

ecobee's Entire Line of Products Now Available In-Store at Best Buy Canada

October 25, 2023

The company's current products, including the brand-new Smart Doorbell Camera, are now available for purchase at every Best Buy retail location across Canada for the first time

TORONTO--(BUSINESS WIRE)--Oct. 25, 2023-- Today, smart home leader [ecobee](#), a subsidiary of [Generac Power Systems](#) (NYSE: GNRC), announced its current line of products is now available for purchase at all Best Buy retail locations across Canada for the first time. ecobee's top-ranking smart thermostat and home security products, including the brand-new [Smart Doorbell Camera](#), seamlessly blend intelligent and sustainable technology into the home.

"As a long-standing Canadian tech company, we're absolutely thrilled that our products are now available at all Best Buy retail locations across the country," said Andy Kahn, Senior Director, Retail Sale at ecobee. "Now, Best Buy Canada shoppers can bring comfort, security and reliability to their homes with ecobee products that are built to last."

ecobee's whole home product line-up is designed to work better together. The ecobee Smart Doorbell Camera can seamlessly integrate with the ecobee Smart Thermostat Premium to show a live stream directly on the thermostat screen, a first-of-its-kind integration between a smart thermostat and a smart doorbell.

The company's industry-leading smart thermostats and home security products help keep homes safe, comfortable, and secure, while delivering the energy and money saving features synonymous with ecobee.

About ecobee

ecobee Inc. was founded in 2007 with a mission to improve everyday life while creating a more sustainable world. Since launching the world's first smart thermostat in 2009, ecobee has helped customers across North America save more than 28 TWh of energy, which is the equivalent of taking all the homes in Los Angeles and Chicago off the grid for a year. Today, ecobee continues to innovate with smart home solutions that solve everyday problems with comfort, security, and conservation in mind. With ecobee's devices and services, ecobee continues to encourage Smart Owners to imagine what home could be. In 2021, ecobee joined [Generac Holdings Inc. \(NYSE: GNRC\)](#), a leading global designer and manufacturer of energy technology solutions, and other power products. Generac and ecobee share a vision to deliver a cleaner and more sustainable energy future for customers and communities. The Generac and ecobee home of the future will be more comfortable, secure, resilient, and efficient. For more information, visit [ecobee.com](#).
