

Eagle Residents: You are in Powerful Hands with Standby Power from Generac

June 22, 2010

Generac Supplies Power to Fire Station, Eagle Residents

WAUKESHA, Wis., Jun 22, 2010 (BUSINESS WIRE) --In response to the tornado that hit Eagle, Wis., last night, Generac Power Systems, Inc. responded immediately to supply backup power to the Eagle Fire Station. Additionally, Generac will be working with the Eagle Public Works Department to help provide temporary power to local homes and businesses.

"Our plant in Eagle gives us local roots in the community and many Generac employees live in this area. I was especially concerned watching the storm unfold and am relieved no one has been hurt. Generac is grateful we are able to help the residents while they are without power and will continue to do whatever we can until power is restored," said Aaron Jagdfeld, Generac president and CEO.

One of the best ways to protect homes and families from dangerous power outages is to install an automatic standby generator that automatically comes on when the power goes out.
