- o Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 2.02 Results of Operations and Financial Condition

On November 1, 2011, Generac Holdings Inc. (the "Company," "we," "us" or "our") issued a press release (the "Earnings Release") announcing its financial results for the third quarter of fiscal year 2011. A copy of the Earnings Release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

The information contained in this Current Report on Form 8-K (including the exhibits) is being furnished and shall not be deemed "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that Section. The information contained in this Current Report on Form 8-K shall not be incorporated by reference into any registration statement or other document pursuant to the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in any such filing.

Discussion of Non-GAAP Financial Measures

In the Earnings Release, we present certain financial information, specifically Adjusted EBITDA, Adjusted net income (loss) and free cash flow, which are not in accordance with generally accepted accounting principles, or U.S. GAAP. We present Adjusted EBITDA, Adjusted net income (loss) and free cash flow in the Earnings Release because these metrics assist us in comparing our performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. Our management uses Adjusted EBITDA, Adjusted net income (loss) and free cash flow:

- · for planning purposes, including the preparation of our annual operating budget and developing and refining our internal projections for future periods;
- · to evaluate the effectiveness of our business strategies and as a supplemental tool in evaluating our performance against our budget for each period; and
- · in communications with our board of directors and investors concerning our financial performance.

We also use Adjusted EBITDA as a benchmark for the determination of the bonus component of compensation for our senior executives under our management incentive plans.

We believe that the disclosure of Adjusted EBITDA, Adjusted net income (loss) and free cash flow offers additional financial metrics which, when coupled with U.S. GAAP results and the reconciliation to U.S. GAAP results, provide a more complete understanding of our results of operations and the factors and trends affecting our business for securities analysts, investors and other interested parties in the evaluation of our company. We believe Adjusted EBITDA, Adjusted net income (loss) and free cash flow are useful to investors for the following reasons:

- · Adjusted EBITDA, Adjusted net income (loss) and free cash flow and similar non-GAAP measures are widely used by investors to measure a company's operating performance without regard to items that can vary substantially from company to company depending upon financing and accounting methods, book values of assets, tax jurisdictions, capital structures and the methods by which assets were acquired; and
- · by comparing our Adjusted EBITDA, Adjusted net income (loss) and free cash flow in different historical periods, our investors can evaluate our operating performance excluding the impact of certain items.

Press Release, dated November 1, 2011.

Generac Reports Third Quarter 2011 Results

Strong demand for back-up power drives substantial increase in sales, profit and cash flow during the quarter

WAUKESHA, WISCONSIN, (November 1, 2011) – Generac Holdings Inc. (NYSE: GNRC), a leading designer and manufacturer of generators and other engine powered products, today reported financial results for its third quarter ended September 30, 2011.

Highlights -

- · Total net sales increased year-over-year by 49.0% to \$239.3 million as compared to \$160.7 million in the third quarter of 2010.
 - 60.5% year-over-year growth in Residential product sales.
 - Commercial & Industrial (C&I) product sales up 27.4% compared to prior year.
- · Net income increased year-over-year to \$37.4 million as compared to \$23.0 million for the third quarter of 2010; Adjusted net income increased 37.8% to \$50.6 million from \$36.7 million in the third quarter of 2010.
- Diluted net income per common share was \$0.55 per share as compared to \$0.34 per share in the third quarter of 2010; Adjusted diluted net income per common share was \$0.75 per share as compared to \$0.55 per share in the third quarter of 2010.
- · Cash flow from operations in the third quarter 2011 increased 67.3% to \$61.0 million as compared to \$36.5 million in the prior year quarter.
- · On October 3, 2011, the Company acquired substantially all the assets and certain liabilities of Magnum Products, LLC, funded solely by cash on the balance sheet.

"The third quarter of 2011 was marked by a number of significant milestones for Generac," said Aaron Jagdfeld, President and Chief Executive Officer of Generac. "We saw record shipments of our residential products following the major power outage events that occurred in the Midwest and along the East Coast during the third quarter. Our sustained efforts over the past three years to build a leading position in the market for portable generators resulted in a sharp increase in sales due to the increased demand for these products in the third quarter. We also saw increased demand for our home standby generators in the quarter and we expect that demand will grow over the next several quarters as homeowners look to protect themselves from future power outages."

"In addition to our record sales during the quarter, in early October we completed our acquisition of Magnum Products, a leading provider of light towers, mobile generators and pumps to the construction, energy and government markets. The Magnum Products business is an excellent strategic fit for Generac as it provides us an entry point into new adjacent power products, new customers and new end markets. We have been disciplined with the use of our corporate cash having paid down nearly \$100 million of debt over the last 12 months. In this acquisition, we saw an opportunity to use cash on our balance sheet to drive an even stronger return for our shareholders."

Residential product sales for the third quarter of 2011 increased 60.5% to \$162.1 million from \$101.0 million for the comparable period in 2010. Higher shipments of portable generators were the primary driver of this increase, as widespread power outages caused an immediate increase in the demand for back-up power. Following the outage events, sales of home standby generators also increased during the quarter.

Commercial & Industrial product sales for the third quarter of 2011 increased 27.4% to \$63.1 million from \$49.6 million for the comparable period in 2010. This outperformance was predominantly driven by timing of larger shipments to certain national account customers given their capital spending requirements during the current year.

Gross profit margin for the third quarter of 2011 was 37.0% compared to 37.4% in the second quarter of 2011 and 41.9% in the same period last year. The majority of the gross margin decline from prior year was attributable to the significant shift in sales mix towards more portable generators in the current year quarter. To a lesser extent, higher commodity costs versus the prior year also contributed to the year-over-year gross margin decline.

Operating expenses for the third quarter of 2011 increased by approximately \$6.9 million or 18.3% as compared to the third quarter of 2010. This was primarily driven by increased variable operating expenses on the 49.0% year-over-year growth in sales, increased sales and engineering costs to support the strategic growth initiatives of the Company, and increased incentive compensation expenses as a result of the Company's financial performance during the quarter.

Adjusted EBITDA of \$61.6 million in the third quarter 2011 increased from \$45.7 million in the same period last year, resulting in a last-twelve-month's Adjusted EBITDA of \$169.4 million.

Interest expense in the third quarter of 2011 declined to \$5.9 million, compared to \$6.5 million in the same period last year. This decline was a result of nearly \$100 million of debt pre-payments that were made over the last 12 months.

Net cash provided by operating activities was \$61.0 million in the third quarter of 2011, which was up from \$36.5 million in the same period last year. Increased shipments helped to monetize inventory levels generating significant cash flow in the third quarter.

OUTLOOK

Mr. Jagdfeld continued, "Given the major outage events that occurred during the third quarter of 2011, we now expect that residential product sales in the fourth quarter will increase year-over-year by over 30%. We expect that higher residential sales will be primarily driven by increased shipments of home standby generators, as the demand for these products is expected to remain strong into fiscal 2012 in the regions impacted by recent outages. With regards to C&I product sales, given the timing of certain larger shipments to national account customers in the third quarter of 2011, coupled with a short-term gap in certain Japanese component supply chain, we expect our C&I fourth quarter shipments to be roughly flat compared to the fourth quarter of 2010, excluding the impact of the Magnum Products acquisition."

Regarding the Magnum Products acquisition, Generac expects the transaction to be immediately accretive to earnings in the fourth quarter of 2011, with the opportunity for additional accretion thereafter as a result of anticipated cost synergies. Based on current projections, the acquisition should add approximately

\$25-\$30 million in revenue and \$0.03-\$0.04 in adjusted diluted earnings per share in the fourth quarter of 2011, excluding certain purchase accounting adjustments.

Fourth quarter 2011 gross margins, excluding Magnum, are expected to sequentially improve from the third quarter due to a sales mix shift towards more home standby generator shipments and the realization of price increases, cost reductions, commodity cost moderation and improved manufacturing overhead absorption. The Company estimates that the inclusion of Magnum's results will reduce total Company gross margins by approximately 250 basis points during the fourth quarter given the current margin profile of the Magnum product line. Gross margins for Magnum's products are expected to improve in 2012 as synergies are implemented during the year.

Mr. Jagdfeld concluded, "We are very pleased with our third quarter performance as our employees and distribution partners responded quickly to meet the strong demand for portable and home standby generators. With the relatively low penetration of home standby generators, we believe the events of the third quarter will create increased awareness and accelerate the adoption rate for these products. Additionally, we have a number of initiatives in place through our Powering Ahead strategic plan that, together with our acquisition of Magnum, we believe will help us to gain industrial market share, diversify our end markets, and expand internationally. As a result of these efforts, we believe we are well positioned for 2012 and beyond."

Conference Call and Webcast

Generac management will hold a conference call at 9:00 a.m. EDT on Tuesday, November 1, 2011 to discuss highlights of this earnings release. The conference call can be accessed by dialing (866) 825-1709 (domestic) or +1 (617) 213-8060 (international) and entering passcode 62184879.

The conference call will also be webcast simultaneously on Generac's website (http://www.generac.com), under the Investor Relations link. The webcast link and supporting materials, if any, will be made available on the Company's website prior to the start of the call.

Following the live webcast, a replay will be available on the Company's web site. A telephonic replay will also be available three hours after the call and can be accessed by dialing (888) 286-8010 (domestic) or +1 (617) 801-6888 (international) and entering passcode 64350990. The telephonic replay will be available for 30 days.

Generac company news is available 24 hours a day, on-line at: http://www.generac.com.

About Generac

Since 1959, Generac has been a leading designer and manufacturer of a wide range of generators and other engine powered products. As a leader in power equipment serving residential, light commercial, industrial and construction markets, Generac's power products are available through a broad network of independent dealers, retailers, wholesalers and equipment rental companies. The company markets and distributes its products primarily under its Generac and Magnum brand names.

Forward-looking Information

Certain statements contained in this news release, as well as other information provided from time to time by Generac Holdings Inc. or its employees, may contain forward looking statements that involve risks and uncertainties that could cause actual results to differ materially from those in the forward looking statements. Forward-looking statements give Generac's current expectations and projections relating to the Company's financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "confident," "may," "should," "can have," "likely," "future" and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

Any such forward looking statements are not guarantees of performance or results, and involve risks, uncertainties (some of which are beyond the Company's control) and assumptions. Although Generac believes any forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect Generac's actual financial results and cause them to differ materially from those anticipated in any forward-looking statements, including:

- · demand for Generac products;
- · frequency of major power outages;
- · availability and cost of quality raw materials and key components used in producing Generac products;
- the possibility that the expected synergies, efficiencies and cost savings of the acquisition of the Magnum Products business will not be realized, or will not be realized within the expected time period;
- · the risk that the Magnum Products business will not be integrated successfully;
- $\boldsymbol{\cdot}$ competitive factors in the industry in which Generac operates;
- $\cdot\,$ Generac's dependence on its distribution network;
- · Generac's ability to invest in, develop or adapt to changing technologies and manufacturing techniques;
- · Generac's ability to adjust to operating as a public company;
- · loss of key management and employees;
- $\boldsymbol{\cdot}$ increase in liability claims; and
- · changes in environmental, health and safety laws and regulations.

Should one or more of these risks or uncertainties materialize, Generac's actual results may vary in material respects from those projected in any forward-looking statements. A detailed discussion of these and other factors that may affect future results is contained in Generac's filings with the U.S. Securities and Exchange Commission ("SEC").

Any forward-looking statement made by Generac in this press release speaks only as of the date on which it is made. Generac undertakes no obligation to update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

Reconciliations to GAAP Financial Metrics

Adjusted EBITDA

The computation of Adjusted EBITDA is based on the definition of EBITDA contained in Generac's credit agreement, dated as of November 10, 2006. To supplement the Company's condensed consolidated financial statements presented in accordance with US GAAP, Generac provides a summary to show the computation of Adjusted EBITDA, taking into account certain charges and gains that were taken during the periods presented. Transaction costs, amortization of definite-lived intangible assets and the write-up of inventory basis all related to the Magnum Products transaction will be included in the Adjusted EBITDA reconciliation and added back for Adjusted EBITDA purposes.

Adjusted Net Income

To further supplement Generac's condensed consolidated financial statements presented in accordance with US GAAP, the Company provides a summary to show the computation of Adjusted net income. Adjusted net income is defined as Net income before provision (benefit) for income taxes adjusted for the following items: cash income tax (expense) benefit, amortization of intangible assets, amortization of deferred loan costs related to the Company's debt, intangible impairment charges, and certain non-cash gains. Transaction costs, amortization of definite-lived intangible assets and the write-up of inventory basis all related to the Magnum Products transaction will be included in the Adjusted Net Income reconciliation and added back for Adjusted Net Income purposes.

Free Cash Flow

In addition, we reference free cash flow to further supplement Generac's condensed consolidated financial statements presented in accordance with US GAAP. Free cash flow is defined as Net cash provided by operating activities less Expenditures for property and equipment and is intended to be a measure of operational cash flow taking into account additional capital expenditure investment into the business.

The presentation of this additional information is not meant to be considered in isolation of, or as a substitute for, results prepared in accordance with US GAAP. Please see our SEC filings for additional discussion of the basis for Generac's reporting of Non-GAAP financial measures.
