Investor Presentation November 2011

GENERAC

nowering ahead

Forward Looking Statements

Certain statements contained in this presentation, as well as other information provided from time to time by Generac Holdings Inc. or its employees, may contain forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements.

Forward-looking statements give Generac's current expectations and projections relating to the Company's financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "confident," "may," "should," "can have," "likely," "future" and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

Any such forward-looking statements are not guarantees of performance or results, and involve risks, uncertainties (some of which are beyond the Company's control) and assumptions. Although Generac believes any forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect Generac's actual financial results and cause them to differ materially from those anticipated in any forward-looking statements, including: demand for Generac products; frequency of major power outages; availability and cost of quality raw materials and key components used in producing Generac products; the possibility that the expected synergies, efficiencies and cost savings of the acquisition of the Magnum Products business will not be realized, or will not be realized within the expected time period; the risk that the Magnum Products business will not be integrated successfully; competitive factors in the industry in which Generac operates; Generac's dependence on the Company's distribution network; Generac's ability to invest in, develop or adapt to changing technologies and manufacturing techniques; Generac's ability to adjust to operating as a public company; loss of key management and employees; increase in liability claims; and changes in environmental, health and safety laws and regulations.

Should one or more of these risks or uncertainties materialize, Generac's actual results may vary in material respects from those projected in any forward-looking statements. A detailed discussion of these and other factors that may affect future results is contained in Generac's filings with the Securities and Exchange Commission. Any forward-looking statement made by Generac in this presentation speaks only as of the date on which it is made. Generac undertakes no obligation to update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

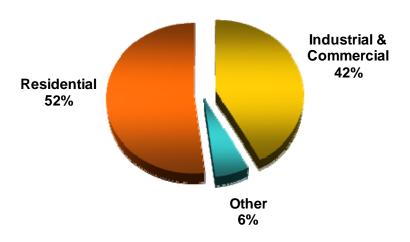

Generac Business Overview

About Generac -

- Founded in 1959.
- A leading designer and manufacturer of a wide range of generators and other engine powered products serving residential, light commercial, industrial and construction markets.
- Products are available through a broad network of independent dealers, retailers, wholesalers and equipment rental companies.
- Products marketed and distributed primarily under the Generac and Magnum brand names.
- Approx 1,900 employees at 9/30/2011, including Magnum.
- Over 1.2 million ft² of manufacturing and distribution capacity located in Wisconsin.

Broad Product Offering

Residential Products

Product	Served					
Power Washers	Light to medium duty use - mainly					

by consumers

Emergency

backup - small to

medium homes

Inverter	Recreation and					
Generators	other light duty					
	power uses					

Portable	Emergency home
Generators	backup,
	construction uses

Home Standby Generator
Liquid-cooled

Air-cooled

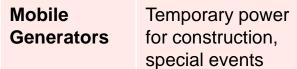

iquid-cooled	Emergency				
Iome Standby	backup - large				
Senerator	homes & small				
	businesses				

Industrial Products

Product	End Markets Served
Light Towers	Temporary lighting for construction

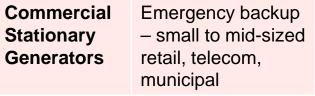

Mobile	De-watering for
Pumps	construction sites &
	flood water removal

Industrial	Emergency backup
Stationary	- large healthcare,
Generators	telecom, municipal
	manufacturing

Differentiated Distribution Model

Residential & Lt. Commercial Distribution:

= Over 4,000 Res/Comm Dealers

Commercial & Industrial Distribution:

= ~50 Industrial Dealers

National Retailers

Wholesalers

Catalog and E-Commerce

Private Label Partners

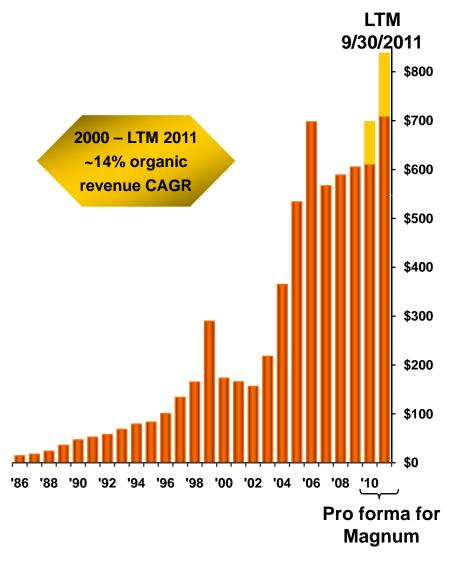

Direct to National Accounts

Equipment Rental Yards

Gov't and Military

Track Record of Innovation and Growth

History of Generac Innovation

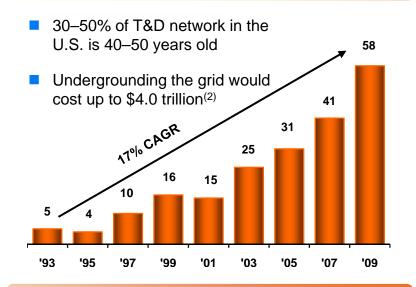

- Commercialized affordable home standby generators and light-commercial generators
- Differentiated distribution model
- Over 130 engineers on staff as of 9/30/11
- Continued focus on product development
- Natural gas and Bi-Fuel™ expertise
- Modular power system (MPS) approach for industrial applications

Note: Represents gross sales excluding freight revenue. Excludes "Portable Product" sales prior to the division's divestiture in 1998. \$ amounts in millions. 2010 and LTM Pro Forma amounts include preliminary Magnum results, assuming the transaction was completed on first day of 2010 period.

Powerful Macro Trends Drive Home Standby Penetration Opportunity

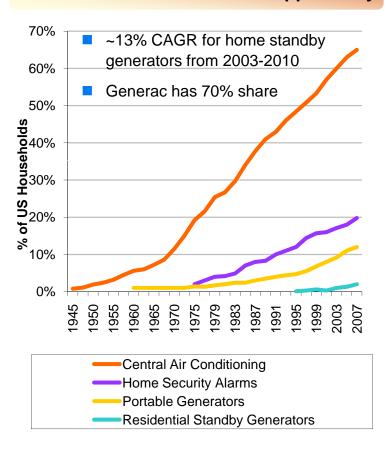

Aging Grid driving Power Interruptions(1)

Aging Population fits Demographic

- ~80% of buyers age 50 and older
- ~50% of homes valued under \$300k
- ~85% retro-fit application

North American Penetration Opportunity

Every 1% of increased penetration equals \$2 billion of market opportunity

- (1) Source: North American Electrical Reliability Council. Affecting more than 50,000 customers.
- (2) At \$1mm/mile.

Commercial Penetration and Industrial Market Share Opportunities

Commercial and Industrial Macro Drivers

- Grid reliability and increasing costs from outages driving emergency backup power needs
- Industrial standby generator market driven by new construction and retrofit of infrastructure projects, mission critical, and other code driven applications
- Commercial market driven more by optional standby applications ROI is critical
- Mobile product demand driven by commercial and road construction, energy, and government agency spending on temporary lighting and power needs
- Timing & magnitude of capital spending plans for national account customers has impact

Generac Delivering Cost Effective & Innovative Solutions

Natural gas engine technology

Gaseous fueled generator solutions

Mobile generator solutions

Bi-Fuel technology

Gemini technology

Modular Power technology

"Powering Ahead" Strategic Plan

Grow Residential Standby Generator Market

- Awareness
- Availability
- Affordability

Gain Industrial Market Share

- Upgrade distribution
- Build relations w/ specifying engineers
- Expand product offering

Diversify End Markets with new products and services

- Leverage brand
- Leverage distribution
- Leverage supply chain

Enter New Geographies

- Resource sales effort
- Build distribution
- Focus on natural gas products
- Leverage Magnum distribution

Acquisition of Magnum Products business

Fast Facts -

- Acquired on October 3, 2011; \$80mm purchase price
 w/ modest earn-out; funded w/ cash on balance sheet
- Founded in 1988; located in Berlin, WI with 330 employees and over 200,000 ft² in manufacturing & distribution space
- Leading manufacturer of light towers, mobile generators and pumps sold to rental centers, independent dealers and government agencies
- Strong customer relationships and brand reputation built on superior customer service and support

Strategic Rationale -

- Broadens Generac's Industrial product offering
- Adds new sales channels and end markets
- Leverages Generac global sourcing and manufacturing
- Attractive ROI and strong utilization of cash

Magnum Family of Light Towers

Magnum MMG55 49 kW Mobile Diesel Generator

Magnum MMG55FH Flip Hood 52 kW
Mobile Diesel Generator

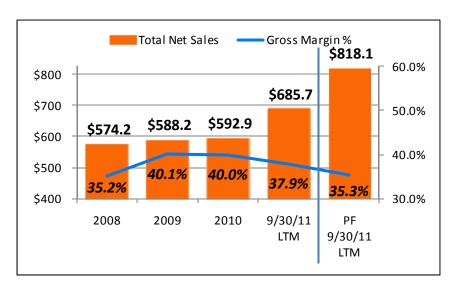

Magnum MLG20 Diesel Generator

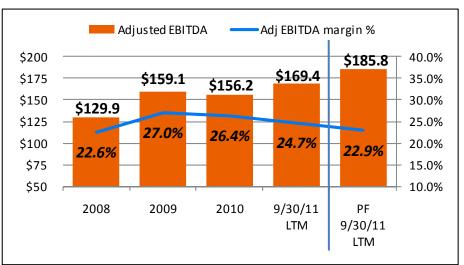

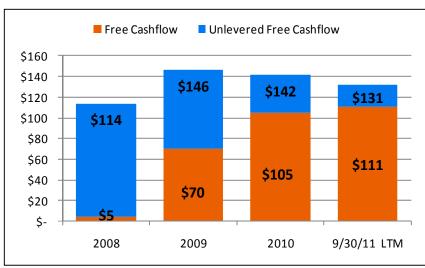

MTP 4000D Dry Prime Pump

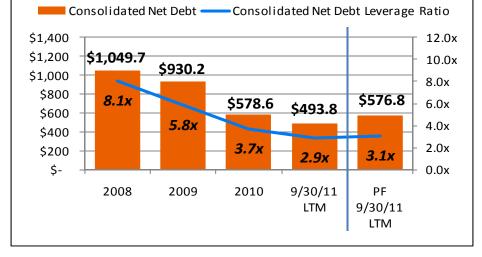

Financial Summary

Note: Unlevered free cash flow = Free cash flow plus cash interest expense.

^{*} Pro Forma 9/30/2011 LTM amounts include preliminary Magnum results, assuming the transaction was completed on first day of LTM period.

Key Investment Highlights

- Powerful long-term industry fundamentals aging and underinvested grid coupled with an aging and electrically dependent population
- Industry leader in large, underpenetrated residential standby generator market
- Significant penetration and market share opportunities in commercial and industrial stationary standby generator market
- Market leader in light towers with growing share opportunity for mobile generators
- Strong culture of product innovation and value engineering
- Lean manufacturing and global sourcing capabilities drive industry leading cost position
- Unmatched multi-channel distribution network creates diverse customer base and sustainable competitive advantages
- Best-in-class profitability and cash flow generation provide stability and support organic and acquisition oriented growth
- Disciplined use of cash focused on delivering shareholder value

Net Sales by Product Class

Favorable Tax Attributes

Tax attributes and 338(h)10 election overview

- \$1.8 billion asset basis step-up created at 2006 acquisition
 - Amortizes over 15 years
 - Reduces <u>cash</u> tax obligation by approximately \$47mm per year through 2020
- Current NOL balance of \$166mm as of December 31, 2010 provides cash benefit of up to \$58mm

(\$ mm)	Total	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
Annual tax amortization	\$1,322	\$122	\$122	\$122	\$122	\$122	\$122	\$122	\$122	\$122	\$122	\$102
Cash tax savings ⁽¹⁾	\$509	\$47	\$47	\$47	\$47	\$47	\$47	\$47	\$47	\$47	\$47	\$39
Cash tax savings of NOLs(2)	\$58											
Grand total	\$567											

Results in present value tax savings of approximately \$350-440mm⁽³⁾

⁽¹⁾ Assuming continued profitability and no limitations at an assumed 38.5% federal and state tax rate.

⁽²⁾ Calculated at a 35.0% federal tax rate on the \$166mm of federal NOL carry forward balance as of December 31, 2010.

⁽³⁾ Based on annual discount rate of 5-10%; includes both amortization of intangibles and NOL's.

Q3 2011 & LTM Financial Overview

(\$ in millions)

		Actual 3 2011	Y/Y % Change	Actual LTM 9/30/11		Y/Y % Change	
Residential Industrial Other	\$	162.1 63.1 14.1	60.5% 27.4% 39.1%	\$	423.5 217.1 45.1	13.1% 23.4% 28.0%	
Net Sales	\$	239.3	49.0%	\$	685.7	17.1%	
Gross Profit % Margin	\$	88.7 37.0%	31.6%	\$	260.0 37.9%	11.1%

Q4 2011 Business Outlook

- Residential product sales: expect over <u>30%</u> y/y increase
- Commercial & Industrial product sales: expect roughly <u>flat</u> organic growth versus prior year
- Magnum: expect \$25 \$30 million in revenues; \$0.03 \$0.04 in adjusted diluted earnings per share
- Gross margins:
 - Excluding Magnum, expect <u>sequential improvement</u> from third quarter 2011
 - Magnum mix expected to reduce total company gross margin by approx <u>250 bpts</u> in Q4 2011. Expected to improve in 2012 as cost synergies are implemented.

Adjusted EBITDA Reconciliation

(\$ in millions)
