan Documents in any New York State or federal court. Each of the parties hereto hereby irrevocably waives, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court.

(c) Each of the parties hereto agrees that service of all process in any such proceeding in any such court may be made by registered or certified mail, return receipt requested at its address provided in Section 9.01 agrees that service as so provided in is sufficient to confer personal jurisdiction over the applicable credit party in any such proceeding in any such court, and otherwise constitutes

effective and binding service in every respect; and agrees that agents and lenders retain the right to serve process in any other manner permitted by law or to bring proceedings against any credit party in the courts of any other jurisdiction.

SECTION 9.16. Confidentiality. Each of the Lenders and each of the Agents agrees that it shall maintain in confidence any information relating to Holdings, the Borrower and the other Loan Parties furnished to it by or on behalf of Holdings, the Borrower or the other Loan Parties (other than information that (a) has become generally available to the public other than as a result of a disclosure by such party, (b) has been independently developed by such Lender or such Agent without violating this Section 9.16 or (c) was available to such Lender or such Agent from a third party having, to such person's knowledge, no obligations of confidentiality to Holdings, the Borrower or any other Loan Party) and shall not reveal the same other than to its directors, trustees, officers, employees and advisors with a need to know or to any person that approves or administers the Loans on behalf of such Lender (so long as each

93

such person shall have been instructed to keep the same confidential in accordance with this Section 9.16), except: (A) to the extent necessary to comply with law or any legal process or the requirements of any Governmental Authority, self-regulatory authorities (including the National Association of Insurance Commissioners) or of any securities exchange on which securities of the disclosing party or any affiliate of the disclosing party are listed or traded (in which case we will promptly notify you, in advance, to the extent permitted by applicable law or the rules governing the process requiring such disclosure) (B) as part of the reporting or review procedures to, or examinations by, Governmental Authorities or self-regulatory authorities, including the National Association of Insurance Commissioners or the National Association of Securities Dealers, Inc., (C) to its parent companies, affiliates, auditors, assignees, transferees and participants (so long as each such person shall have been instructed to keep the same confidential in accordance provisions not less restrictive than this Section 9.16), (D) in order to enforce its rights under any Loan Document in a legal proceeding, (E) to any pledgee under Section 9.04(d) or any other prospective assignee of, or prospective Participant in, any of its rights under this Agreement (so long as such person shall have been instructed to keep the same confidential in accordance with this Section 9.16 or other provisions at least as restrictive as this Section 9.16), (F) to any direct or indirect contractual counterparty in Swap Agreements or such contractual counterparty's professional advisor (so long as such contractual counterparty or professional advisor to such contractual counterparty agrees to be bound by the provisions of this Section 9.16), (G) disclosure to any rating agency when required by it (so long as such person shall have been instructed to keep the same confidential in accordance with this Section 9.16) and (H) with the consent of the Borrower. In addition, each Agent and each Lender may disclose the existence of this Agreement and the information about this Agreement to market data collectors, similar services providers to the lending industry, and service providers to the Agents and the Lenders in connection with the administration and management of this Agreement and the other Loan Documents.

SECTION 9.17. Release of Liens and Guarantees. In the event that any Loan Party conveys, sells, leases, assigns, transfers or otherwise disposes of any assets or all or any portion of any of the Equity Interests or assets of any Subsidiary Loan Party to a person that is not (and is not required to become) a Loan Party in each case in a transaction not prohibited by Section 6.05 or in connection with a Subsidiary Redesignation or in connection with a pledge of the Equity Interests of joint ventures permitted by Section 6.02, the Administrative Agent and the Collateral Agent shall promptly (and the Lenders hereby authorize the Administrative Agent and the Collateral Agent to) take such action and execute any such documents as may be reasonably requested by Holdings or the Borrower and at the Borrower's expense to release any Liens created by any Loan Document in respect of such Equity Interests or assets, and, in the case of a disposition of the Equity Interests of any Subsidiary Loan Party in a transaction permitted by Section 6.05 or in connection with a Subsidiary Redesignation and as a result of which such Subsidiary Loan Party would cease to be a Subsidiary, terminate such Subsidiary Loan Party's obligations under its Guarantee. Any representation, warranty or covenant contained in any Loan Document relating to any such Equity Interests, asset or subsidiary of Holdings shall no longer be deemed to be made once such Equity Interests or asset is so conveyed, sold, leased, assigned, transferred or disposed of.

SECTION 9.18. USA PATRIOT Act. Each Lender hereby notifies the Borrower that pursuant to the requirements of the USA PATRIOT Act, it is required to obtain, verify and record information that identifies the Borrower, which information includes the name and address of the Borrower and other information that will allow such Lender to identify the Borrower in accordance with the USA PATRIOT Act.

SECTION 9.19. Marshalling; Payments Set Aside. Neither any Agent nor any Lender shall be under any obligation to marshal any assets in favor of any Loan Party or any other person or against or in payment of any or all of the Obligations. To the extent that any Loan Party makes a

94

payment or payments to Administrative Agent or Lenders (or to Administrative Agent, on behalf of Lenders), or any Agent or Lenders enforce any security interests or exercise their rights of setoff, and such payment or payments or the proceeds of such enforcement or setoff or any part thereof are subsequently invalidated, declared to be fraudulent or preferential, set aside and/or required to be repaid to a trustee, receiver or any other party under any bankruptcy law, any other state or federal law, common law or any equitable cause, then, to the extent of such recovery, the obligation or part thereof originally intended to be satisfied, and all Liens, rights and remedies therefor or related thereto, shall be revived and continued in full force and effect as if such payment or payments had not been made or such enforcement or setoff had not occurred.

SECTION 9.20. Obligations Several; Independent Nature of Lenders' Rights. The obligations of Lenders hereunder are several and no Lender shall be responsible for the obligations or Commitment of any other Lender hereunder. Nothing contained herein or in any other Loan Document, and no action taken by Lenders pursuant hereto or thereto, shall be deemed to constitute Lenders as a partnership, an association, a joint venture or any other kind of entity. The amounts payable at any time hereunder to each Lender shall be a separate and independent debt, and each Lender shall be entitled to protect and enforce its rights arising out hereof and it shall not be necessary for any other Lender to be joined as an additional party in any proceeding for such purpose.

SECTION 9.21. Electronic Execution of Assignments. The words "execution," "signed," "signature," and words of like import in any Assignment Agreement shall be deemed to include electronic signatures or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any applicable law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act.

NEW YORK POWER OF ATTORNEY

KNOW ALL BY THESE PRESENTS, that Stephen Murray hereby constitutes and appoints Aaron Jagdfeld and York A. Ragen, and each of them, as his true and lawful attorneys in fact and agents, with full power of substitution and resubstitution, for him and in his name, place, and stead, in any and all capacities, to sign any and all amendments (including post effective amendments, exhibits thereto and other documents in connection therewith) to the registration statement on Form S-1 (the "Registration Statement") to be filed by Generac Holdings Inc. (the "Registrant") and any subsequent registration statement filed by the Registrant pursuant to Rule 462(b) of the Securities Act of 1933, as amended, which relates to the Registration Statement, and to file the same, with all exhibits thereto, and other documents in connection therewith, with the Securities and Exchange Commission, granting unto said attorneys in fact and agents, and each of them, full power and authority to do and perform each and every act and thing requisite and necessary to be done in connection therewith, as fully to all intents and purposes as he might or could do in person, hereby ratifying and confirming all that said attorneys in fact and agents, or any of them, or their substitute or substitutes, may lawfully do or cause to be done by virtue hereof.

Except as otherwise specifically provided herein, the power of attorney granted herein shall not in any manner revoke in whole or in part any power of attorney that each person whose signature appears below has previously executed. This power of attorney shall not be revoked by any subsequent power of attorney each person whose signature appears below may execute, unless such subsequent power specifically refers to this power of attorney or specifically states that the instrument is intended to revoke all prior general powers of attorney or all prior powers of attorney.

CAUTION TO THE PRINCIPAL: Your Power of Attorney is an important document. As the "principal," you give the person whom you choose (your "agent") authority to spend your money and sell or dispose of your property during your lifetime without telling you. You do not lose your authority to act even though you have given your agent similar authority. When your agent exercises this authority, he or she must act according to any instructions you have provided or, where there are no specific instructions, in your best interest. "Important information for the agent" at the end of this document describes your agent's responsibilities. Your agent can act on your behalf only after signing the Power of Attorney before a notary public. You can request information from your agent at any time. If you are revoking a prior Power of Attorney by executing this Power of Attorney, you should provide written notice of the revocation to your prior agent(s) and to the financial institutions where your accounts are located. You can revoke or terminate your Power of Attorney at any time for any reason as long as you are of sound mind. If you are no longer of sound mind, a court can remove an agent for acting improperly. Your agent cannot make health care decisions for you. You may execute a "Health Care Proxy" to do this. The law governing Powers of Attorney is contained in the New York General Obligations Law, Article 5, Title 15. IMPORTANT INFORMATION FOR THE AGENT: When you accept the authority granted under this Power of Attorney, a special legal relationship is created between you and the principal. This relationship imposes on you legal responsibilities that continue until you resign or the Power of Attorney is terminated or revoked. You must:

- (1) act according to any instructions from the principal, or, where there are no instructions, in the principal's best interest;
- (2) avoid conflicts that would impair your ability to act in the principal's best interest;
- (3) keep the principal's property separate and distinct from any assets you own or control, unless otherwise permitted by law;
- (4) keep a record of all receipts, payments, and transactions conducted for the principal; and
- (5) disclose your identity as an agent whenever you act for the principal by writing or printing the principal's name and signing your own name as "agent" in either of the following manner: (Principal's Name) by (Your Signature) as Agent, or (your signature) as Agent for (Principal's Name).

You may not use the principal's assets to benefit yourself or give major gifts to yourself or anyone else unless the principal has specifically granted you that authority in this Power of Attorney or in a Statutory Major Gifts Rider attached to this Power of Attorney. If you have that authority, you must act according to any instructions of the principal or, where there are no such instructions, in the principal's best interest. You may resign by giving written notice to the principal and to any co-agent, successor agent, monitor if one has been named in this document, or the principal's guardian if one has been appointed. If there is anything about this document or your responsibilities that you do not understand, you should seek legal advice.

Liability of agent: The meaning of the authority given to you is defined in New York's General Obligations Law, Article 5, Title 15. If it is found that you have violated the law or acted outside the authority granted to you in the Power of Attorney, you may be liable under the law for your violation.

I have read the foregoing Power of Attorney. I am the person identified therein as agent for the principal named therein.

"Important information for the agent" at the end of this document describes your agent's responsibilities. Your agent can act on your behalf only after signing the Power of Attorney before a notary public. You can request information from your agent at any time. If you are revoking a prior Power of Attorney by executing this Power of Attorney, you should provide written notice of the revocation to your prior agent(s) and to the financial institutions where your accounts are located. You can revoke or terminate your Power of Attorney at any time for any reason as long as you are of sound mind. If you are no longer of sound mind, a court can remove an agent for acting improperly. Your agent cannot make health care decisions for you. You may execute a "Health Care Proxy" to do this. The law governing Powers of Attorney is contained in the New York General Obligations Law, Article 5, Title 15. This law is available at a law library, or online through the New York State Senate or Assembly websites, www.senate.state.ny.us or

IMPORTANT INFORMATION FOR THE AGENT: When you accept the authority granted under this Power of Attorney, a special legal relationship is created between you and the principal. This relationship imposes on you legal responsibilities that continue until you resign or the Power of Attorney is terminated or revoked. You must:

- (1) act according to any instructions from the principal, or, where there are no instructions, in the principal's best interest;
- (2) avoid conflicts that would impair your ability to act in the principal's best interest;
- (3) keep the principal's property separate and distinct from any assets you own or control, unless otherwise permitted by law;
- (4) keep a record of all receipts, payments, and transactions conducted for the principal; and
- (5) disclose your identity as an agent whenever you act for the principal by writing or printing the principal's name and signing your own name as "agent" in either of the following manner: (Principal's Name) by (Your Signature) as Agent, or (your signature) as Agent for (Principal's Name).

You may not use the principal's assets to benefit yourself or give major gifts to yourself or anyone else unless the principal has specifically granted you that authority in this Power of Attorney or in a Statutory Major Gifts Rider attached to this Power of Attorney. If you have that authority, you must act according to any instructions of the principal or, where there are no such instructions, in the principal's best interest. You may resign by giving written notice to the principal and to any co-agent, successor agent, monitor if one has been named in this document, or the principal's guardian if one has been appointed. If there is anything about this document or your responsibilities that you do not understand, you should seek legal advice.

Liability of agent: The meaning of the authority given to you is defined in New York's General Obligations Law, Article 5, Title 15. If it is found that you have violated the law or acted outside the authority granted to you in the Power of Attorney, you may be liable under the law for your violation.

I have read the foregoing Power of Attorney. I am the person identified therein as agent for the principal named therein.
