

## DR Power Introduces the XD45 Commercial Leaf & Lawn Vacuum: A New Force in Property Cleanup

September 18, 2025

The XD45 debuts as DR Power's first commercial-grade walk-behind vacuum.

SOUTH BURLINGTON, Vt., Sept. 18, 2025 /PRNewswire/ -- DR Power Equipment, a prominent producer of high-quality outdoor power equipment and a Generac Power Systems (NYSE: GNRC) company, has unveiled the XD45 Commercial Leaf & Lawn Vacuum, setting a new standard for high-performance outdoor cleanup.

Built for commercial use, the XD45 combines a powerful engine, massive collection capacity, a pressure-sensitive variable-speed drive, and a unique open top collection bag that slides out making emptying faster and easier than anything else on the market.

DR Power's launch of the XD45 marks the company's first expansion of the Commercial XD Series focused on meeting a wider range of needs in the rental and professional equipment sector. This product is currently available for purchase online at [DRPower.com](https://www.DRPower.com).

"The XD45 is a true workhorse. It's a game-changer for anyone serious about cleanup," says Brandon DeCoff, Vice President of Sales and Marketing for Chore Products at Generac. "We built this machine to tackle the toughest yard and jobsite debris with unmatched speed and ease. With its powerful suction, intuitive variable-speed drive, and wide-open collection system, the XD45 simply makes lawn cleanup easier." Ideal for industries like landscaping, municipal services, education, hospitality, retail and property management, this commercial-grade mower offers powerful, high-capacity debris collection and ergonomic control for efficient outdoor cleanup across large or high-traffic areas.

Powered by a professional-grade engine, the XD45 channels an impressive 8.50-foot pounds of torque to the heavy-duty serrated impeller, reducing the volume of collected materials and maximizing the capacity of the industry leading 45-gallon collection bag. When the collection bag reaches full capacity, the integrated quick-release latch and open top design make for fast and easy emptying.

### **About DR Power Equipment**

DR® Power Equipment, a Generac Power Systems company, is the premier developer and marketer of professional-grade, outdoor power equipment for commercial and residential use. The company was founded in 1985 in Charlotte, Vermont. DR Power Equipment is a Generac Power Systems company. For more information, visit [www.DRPower.com](https://www.DRPower.com).

### **About Generac**

Generac Holdings, Inc. (NYSE: GNRC) is a total energy solutions company that empowers people to use energy on their own terms. Founded in 1959, Generac is a leading global designer, manufacturer, and provider of a wide range of energy technology solutions. The company provides power generation equipment, energy storage systems, energy management devices & solutions, and other power products serving the residential, light commercial, and industrial products markets. Generac introduced the first affordable backup generator and later created the automatic home standby generator category. The company continues to expand its energy technology offerings for homes and businesses in its mission to Power a Smarter World and lead the evolution to more resilient, efficient, and sustainable energy solutions.
